Ms A.T. Didiza
Minister of Agriculture, Land Reform and Rural Development

3. FOREWORD BY THE MINISTER

I am pleased to present the Department of Agriculture, Land Reform and Rural Development's 2020/2021 annual report. In this annual report, we give an update on the progress we have made in the implementation of our programmes as we reflect on the last financial year. As I write, our country and the world continue to battle the Corona Virus Pandemic (COVID-19), which is wreaking havoc on humanity.

The sector has not been spared from the devastating impact of the virus over the past year, and the department had to step up its efforts to provide the much needed and urgent support to communities who are reliant on agriculture as a source of their livelihoods.

Through our various interventions, we have sought to mitigate the challenges brought by the pandemic and their effect on smallholder and communal farmers, with the provision of the much-needed support. This support was initially in the form of vouchers that farmers could use to purchase agricultural inputs toward the 2020 winter production cycle. The COVID-19 support initiative reached 15 681 farmers, at a total value of R563 million.

In October last year, President Cyril Ramaphosa announced the Presidential Economic Stimulus Initiative (PESI), which was aimed at creating jobs, supporting and sustaining livelihoods. Through the PESI, the government supported subsistence farmers, whose production capacity was disrupted by the pandemic. These are producers who farm in the backyard gardens of their homes and in communal areas. A total of 53 286 applications were approved for support in the form of vouchers for the acquisition of production inputs. A total of 40 000 of the beneficiaries was women.

Market access and trade

Access to new market continues to be a key focus area of the department. To achieve the predicted increase in horticultural trade (i.e. R90 billion by 2030), new markets must be accessed and, existing ones must be retained and optimised. The department's work and effort around negotiating, finalising and complying with import requirements is key in achieving these expanded trade goals. In collaboration with the South African fruit industry, various domestic fora were maintained, to coordinate market access of various fruit commodities into nine priority countries (including China, Japan, Thailand, India and European Union). The main focus of these fora is to negotiate fair and scientifically informed market access conditions.

In July 2020, following extensive negotiations, the department concluded a detailed work plan for the exportation of South African citrus fruit to the Philippines. The Philippine market presents an export potential of 20 000 tonnes of citrus and exports earnings close to R205 million. In 2021, 65471 cartons of citrus were already exported to Philippines.

Work towards improvement of market access conditions also continued and, in this reporting period, market access for SA lemon to China, under ideal temperature conditions, has been concluded. The final in-person signature of the revised protocol, as preferred by the trading partner, has been delayed

due to COVID-19 related travel restrictions. With local lemon production expected to grow by 175 000 metric tonnes by 2024, the finalisation of the revised protocol means that China will now become a critical new market for this growth and will secure R325 million in new export revenue and secure 800 jobs in the industry.

Similarly, the protocol for exportation of pears to China has been concluded but awaits the final signature, which has been delayed for similar reason as stated in the preceding section.

Land access through redistribution

During the year under review, we have been able to acquire 22 364 hectares through the pro-active land acquisition strategy, assisting farmers with access to land by allocating to 97 farmers, of which 34 (35%) are female and 32 (33%) are youth.

The State land release announced by the president has managed release 55 167 hectares, to assist over 39 farmers and communities.

Farmworkers' security of tenure has also been attended to, where 7 127 hectares are acquired for the security of tenure for farm dwellers and labour tenants, of which 4 337 is through Labour Tenants Act and 2 790 is through the Extension of Security of Tenure Act. Working with the Special Master, we finalised 196 labour tenant applications.

Rural Development

As part of a revised National Integrated Rural Development Strategy, the department is currently adopting an intergovernmental approach and is re-strategising on how to optimally utilise existing government programmes and other funding to unlock economic opportunities in the various rural districts. The revised National Integrated Rural Development Strategy is aligned to the central thrusts proposed in Chapter 6 of the National Development Plan and provides the basis to optimise South Africa's "demographic dividend", by expanding the educational and skills development opportunities available to rural residents, to enhance their employability and entrepreneurial capability and to promote job creation in rural areas. Specific objectives include:

- linking emerging rural producers (especially women and youth) of farm and non-farm products to markets and appropriate value chains, through the development of the Agriculture and Agro-Processing Master Plan (AAMP) and the implementation of Farmer Production Support Units (FPSUs);
- facilitating business development services for rural enterprises through programmes such as the Comprehensive Agricultural Support Programme (CASP); and
- Assisting rural women, people with disabilities and youth through targeted capacity building and enterprise development support and actively promoting a procurement policy that favours women and youth.

In the last year, several consultations took place within government, through the South African Local Government Association network and via multi-stakeholder policy platforms, coordinated by civil society, on how to effectively implement these objectives over the MTSF period and beyond, in support of Vision 2030.

Rural infrastructure projects

During the 2020/2021 financial year, the department supported 15 FPSUs with different infrastructure projects. The following FPSUs were supported:

- Free State (3) – Odendaalrus, Springfontein and Kroonstad;
- KwaZulu-Natal (5) – Pomoroy, Malenge, Mkhuphula, Manyiseni and Hluhluwe;
- Limpopo (2) – Vleischboom and Masalal;
- Mpumalanga (3) – Sybrandskraal, Mkhuhlu and Kameelrivier;
- North West (1) – Taung; and
- Western Cape (1) – Ebenheser.

A total of 64 infrastructure projects to support production (AVMP and RVCP) and socio-economic activities were also implemented. The department created 800 rural jobs and provided skills development opportunities to 1 926 NARYSEC Youth.

The department, in the past year, implemented the Rural ICT programme and, will continue to provide ICT infrastructure and internet connectivity through the ICT centres that are available throughout the country.

Access to reliable and good quality water means that people have more livelihood opportunities; families can plant better vegetables and eat healthier. In line with this, research was conducted by the department, in partnership with the Council for Scientific and Industrial Research (CSIR), to look at the technological innovations that could be used to improve water yield and water quality from springs, so as to prolong the lifespan of such springs, and to ensure that appropriate infrastructure is provided to protect these springs. This led to the implementation of the Mt Fletcher Spring Water Harvesting, Protection, Development, and Reticulation research project, which was completed in July 2020 in the Fairview villages of the Joe Gqabi District Municipality in the Eastern Cape, where villages such as Ntatyana, Lenge, Esidwabeni, Mathole and Lusibini have benefitted from it.

NARYSEC

The NARYSEC programme had an annual target of 1 916 for the 2020/21 reporting period. The programme had a total achievement of 1 926.

District Development Model:

In December 2019, 1 001 youth from the OR Tambo & Waterberg Districts and eThekweni Metro were recruited into the NARYSEC programme, as the DALRRD's contribution towards the District Development Model (DDM).

A total of 644 youth was selected to be trained in agricultural related learning programmes spanning across a range of commodities such as beef, dairy, maize, piggery, poultry, vegetables and others. Agricultural training was implemented in partnership with the Agricultural Research Centre (ARC) and came to completion in April 2021. Of the 644 youth, 554 successfully completed all learning interventions.

A total of 319 DDM youth was selected to do non-agricultural training. Of these, 53 youth in Limpopo have completed training in Small Business Management, Environmental Waste Management and Accommodation & Operations Services.

The Waterberg District Municipality; Department of Environmental Affairs; Lephalale, Bela-Bela, Modimolle Mookgopong and Thabazimbi Local Municipalities; have committed to provide opportunities to these youth in either further learning, employment or enterprise development. Youth are currently being placed according to confirmed opportunities. A further 100 of these 319 youth, from KwaZulu-Natal and Eastern Cape, have been absorbed into an exit opportunity with the Wholesale and Retail SETA, where funds have been allocated by the SETA for training and towards start-up capital for the youth to start businesses upon completion of training. Business start-ups will be aligned to viable plans which have been developed by the youth during training, with guidance and mentorship by the WRSETA.

A total of 98 youth from KZN and EC have started their training in Environmental Waste Management & New Venture Creation. King Sabata Dalindyebo District Municipality has provided business opportunities for these youth in waste management & recycling and they will be absorbed into their waste management unit. The KZN youth are being provided with the same opportunity by the eThekweni Metro Municipality.

Rural youth trained in agriculture:

Since 2010, a total of 4 071 youth were trained in agricultural related learning programmes through the NARYSEC Programme in various provinces. Of these youth, 3 909 have completed training, and 162 are currently engaged in training in various Technical and Vocational Education and Training (TVET)

colleges and are expected to finish by December 2021. Areas of focus in agriculture have been in agribusiness, agricultural equipment service and repair, animal production, plant production, poultry production, mixed farming systems, gardening and horticulture and landscaping. Capacitation in agricultural sub-sectors include food and beverage packaging, fruit packaging and grading, meat processing, fresh meat processing, and food and beverage services.

Youth in business, employment or further studies:

A total of 1 434 former NARYSEC youth and agricultural graduates were employed by the department on a three-month contract, to assist farmers with applications for PESI funding, as part of the department's COVID-19 interventions. This initiative was rolled out into a second phase, whereby 1 209 of these youth had their contracts extended for another 12 months. There are currently 1 130 of these youth who are still active in the PESI initiative.

To date, a total of 1 515 participants have either started their own business, secured employment or studied further. The table below provides a breakdown per province:

Province	Youth Enterprises in	Youth Employment in	Youth Afforded Further Studies	Total
Eastern Cape	20	41	0	61
Free State	45	89	0	134
Gauteng	60	117	25	202
KwaZulu-Natal	23	107	21	151
Limpopo	77	109	0	186
Mpumalanga	43	148	0	191
North West	37	63	16	116
Northern Cape	61	42	25	128
Western Cape	39	307	0	346
Total	405	1 023	87	1 515

Biosecurity challenges

The opening of international markets in 1994 led to increased exports and imports of agricultural products, as well as increased movement of goods and people, which, in turn, led to the necessity for increased vigilance for possible introductions of animal and plant pests and diseases. The emergence and establishment of plant pest and diseases has the potential to devastate agricultural production. The onset of the global COVID-19 epidemic and the associated restrictions on the movement of people have also impacted on our ability to undertake surveillance actions across the country, in particular during the first quarter of 2020/ 21 and to conduct preclearance inspections or host auditors for preclearance inspections, as required by the agreed export protocol. We are indeed happy that most of our trading partners agreed to interim arrangements for these preclearance inspections.

In 2020/21, the key focus was on the surveillance of the exotic fruit flies such as the Oriental fruit fly (*Bactrocera dorsalis*); citrus greening virus and Banana Bunchy Top Virus (BBTV), which are important quarantine pests for the country and can affect primary production and market access for implicated fruit and production areas. The surveillance outcome of *Bactrocera* does not immediately signal major changes in occurrence and incidence, and none of the vectors involved in citrus greening (Asian strain) were detected in surveillance traps. The situation around the spread of BBTV in KZN is concerning and will remain a key focus of the department.

Approval of COVID-19 vaccines

With the global COVID-19 epidemic, South Africa, as many other countries, had to approve vaccines against COVID-19. Since most of the current COVID-19 vaccines are generated through genetic modification, their use and authorisation in South Africa is subject to the Genetically Modified Organisms

Act, (GMO) 1997 (as amended in 2006). The department has, in collaboration with the South African Health Products Regulatory Authority, approved three COVID-19 vaccines for trial release and commercialisation, as appropriate. The availability of these vaccines contributed to South Africa's ability to minimise serious disease development due to COVID-19 infections.

Legislative programme

The following Bills were introduced to Parliament during the year under review:

1. The Upgrading of Land Tenure Rights Amendment Bill, 2020. (Introduced on 6 May 2020). The Bill sought to:
 - amend the Upgrading of Land Tenure Rights Act, 1991 (Act No. 112 of 1991);
 - provide for the application for conversion of land tenure rights to ownership;
 - provide for the notice of intention to convert tenure rights into ownership;
 - provide for an opportunity for interested persons to object to conversion of tenure rights into ownership;
 - provide for the institution of enquiries to assist in the determination of land tenure rights;
 - provide for equality in the conversion of tenure rights into ownership; and
 - provide for the recognition of conversions that took effect in good faith in the past; and to provide for matters connected therewith.

The Bill was signed into law on 1 June 2021.

2. Sectional Titles Amendment Bill, 2021. (introduced on 2/11/2020) The Bill seeks to introduce technical amendments.
3. Agricultural Produce Agents Amendment Bill, 2021. (Introduced on 26/11/2020) The Bill seeks to, among others:
 - amend the Agriculture Produce Agents Act so as to alter certain definitions and to insert others;
 - change the constitution of the council;
 - apply certain provisions to fresh produce agents only;
 - provide for the extension of the jurisdiction of the council, to enhance the regulating powers of the council;
 - provide for transitional matters; and
 - provide for matters connected therewith.

I highlight these initiatives because they form part of the extraordinary measures the department undertook, to mitigate against the impact of the pandemic on the agricultural sector and, to ensure food security and the retention of jobs.

Through our programmes, we have continued to play a leading role in the sector, creating a sound legislative environment, providing policy direction, and appropriate frameworks, to ensure the strategic positioning of the agriculture and agro-processing value chain.

Certain adjustments are inevitable in the face of the pandemic. We have had to replace physical meetings with our stakeholders, with webinars and Zoom & Microsoft Teams meetings. Where possible, within the provisions of the regulations concerning gatherings and social distancing, we went out to meet and engage our stakeholders face to face, to resolve challenges as they arose.

Finally, I want to acknowledge the efforts made by all staff members, our entities, partners, and the broader community of stakeholders and the sector at large. Our achievements and progress in the past year are due, in no small measure, to their resourcefulness, patience, flexibility and willingness to adapt to a new environment.

MS A.T. DIDIZA (MP)
MINISTER OF AGRICULTURE, LAND REFORM AND RURAL DEVELOPMENT
DATE: 30 SEPTEMBER 2021

Mr M Ramasodi
Acting Director-General

4. REPORT OF THE ACCOUNTING OFFICER

Overview of the operations of the department:

The 2020/2021 Annual Report marks the first annual report of the Department of Agriculture, Land Reform and Rural Development (DALRRD) since the merger of the Department of Rural Development and Land Reform and the agriculture component of the erstwhile Department of Agriculture, Forestry and Fisheries. The DALRRD has received an unqualified audit opinion with matters of emphasis, which will be the focus of the improvement plan.

This Annual Report is divided into five parts, namely:

Part A – focuses on the strategic overview, the legislative mandate and policy frameworks for the sector.
Part B – reflects on the performance information and gives a wall-to-wall reflection of performance at programme level.

Part C – focuses on the governance within the department, reflecting on the institutional mechanisms, structures and frameworks that are regulating and guiding the department.

Part D – gives an account of human resources management within the department; and

Part E – captures the high-level reflections of the report of the auditor-general and the annual financial statements.

The year under reporting has been tumultuous due to COVID-19 and its control measures. Due to organisational realities under COVID-19, the department submitted two sets of annual performance plans, which made reporting challenging. Our challenges were also reflected in the management of COVID-19, as 401 employees of the department tested positive for COVID-19 and, unfortunately, 16 succumbed to this disease. We mourn the loss of our colleagues but equally honour the contribution that they have made to advance the aspirations of South Africa and her people.

COVID-19 has also shown the brittle nature of our food system and the need to build resilient food systems. These future-proofed systems will have to factor in the challenges that continue to plague our sectors; inclusive of climate change, rural-urban migration and land hunger. At the onset of COVID-19, the government instituted control measures, aimed at insulating the agricultural sector and ensuring food security. The food security intervention targeted domestic agriculture, to avoid exposing the most vulnerable of our population to food crisis. The government collaborated with sector stakeholders to protect the security of food supply within the country and in the region, whilst ensuring export of agricultural commodities.

In 2020, despite drought experienced in some districts in the country and outbreak of livestock and plant pests and diseases, the South African agricultural production grew by 13.1% year-on-year. Bumper grain crops and good exports of the fresh fruits drove this growth. Such growth is commendable as relatively during the same period, there was a 7% contraction in the country's economy. Sustaining this growth requires us to leverage technology and making agriculture attractive and market centred.

Pivotal interventions in moving sustainable growth of this sector include the cogeneration of masterplans and social compacting with sector stakeholders. In the reporting period, the drafting of the Agriculture and Agro-processing, and the Cannabis Master Plans was initiated, whilst the department and its entities were pivotal in the finalisation and implementation of the Sugar and Poultry Master Plans. These master plans are important for sustainable transformation of the sector, through massive increase in production of strategic commodities and building agro-processing capacity.

During this period, focusing on the legislative review process, the Upgrading of Land Tenure Rights Amendment Bill, Sectional Title Amendment Bill and the Agriculture Produce Agents Amendment Bill were processed through parliamentary engagements. In strengthening the policy space, the Cabinet approved the Land Allocation and Beneficiary Selection Policy and Land Donations Policy. Furthermore, the Inter-Ministerial Committee on Land Reform processed the Land Tenure Reform Policy Framework and the Communal Land Tenure Government Policy Position Paper.

Biosecurity and effective disaster risk reduction in the country has proved once again, to be a vital cog in promoting productivity and competitiveness of our sector. The report reflects on the strategic and regulatory interventions facilitating safe production and trade. Good progress was made in the implementation of Climate Change Adaptation and Mitigation Plan (CCAMP), as a deposition to realise the country's commitments towards the Paris Agreement.

Food security and agrarian reform and land reform programmes were the hardest hit by COVID-19, as most of the deliverables are time bound and would require contact sessions to garner stakeholder mandate for programmes, projects and land restitution and redistribution. Despite these challenges, there were good performances, as 314 land claims were settled, mainly due to agility in budget reprioritisation in the midst of the current disaster. The department also acquired 7 172,5 ha for farm dwellers and labour tenants. The implementation of the COVID-19 Relief Fund and the Presidential Employment Stimulus Initiatives were implemented to a tune of just over R1 billion, which was a good injection for food security and agribusinesses, especially for women and youth.

In building towards fully functional AgriParks, infrastructure support was extended to 15 Farmer Production Support Units. This infrastructure forms the axis for addressing market access for rural farmers. In terms of skills development in the sector, the NARYSEC programme continues to have good performance. However, the focus has to shift towards building sustainable businesses and employment for these youth. Part of the green shoots lie in the number of markets that the department has been able to open during the reporting period and the Africa Continental Free Trade Area, which stands to boost intra-Africa trade.

The department continued to render services in proving geospatial information, cadastral surveys, deeds registration and spatial planning, in addition to technical services in support of sustainable land development.

In building a capable, ethical and developmental state, the merging of the department continued, with the placement of the employees in accordance with the National Macro Organisation of Government prescripts. The department is working towards a fit-for-purpose structure, which is expected to improve the agility of the department to deliver services properly. The department is also making good strides in ensuring that payment of invoices is within the prescribed 30-day period.

Overview of the financial results of the department:

Departmental receipts

Departmental receipts	2020/21		
	Estimate	Actual Amount Collected	(Over)/Under Collection
	R'000	R'000	R'000
Sales of goods and services other than capital assets	194 600	228 822	(34 222)
Transfers received	0	22	(22)
Fines, penalties and forfeits	20	1	19
Interest, dividends and rent on land	36 185	18 806	17 379
Sale of capital assets	0	0	0
Financial transactions in assets and liabilities	26 250	12 838	13 412
Total	257 055	260 489	(3 434)

The department collected more than what was estimated. The overcollection on actual against estimate is R3,4 million. The increase in actual collection is mainly due to more money collected on the sales of goods and services.

Programme Expenditure

Programme	Adjusted Appropriation	Virement	Final Appropriation	Actual Expenditure	Variance	% Spent
	R'000	R'000	R'000	R'000	R'000	%
Administration	2,817,077	302,572	3,119,649	3,119,503	146	100%

Total	15 247 613	-	-	15 247 613	14 093 031	1 154 582	92.4%

In terms of the budget allocated for 2020/21, the department spent R14,093 billion or 92,4% of the final appropriation of R15,248 billion, leaving the total of unspent funds at R1,155 billion. Unspent funds on the compensation of employee's allocation were due to vacant posts, while goods and services' allocation was for funds earmarked for the Presidential Employment Stimulus Initiative (PESI).

PESI funds approval by National Treasury occurred in September 2020. Prior to the implementation of the programme, the department had to put systems in place intended to avoid audit findings by the Auditor-General South Africa (AGSA) in relation to non-compliance with legislation. Vodacom was appointed to develop a system for application and issuing of vouchers that was completed on 10 March 2021, which resulted in late implementation and spending of the allocated funds. The system enhancement was for preventative control in governing the application process, approval, issuing of vouchers and payment processes.

Virements/rollovers

Unspent funds were shifted from the following programmes: Programme 2: Agricultural Production, Health, Food Safety, Natural Resources and Disaster Management (R4,8 million); Programme 3: Food Security, Land Reform and Restitution (R218,8 million); Programme 4: Rural Development (R45,3 million); Programme 5: Economic Development, Trade and Marketing (R1,5 million); and Programme 6: Land Administration (R32,2 million).

The total unspent funds within these abovementioned programmes were shifted to Compensation of Employees (R125,4 million), Goods and Services (R110,9 million), Payment of Capital Assets (R59,5 million), Transfers and subsidies (R4,2 million) and Interest (R2,6 million) items within Programme 1: Administration to cater for the shortfalls regarding salaries and wages, office accommodation charges, bulk procurement of computers, leave gratuities and interest charged on office accommodation invoices, respectively.

Rollovers

The department requested National Treasury to grant approval for a rollover of unspent Presidential Employment Stimulus Initiative (PESI) earmarked funds amounting to R757 million from goods and services economic classification from 2020/21 to 2021/22. These funds are to accommodate approved applicants before 31 March 2021, but vouchers were not issued by Vodacom before end of financial year. Furthermore, to accommodate applicants excluded in previous advertisement such as males and others due to mandatory requirements set by department. Presidential Employment Stimulus Initiative (PESI) programme rollover funds are to support additional households to produce their own food and relieve the current pressure on the State because of high unemployment levels.

Irregular expenditure

Cases of Irregular expenditure has increased by R31,599 million (18.34%) in the 2020/21 financial year. The merged department had a combined figure of R172,293 as both former departments of DAFF and DRDLR had historic cases which were not cleared before the merger. Most of these cases were due to contravention of SCM process by both departments.

Fruitless/wasteful expenditure

Cases of Fruitless and wasteful expenditure has increased by R10,909 million (32.43%) in the 2020/21 financial year. The merged department had a combined figure of R33,639 million as both former departments of DAFF and DRDLR had historic cases which were not cleared before the merger. The

majority of these cases were as a result of training not attended and payment for the mobile clinics that were not delivered.

Mitigation plan

The department has established and capacitated the Directorate: Internal Control to ensure that sound internal controls are in place to curb the cases of unauthorised, irregular, fruitless and wasteful expenditure.

Public-private partnerships

Public-private Partnership (PPP) is defined as a contract between a public sector institution/municipality and a private party, in which the private party assumes substantial financial, technical and operational risk in the design, financing, building and operation of a project.

Summary of Public-private Partnership

PPP is between DALRRD and Tshala Bese Uyavuna Consortium

The status of PPP

The DALRRD has registered a PPP project with National Treasury and prepared the feasibility study comprising of needs analysis, option analysis, project's due diligence, value assessment, economic valuation and procurement plan which were also submitted to National Treasury.

In line with the PPP manual, the department further obtained the following approvals:

Treasury Approval I: Design Procurement Processes

Treasury Approval IIA: Pre-qualification of parties, Issuing of RFP, receive bids, compare bids with feasibility study, select preferred bidder and prepare value for money report

Treasury Approval IIB: Negotiations with the preferred bidder

Treasury Approval III: Approval to sign the PPP agreement (approval granted by National Treasury in May 2017)

The department has signed the PPP agreement with the private party on 03 November 2020. The financial close was reached in February 2021. Currently, the contractor is on site busy with construction of the office accommodation.

PPP project plan

- a) The PPP building will accommodate all Pretoria based offices including the Gauteng: PSSC, National Office, Deeds, Restitution, Plant Production and Inspection Services.
- b) The building will have 82 434 m², 1 124 parking bays and will accommodate 2 400 staff members
- c) The building will be fully serviced which will include the provision of the following services by private party:
 - Printing services
 - Cleaning services
 - Catering services
 - Maintenance services
 - Furniture
- d) Note: The private party will operate the building for a period of 25 years and thereafter the building becomes state property.

New or proposed key activities

Report on producers registered on Producer/Farmer Register will be released during 2021/22. Implementation of shareholder compact agreements with public entities will be implemented during the financial period of 2021/22.

Events after the reporting date

Redeeming of vouchers for PESI supported successful applicants is continuing within the first quarter of 2021/22.

Conclusion

In closing, I would like to pass my sincere gratitude to the minister, deputy ministers and the chairpersons and committee members of the parliamentary committees, for the continued guidance and support. I appreciate our sector stakeholders who have been excellent partners in managing this

multifarious sector under very complex macro environmental conditions. I would also like to express my appreciation to the chief executives and staff of the public entities, for their contribution to this critical sector. Finally, I wish to thank our departmental management team and all departmental staff members, for their dedication and efforts in contributing towards meeting our objectives and commitments to the people of South Africa.

Mr M Ramasodi
Acting Accounting Officer
Department of Agriculture, Land Reform and Rural Development
Date: 22 September 2021

5. STATEMENT OF RESPONSIBILITY AND CONFIRMATION OF THE ACCURACY OF THE ANNUAL REPORT

To the best of my knowledge and belief, I confirm the following:

All information and amounts disclosed throughout this Annual Report are consistent.

The Annual Report is complete, accurate and is free from any omissions.

The Annual Financial Statements (Part E) have been prepared in accordance with the modified cash standard and the relevant frameworks and guidelines issued by the National Treasury.

The Accounting Officer is responsible for establishing and implementing a system of internal control that has been designed to provide reasonable assurance as to the integrity and reliability of the performance information, the human resource information and the Annual Financial Statements.

The external auditors were engaged to express an independent opinion on the Annual Financial Statements.

In my opinion, this Annual Report fairly reflects the operations, performance and human resource information, and the financial affairs of the department, for the financial year that ended on 31 March 2021.

Yours faithfully

Mr M Ramasodi

Accounting Officer

Department of Agriculture, Land Reform and Rural Development

Date: 29 September 2021

6. STRATEGIC OVERVIEW

Vision

Equitable access to land, integrated rural development, sustainable agriculture and food security for all

Mission

To accelerate land reform, catalyse rural development and improve agricultural production to stimulate economic development and food security through:

- transformed land ownership patterns
- agrarian reform
- implementation of an effective land administration system
- sustainable livelihoods
- innovative sustainable agriculture
- promotion of access to opportunities for youth, women and other vulnerable groups
- integrated rural development

Values

1. Courtesy and compassion
2. Effective communication and transparency
3. People-centred service standards
4. Professionalism and accountability
5. Respect and integrity (ethics and honesty)

7. LEGISLATIVE AND OTHER MANDATES

The Department of Agriculture, Land Reform and Rural Development's legislative and policy mandates are informed by national, provincial and local legislations and policies. The legislations and policies can be concurrent or apply to one level.

Legislative mandates

The legislative mandate which informs the operations of the department is drawn from, amongst others, the following legislations:

Legislation and purpose

Act, number and year	Purpose
Agricultural Debt Management Act, 2001 (Act No. 45 of 2001)	Provides for the establishment of the Agricultural Debt Account and the use of the account as a mechanism to manage agricultural debt repayment.
Agriculture Laws Extension Act, 1996 (Act No. 87 of 1996)	Provides for the extension of the application of certain laws relating to agricultural matters to certain territories, which form part of the national territory of the Republic of South Africa; the repeal of certain laws which apply in those territories; and for matters connected therewith.
Agricultural Law Rationalisation Act, 1998 (Act No. 72 of 1998)	Provides for the rationalisation of certain laws relating to agricultural affairs that remained in force in various areas of the national territory of the Republic prior to the commencement of the Constitution of the Republic of South Africa.
Agricultural Pests Act, 1983 (Act No. 36 of 1983)	Provides for measures by which agricultural pests may be prevented and combated.
Agricultural Produce Agents Act, 1992 (Act No. 12 of 1992)	Provides for the establishment of an Agricultural Produce Agents Council and fidelity funds in respect of agricultural produce agents and for the control of certain activities of agricultural produce agents.
Agricultural Product Standards Act, 1990 (Act No. 119 of 1990)	Provides for the control over the sale and export of certain agricultural products; control over the sale of certain imported agricultural products; and control over other related products.
Agricultural Research Act, 1990 (Act No. 86 of 1990)	Provides for the establishment of a juristic person to deal with agricultural research; the determination of its objects, functions, powers and duties.
Animal Diseases Act, 1991 (Act No. 35 of 1984)	Provides for the control of animal diseases and parasites, and for measures to promote animal health.
Animal Identification Act, 2002 (Act No. 6 of 2002)	Provide the consolidation of the law relating to the identification of animals and incidental matters.
Animal Improvement Act, 1998 (Act No. 62 of 1998)	Provides for the breeding identification and utilisation of genetically superior animals to improve the production and performance of animals.
Animals Protection Act, 1962 (Act No. 71 of 1962)	Provides the consolidation and amendment of the law relating to the prevention of cruelty to animals.
Communal Property Associations Act, 1996 (Act No. 28 of 1996)	The Act makes provision for communities to form juristic persons, to be known as communal property associations, to acquire, hold and manage property on a basis agreed to by members of a community. This has to be done in terms of a written constitution.
Conservation of Agricultural Resources, 1983 (Act No. 43 of 1983)	Provides for control over the utilisation of the natural agricultural resources of the Republic to promote the conservation of the soil, water sources and vegetation and the combating of weeds and invader plants.
Deeds Registries Act, 1937 (Act No. 47 of 1937)	Provides for the provision for the administration of the land registration system and the registration of rights in land. Through the Office of the Chief Registrar of Deeds, the department is mandated to register title.

Act, number and year	Purpose
Extension of Security of tenure Act, 1997 (Act No.62 of 1997)	The Act makes provision for the facilitation of long-term security of land tenure, to regulate the conditions of residence on certain land and to regulate the conditions on and circumstances under which the right of persons to reside on land may be terminated.
Fencing Act, 1963 (Act No. 31 of 1963)	Provides for the consolidation of the laws relating to fences and the fencing of farms and other holdings and matters incidental thereto
Fertilizers, Farm Feeds Agricultural Remedies and Stock Remedies, 1947 (Act No. 36 of 1947)	Provides for the appointment of a Registrar of Fertilisers, Farm Feeds, Agricultural Remedies and Stock Remedies; the registration of fertilisers, farm feeds, agricultural remedies, stock remedies, sterilising plants and pest control operators; the regulation or prohibition of the importation, sale, acquisition, disposal or use of fertilisers, farm feeds, agricultural remedies and stock remedies; and the designation of technical advisers and analysts.
Genetically Modified Organisms, 1997 (Act No. 15 of 1997)	Provides for measures to promote the responsible development, production, use and application of genetically modified organisms, to provide for an adequate level of protection during all activities involving genetically modified organisms that may have an adverse impact on the conservation and sustainable use of biological diversity, human and animal health.
Groot Constantia Trust Act, 1993 (Act No. 58 of 1993)	Provides for the provision of the incorporation of the Groot Constantia Control Board as an association not for gain; for the transfer of the Groot Constantia Estate to the said association; and for matters connected therewith.
Interim Protection of Informal Land Rights Act, 1996 (Act No. 31 of 1996)	The Act makes provision for temporary protection of certain rights to and interests in land which are not otherwise adequately protected by law.
KwaZulu Cane Growers' Association Repeal Act, 2002 (Act No. 24 of 2002)	Provides for the repealing of the KwaZulu Cane Growers' Association Act, 1981 (Act No. 21 of 1981) and matters connected therewith.
KwaZulu-Natal Ingonyama Trust Act, 1994 (Act No. 3 of 1994)	The Act makes provision for establishment of the Ingonyama Trust and for certain land to be held in trust.
Land Reform: Provision of Land and Assistance Act, 1993 (Act No. 126 of 1993)	Provides for the designation of certain land, the regulation of the subdivision of such land and the settlement of persons on it. In addition, it provides for the acquisition, maintenance, planning, development, improvement and disposal of property and the provision of financial assistance for land reform purposes.
Land Reform (Labour Tenants) Act, 1996 (Act No. 3 of 1996)	Provides for the provision of security of tenure for labour tenants and those persons occupying or using land as a result of their association with labour tenants. It also makes provision for the acquisition of land and rights in land by labour tenants.
Land Survey Act, 1997 (Act No. 8 of 1997)	Provides for the regulation of the surveying of land in South Africa.
Liquor Products Act, 1989 (Act No. 60 of 1989)	Provides for control over the sale and production for sale of certain alcoholic products, the composition and properties of such products and the use of certain particulars in connection with the sale of such products; for the establishment of schemes; and for control over the import and export of certain alcoholic products.
Marketing of Agricultural Products Act, 1996 (Act No. 47 of 1996)	Provides for the authorisation of the establishment and enforcement of regulatory measures to intervene in the marketing of agricultural products, including the introduction of levies on agricultural products; and to establish a National Agricultural Marketing Council.
Meat Safety Act, 2000 (Act No. 40 of 2000)	Provides for measures promoting meat safety and the safety of animal products; to establish and maintain essential national standards in respect of abattoirs; to regulate the importation and

Act, number and year	Purpose
	exportation of meat; to establish meat safety schemes; and to provide for matters connected therewith.
Onderstepoort Biological Products Incorporation Act, 1999 (Act No. 19 of 1999)	Provides for the establishment of a company to manage the institution known as Onderstepoort Biological Products.
Performing Animals Protection Act, 1935 (Act No. 24 of 1935)	Provides for the regulation of the exhibition and training of performing animals and the use of dogs for safeguarding.
Perishable Products Export Control Act, 1983 (Act No. 9 of 1983)	Provides the control of perishable products intended for export from the Republic of South Africa.
Planning Profession Act, 2002 (Act No. 36 of 2002)	Provides for the establishment of the South African Council for Planners as a juristic person; provides for different categories of planners and the registration of planners; authorises the identification of areas of work for planners; recognises certain voluntary associations; protects the public from unethical planning practices; maintains a high standard of professional conduct and integrity; establishes disciplinary mechanisms and an appeal board; and provides for incidental matters.
Plant Breeders' Rights Act, 1976 (Act No. 15 of 1976)	Provides for a system under which plant breeders' rights relating to varieties of certain kinds of plants may be granted and registered; for the requirements which must be complied with for the granting of such rights; for the protection of such rights; and the granting of licences in respect of the exercise thereof.
Plant Improvement Act, 1976 (Act No. 53 of 1976)	Provides for the registration of premises from which the sale of certain plants or the cleansing, packing and sale of certain propagating material may be undertaken; prescribes the conditions subject to which such plants or propagating material may be sold for the purposes of cultivation.
Restitution of Land Rights Act, 1994 (Act No. 22 of 1994)	Provides for the provisioning of restitution of rights in land to persons or communities dispossessed of such rights after 19 June 1913 as a result of past racially discriminatory laws or practices. To administer this task, the Act provides for the establishment of a Commission on Restitution of Land Rights and a Land Claims Court, and for matters connected with land restitution.
Societies for the Prevention of Cruelty to Animals Act, 1993 (Act No. 169 of 1993)	Provides for control of societies for the prevention of cruelty to animals and for matters connected therewith.
State Land Disposal Act, 1961 (Act No. 48 of 1961)	The Act makes provision for the disposal of certain State land and to prohibit the acquisition of State land by prescription.
Subdivision of Agricultural Land Act, 1970 (Act No. 70 of 1970)	Provides the subdivision and, in connection therewith, the use of agricultural land.
Spatial Planning and Land Use Management Act (SPLUMA), 2013 (Act No. 16 of 2013)	Provides to bridge the racial divide in spatial terms and to enable transformation of the settlement patterns of this country in a manner that gives effect to the key constitutional provisions, by the introduction of a new approach to spatial planning and land use management, based on the following instruments: <ul style="list-style-type: none"> ▪ Development principles, norms and standards that must guide spatial planning, land use management and land development throughout the country by every sphere of government ▪ Spatial development frameworks, to be prepared by national, provincial and local government ▪ Municipal wall-to-wall Land Use Schemes to manage and facilitate land use and land development, and ▪ Land development management procedures and structures.

Act, number and year	Purpose
Transformation of Certain Rural Areas Act, 1998 (Act No. 94 of 1998)	The Act provides for the transfer of certain land to municipalities and certain other legal entities and for the removal of restrictions on the alienation of land.
Veterinary and Para-Veterinary Professions Act, 1982 (Act No.19 of 1982)	Provides for the establishment, powers and functions of the South African Veterinary Council.
Spatial Data Infrastructure Act, Act No. 54 of 2003	The act intends to establish the South African Spatial Data Infrastructure, the Committee for Spatial Information and an electronic metadata catalogue; to provide for the determination of standards and prescriptions with regard to the facilitation of the sharing of spatial information; to provide for the capture and publishing of metadata and the avoidance of duplication of such capture; and to provide for matters connected therewith.

8. ORGANISATIONAL STRUCTURE

9. ENTITIES REPORTING TO THE MINISTER

The table below indicates the entities that report to the minister:

Name of Entity	Legislative Mandate	Financial Relationship	Nature of Operations
Agricultural Research Council (ARC)	Agricultural Research Act, 1990 (Act No. 86 of 1990)	Transfer payment	Conducts fundamental and applied research with partners to generate knowledge, develop human capital and foster innovation in agriculture through development and transfer of technology, and the dissemination and commercialisation of research results
National Agricultural Marketing Council (NAMC)	Marketing of Agricultural Products Act, 1996 (Act No. 47 of 1996)	Transfer payment	Provides strategic advice to the minister on all agricultural marketing issues, improves market efficiency and market access by all participants, optimises export earnings and improves the viability of the agricultural sector
Onderstepoort Biological Products (OBP)	Onderstepoort Biological Products Incorporation Act, 1999 (Act No.19 of 1999)	None	Prevents and controls animal diseases that have an impact on food security, human health and livelihoods. It aims to ensure financial viability to sustain the strategic capabilities in manufacturing veterinary vaccines
Perishable Products Export Control Board (PPECB)	Perishable Products Export Control Act, 1993 (Act No. 9 of 1983) Agricultural Product Standards Act, 1990 (Act No. 119 of 1990)	Transfer payment	Food Safety Services; Transformation and Development
KwaZulu-Natal Ingonyama Trust Board (ITB)	Established in 1994 by the erstwhile KwaZulu Government in terms of the KwaZulu Ingonyama Trust Act, 1994 (Act No. 3KZ of 1994) to hold all the land that was owned or belonged to the KwaZulu Government		Land and Tenure Management
Registration of Deeds Trading Account	The Registration of Deeds Trading	Augmentation of the entity's budget	The core operations are as follows:

	Account is a trading entity established in terms of the Public Finance Management Act, Act, 1999 (Act No. 1 of 1999). Regulation 84 of the Act. Deeds Registries Act, 1937 (Act No. 47 of 1937)		Register land and real rights in land Maintain a public land register Provide registration information Maintain an archive of registered deeds and documents. Generates revenue by selling information and levying fees in accordance with the schedule of prescribed fees
Office of the Valuer-General	Statutory office; Schedule 3A Public Entity in terms of the Public Finance Management Act (PFMA), 1999 (Act No. 1 of 1999)		Property Valuations
Commission on the Restitution of Land Rights	Restitution of Land Rights Act, 1994 (Act No. 22 of 1994) Emerging from Section 25(7) of the Constitution, the Restitution of Land Rights Act, 1994 (Act No. 22 of 1994), as amended (“the Restitution Act”), was promulgated. The long title of the Restitution Act is “to provide for the restitution of rights in land to persons or communities dispossessed of such rights after 19 June 1913 as a result of past racially discriminatory laws or practices; to establish a CRLR and a Land Claims Court (LCC); and to provide for matters connected therewith”. The Restitution Act also empowers the Minister of Agriculture, Land Reform and Rural Development and the LCC to make awards to restitution claimants where he or she is satisfied that there is a valid	The Commission on Restitution of Land Rights “CRLR” still relies on the Department of Agriculture, Land Reform and Rural Development “DALRRD” in terms of the Budget allocation as part of Programme 3	To solicit, investigate and attempt to resolve land claims through negotiation and/or mediation, or otherwise refer the claim for adjudication to the Land Claims Court

	restitution claim, by awarding to the claimant land, a portion of land or any other right in land, the payment of financial compensation, or an award of both land and financial compensation		
--	---	--	--

Other Boards/Councils of Agriculture reporting to the minister

Board/Council	Legislative Mandate	Financial Relationship	Nature of Operations
Wine and Spirit Board	<p>Liquor Products Act, 1989 (Act 60 of 1989) and the Wine of Origin Scheme and Scheme for Integrated Production of Wine.</p> <p>Wine and Spirit Board is a juristic person and is established by Section 2 of the Liquor Products Act.</p> <p>Members of the Board are appointed by the Minister of Agriculture as contemplated in Section 2 of the Act.</p>	<p>None. (Activities of the Board are funded by the participants to these schemes).</p> <p>Section 2(11) and (12) of the Liquor Product Act regulates the funding of the Wine and Spirit Board:</p> <p>The board shall utilize its funds for the defrayal of the expenses incurred by the board in the performance of its functions.</p>	<p>The Wine and Spirit Board is a technical board that deals with the administration of the Wine of Origin Scheme and the Scheme for Integrated Production of Wine</p> <p>Objectives of the Scheme are:</p> <p>(a) to serve as a basis for the development of the distinctiveness and quality of wines.</p> <p>(b) to confirm the correctness of certain indications in connection with the origin of wine; and</p> <p>(c) to create confidence in such indications.</p>
Agricultural Produce Agents Council (APAC)	Section 2 of the Agricultural Produce Agent Act, 1992 (Act No. 12 of 1992)	None	To regulate the occupations of fresh produce, export and livestock agents and to maintain and enhance the status and dignity of those occupations and the integrity of persons practising those occupations.
South African Veterinary Council (SAVC)	Veterinary and Para-veterinary Professions Act, 1982 (Act No. 19 of 1982)	None. Funded by registrees	<ul style="list-style-type: none"> To regulate the registration of persons practising veterinary professions and para-veterinary professions. To control the practicing of veterinary professions and

			para-veterinary professions; and for matters connected therewith.
National Council of Societies for the Prevention of Cruelty to Animals	Societies for the Prevention of Cruelty to Animals Act, 1993 (Act No. 169 of 1993)	None. Funded from donations	<ul style="list-style-type: none"> • To provide for the control of societies for the prevention of cruelty to animals. • To promote animal welfare and enforce the Animals Protection Act, 1962 (Act No. 71 of 1962).

PART B:

Performance Information

PART B: PERFORMANCE INFORMATION

1. AUDITOR-GENERAL'S REPORT: PREDETERMINED OBJECTIVES

The audit conclusion on the performance against predetermined objectives has been included in the report to management, with no material findings identified on the usefulness and reliability of the reported performance information for selected programme. Please refer to page 194 of the Report of the Auditor-General, published in Part E: Financial Information.

2. OVERVIEW OF DEPARTMENTAL PERFORMANCE

Service delivery environment

In the period under review, the department had set aside a stimulus package valued at R400 000 million to support smallholder farmers/beneficiaries of the Proactive Land Acquisition Strategy (PLAS) farms during the National Lockdown. Employment and placement of young agricultural graduates to service 146 PLAS farms, which are spread across all nine provinces, was facilitated. These graduates were placed within the provincial shared service centres (PSSCs) in each province. The following key appointments were made: 19 agricultural advisors specialising in livestock; 18 agricultural advisors specialising in crop production and nine agricultural economists (one per province). A strategy for the employment of 10 000 extension practitioners has been developed and consulted with provincial departments of agriculture.

The department collaborated with the Japan International Cooperation Agency (JICA) on the implementation of the Smallholder Horticultural Empowerment and Promotion (SHEP) approach. The JICA has placed a SHEP advisor (Mr Shinji Abe) within DALRRD to assist with the implementation and rollout of the SHEP approach in South Africa. The JICA provided training on SHEP Planning and Management to one official from DALRRD (National Extension Support) from 9 to 13 November and 23 to 27 November 2020. DALRRD in collaboration with the JICA provided training on Market Oriented Agriculture to 19 extension practitioners, including all provincial extension coordinators from 1 to 5 February and 15 to 19 February 2021. DALRRD in conjunction with JICA, hosted an annual SHEP International Workshop on 5 March 2021, which was attended by over 600 participants from Africa and Asia. The seventh SHEP International Workshop was held online owing to COVID-19 restrictions. DALRRD received sponsorship from JICA of 120 tablets valued at R475 179,60 to assist with the SHEP approach implementation and reporting. Each tablet is worth R3 959,83. Tablets will be transferred to provinces for distribution to extension practitioners who are implementing the SHEP approach.

To mitigate the effect of COVID-19, smallholder and communal farmers received support in the form of specific agricultural inputs to enable them to complete the 2020 winter production cycle—a total of 15 681 applicants were funded to the value of R563 million. Farmers received vouchers up to a maximum of R50 000. Farmers on PLAS farms were supported in line with the business plans that had already been approved—a total amount of R400 million was spent to support no less than 100 farmers. A total R100 million was transferred to the Land Bank to assist farmers in distress as a result of the COVID-19 pandemic.

As at 31 March 2021, two Agri-Hubs were functional in Mpumalanga and four Agri-Hubs were partially operational: Nchora in the Eastern Cape; Springbokpan in North West; Witzenberg in the Western Cape and Mkhuhlu Agri-Hub in Mpumalanga. In addition, five Agri-Hubs were supported. With regard to investing in accelerated inclusive growth, 18 232 jobs were created through various initiatives; 384 youth and 405 women were placed in the jobs that were created in the period under review. The implementation framework and action plan of the Agriculture and Agro-processing Master Plan (AAMP) has been finalised and circulated to social partners for inputs. The AAMP communication strategy is currently being developed.

The draft KAROO Regional Spatial Development Framework (RSDF) situational and spatial analysis is available. The National Spatial Development Framework (NSDF) Implementation Charter has been developed.

South Africa experienced a brown locust outbreak. The first outbreak started in the Northern Cape in January 2020, after eight years of dormancy since 2012, and ended in July 2020. In September 2020, the second outbreak began – again in the Northern Cape because of the rain received in August and spread to the Karoo parts of the Eastern Cape and the Western Cape. Owing to strong north-eastern winds in December 2020, some of the adult swarms migrated from the Northern Cape to the Free State, where they were effectively controlled. The country had a challenge controlling these locust swarms that migrated from Namibia. These outbreaks were on grazing lands and they were controlled before they could reach the crop lands and planted pastures. The department had liaised with organised agriculture for nominations of people who were trained and appointed as locust control contractors. The contractors were provided with insecticides, spray pumps and protective clothing to enable them to control the outbreaks. The contractors were reimbursed for the days they controlled the locusts and for the kilometres they travelled during the control operation. A helicopter service provider was also

appointed to conduct aerial spraying in the outbreak areas that were not accessible to ground control teams.

Drought relief

In March 2020, the Department of Cooperative Governance and Traditional Affairs, through the National Disaster Management Centre (NDMC), availed R138 489 000 for agricultural drought relief. Seven provinces, the Western Cape, Eastern Cape, Northern Cape, KwaZulu-Natal, North West, Limpopo and Mpumalanga received a share of this funding support, as illustrated in the following table:

Province	Municipality	Projects	Funding	Progress
Northern Cape	Namaqua Pixley ka Seme ZF Mgcawu	Fodder Fodder bank Removal of alien invasive trees (Prosopis)	R36 million	In progress. Lucerne planting to support the fodder bank pending
Western Cape	Eden Overberg Central Karoo West Coast Cape Winelands	Fodder	R25 million	Complete
Eastern Cape	OR Tambo Joe Gqabi Amathole Sarah Baartman Alfred Nzo Chris Hani	Fodder production and water infrastructure	R35 million	Complete
North West	Dr Ruth Segomotsi Mompoti Ngaka Modiri Molema	Equipping of boreholes	R8 million	Complete
Limpopo	Capricon Mopani Vhembe Waterberg Sekhukhune	Drilling and equipping of boreholes	R18,5 million	In progress
Mpumalanga	Bohlabela Gert Sibande Ehlanzeni Nkangala	Fodder bank establishment Drilling and equipping of boreholes Fodder	R12,5 million	Complete
KwaZulu-Natal	King Cetshwayo uMkhanyakude Harry Gwala uThukela Zululand	Desilting of dams	R4 million	Complete

Service Delivery Improvement Plan

DALRRD did not have a Service Delivery Improvement Plan (SDIP) for the period under review, i.e. 2020/2021.

The primary reasons for the absence of an SDIP for the department were as follows:

- The merger of the former Department of Rural Development and Land Reform and the Department of Agriculture, Forestry and Fisheries with the ancillary issues and processes.
- The impact of the COVID-19 pandemic.
- The absence of information is indicated in the following table:

Main services	Beneficiaries	Current/actual standard of service	Desired standard of service	Actual achievement
No information to report for the year under review: 2020/2021	No information to report for the year under review: 2020/2021	No information to report for the year under review: 2020/2021	No information to report for the year under review: 2020/2021	No information to report for the year under review: 2020/2021

Batho Pele arrangements with beneficiaries (Consultation access, etc.)

Current/actual arrangements	Desired arrangements	Actual achievements
No exhibitions or outreach drives were conducted during the year under review (2020/2021) owing to the COVID-19 pandemic	No exhibitions or outreach drives were conducted during the year under review (2020/2021) owing to the COVID-19 pandemic	No exhibitions or outreach drives were conducted during the year under review (2020/2021) owing to the COVID-19 Pandemic

Service delivery information tool

Current/actual information tools	Desired information tools	Actual achievements
No exhibitions or outreach drives were conducted during the year under review (2020/ 2021) owing to the COVID-19 pandemic	No exhibitions or outreach drives were conducted during the year under review (2020/2021) owing to the COVID-19 pandemic	No exhibitions or outreach drives were conducted during the year under review (2020/2021) owing to the COVID-19 pandemic

Complaints mechanism

Current/actual complaints mechanism	Desired complaints mechanism	Actual achievements
1. Enquiries are processed according to developed SOPs, however, the processing of enquiries is not standardised across the department	1. Enquiries management systems (IT systems) in place and functional (for both call centre enquiries in addition to other categories of enquiries)	1. SOPs have been developed through department-wide consultation processes
2. There is monthly performance reporting of enquiries a) At branch, provincial and district levels across the department (amount received, closed and outstanding), with an expectation that the senior management collective must take resolutions regarding the closure/resolution of outstanding enquiries	2. All categories of enquiries managed and accounted for from a single component in the department	2. Monthly departmental performance reporting is currently regularised across the department

Current/actual complaints mechanism	Desired complaints mechanism	Actual achievements
b) Submission of monthly performance reports (which include performance analysis and provision of recommendations) to chief directors, branch heads and director-general		
3. Coordinators have been appointed in branches and provinces to coordinate enquiries received in those components (though the location of this function and the level of functionaries in branches and provinces is not standardised), contributing to uneven performance across the branches and provinces	3. SOPs relating to the processing (receiving, registering, referring/responding, follow-ups, closure/resolution, service delivery diagnostics and nationalised progress/performance reporting) institutionalised through the department and deviations managed departmental performance management system	3. Enquiries management is currently institutionalised as a standing item on the agenda of all departmental decision-making structures
4. The processing of enquiries (registration, database management, accessing, storage, sifting and searches, etc.) is managed through make-shift systems (spreadsheets, emails, etc.) making information management unreliable, creating duplication of efforts (databases management, follow up processes, etc.) and generally exposing the department to a myriad of risks due to the lack of enquiries handling systems (IT systems)	4. Regularisation of closure/resolution rate of 90% across all categories of enquiries	4. A responsive, agile, and empathetic Service Delivery Model drafted and submitted for consideration (awaiting approval for implementation)
5. The DALRRD Enquiries Forum, a governance structure, meets three times a year to evaluate enquiries management implementation against norms and standards, capacity building, enhance processes and tools, etc.)	5. Leveraging the Fourth Industrial Revolution (4IR) and integrating digital platforms into the enquiries management processes and systems	5. Enquiries management system (Tswelopele – an IT system) developed though it is presently dysfunctional. Crucial steps are being taken to resuscitate it
	6. Organisational culture that values enquiries management as a strategic area that supports positive organisational image/identity, that serves as a diagnostic tool for service delivery improvements and mitigate against a wide spectrum of risks (reputational, financial, litigation, service delivery and financial).	6. Enquiries management institutionalised throughout the department as a standing item on branches and provincial decision-making structures.
	7. Service delivery model (structure) at national, branches and provincial	7. DALRRD Enquiries Management Forum, as a governance structure, has

Current/actual complaints mechanism	Desired complaints mechanism	Actual achievements
	levels that enable agile, responsive and Batho Pele inspired service delivery orientation in support of a developmental state	been institutionalised and is fully functional

Organisational environment

The announcement of the reconfiguration of the department led to the merging of the agricultural functional area of the Department of Agriculture, Forestry and Fisheries with the Department of Rural Development and Land Reform (DRDLR) into one new department, the Department of Agriculture, Land Reform and Rural Development, under the leadership of Minister Thoko Didiza, the Deputy Minister of Land Reform, Mr Mcebisi Skwatsha and the Deputy Minister of Rural Development, Mr Sdumo Dlamini.

The implications of the merger were that the department would be managed under one administration and one Budget Vote, effective from 1 April 2020.

The organisational design of the start-up structure (Macro structure) for the new Department of Agriculture, Land Reform and Rural Development encapsulated the following:

- The alignment, reconciliation, rearrangement and consolidation of functions from the affected departments into the new functional organisational structure
- The new functional organisational structure clearly indicates purposes, functions and senior management levels of organisational units
- Funded posts as aligned to the PERSAL information from both departments was used (unfunded posts were removed from PERSAL)
- A reduced number of programmes
- An Alternative Placement Strategy for supernumerary posts to address critical functional areas in the new department will be applied.

In terms of regulation 25(2) (a) of the Public Service Regulations, 2016, the Minister of Public Service and Administration (MPSA) issued a letter of concurrence, dated 11 November 2019, for the start-up macro structure (SMS level) and issued another letter dated 11 December 2020 for the micro structure (level 12 and below) of DALRRD. The approved structure of DALRRD consists of 9 207 posts.

During the 2019/2020 financial year, the MPSA issued a letter dated 4 November 2020 regarding compliance and monitoring on implementation of the start-up organisational structure. Within the letter, the MPSA advised that when the department reviews the organisational structure to design a fit-for-purpose structure, it be based on the approved mandate of the new department, its strategic objectives, Service Delivery Model, quantifiable outputs and available funding.

In view of the approval of the start-up organisational structure and concerns by the MPSA, DALRRD will embark on a fit-for-purpose structure aligned to the Strategic Plan, objectives, service delivery model and available budget once the migration process for the lower levels positions has been completed.

Key policy developments

The following illustrate work undertaken regarding policies coordinated by the department during 2020/2021:

Name	Aim/purpose	Key impact	Progress on the policy
Communal Land Tenure Government Policy Position Paper	To establish a framework and institutions for democratic and inclusive communal land administration as guided by the Constitution	Enable legal provisions for the land rights holders within the customary tenure system who are currently holding insecure land rights to legally secured tenure forms of their choice	The National Policy Review Committee endorsed the policy position paper. Cabinet approved the policy position paper for public consultation
Land Tenure Reform Policy Framework	Provide tenure policy reforms to formalise and integrate administration of South Africa's land mass	Establish legal provisions for a unitary land tenure system to institutionalise tenure rights within communal, /customary, urban, church, commercial and private land and state-owned land	The policy was approved by the National Policy Review Committee for tabling at EXCO
Land Donations Policy	Provide a framework to respond to the various forms and configurations in which land donations are made	Increase opportunities for land ownership among farm dwellers, labour tenants, small families and cooperative farmers, the landless in informal settlements, women, youth, and persons with disabilities	Approved by Cabinet and SOPs are developed to guide implementation
Land Allocation and Beneficiary Selection Policy	Provide for a uniform, fair, credible and transparent process and criteria for selection of beneficiaries for land allocation or leasing of State properties	Address diverse or different land needs for agricultural production, human settlements, commonage, residential and industrial development purposes	Approved by Cabinet and preparing DALRRD for implementation

Legislative changes

Bills introduced to Parliament

Name of Bill	Strategic focus
1. Upgrading of Land Tenure Rights Amendment Bill	<p>The Bill seeks to:</p> <ul style="list-style-type: none"> • Amend the Upgrading of Land Tenure Rights Act, 1991 (Act No. 112 of 1991); • Provide for the application for conversion of land tenure rights to ownership; • Provide for the notice of intention to convert tenure rights into ownership; • Provide for an opportunity for interested persons to object to conversion of tenure rights into ownership; • Provide for the institution of enquiries to assist in the determination of land tenure rights; • Provide for equality in the conversion of tenure rights into ownership; • Provide for the recognition of conversions that took effect in good faith in the past; and to provide for matters connected therewith.
2. Sectional Titles Amendment Bill	The Bill seeks to introduce technical amendments.
3. Agriculture Produce Agents Amendment Bill	<p>The Bill seeks to:</p> <ul style="list-style-type: none"> • Amend the Agriculture Produce Agents Act so as to alter certain definitions and to insert others; • Change the constitution of the council; • Apply certain provisions to fresh produce agents only; • Make certain textual alteration; • Provide for the extension of the jurisdiction of the council, to enhance the regulating powers of the council; • Provide for transitional matters; and • Provide for matters connected therewith.

Bills to be introduced to parliament in 2021

Name of Bill	Strategic focus
1. Preservation and Development of Agricultural Land Bill	<p>The Bill seeks to provide for:</p> <ul style="list-style-type: none"> • The application of the Act applies to all agricultural land within the Republic; • Principles for the management of agricultural land; • Agricultural land evaluation and classification; • the preparation, purpose and content of provincial agricultural sector plans; • The declaration of protected agricultural areas; • The general objectives of agro-ecosystem management, agro-ecosystem authorisations, the listing and delisting of activities or areas within the agro-ecosystems and the identification of competent authorities; • The establishment of committees and the appointment of technical and other advisors to advise the minister, MECs and competent authorities; • The establishment and management of the national agro-eco information system; • Appeal procedures; • The appointment and functions of inspectors; • The contravention directives and the investigation and gathering of data on property; • The delegation of powers;

Name of Bill	Strategic focus
	<ul style="list-style-type: none"> • The minister to make regulations and determine norms and standards; • Offences and penalties; • The Amendment of the Subdivision of Agricultural Land Repeal Act, 1998; and matters connected therewith.
2. Plant Health (Phytosanitary) Bill	<p>The Bill seeks to:</p> <ul style="list-style-type: none"> • Provide for Phytosanitary measures to prevent the introduction, establishment and spread of regulated pests in the Republic; • Provide for the control of regulated pests; • Provide for regulation of the movement of plants, plant products and other regulated articles into, within and out of the Republic; • Provide for matters connected therewith.
3. Agricultural Products Standards Amendment Bill	<p>The Bill seeks to:</p> <ul style="list-style-type: none"> • Amend the Agricultural Product Standards Act, 1990, so as to insert definitions and substitute others; • Provide for auditing of a product for management control systems; • Make provision for the setting of tariffs by assignees on cost-recovery basis; • Make further provisions for the Minister to make regulations pertaining to audit and management control systems; and to provide for matters connected therewith.

3. PROGRESS TOWARDS ACHIEVEMENT OF INSTITUTIONAL IMPACTS AND OUTCOMES

The department is coordinating with and providing oversight to other sector partners that include provincial departments of agriculture (PDAs) for implementation of targets relevant to its mandate contributing toward the Medium-Term Strategic Framework 2019 – 2024. The following are some of the highlights achieved during the 2020/21 financial year under department coordination.

Outcome	Indicators	2021 Targets	Cumulative performance for period 1 April 2020 to March 2021
Investing in accelerated inclusive growth	Jobs created	14 980 jobs	<ul style="list-style-type: none"> • 18 232 jobs were created through various initiatives. • 384 youth and 405 women placed in jobs that were created in the period under review. • According to the Quarter 4 Labour Force Survey, Employment in Agriculture.
Re-industrialisation of the economy and emergence of globally competitive sectors	AAMP developed and aligned to identified commodities per district	AAMP developed by March 2021	<ul style="list-style-type: none"> • The draft AAMP is at consultation stage. • The implementation framework and action plan of the AAMP have been finalised and circulated to social partners for inputs. The AAMP communication strategy is currently being developed.
Expand access to Post-Secondary Education and Training (PSET)	Number of extension officers supporting commodity groups	135 extension officers	<ul style="list-style-type: none"> • 2 732 extension officers deployed. • 2 600 extension officers supported agriculture, communal and land reform projects. • 122 existing extension officers were capacitated. • A strategy for the employment of 10 000 extension practitioners has been developed and consulted with PDAs.
Shared national spatial vision and frames to support integration between sector departments, provinces and regions	NSDF Implementation Charter	NSDF Implementation charter by June 2021	<ul style="list-style-type: none"> • The framework for the Implementation Charter has been developed.

Outcome	Indicators	2021 Targets	Cumulative performance for period 1 April 2020 to March 2021
Land administration system and regulatory framework review for land reform and agricultural produce and exports review for repealing, or amendment or revision or finalisation	<ul style="list-style-type: none"> • Reviewed Ingonyama Trust Act, 1994 (Act No. 3 of 1994) • Communal Property Associations Act, 1996 (Act No. 28 of 1996) • Preservation and Development of Agriculture Land Framework Act. • Transformation of Certain Rural Areas Act, 1998 (Act No. 94 of 1998) and the Rural Areas Act. 	Report on the progress of legislative framework review and implementation, as well as land administration system development	<ul style="list-style-type: none"> • Draft Communal Property Association Bill has been finalised; • Draft Preservation and Development of Agricultural Land Bill is in the parliamentary process; • The development of the consolidated analytical report on policies, legislation, and systems to inform the National Land Information Systems is in progress.

4. INSTITUTIONAL PROGRAMME PERFORMANCE INFORMATION

The department had two tabled Annual Performance Plans (APP) in the 2020/2021 financial year. The first APP was tabled in March 2020 and the revised APP was tabled in August 2020 to consider the implications of COVID-19. An addendum affecting some indicators and targets for programmes 2 and 3 was also tabled in November 2020. This report will reflect the state of performance against both tabled APPs for every programme in two separate tables in line with the guideline.

Table 2.4.4.1 contains performance of the first tabled APP in which state of progress, as it happened during Quarter 1, is reported against annual targets. It is important to state upfront that there will be variance against almost all the targets, precisely because the reported achievements are only for what was achieved in Quarter 1 measured against annual targets that were initially planned to be implemented over a period of four quarters.

Some of the Quarter 1 targets were achieved but will still have a variance when measured against annual targets, reasons for the variances are provided and key among them is the fact that the reported Quarter 1 achievements were realised against Quarter 1 targets that were planned and not the annual targets which are realisable for the duration of the financial year. To manage this misalignment so that the reported achievements can be fairly measured against the targets they were set, these targets are also reflected in expansion of the reasons for variance.

Table 2.4.4.2 reflects the performance realised against annual targets in the re-tabled APP. In this table, performance against all annual targets is reported for a period of three quarters, for which the re-tabled APP implementation was applicable. This means that in this table, the department reported the achievements realised from the second to the fourth quarter (three quarters) against planned annual targets.

Programme 1: Administration

Purpose

Provide strategic leadership, management and support services to the department.

The programme comprises the following subprogrammes:

Management: Provide strategic leadership and governance.

Financial Services: Ensure prudent financial management.

Risk Management: Ensure all risks are managed/mitigated and identify new risks to the department. Institutional outcomes that each programme contributes towards according to the Annual Performance Plan:

Outcome 1: Improved governance and service excellence.

Outcomes, outputs, output indicators, targets and actual achievements

The administration of the department continued to provide leadership in pursuing the transformation of the sector along with implementation of the National Development Plan 2030 through implementation and monitoring of the Human Resource Plan (HR Plan). Priorities focused on include elimination of duplication of functions and alignment of the organisational structure; development of the Talent Management Strategy and strengthening transformation capacity, among others.

The department worked hard during 2020/21 in strengthening the performance control environment to improve its accountability on the use of resources that are at its disposal. Strengthening oversight over PDAs and public entities is also an area that has been consistently attended to; to this end, the Sectoral Planning, Monitoring and Evaluation Working Group continued with its quarterly meetings to look at ways of providing institutional performance management guidance to the sector. Engagements were undertaken with all public entities and shareholder agreements have been developed and planned to be signed during 2021/22 to promote oversight and coordination on the work done by public entities. DALRRD is continuing to strengthen understanding with various service providers to ensure that a 100% payment of valid invoices within 30 days is achieved – a lot of hard work has been done to achieve 86% under very difficult COVID-19 circumstances.

Table 2.4.4.1: Report against the originally tabled Annual Performance Plan until date of re-tabling

Programme/subprogramme: Administration									
Outcome	Output	Output indicator	Audited actual performance 2018/2019	Audited actual performance 2019/2020	Planned actual target 2020/2021	*Actual achievement 2020/2021 until date of re-tabling	Deviation from planned target to actual achievement 2020/2021	Reasons for deviations	Reasons for revisions to the outputs/output indicators/annual targets

DRDLR: Unqualified audit opinion	Unqualified audit opinion	DAFF obtained a qualified and DRDLR unqualified audit opinion for 2019/20	DAFF did not obtain an unqualified audit opinion	DAFF: The material finding under forestry's biological assets resulted in a qualified audit opinion outcome
Outcome 1: Improved governance and service excellence	1.2 Compliance with government legislation and prescripts	1.2.1 Percentage of valid invoices paid within 30 days upon receipt by the department	DAFF: N/A DRDLR: 96%	DAFF: 95% DRDLR: 95%	100%	86%	-14%	Delays in submission of delivery notes and automotive (AM) for bulk procurement of laptops. Delays in verification of Information Technology (IT) equipment before processing of invoices.

Strategy to overcome areas of under performance

Regular programme meetings at various levels of management have been held, with focus strictly on assessing the state of performance. The discussions about performance against operational plans is assessed monthly and key issues escalated to the departmental Executive Committee.

Dedicated support officials from the monitoring, strategic planning and risk management units, who all have a strong working relationship with the Internal Audit Unit, provide strategic support, which assists in identifying areas of challenges in time to allow the development of improvement plans.

Programme 2: Agricultural Production, Health, Food Safety, Natural Resources and Disaster Management

Purpose

Oversee livestock production, game farming, animal and plant health, natural resources and disaster management.

The programme comprises of the following subprogrammes:

Plant Production and Health: To develop policy, norms and standards to support plant production and plant health.

Animal Production and Health: To promote livestock production, game farming and animal health.

Inspection and Quarantine Services: Ensure compliance with regulatory frameworks for food safety.

Natural Resources and Disaster Management: To facilitate the development of infrastructure and the sustainable use of natural resources and integrate, coordinate and implement disaster management policies and frameworks with special emphasis on mitigation of disasters in rural and agricultural areas.

Institutional outcomes that each programme contributes towards according to the APP:

- Outcome 4: Increased production in the agricultural sector.
- Outcome 7: Enhanced biosecurity and effective disaster risk reduction.

Outcomes, outputs, output indicators, targets and actual achievements

This programme plays a very significant role in a regulatory environment and offers essential services to the country. Despite the difficulties posed by COVID-19 restrictions, particularly on people's freedom of movement, the programme still managed to discharge its mandate of undertaking surveillances on pests and animal diseases. This is important for enhanced biosecurity and effective disaster risk reduction in the country. This programme engaged with farmers by doing various assessments, briefing sessions and mobilisation work—all of these were negatively affected by COVID-19 restrictions and feature strongly among targets that were not achieved.

Table 2.4.4.1: Report against the originally tabled Annual Performance Plan until date of re-tabling

Programme/subprogramme: Agriculture Production, Health, Food Safety, Natural Resources and Disaster Management									
Out-come	Output	Output indicator	Audited actual performance 2018/ 2019	Audited actual performance 2019/ 2020	Planned actual target 2020/ 2021	*Actual achievement 2020/ 2021 until date of re-tabling	Deviat-ion from planned target to Actual achievement 2020/ 2021	Reasons for deviat-ions	Reasons for revisions to the outputs/ output indicators / annual targets

Strategy to overcome areas of underperformance

Management meetings are held regularly at which the status of performance for planned priorities is discussed. Consensus on improvement plans and strategies for underperforming areas is reached and implementation thereof is intensively monitored. Management decisions are filtered throughout different levels of branch operations. The branch also uses various committees in its coordination role for the work done by provincial departments, public entities and the industry.

Programme 3: Food Security, Land Reform and Restitution

Purpose

Acquire and distribute land and promote food security and agrarian reform programmes

The programme comprises of the following subprogrammes:

Food Security: Provides national frameworks to promote sustainable household food security.

Land Tenure Reform: Develops land tenure policies, programmes and procedures.

Land Acquisition and Redistribution: Provides land acquisition and strategic institutional partnerships.

National Extension Services and Sector Capacity Development: Provides national extension support services, sustainable growth and equitable participation in the sector.

Farmer Support and Development: Develops and provides strategic support to farmers, agro-processors and cooperatives.

Property Management and Advisory Support: Provides property management and advisory support services.

Restitution: Settles land restitution claims under the Restitution of Land Rights Act, 1994 (Act No. 22 of 1994).

Institutional outcomes that each programme contributes towards according to the Annual Performance Plan:

Outcome 3: Redress and equitable access to land and producer support.

Outcomes, outputs, output indicators, targets and actual achievements

Programme 3 implements most parts of its mandate in provincial departments and provincial shared service centres. As a result, most of the intended interventions were negatively affected by COVID-19 restrictions as they require travelling to interact with beneficiaries and projects, either through offering of training, assessments of land or mediating in areas of land acquiring, etc. It is therefore, understandable that most targets in this programme were revised after Quarter 1 in fulfilment of the DMPE Circular 2 of 2020, advising departments to review their APP if they are affected by budget cuts or reprioritising their budgets and deliverables to respond to the COVID-19 pandemic. Among the targets whose performance was affected by conditions that were outside the department's control, is intended support to 50 000 subsistence producers through the COVID-19 Relief Fund. Delays in completing verification, which requires physical visits to areas of applicants, resulted in support not being concluded by the end of the financial year. The extension of the academic year, which resulted in registration processes for students at higher institutions being extended, meant that the intended target of having 800 students registered at Colleges of Agriculture was affected as only 743 were registered by the end of this reporting period.

Good performance was however, recorded in some indicators by the programme, as follows:

- ✓ A total of 324 land claims were settled for period under review. 10 against first tabled APP and 314 against revised APP.
- ✓ A total of 385 land claims were finalised for period under review. 49 against first tabled APP and 336 against revised APP.
- ✓ A total of 7 172,5 ha were acquired for farm dwellers and/or labour tenants in relation to the 5 857 ha that was planned against the revised APP.

Table 2.4.4.1: Report against the originally tabled Annual Performance Plan until date of re-tabling

Programme/subprogramme: Food Security, Land Reform and Restitution									
Out-come	Output	Output indicator	Audited actual performance 2018/ 2019	Audited actual performance 2019/ 2020	Planned actual target 2020/ 2021	*Actual achievement 2020/ 2021 until date of re-tabling	Deviation from planned target to Actual achievement 2020/ 2021	Reasons for deviations	Reasons for revisions to the outputs/ output indicators/ annual targets
Outcome 3: Redress and non-equitable access to land and producer support	4.1 Provide financial and non-financial support to producer	4.1.1 National Policy on Comprehensive Producer Development Support implemented	The policy was tabled at NEDLAC and consulted with the ESEID cluster departments	The National Policy on Comprehensive Producer Development Support	Annual report on the implementation of National Policy on Comprehensive Producer Development Support	Annual report on the implementation of National Policy on Comprehensive Producer Development Support was not compiled	Annual report on the implementation of National Policy on Comprehensive Producer Development Support was not compiled	There was no Quarter 1 target to report against this annual target. The reflected variance is the Quarter 1 achievement against annual target	N/A
		4.1.2 Number of smallholder and medium-scale producers supported through Blended Finance Scheme	-	-	150	No smallholder and medium-scale producers were supported	150 Small-holders could not be supported as planned	No progress was reported against the Quarter 1 target of producers targeted to be supported. Preparations to implement the scheme were affected by the COVID-19 pandemic lockdown. The reflected variance is the Quarter 1 achievements against annual target	Budget was cut owing to COVID-19, in line with the DPME Circular 2 of 2020, which led the department to delay implementation of the scheme to review it for possible improvements. Restrictions on people movement due to COVID-19 made it impossible for department officials to engage in necessary verification visits to

	redistributed	located land acquired				was acquired for period under review		State lapsed owing to restriction on the transfer of a property resulted in delays of obtaining a court order, which led to the transfer being cancelled
		4.5.2 Number of hectares acquired for farm dwellers and/or labour tenants	9 675,520 1 ha	10 290,3133 ha	5 857 ha	7 127.5 ha were acquired for farm dwellers and/or labour tenants	1 270,5 More hectares were acquired.	The target was overachieved due to the projects that were at transfer stage at the end of Quarter 4 of the 2019/2020 financial year that were however transferred to the 2020/2021 financial year
	4.6 Labour tenants' applications settled	4.6.1 Number of labour tenants' applications settled	624	486	450	196 Labour tenants' applications were settled during period under review	254 Labour tenants' applications could not be settled	The target was not achieved due to the delays in finalising settlement agreements through Land Acquisition and approximately 250 applications had to be referred to court via Office of the State Attorney
	4.7 Communal Property Associations (CPA) supports to be compliant with the Act	4.7.1 Number of CPAs supported to be compliant with legislation	360	540	394	455 CPAs were supported to be compliant with legislation	61 More CPAs were supported	The target was overachieved owing to a catch-up plan, which was developed and implemented when the country moved to lockdown levels 2 and 1

Strategy to overcome areas of underperformance

The branch has well established coordinating structures with approved terms of references made up of senior officials from DAFF and PDAs focusing mainly on concurrent mandate interventions. These structures mainly focus on coordination of food security and natural resource management mandates of the agricultural sector. There is also a structure that looks at coordination of disaster management and mitigation in the sector. Extension Services also has its specific structure in coordination to its work. Performance issues from all these structures flow into the strategic planning process of the department.

Programme management meetings are also scheduled regularly to assess state of performance and to adopt strategies for improvement in identified weak areas. These meetings are also extended to PSSC management who are responsible for managing implementation of set priorities. This programme has appointed Planning and Reporting Coordinators who work very closely with departmental performance monitoring practitioners to advise management on performance areas that needs frequent attention. The targets that were not achieved in the 2020/21 financial year are included in the 2021/22 integrated operational plan so that they can still be reported on and monitored.

Programme 4: Rural Development

Purpose

To initiate, facilitate, coordinate and act as a catalyst for the implementation of a comprehensive rural development programme leading to sustainable and vibrant rural communities.

The programme comprises the following subprogrammes:

National Rural Youth Service Corps (NARYSEC): Provides social organisation, youth development and economic upliftment.

Rural social infrastructure coordination: Coordinate infrastructure development in rural areas.

Technology research and coordination: Coordinate provision of innovative and appropriate technologies in rural areas.

Institutional outcomes that each programme contributes towards according to the Annual Performance Plan:

Outcome 6: Integrated and inclusive rural economy.

Outcomes, outputs, output indicators, targets and actual achievements

The department did not create enough jobs for women, youth and people with disabilities (women = 2 (9%), youth = 7 (30%) and people with disabilities = 0). Advocacy sessions will be held with the contractors to ensure that women and youth are given employment opportunities.

The department targeted to train a total of 1 916 NARYSEC participants. The department achieved the target and recorded a total of 1 926 skilled participants. The department targeted to support 15 farmer production support units (FPSUs) with infrastructure projects. The department achieved 15 FPSUs (100%) against the set target.

Strategy to overcome areas of underperformance

Regular programme meetings at various levels of management are being undertaken with the focus strictly on assessing the state of performance and to adopt strategies for improvement in identified weak areas. These meetings are also extended to PSSC management who are responsible for managing implementation of set priorities. The discussions about performance against operational plans is assessed monthly and key issues are escalated to the departmental Executive Committee.

Dedicated support officials from the monitoring, strategic planning and risk management units, who all have a strong working relationship with the Directorate: Internal Audit, provide strategic support which assist in identifying areas of challenges in time to allow the development of improvement plans. The programme has appointed planning and reporting coordinators who work closely with departmental performance monitoring practitioners to advise management on performance areas that need frequent attention.

Programme 5: Economic Development, Trade and Marketing

Purpose

Promote economic development, trade and market access for agricultural products; and foster international relations for the sector.

The programme comprises the following subprogrammes:

International Relations and Trade: Promote, coordinate and support international relations and trade through the development and implementation of appropriate policies and programmes.

Cooperatives and Development: Facilitate and support the implementation of programmes and initiatives to promote cooperatives to participate in economic development.

Agro-processing, Marketing and Industrial Development: Ensure the transformation of primary product commodities into value added products and ensure domestic and international market access.

Institutional outcomes that each programme contributes towards according to the Annual Performance Plan:

- Outcome 5: Increased market access and maintenance of existing markets.
- Outcome 6: Integrated and inclusive rural economy.

Outcomes, outputs, output indicators, targets and actual achievements

This programme plays an important economic role in the sector. Sectoral statistics and economic analysis information provide a useful base that enhances management decision making on impactful areas to prioritise investing in. The AgriBEE Fund, which plays a critical role in transformation and empowerment, continued to be managed under this programme and all assessment of applications was finalised. Sectoral trade agreements, whether bilaterally or multilaterally, with both African and international countries, were coordinated and various reports have been compiled providing more details.

Strategy to overcome areas of underperformance

Regular programme meetings at various levels of management are being undertaken with the focus strictly on assessing state of performance and to adopt strategies for improvement in identified weak areas. These meetings are also extended to PSSC management and relevant programme managers in PDAs and public entities where implementation of set priorities are managed. The discussions about performance against operational plans is assessed monthly and key issues escalated to departmental Executive Committee.

Dedicated support officials from the monitoring, strategic planning and risk management units, who all have a strong working relationship with the Directorate: Internal Audit, provide strategic support which assist in identifying areas of challenges in time to allow development of improvement plans. This programme has appointed planning and reporting coordinators who work closely with departmental performance monitoring practitioners to advise management on performance areas that frequently need attention.

Programme 6: Land Administration

Purpose

Provide geospatial information, cadastral surveys, deeds registration and spatial planning in addition to technical services in support of sustainable land development.

The programme comprises the following subprogrammes:

National Geomatics Management Services: Responsible for examining and approving all surveys of land and real rights intended to be registered in the deeds office; maintaining records; compiling, maintaining and revising maps of property boundaries; providing cadastral advisory services to other government institutions; promoting and controlling all matters relating to geodetic and topographical surveying; establishing and maintaining a network of national geo-referencing stations; facilitating state surveys relating to land reform; and providing cadastral and geospatial information services, including South African spatial data infrastructure.

Spatial Planning and Land Use Management: Provides for national land use management and spatial planning systems; develops the national spatial development framework and rural development plans, guidelines, norms and standards; and ensures compliance with the Spatial Land Use Management Act (2013). This subprogramme also provides support to the South African Council of Planners and technical assistance to other spheres of government by providing spatial development frameworks and land use schemes; and establishing functional municipal land use tribunals.

Registration of Deeds Trading Account: Transfers funds annually to the South African Council of Planners, a non-profit organisation dealing with the registration and other activities of the planning profession.

South African Geomatics Council: Regulates and promotes the transformation of the geomatics profession.

Institutional outcomes that each programme contributes towards according to the Annual Performance Plan:

Outcome 2: Spatial transformation and effective and efficient land administration.

Outcomes, outputs, output indicators, targets and actual achievements

Some of the key targets achieved by the programme will be reflected. The detailed performance of the programme against all targets set for 2020/21 are to follow in tables. The programme achieved targets of the Deeds Amendment Bill that was approved by the minister for submission to Cabinet and 23 district development plans have been updated.

There was no achievement on the following: Land Administration Legislative Framework approved, Consolidated analytical report on policies, legislation and systems to inform the National Land Information System, e-DRS Phase 1 completed, recordals on three sites conducted.

The reason for the deviation is the COVID-19 regulations that affected the movement of people. Two of the above-listed indicators were only applicable in Quarter 1 and were later removed in the APP of 2020/2021. The indicator on CPAs was moved to Programme 3.

During the period under review the programme further successfully compiled a submission to the minister to introduce the Deeds Registries Amendment Bill to Cabinet and five NSDF spatial action area implementation plans were drafted.

Table 2.4.4.1: Report against the originally tabled Annual Performance Plan until date of re-tabling

Programme/subprogramme: Land Administration									
Outcome	Output	Output indicator	Audited actual performance 2018/2019	Audited actual performance 2019/2020	Planned actual target 2020/2021	*Actual achievement 2020/2021 until date of re-tabling	Deviation from planned target to Actual achievement 2020/2021	Reasons for deviation	Reasons for revisions to the outputs/output indicators / annual targets
Outcome 2: Spatial transformation and effective and efficient land administration	8.1 An overarching Land Administration Legislative Framework	8.1.1 Land Administration Legislative Framework approved	N/A	N/A	Land Administration Legislative Framework approved	The stakeholder consultation on the draft framework was not achieved	Land Administration Legislative Framework has not been approved	The target was not achieved owing to COVID-19 restrictions. Consultation with various stakeholders, including rural communities is a prerequisite towards its achievement	The indicator was removed from the APP owing to budget reprioritisation informed by the DPME Circular 2 of 2020
	8.2 Integrated Land Administration System	8.2.1 National Land Information System Developed	N/A	N/A	Consolidated analytical report on policies, legislation and systems to inform the National Land Information System	The target was not achieved	Consolidated analytical report on policies, legislation and systems to inform the National Land Information System	The work could not be done due to the placement of officials to the new roles not being finalised	N/A
	8.3 Electronic land Registration System (registration and Recordal)	8.3.1 e-DRS Phase 1 completed	N/A	N/A	e-DRS Phase 1 completed	e-DRS Phase 1 has not been completed	e-DRS Phase 1 not completed	The target could not be achieved due to COVID-19 restrictions that affected	N/A

Programme/subprogramme: Land Administration									
Out-come	Output	Output indicator	Audited actual performance 2018/2019	Audited actual performance 2019/2020	Planned actual target 2020/2021	*Actual achievement 2020/2021 until date of re-tabling	Deviation from planned target to Actual achievement 2020/2021	Reasons for deviation	Reasons for revisions to the outputs/output indicators / annual targets
								the ability of the entity to generate income which was to fund the project	
	8.4 Deeds Registries Act Amendment Bill	8.4.1 Deeds Amendment Bill drafted	N/A	N/A	Deeds Registration Act Amendment Bill approved by the minister for submission to Cabinet	Draft Amendment Bill available	N/A	The intended target for Quarter 1 was achieved. However, the annual target is not satisfied by the achievement of Quarter 1 and this is in accordance with the DPME reporting guide	N/A
	8.5 District pilot projects on recordals	8.5.1 District recordal projects piloted	N/A	N/A	Business case	Draft Business case is available	Business case	The deviation is due to lockdown regulations resulting in budget cuts to finalise the project	The indicator was removed from the APP owing to budget reprioritisation informed by the DPME Circular 2 of 2020
	8.5 Policies and legislation	8.5.1 Number of National	N/A	N/A	5 NSDF spatial action areas	5 NSDF spatial action areas	5 NSDF spatial action areas	There was no Quarter 1 to	N/A

Programme/subprogramme: Land Administration									
Out-come	Output	Output indicator	Audited actual performance 2018/2019	Audited actual performance 2019/2020	Planned actual target 2020/2021	*Actual achievement 2020/2021 until date of re-tabling	Deviation from planned target to Actual achievement 2020/2021	Reasons for deviation	Reasons for revisions to the outputs/output indicators / annual targets
	in developed to give effect to spatial transformation	Spatial Development Framework (NSDF) spatial action areas implementation plans developed			implementation plans developed	implementation plans could not be developed	implementation plans were not developed	report against contributing to this annual target	
	8.7 Updated and mainstreamed district development plans (Operation Khauleza)	8.7.1 Number of district development model plans (Operation Khauleza updated)	N/A	N/A	23 District development plans updated	25 District development plans were updated. This annual target was achieved during Quarter 1.	2	The department managed to complete additional two projects due to the quick turnaround on the targeted 23	N/A
	8.8 Communal Property Associations (CPAs) compliant with legislation	8.8.1 Number of CPAs supports to be compliant with legislation	418	540	477	2 CPAs were supported to be compliant with legislation during Quarter 1	475 CPAs were not supported to be compliant with legislation	Deviation of 81 was realised during Quarter 1 as 3 CPAs were supported against a Quarter 1 target of 83. The deviation was due to COVID-19 restrictions that restricted	The target was moved to Programme 3 owing to restructuring process of the department

Strategy to overcome areas of underperformance

Regular programme meetings at various levels of management are held, with focus strictly on assessing the state of performance and to adopt strategies for improvement in identified weak areas. These meetings are also extended to PSSC management who are responsible for managing implementation of set priorities. The discussions about performance against operational plans is assessed monthly and key issues escalated to the departmental Executive Committee.

Dedicated support officials from the monitoring, strategic planning and risk management units, who all have a strong working relationship with the Directorate: Internal Audit, provide strategic support which assist in identifying areas of challenges in time to allow the development of improvement plans. This programme appointed planning and reporting coordinators who work closely with departmental performance monitoring practitioners to advise management on performance areas that frequently need attention.

The department has rephrased the targets on e-DRS so that it is easy to track achievements and can be implemented in a phased-in approach.

Performance in relation to standardised outputs and output indicators for sectors with concurrent functions

The following indicators are implemented by PDAs with DALLRD providing oversight and institutional monitoring and reporting services over their performance. Supporting evidence for reported performance is, therefore, in provinces under management of provincial monitoring practitioners.

Output indicators	Planned Annual target	Annual achievement	Deviation from planned target to Actual achievement	Reasons for deviations
Programme 2: Sustainable Resource Management				
Number of agricultural infrastructures established	517	407	-110	COVID-19 hard lockdown affected completion of projects
Number of hectares of agricultural land rehabilitated	48 152	73 687.85	-25 535	COVID-19 hard lockdown affected completion of projects
Number of green jobs	7 870	6 679	-1 191	COVID-19 hard lockdown affected job creation
Number of farm management plans developed	304	334	+30	More demand of plans

Output indicators	Planned Annual target	Annual achievement	Deviation from planned target to Actual achievement	Reasons for deviations
Number of agro-ecosystem management plans developed (annual)	20	20	0	None
Number of disaster risk reduction services managed	137	165	+28	Increase in the number of risk reduction interventions and risk reduction measures
Number of disaster relief schemes managed (annual)	11	15	+4	High demand
Programme 3: Farmer Support Development				
Number of smallholder producers supported	23 117	26 156	+3 039	More support occurred from COVID-19 Relief Fund to smallholder farmers
Number of smallholder producers supported with agricultural advice	57 617	48 548	-9 069	COVID-19 hard lockdown affected contact with farmers
Number of households supported with agricultural food production initiatives	80 170	79 529	-641	COVID-19 hard lockdown affected contacts with farmers
Number of hectares planted for food production	103 363	122 710.13	+19 347,13	Agriculture was declared as critical during lockdown to combat food insecurity. More hectares were planted through departmental support
Programme 4: Veterinary Services				
Number of visits to epidemiological units for veterinary interventions	101 515	91 620	-9 895	Less visits were undertaken due to hard lockdown of COVID-19.
Number of export control certificates issued	50 950	44 699	-6 251	Unavailability of state veterinarians to issue certificates. The achievement is dependent on the clients
Average percentage of compliance of all operating abattoirs in the province to the meat safety legislation (annual)	79.2%	79.7%	+0.5%	Variance is within accepted standard
Number of laboratory tests performed according to	731 524	975 684	+244 160	More tests conducted as all role players played part in the laboratory achieving numbers that

Output indicators	Planned Annual target	Annual achievement	Deviation from planned target to Actual achievement	Reasons for deviations
prescribed standards				are more than what was projected
Programme 5: Technology Research and Development Services				
Number of research projects implemented to improve agricultural production (annual)	310	354	+44	Using online means of conducting the peer review events during COVID-19 lockdown enabled more presentations
Number of research presentations made at peer reviewed events	167	99	-68	COVID-19 lockdown caused all conferences (national and international) to be cancelled and moved to 2021
Number of research presentations made at technology transfer events	560	434	-126	Difficult to plan due to COVID-19 pandemic
Number of scientific papers published (annual)	57	72	+15	Scientific papers submitted to journals and still under review
Number of research infrastructure managed (annual)	42	45	+3	More dilapidating infrastructure required attention
Programme 6: Agricultural Economics Services				
Number of agri-businesses supported with marketing services	2 949	4 039	+1 090	Demand increased due to lockdown relaxation in the latter part of the financial year
Number of agri-businesses supported with production economic services	9 871	6 881	-2 990	Demand affected by COVID-19 lockdown
Number of agro-processing initiatives supported (annual)	82	424	+342	Demand increased due to lockdown relaxation in the latter part of the financial year
Number of economic reports compiled	126	216	+90	Changing economic environment due to COVID-19 pandemic leading to lockdown necessitated production of an additional economic report
Programme 7: Structured Agricultural Training				
Number of students graduated from Agricultural Training Institutes (annual)	541	534	-7	High student dropout rate in the 2019 academic year, subsequently completed in 2020
Number of participants trained in skills	16 250	10 278	-5 972	Participants trained are government officials

Output indicators	Planned Annual target	Annual achievement	Deviation from planned target to Actual achievement	Reasons for deviations
development programmes in the sector				

Reporting on the institutional response to the COVID-19 pandemic

Budget programme	Intervention	Geographic location (Province/district / local municipality) (where possible)	No. of beneficiaries (where possible)	Disaggregation of beneficiaries (where possible)	Total budget allocation per intervention (R'000)	Budget spent per intervention (R'000)	Contribution to the outputs in the APP (where applicable)	Immediate outcomes
LR&TR	COVID-19 Disaster Agricultural Support Fund	All provinces	15 681	Women – 5 187 Youth – 2 450 Disabled persons - 164	1 200 000	565 128 000	Support to small-holder farmers	Food Security
FSAR	Presidential Employment Stimulus Initiative (PESI)	All nine (9) provinces	By 31 March 2021, a total number of 53 286 beneficiaries were approved by the NTT out of 72 940 verified. Number of e-vouchers issued were 18 386 to the value of R83 865 900	EC = 9 927 FS = 2 905 GP = 2 594 LP = 7 707 KZN = 13 134 MP = 8 942 NC = 1 649 NW = 5 505 WC = 923	1 000 000 was allocated for the PESI Project	231 546 was transferred to assist 53 286 beneficiaries	Number of subsistence producers supported through COVID-19 Relief Fund	Disaster relief for distressed subsistence producers due to COVID-19

5. TRANSFER PAYMENTS TO ALL ORGANISATIONS OTHER THAN PUBLIC ENTITIES

The following table reflects the transfer payments made for the period 1 April 2020 to 31 March 2021.

Name of transferee	Type of organisation	Purpose for which funds were used	Did the dept. comply with	Amount transferred	Amount spent by the entity	Reasons for funds not spent by the entity
Province				R'000	R'000	
EC	Provincial department	CASP, LandCare and Ilima/Letsema	N/A	240 420	232 868	Delay in implementation of projects due to poor performance of contractors and the impact of COVID-19 restrictions

6. CAPITAL INVESTMENT, MAINTENANCE AND ASSET MANAGEMENT PLAN

Infrastructure projects currently in progress:

Air-conditioning and electrical installation: Repair and Maintenance Programme (RAMP) project at Sefala building (WCS 044038): DPW experienced problems with the appointment of the consultants which has mainly been the cause of the delay in the project since 2010. They had appointed consultants to do the electrical and mechanical installation of this repair and maintenance project to no success. Their services were terminated in 2019 to avoid any further delays. They then decided to do this project in-house whereby they use the services of their own internal engineers. The project is moving swiftly and the engineers have decided to redo the whole process from the beginning since a lot of repairs that was done is not functional at all. The proposed plan going forward is to use their internal departmental engineers as consultants and next they will be busy working on advertising for contractor appointment.

- Construction of sniffer dog facility (WCS 051626): This project has been placed on status 8. Town Planning requested that the planning be reversed so that they are able to appoint consultants. Alternatively, reports for the project are requested from the Project Manager so that Town Planning can clear the site. A new Procurement Instruction for the project will have to be issued since the existing PI was issued for the project at the Stellenbosch Plant Quarantine Station. A new WCS number (WCS 055808) has been issued with no progress report whatsoever.
- Alterations to the entrance at Polka Drive (WCS 051209): A new project that was registered on 20/03/2018. Officials from KAM Head Office were reminded of various fruitless attempts to obtain Procurement Instruction that would have been issued for this project. The DPW Cape Town Regional Office reported that enquiries have been made to the KAM Head Office on issuing of the WCS number and Procurement Instruction for the project and requested to inform DAFF whether a reply has been obtained or not. No response has been received to date.
- Construction of seed banks in Sterkspruit (WCS 051639): The project manager and KAM Head Office officials has been reminded that application for the land division to construct seed banks had been promised to provide DAFF with alternative options.
- WCS 052458: Site clearance for the construction of the seed banks: Sterkspruit: A consultant has been appointed to conduct studies on the approved site. A rezoning could not be finalised because it was not approved. An alternative site was identified with the Department of Correctional Services site. A meeting between the DCS and NDPW is being arranged to facilitate the subdivision of the property to allocate land to the Department of Agriculture.
- Upington: A PDIR has been issued to Town Planning to conduct site clearance on 12 February 2020. A new WCS number (WCS 055787) has been issued awaiting the progress report from the Kimberley DPW Regional Office.
- Refurbishment and extension of the Skukuza Veterinary Building (WCS 052069): Practical completion was taken on 30/05/2017. The Preliminary Certificate of Completion was signed by both parties on 05/09/2018. Site inspection of minor cracks in laboratory was conducted and the contractor did fix all cracks as promised. On 01/02/2019, the Project Manager advised the role-players that inspection will take place on 07/02/2019. The final handover was done on 07/12/2019. A final account with penalties was issued to the department on May 2021 and DALRRD has requested DPW to confirm that no further payments will be made by DALRRD.
- Construction of Durban Quarantine Station (WCS 045521): The project has been placed in status 4c and no progress has been made.
- Upgrading and maintenance of building and laboratories: Repairs to glasshouses and plant tunnels—Stellenbosch Plant Quarantine Station (WCS 052777): Practical completion was done on 12/12/2019. DAFF was awaiting a final handover together with the Certificate of Completion which would probably have taken place in 2020 after the lifting of the lockdown. A DAFF team had visited

the site together with the Project Manager to discuss the handover when the minister will be requested to come and do the opening of the facility. Completion has been done.

- Repair and renovation of offices at the old SABS building, 116 Church street, Bloemfontein (WCS 055123): A visual client forum meeting was held on 25 March 2021 with DPW and DALRRD and other stakeholders to discuss leases and the Capital Works Project in the Bloemfontein Regional Office. It was reported that the property needs to be registered in the name of National Government first. A land survey needs to be done to confirm the exact portion of the bigger property. DALRRD has received an e-mail from DPW Regional Office informing DALRRD that the ownership of the property is still an issue; however, the real estate managers are working on the solution regarding the state of the property. As soon as it is done, DPW will be able to prepare tender processes and inform DALRRD accordingly.
- Repairs and maintenance at Kempton Park Animal Quarantine Station (WCS 53727): On 16 April 2020, DPW has indicated in an email that, in order to proceed with the estimated cost for the project, they require DALRRD to provide them with the arrears of the existing building that needs to be renovated, including the horse stables, office block and hostel areas. This project is not moving forward but a meeting will be held on 28 June 2021 in Johannesburg Regional Office (DPW) to discuss the future of this project.
- Repairs and installation of infrastructure at Roodeplaat Genetic Resources Centre (WCS 052805): This project is under construction; DALRRD has requested a progress report, which will be submitted to DALRRD no later than end of May 2021. Claims have been received and paid to the contractor each month.
- Middelburg (EC): Grootfontein Agricultural Development Institute (GADI) (WCS 53304): The project is 50% complete. GADI is concerned about electrical issues. DALRRD Directorate: Sectoral Colleges will send a formal report and the matter will be escalated. Boreholes have been repaired and are in a good working condition.
- WCS (055153): Feasibility study for the procurement of new Head Office in Agriculture place: An amount of R15 million was required for the transfer of funds for the feasibility study. In 2017/2018, DAFF transferred only R10 million under CAPEX and the R5 million was transferred in the 2018/2019 financial year. A submission was forwarded to the minister for approval for continuation of the project – New Head Office for former Department of Agriculture, Forestry and Fisheries; Tshwane Prinshof Farm 349. It was recommended that the continuation will save the department an amount of R17,5 million annually on leases and municipal services, excluding 10% annually increment. The project will also improve organisational operations efficiency based on the current approved structure. Management is to inform of this project since it is in their hands now.
- WCS (055097): Site clearance: Township establishment on the part of the remaining extension of the Farm Prinshof: Awaiting feasibility to be concluded, then the planning of the construction will kick off.
- WCS (051592): Construction of one seed bank (MUTALE): The project is on hold pending the site clearance of the project (WCS 0542459).
WCS 054259: Mutale: DAFF was informed on 28/05/2019 that a clearance certificate had been issued and that a request for vesting of the portion of land had been sent to KAM Head Office for an instruction to be issued by HO. No further updates were however received despite various reminders sent to KAM HO.
- Request to conduct a site audit of the areas which require ramp facilities for disabled officials at Head Office buildings in DAFF (WCS 52356): The site visit was conducted during March before the official lockdown. The officials from DAFF and DPW inspectors conducted the inspection concerning ramps, all male/female toilet and disability toilet in Agriculture Place. DPW to send a report of the findings to DAFF for the Procurement Instruction to be issued. The continuation of this project is still to be confirmed.

- Rehabilitation of the two dams, including repair of dam wall at Stellenbosch Plant Quarantine Station (WCS 54896): A specialist environmental consultant has been appointed for the environmental screening process and drafting of a Maintenance Management Plan. The MMP has been submitted and approved by DEA. Concept reports have been submitted to Head Office for approval. Consultants have started with designs for this projects and claims are being paid as submitted to DALRRD.
- Construction of classroom building on the GADI campus in Middleburg (WCS 055587): DPW issued the Procurement Instruction to Port Elizabeth (PE) on 28 December 2019.
- The first client briefing session between the Department of Public Works and GADI took place on 4 May 2021. The objective of the briefing session was to confirm the scope of works before the consultants are briefed. This would prevent possible fruitless expenditure that might be incurred if amendments to the scope of works are requested at a later stage. The cost estimate for the project going forward is R60 041 898, consisting of R6 671 322 for consultants' fees and R53 370 576 for construction fees.

PROJECTS AWAITING WCS NUMBERS:

- External repairs and renovations of the fruit laboratory and analytical services building at Stellenbosch Plant Quarantine Station.
- New security fence around Blocks A and B at Stellenbosch Plant Quarantine Station will be incorporated into the project for alterations to existing entrance and exit to Stellenbosch Plant Quarantine Station.
- Upgrade of the electrical Reticulation Block A and B at Stellenbosch Plant Quarantine Station.
- Milnerton Quarantine Animal Station: Upgrading of infrastructure: The DPW again requested to revise the needs assessment, which DALRRD has sent for the signature of the CFO, once approved, it will be forwarded to DPW.

7. CONDITIONAL GRANTS

Conditional grant 1: Comprehensive Agricultural Support Programme

Department to which the grant has been transferred	Eastern Cape Department of Rural Development and Agrarian Reform
Purpose of the grant	<ul style="list-style-type: none"> To provide effective agricultural support services, promote and facilitate agricultural development by targeting beneficiaries of land restitution and redistribution and other previously disadvantaged producers who have acquired land through private means, and are engaged in value-adding enterprises domestically, or involved in export To address damage to infrastructure caused by floods
Expected outputs of the grant	<ul style="list-style-type: none"> Subsistence, smallholder and commercial farmers supported through CASP Youth and women farmers supported through CASP On- and off-farm infrastructure provided CASP beneficiary supported with SA-GAP certification Jobs created CASP beneficiaries trained on farming methods and farms receiving mentoring Unemployed graduates placed in commercial enterprises for potential skills transfer CASP beneficiaries supported with market access Extension personnel maintained in the system Colleges of Agriculture upgrading infrastructure
Actual outputs achieved	<ul style="list-style-type: none"> 22 subsistence, 2 824 smallholder and 18 commercial farmers supported through CASP 423 youth and 1 379 women farmers supported through CASP 84 on- and off-farm infrastructure provided No CASP beneficiary supported with SA-GAP certification 1 071 jobs created 1 115 CASP beneficiaries trained on farming methods, 210 farm workers trained and 6 farms receiving mentoring 102 unemployed graduates placed in commercial enterprises for potential skills transfer 526 Extension personnel maintained in the system Implementation of KyD projects <ul style="list-style-type: none"> 3 interns employed 1 877 farmers trained 1 375 farmers captured on INTERGIS
Amount per amended DORA	R177 836
Amount received	R177 836
Reasons if amount as per DORA not received	None
Amount spent by the department	R171 270
Reasons for the funds unspent	<ul style="list-style-type: none"> Senqu, Engcobo, Enoch Mjijima and Matatiele could not be completed in the 2020/21 financial year due to technical and financial capability of contractors. This resulted in Sonwabile (Matatiele) shearing shed being cancelled and others with letters of demand for performance being issued to contractors. This resulted in delays in both physical and financial progress, thereby causing under expenditure;

Department to which the grant has been transferred	Eastern Cape Department of Rural Development and Agrarian Reform
	<ul style="list-style-type: none"> • The delay in completion of Krila and Craighead fences for Amathole Citrus resulted to under expenditure. Fences were delayed due to the contractor not observing OHS regulations in terms of supplying casual workers with protective clothing and resulted in a strike that lasted for two weeks together with poor workmanship that has seen the project work being redon; • Land preparation for the Krila and Craighead projects could not be completed due to the delays in the installation of the irrigation systems. The project had to be put on hold until an irrigation system was installed and the trees are close to delivery. The delays were the result of the partner responsible for installation of the irrigation system and the buying of trees being withdrawn due to the shortage of funds; • Owing to COVID-19 causing delays in the implementation of all construction work, retention fees for dipping tanks from Alfred Nzo and OR Tambo could not be paid as not all the liability matters were met at year end; <p>The scarcity of steel in the country due to the COVID-19 lockdown resulted in the fencing materials being delivered late in the year; as a result, the erection of fences could not be completed and will be completed in the 2021/22 financial year</p>
Reasons for deviation on performance	<ul style="list-style-type: none"> • Senqu, Engcobo, Enoch Mjijima and Matatiele could not be completed in the 2020/21 financial year due to technical and financial capability of contractors. This resulted in Sonwabile (Matatiele) shearing shed being cancelled and others with the letters of demand for performance being issued to contractors. This resulted into delays in both physical and financial progress, thereby causing under expenditure; • The delay in completion of Krila and Craighead fences for Amathole Citrus resulted to under expenditure. Fences were delayed owing to the contractor not observing OHS regulations in terms of supplying casual workers with protective clothing and resulted in a strike that lasted for two weeks together with poor workmanship that has seen the project work being redone. These projects are projected to be completed in May 2021; • Land preparation for the Krila and Craighead projects could not be completed due to the delays in the installation of the irrigation systems. The project had to be put on hold until an irrigation system was installed and the trees are close to delivery. The delays were as a result of the partner that was responsible for installation of the irrigation system and buying of trees that withdrew due to the shortage of funds; • Owing to delays in implementation, retention fees for dipping tanks from Alfred Nzo and OR Tambo could not be paid as not all the liability matters were met at year end; • The scarcity of steel in the country due to the COVID-19 lockdown resulted into the fencing materials being delivered late in the year; as a result, the erection of fences could not be completed and will be completed in the 2021/22 financial year
Measures taken to improve performance	<ul style="list-style-type: none"> • In-depth analysis and improvement of the departmental LED policy to accommodate reasonable service provider demands. Conduct road shows to orientate service providers on departmental policies and relevant legislation • Enforce smarter tracking of contractor progress by enforcing work schedules and tighter contract management and, in turn, timely replacement of contractors;

Department to which the grant has been transferred	Eastern Cape Department of Rural Development and Agrarian Reform
	<ul style="list-style-type: none"> Conducting proper evaluation of the entire infrastructure delivery value chain to identify bottlenecks, and weaknesses in the system. The evaluation will also include identification of risks and mitigation measures
Monitoring mechanism by the receiving department	Physical site visits and project reporting are conducted weekly to ensure quality, enhance physical progress and prevent payment delays.

Conditional grant 2: Ilima/Letsema Summary

Department to which the grant has been transferred	Eastern Cape Department of Rural Development and Agrarian Reform
Purpose of the grant	<ul style="list-style-type: none"> To assist vulnerable South African farming communities to achieve and increase in agricultural production and invest in infrastructure that unlocks agricultural production within strategically identified grain, livestock, horticulture and aquaculture areas.
Expected outputs of the grant	<ul style="list-style-type: none"> Land under agriculture production Yield per unit area Superior breeding animals acquired and distributed to farmers Jobs created Beneficiaries/farmers supported by the grant per category Hectares of rehabilitated and expanded irrigation scheme Number of farmers who are women, youth and people living with disabilities supported per category
Actual outputs	<ul style="list-style-type: none"> 19 246 households supported for household food production 22 809 ha were planted with grain, vegetables and fodder
Amount per amended DORA (R'000)	R50 360
Amount received (R'000)	R50 360
Reasons if amount as per DORA was not received	None
Amount spent by the department (R'000)	R49 756
Reasons for the funds unspent by the entity	<ul style="list-style-type: none"> Finds for household production was not fully spent due to service providers that could not deliver full production pack order per household in Amathole and OR Tambo. These service providers struggled to secure dual-purpose chickens and LAN fertiliser due to shortages in the country; The mechanisation contractors on grain production struggled to finish all operations in Alfred Nzo, Amathole and OR Tambo due to rainfall and flooded croplands. In Joe Gqabi, farmers withdrew from the programme after mechanisation contractors have been contracted
Reasons for deviations on performance	<ul style="list-style-type: none"> The household production support was not achieved due to delayed delivery of dual-purpose chickens and LAN fertiliser; Hectares planted with grain were not met due to farmers withdrawing late from the programme and the interment rainfall in the coastal and high altitudes that led to some mechanisation operations not done. In other cases, other lands was not cropped at all
Measures taken to improve performance	<ul style="list-style-type: none"> The procurement process and strategy have been changed to ensure that all orders are issued before the start of the production season; The suppliers will be limited in several districts that they can supply with the requisite inputs

Department to which the grant has been transferred	Eastern Cape Department of Rural Development and Agrarian Reform
Monitoring mechanism by the receiving department	<ul style="list-style-type: none"> • Monthly and quarterly reporting • Conducting site visits during production season

Conditional grant 1: Comprehensive Agricultural Support Programme Summary

Department to which the grant has been transferred	Free State Department of Agriculture and Rural Development
Purpose of the grant	<ul style="list-style-type: none"> • To make provision for agricultural support to the targeted beneficiaries of the Land and Agrarian Reform Programme within the Free State; • To expand the provision of agricultural support services and promote and facilitate agricultural development by targeting subsistence, smallholder and commercial farmers; • To assist with (a) Diversifying of agricultural products, (b) Improving access to markets, (c) Developing institutional capacity for SMME development and (d) creating AgriBEE opportunities for the targeted groups
Expected outputs of the grant	<ul style="list-style-type: none"> • 185 smallholders and no commercial farmers supported through CASP • 31 projects to be supported with on- and off-farm infrastructure • 13 CASP beneficiaries supported with SA-GAP certification • 224 jobs to be created • 1 550 CASP beneficiaries trained on farming methods and 40 projects receiving mentorship. • 120 unemployed graduates placed in commercial enterprises for potential skills transfer • 30 extension personnel maintained in the system • 1 agricultural college upgrading infrastructure
Actual outputs achieved	<ul style="list-style-type: none"> • 982 subsistence, 130 smallholder and no black commercial farmers were supported through CASP • 28 youth and 10 women farmers were supported through CASP • 31 projects assisted with on- and off-farm infrastructure • 13 CASP beneficiaries supported with SA-GAP certification • 880 CASP beneficiaries trained on farming methods • 18 projects were supported with mentorship (111 beneficiaries) • 116 unemployed graduates placed on farms and agribusiness sites for potential skills transfer • 32 beneficiaries supported with marketing, infrastructure and equipment • 30 extension personnel salaries paid and maintained in the system • Glen Agricultural College upgrading infrastructure
Amount per amended DORA	R141 745
Amount transferred	R141 745
Amount after rollover	R159 764
Reasons if amount as per DORA not received	N/A
Amount spent by the department	R141 745
Reasons for the funds unspent	<ul style="list-style-type: none"> • Delay in payment of invoices (College, ATDC, KyD, etc.) • Delay in appointment of new intake of graduates • Delay in tender process approval for ATDC (Aquaculture Training and Demonstration Centre)
Reasons for deviation on performance	<ul style="list-style-type: none"> • Adjusted budget/budget cuts for CASP led to amendment of targeted expected outputs of the grant

Department to which the grant has been transferred	Free State Department of Agriculture and Rural Development
Measures taken to improve performance	<ul style="list-style-type: none"> Strengthening project coordination in terms of planning, implementation and monitoring
Monitoring mechanism by the receiving department	<ul style="list-style-type: none"> Monthly, quarterly and annual reports and project monitoring

Conditional grant 2: Ilima/Letsema

Department to which the grant has been transferred	Free State Department of Agriculture and Rural Development
Purpose of the grant	It seeks to contribute towards implementation of the integrated Food Security Policy and Land Reform in achieving growth, and reducing poverty, unemployment and inequalities. To assist rural communities to achieve an increase in agricultural production and invest in infrastructure that unlocks agricultural production within strategically identified grain, livestock, horticulture and aquaculture production areas.
Expected outputs of the grant	<ul style="list-style-type: none"> 10 000 ha planted 175 jobs created 12 520 households food gardens 250 institutions supported with production inputs 46 449 subsistence farmers supported 93 smallholder farmers supported 50 black commercial farmers were supported
Actual outputs achieved	<ul style="list-style-type: none"> 3 418,3 ha planted as follows: <ul style="list-style-type: none"> 1 067 ha maize 2 070 ha sunflower 200 ha pastures 81,3 ha vegetables 145 jobs were created 6 250 households food gardens 50 institutions supported food gardens inputs 2 436 subsistence farmers were supported 108 smallholder farmers were supported 5 black commercial farmers were supported
Amount per amended DORA	R50 720
Amount transferred	R50 720
Amount after rollover	R52 649
Reasons if amount as per DORA not transferred	None
Amount spent by the department	R50 720
Reasons for the funds unspent	Delay in payment of invoices and commitments
Monitoring mechanism by the receiving department	Monthly, quarterly and annual reporting. Physical project visits (Project monitoring)

Conditional grant 1: Comprehensive Agricultural Support Programme

Department to which the grant has been transferred	Gauteng Department of Agriculture and Rural Development (GDARD)
Purpose of the grant	<ul style="list-style-type: none"> To provide effective agricultural support services, promote and facilitate agricultural development by targeting beneficiaries of land restitution and redistribution, and other previously disadvantaged producers who have acquired land through private means, and are engaged in value-adding enterprises domestically, or involved in export;

Department to which the grant has been transferred	Gauteng Department of Agriculture and Rural Development (GDARD)
Expected outputs of the grant	<ul style="list-style-type: none"> To address damage to infrastructure caused by floods 60 smallholder farmers supported through CASP 10 youth and 15 women farmers supported through CASP CASP beneficiary supported with SA-GAP certification 82 jobs created 740 CASP beneficiaries trained on farming methods, and no farms receiving mentoring 80 unemployed graduates placed on commercial enterprises for potential skills transfer CASP beneficiaries of supported with markets access 126 extension personnel maintained in the system
Actual outputs achieved	<ul style="list-style-type: none"> 56 smallholder farmers were supported through CASP 5 youth and 34 women farmers were supported through CASP 3 CASP beneficiaries supported with SA-GAP certification. No smallholder producers supported with advocacy on SA-GAP certification and related processes, no CASP SA-GAP beneficiaries certified in 2020/21 382 CASP beneficiaries trained on farming methods 80 unemployed graduates placed in commercial enterprises for potential skills transfer 60 CASP beneficiaries with markets identified 126 extension personnel salaries paid and maintained in the system
Amount per amended DORA	R81 735
Amount received	R81 735
Reasons if amount as per DORA not received	N/A
Amount spent by the department	R81 735
Reasons for the funds unspent	<ul style="list-style-type: none"> Delays in implementation due to COVID-19 budget adjustments
Reasons for deviation on performance	<ul style="list-style-type: none"> N/A

Monitoring mechanism by the receiving department	<ul style="list-style-type: none"> Monthly, quarterly and annual reports provided Quarterly review meetings attended and performance reports presented Project site visits to verify implementation conducted on quarterly basis

Conditional grant 2: Ilima/Letsema 2020-2021

Department to which the grant has been transferred	Gauteng Department of Agriculture and Rural Development (GDARD)
Purpose of the grant	To assist vulnerable South African farming communities to achieve an increase in agricultural production and invest in infrastructure that unlocks agricultural production within strategically identified grain, livestock, horticulture and aquaculture production areas
Expected outputs of the grant	<ul style="list-style-type: none"> 3 800 ha maize planted 19 000 tons of maize produced within agricultural development corridors 150 jobs created 3 660 household food gardens; 60 schools food gardens and 20 community food gardens supported with inputs 3 660 subsistence farmers supported (as reported above)

	<ul style="list-style-type: none"> • 120 smallholder farmers supported • 11 black commercial farmers were supported
Actual outputs achieved	<ul style="list-style-type: none"> • 4 366 ha were planted (disaggregate per commodity) • 21 830 tons of maize produced within agricultural development corridors. Most farmers has not harvested as yet. • 200 jobs were created • 3 047 household food gardens; 89 schools food gardens and 138 community food gardens were supported with inputs • 648 subsistence farmers were supported • 175 smallholder farmers were supported • 16 black commercial farmers were supported
Amount per amended DORA	R25 403
Amount transferred	R25 403
Reasons if amount as per DORA not transferred	N/A
Amount spent by the department	R25 403
Reasons for the funds unspent	Delay in payment of invoices and commitments
Monitoring mechanism by the receiving department	Monthly, quarterly and annual reporting. Physical project visits (Project monitoring)

Conditional grant 1: Comprehensive Agricultural Support Programme (CASP) Summary 2020/2021

Department to which the grant has been transferred	KwaZulu-Natal Department of Agriculture and Rural Development
Purpose of the grant	To provide effective agricultural support services, promote and facilitate agricultural development by targeting beneficiaries of land restitution and redistribution, and other previously disadvantaged producers who have acquired land through private means, and are engaged in value-adding enterprises domestically, or involved in export
Expected outputs of the grant	<ul style="list-style-type: none"> • 8 subsistence, 1 763 smallholder and 45 commercial farmers supported through CASP • 171 youth and 961 women farmers supported through CASP • 61 on-and off-farm infrastructure provided • 5 CASP beneficiaries supported with SA-GAP certification • 1 262 jobs created. • 460 CASP beneficiaries trained on farming methods and 50 farms receiving mentoring • 120 unemployed graduates placed in commercial enterprises for potential skills transfer • 300 CASP beneficiaries supported with markets access • 40 extension personnel maintained in the system • 2 Colleges of Agriculture upgrading infrastructure (OSCA and Cedara)
Actual outputs achieved	<ul style="list-style-type: none"> • 8 subsistence, 1 792 smallholder and 30 black commercial farmers were supported through CASP • 442 youth and 956 women farmers were supported through CASP • 61 on-and off-farm infrastructure was provided • No CASP beneficiaries supported with SA-GAP certification • 1 275 jobs created • 12 smallholder producers supported with advocacy on SA-GAP certification and related processes, no CASP SA-GAP beneficiaries certified in 2020/21 • 486 beneficiaries of CASP trained on farming methods

Department to which the grant has been transferred	KwaZulu-Natal Department of Agriculture and Rural Development
	<ul style="list-style-type: none"> • 37 farms receiving mentoring • 120 unemployed graduates placed in commercial enterprises for potential skills transfer • 310 CASP beneficiaries with markets identified • 40 extension personnel salaries paid and maintained in the system • 2 Colleges of Agriculture upgrading infrastructure—OSCA and Cedara.
Amount per amended DORA	R161 086
Amount received	R161 086
Reasons if amount as per DORA not received	N/A
Amount spent by the department	R161 086
Reasons for the funds unspent	The impact of the COVID-19 pandemic national lockdown resulted in delays in some of the projects' planned activities such as delays in the appointment of contractors for infrastructure development and difficulties in accessing the necessary material and equipment
Measures taken to improve performance	In Quarter 3 of the financial year, the department embarked on the re-prioritisation process in order to postpone projects with activities that were taking longer to be finished, e.g., application for water licenses and EIAs
Monitoring mechanism by the receiving department	Quarterly reports and projects verification visits to funded projects

Conditional grant 2: Ilima/Letsema 2020/2021

Department to which the grant has been transferred	KwaZulu-Natal Department of Agriculture and Rural Development
Purpose of the grant	To assist vulnerable South African farming communities to achieve an increase in agricultural production and invest in infrastructure that unlocks agricultural production within strategically identified grain, livestock, horticulture and aquaculture production areas
Expected outputs of the grant	<ul style="list-style-type: none"> • 6 824 ha planted of which 5 000 ha is maize, 824 ha dry beans and 1 000 ha of vegetables • 20 tons of maize and 1,5 tons dry beans produced within agricultural development corridors • 2 720 jobs created • 18 000 household food gardens, five school food gardens and 38 community food gardens supported with inputs • 946 subsistence farmers supported • 1 684 smallholder farmers supported • 20 black commercial farmers supported • 2 irrigation scheme projects revitalised
Actual outputs achieved	<ul style="list-style-type: none"> • 6 824 ha planted of which 5 000 ha is maize, 824 ha dry beans and 1 000 ha vegetables • 17 tons of maize and 1,2 tons of dry beans produced within agricultural development corridors • 2 228 jobs were created • 18 200 households food gardens, five school food gardens and 38 community food gardens supported with inputs • 1 208 subsistence farmers were supported • 1 677 smallholder farmers were supported • 15 black commercial farmers were supported • 2 irrigation schemes were revitalised (<i>Makhathini, Phumelela</i>)
Amount per amended DORA	R54 273

Amount transferred	R54 273
Reasons if amount as per DORA not transferred	N/A
Amount spent by the department	R54 273
Reasons for the funds unspent	The COVID-19 negatively impacted on the departmental processes, in terms of appointing service providers and accessing of material and equipment for implementation of projects
Monitoring mechanism by the receiving department	Quarterly reports and project verification visits to funded projects

Conditional grant 1: Comprehensive Agricultural Support Programme

Department to which the grant has been transferred	Limpopo Department of Agriculture and Rural Development
Purpose of the grant	To expand the provision of agricultural support services, promote and facilitate agricultural development by targeting subsistence, smallholder and commercial producers
Expected outputs of the grant	<ul style="list-style-type: none"> • 21 projects (321 beneficiaries—smallholder and commercial producers) supported with on-farm and off-farm infrastructure to improve production and market opportunities • Improved knowledge and skills of 1 050 farmers through capacity building programme • Improved knowledge and skills of 10 projects through mentorship programme • 120 unemployed graduates placed on farms • Improved capacity of extension officers to support farmers with agricultural advice through maintaining salaries of 53 Extension Practitioners and maintain subscription fees of smart pens and digital software. • Upgrading two colleges of agriculture by rehabilitating and constructing new buildings.
Actual outputs achieved	<ul style="list-style-type: none"> • 21 projects were supported with infrastructure: <ul style="list-style-type: none"> ○ 14 projects are completed ○ 7 projects are currently at service providers and are at different stages of construction • 908 smallholder producers received training. The department underachieved by 142 farmers due to restrictions on mass gathering; • 6 projects received knowledge and skills through mentorship programmes. Underachieved by 4 projects due to difficulty in facilitating and congregating farmers for mentorship intervention; • Maintained 108 graduates placed on farms and contract lapsed in August 2020. Placement of second cohort of 120 delayed due to COVID-19 related restrictions; • Maintained salaries of 53 extension practitioners and paid annual subscription fee of digital software. • 2 projects implemented under colleges of agriculture: one completed at Madzivhandila College and one is at construction stage at Tompi Seleka College.
Amount per amended DORA	R172 254
Amount received	R172 254
Reasons if amount as per DORA was not received	N/A
Amount spent by the department	R118 332
Reasons for the funds unspent	Total amount of R53 379 000 not spent owing to COVID-19 pandemic restrictions as outlined: total budget of R35,4 million was

	not utilised under farmer support pillar due to incomplete infrastructure projects; difficulty in conducting farmers training due to mass gathering restrictions; level 5 lockdown had an impact on the farm assessment of hosting farms for placement of unemployed graduates and post-settlement support packages. KyD intervention worth of R4 093 000 not conducted due to late finalisation of MoU with ARC. ERP recruitment budget of R14,1 million not spent due to delayed advertisement of 19 Extension Personnel posts.
Measures taken to improve performance	Structures are established within the department to monitor expenditure trends and assist with unblocking strategies
Monitoring mechanism by the receiving department	The conditional grant quarterly review meetings were held to monitor grant performance and implementation. Reports were compiled on a monthly and quarterly basis to present progress report of the grant

Conditional grant 2: Ilima/Letsema 2020/2021

Department to which the grant has been transferred	Limpopo Department of Agriculture and Rural Development
Purpose of the grant	To assist vulnerable South African farming communities to achieve an increase in agricultural production and invest in infrastructure that unlocks agricultural production within strategically identified grain, livestock, horticulture and aquaculture production areas
Expected outputs of the grant	<ul style="list-style-type: none"> • 7 208 ha planted, of which 3 849 ha is maize, 261 ha sorghum, 468 ha dry beans/sugar beans, 410 ha cotton, 200 ha sunflower, 1 325 ha vegetables and 545 ha fruit (production input support only), etc. • 7 698 tons (2 tons/ha of maize), 522 tons (2 tons/ha sorghum), 842 tons (1,8 tons/ha Dry beans/sugar beans), 1 230 tons (3 tons/ha cotton) produced within agricultural development corridors • 3 212 jobs created • 5 380 households food gardens 30 schools' food gardens and 15 community food gardens supported with inputs • 6 614 subsistence farmers supported • 1 138 smallholder farmers supported • 241 black commercial farmers were supported • No irrigation schemes revitalised
Actual outputs achieved	<ul style="list-style-type: none"> • 7 604,85 ha were planted (disaggregate per commodity): 3422,18 ha of maize, 1 520,97 ha of sorghum, 1 140,72 ha of beans, 152,09 cotton • 5 133,3 tons of maize, 2 083,7 tons of sorghum, 2 053,3 tons of beans, 426,3 tons of cotton produced within agricultural development corridors • 6 433 jobs were created • 5 388 households food gardens 65 schools food gardens and 19 community food gardens were supported with inputs • 5 641 subsistence farmers were supported • 1 718 smallholder farmers were supported • 218 black commercial farmers were supported • No irrigation schemes were revitalised
Amount per amended DORA	R52 231
Amount transferred	R52 231
Reasons if amount as per DORA not transferred	N/A
Amount spent by the department	R52 231
Reasons for the funds unspent	N/A

Monitoring mechanism by the receiving department	The Office of the National Transferring Officer monitored and evaluated projects during the COVID-19 pandemic whenever it was possible. The province held conditional grant quarterly review meetings were held to monitor grant performance and implementation. Financial reports were compiled and submitted monthly and quarterly reports were also compiled and submitted on a quarterly basis to present progress report of the grant. The provincial office monitored the grant through submissions of project implementation progress by the districts and municipality coordinators. Project monitoring and evaluation was conducted although this could not be done as planned due to COVID-19 restrictions.

Conditional Grant 1: Comprehensive Agricultural Support Programme 2020/2021

Department to which the grant has been transferred	Western Cape Department of Agriculture	
Purpose of the grant	To provide effective agricultural support services, promote and facilitate agricultural development by targeting beneficiaries of land reform, restitution and redistribution, and black producers who have acquired land through private means and are engaged in value-adding enterprises domestically, or involved in export	
Expected outputs of the grant	<ul style="list-style-type: none"> • Subsistence, smallholder (61) and commercial (30) farmers supported through the conditional grants • Youth (32) and female (151) farmers supported through CASP • 8 beneficiaries supported with SA-GAP certification • 3 215 CASP beneficiaries trained on farming methods • On-farm infrastructure provided • 401 CASP beneficiaries with markets identified • 32 extension personnel recruited and maintained in the system • 1 Agricultural Information Management System (AIMS) maintained • 120 graduate interns appointed • 1 college of agriculture upgrading infrastructure 	
Actual outputs achieved	Number of subsistence, smallholder and black commercial farmers supported through CASP	Subsistence: 0 Smallholder: 26 Commercial: 30 (benefitting 812 beneficiaries)
	Number of youth and female (beneficiaries) farmers supported through CASP	Youth: 131 Women: 355 People with disabilities: 0
	Number of beneficiaries supported with SA-GAP certification	8
	Number of CASP beneficiaries with markets identified	2 586 beneficiaries received training (73 x accredited and 2 513 non-accredit training) 4 388 farmers were reached through Extension and Advisory Services. Site visits were conducted through the Smart Pen-system 60 mentors were appointed to support smallholder farmers 89 graduate interns were appointed

	Number of Extension Personnel recruited and maintained in the system	10 agricultural advisors were maintained through ERP pillar of recruitment and maintenance
	CASP beneficiaries trained on farming methods	16 irrigation/Water infrastructure 2 X livestock production infrastructure 46 X Crop production 12 on- and off-farm infrastructure 37 mechanisation 15 X livestock
	Colleges upgrading infrastructure	Eisenburg Agricultural College
	Agricultural Information Management System (AIMS)	System maintained
Amount per amended DORA	R89 301	
Amount received	R89 301	
Reasons if amount as per DORA was not received	All amounts per DORA were received	
Amount spent by the department	R89 302 (Including R2,121 million for Eisenburg Agricultural College)	
Reasons for the funds unspent	N/A	
Measures taken to improve performance	N/A	
Monitoring mechanism by the receiving department	Quarterly review meetings were scheduled by DALRRD for provinces to report on the performance of the grant Monthly financial reports were submitted to the transferring department on the fifteenth of every month Quarterly reports submitted to the transferring department by the 20 th after the reporting quarter	

Conditional grant 2: Ilima/Letsema 2020/21

Department to which the grant has been transferred	Western Cape Department of Agriculture	
Purpose of the grant	To assist vulnerable South African farming communities to achieve an increase in agricultural production and invest in infrastructure that unlocks agricultural production within strategically identified grain, livestock, horticulture and aquaculture production areas	
Expected outputs of the grant	<ul style="list-style-type: none"> • 4 000 ha planted • 8 000 tons produced within agricultural development corridors, e.g. maize • 1 365 beneficiaries/entrepreneurs supported by the grant • Number of newly established infrastructure plants through the grant • Number of hectares rehabilitated and expanded irrigation schemes 	
Actual outputs achieved	Hectares planted	4 033,70 ha
	Tons produced within agricultural corridors, e.g. wheat	8 068 tons
	Beneficiaries supported by the grant	Subsistence: 5 799 Smallholder: 35 Commercial: 8
	Newly established infrastructure produced through the grant	6 irrigation/water infrastructure projects

		3 animal husbandry 1 aquaculture structure 4 crop production projects 3 green housing structures 5 fencing projects 2 processing and packaging facilities 15 mechanisation 7 livestock projects 3 professional services (EIA)
	Hectares rehabilitated and expanded irrigation schemes	N/A

Purpose of the grant	To promote sustainable use and management of natural resources by engaging in community-based initiatives that support the pillars of sustainability (social, economic and environmental), leading to greater productivity, food security, job creation and better well-being for all
Expected outputs of the grant	<ul style="list-style-type: none"> • 3 781 ha of natural rangeland rehabilitated and/or protected through sustainable rangeland management systems • 30 ha of cultivated land rehabilitated from and/or protected against land degradation • 261 ha of land under Conservation Agriculture • 100 youth successfully attending organised Junior LandCare initiatives • No hectares of land where water resources are protected and rehabilitated • 197 people with improved capacity and skill levels benefiting from capacity building initiatives • 19 capacity building exercises conducted • 13 awareness campaigns conducted • No hectares of land where weeds and invader plants are under control • 56 km of fence erected • 273 green jobs created expressed as full-time equivalents (FTEs) • 36 LandCare committees established
Actual outputs achieved	<ul style="list-style-type: none"> • 3 590 ha of natural rangeland rehabilitated and/or protected through sustainable rangeland management systems • No hectares of cultivated land rehabilitated from and/or protected against land degradation • 233 ha of land under Conservation Agriculture • No youth successfully attending organised Junior LandCare initiatives • No hectares of land where water resources are protected and rehabilitated • 136 people with improved capacity and skill levels benefiting from capacity building initiatives • 10 capacity building exercises conducted • 9 awareness campaigns conducted • No hectares of land where weeds and invader plants are under control • 17 kilometres of fence erected • 210 green jobs created expressed as full-time equivalents (FTEs) • 10 LandCare committees established
Amount per amended DORA	R12 224
Amount transferred	R12 224

Reasons if amount as per DORA not transferred	None
Amount spent by the department	R11 842
Reasons for the funds unspent	Late implementation of projects due to COVID-19 The province did not submit quarterly report
Monitoring mechanism by the transferring department	Project visit, quarterly and financial report

Department to which the grant has been transferred	Free State Department of Agriculture
Purpose of the grant	To promote sustainable use and management of natural resources by engaging in community-based initiatives that support the pillars of sustainability (social, economic and environmental), leading to greater productivity, food security, job creation and better well-being for all
Expected outputs of the grant	<ul style="list-style-type: none"> • 2 806 ha of natural rangeland rehabilitated and/or protected through sustainable rangeland management systems • 600 ha of cultivated land rehabilitated from and/or protected against land degradation • 497 ha of land under Conservation Agriculture • 800 youth successfully attending organised Junior LandCare initiatives • No hectares of land where water resources are protected and rehabilitated • 86 people with improved capacity and skill levels benefiting from capacity building initiatives • 2 capacity building exercises conducted • 8 awareness campaigns conducted • No hectares of land where weeds and invader plants are under control • No kilometres of fence erected • 139 green jobs created expressed as full-time equivalents (FTEs) • No LandCare committee established
Actual outputs achieved	<ul style="list-style-type: none"> • 3 215 ha of natural rangeland rehabilitated and/or protected through sustainable rangeland management systems • 600 ha of cultivated land rehabilitated from and/or protected against land degradation • 497 ha of land under Conservation Agriculture • 350 youth successfully attending organised Junior LandCare initiatives • No hectares of land where water resources are protected and rehabilitated • 6 people with improved capacity and skill levels benefiting from capacity building initiatives • 1 capacity building exercise conducted • 7 awareness campaigns conducted • No hectares of land where weeds and invader plants are under control • No kilometres of fence erected • 126 green jobs created expressed as full-time equivalents (FTEs) • No LandCare committee established
Amount per amended DORA	R8 278
Amount transferred	R8 278
Reasons if amount as per DORA not transferred	N/A

Amount spent by the department	R8 278
Reasons for the funds unspent	N/A
Monitoring mechanism by the transferring department	Project visit, quarterly and financial report The province did not submit a financial report for March and a noncompliance letter was sent to the province

Department to which the grant has been transferred	North West Department of Agriculture
Purpose of the grant	To promote sustainable use and management of natural resources by engaging in community-based initiatives that support the pillars of sustainability (social, economic and environmental), leading to greater productivity, food security, job creation and better well-being for all
Expected outputs of the grant	<ul style="list-style-type: none"> • 1 150 ha of natural rangeland rehabilitated and/or protected through sustainable rangeland management systems • No hectares of cultivated land rehabilitated from and/or protected against land degradation • 4 500 ha of land under Conservation Agriculture • No youth successfully attending organised Junior LandCare initiatives • No hectares of land where water resources are protected and rehabilitated • No people with improved capacity and skill levels benefiting from capacity building initiatives • No capacity building exercises conducted • No awareness campaigns conducted • 1 900 ha of land where weeds and invader plants are under control • 56 km of fence erected • 130 green jobs created expressed as full-time equivalents (FTEs) • No LandCare committee established
Actual outputs achieved	<ul style="list-style-type: none"> • 751 ha of natural rangeland rehabilitated and/or protected through sustainable rangeland management systems • No ha of cultivated land rehabilitated from and/or protected against land degradation • No ha of land under Conservation Agriculture • No youth successfully attending organised Junior LandCare initiatives • No ha of land where water resources are protected and rehabilitated • No people with improved capacity and skill levels benefiting from capacity building initiatives • No capacity building exercises conducted • No awareness campaigns conducted • 1 439 ha of land where weeds and invader plants are under control • No kilometres of fence erected • 133 green jobs created expressed as full-time equivalents (FTEs) • No LandCare committee established
Amount per amended DORA	R8 407
Amount transferred	R6 807
Reasons if amount as per DORA not transferred	Unsatisfactory financial performance
Amount spent by the department	R4 838

Reasons for the funds unspent	Late implementation of projects due to COVID-19 pandemic
Monitoring mechanism by the transferring department	Project visit, quarterly and financial report

Department to which the grant has been transferred	Gauteng Department of Agriculture
Purpose of the grant	To promote sustainable use and management of natural resources by engaging in community-based initiatives that support the pillars of sustainability (social, economic and environmental), leading to greater productivity, food security, job creation and better well-being for all
Expected outputs of the grant	Business plan not approved
Actual outputs achieved	Business plan not approved
Amount per amended DORA	R4 730
Amount transferred	R 2 154
Reasons if amount as per DORA not transferred	Business plan not approved
Amount spent by the department	R0
Reasons for the funds unspent	Business plan not approved
Monitoring mechanism by the transferring department	N/A

PART C:

Governance

1. INTRODUCTION

The department continued to maintain proper governance, risk and compliance processes. These processes assist the department to promote and entrench ethical culture with the aim to prevent and combat fraud and corruption. The Risk Management function is located in the Office of the Director-General, where it is allowed the independence it needs to properly discharge its governance duties.

2. RISK MANAGEMENT

The risk, governance and compliance processes have been continuously applied and maintained to protect the department against the known and unknown risk exposure. The department has an approved Governance, Risk and Compliance (GRC) Policy and Strategy, which provides guidance on the implementation and integration of risk management systems. The GRC Strategy is aligned to the current Medium-Term Strategic Framework (MTSF) and it provides the roadmap for the attainment of the mature risk culture.

The Director-General, assisted by the Executive Management Committee and Risk Management Committee, revised the department's risk profile and continued to manage and monitor key risks of compliance, operations, ethics and fraud. The revision of the risk profile was aligned to the strategy and annual performance plan, to ensure that efficient management of risks contributes towards the department's performance. The risk profile comprises of four categories as per Figure 1 below:

Figure 1: Risk profile categories

Risk Management Committee

During the financial year under review, the department strengthened its governance structures. This involved appointing a Risk Management Committee (RMC), which comprises of four external members with blend of skills, expertise and knowledge of the sector. The RMC is governed by approved Terms of Reference and it has authority to hold the management accountable for risk management processes applied in the department. The design of the RMC has enhanced risk management accountability in the department. The meetings were held as indicated in table 1 below:

Table 1: RMC meetings held during 2020/2021

No.	Name (External Members)	No. of meetings attended	Status	Date Appointed
1	Mr Musawakhe Khumalo	5 of 5	Chairperson	01 June 2020
2	Adv. T Moeng	5 of 5	External Member	01 October 2020
3	Ms J. Thupana	5 of 5	External Member	01 August 2020
4	Mr B. Buthelezi	5 of 5	External Member	01 August 2020

3. FRAUD AND CORRUPTION

The department continued to implement and maintain its anti-fraud and corruption processes, with the aim to prevent or reduce the magnitude. This was done through the guidance of the GRC policy and strategy. The department has continued to bolster its measures to reduce the risks of fraud and corruption. In addition to awareness programmes, there is a whistle blowing policy for officials to confidentially report suspected fraud and/or corruption.

As part of fraud/ corruption awareness the department conducted six fraud, corruption and ethics awareness workshops. These workshops were conducted virtually for employees on salary level 12 and below. Promotional materials (pamphlets and booklets) were distributed and placed at reception areas and entrances of buildings. These were distributed as part of creating awareness on the requirement by employees to disclose financial interests, procedure to be used by employees when applying to conduct outside remunerative work and prohibition of conducting business with the State.

4. CONFLICT OF INTEREST

Senior Management Service (SMS) members, as required by the Public Service Regulations of 2016, to disclose their financial interests. 427 of 433 SMSs disclosed their financial interests during the year under review.

Financial disclosures for other categories of employees in the department were done as shown in Table 2 below:

Table 2: Financial disclosure report

Category/Level of employment	Total number of employees in category	No. of employees who disclosed financial interests	No. of employees who failed to disclose financial interests
Level 12 including OSD/personal notches	529	408	121
Level 11 including OSD/personal notches	911	623	288
Below salary level 11 in Supply Chain and Finance Unit	1 100	700	400
Total	2 606	1 731	809

Appropriate actions were taken against the employees who failed to disclose their financial interest as required by the legislation.

Risk Management Committee Report

The Risk Management Committee supported the Executive Authority and Accounting Officer by providing oversight over the implementation of risk management systems. It discharged its fiduciary duties according to its terms of reference. Significant matters were escalated to the Accounting Officer. The committee is pleased with progress being made to mature risk management processes.

An eye will be kept on risk issues relating to the autonomy of Commission on Restitution of Land Rights, Outcomes of the 18th Constitutional Amendment Review, Outbreak of diseases, rural development strategy and finalisation of the organisational structure with its placement.

5. CODE OF CONDUCT

The department complies to the Code of Conduct in the Public Service and non-adherence to this code results in employees being charged with misconduct in line with the Disciplinary Code and Procedures read with the SMS handbook.

6. HEALTH SAFETY AND ENVIRONMENTAL ISSUES

The following activities were achieved during the 2020/21 financial year:

- Occupational Health and Safety Assessments - to determine the level of compliance in accordance with OHS Act and its Regulations
- Occupational Health and Safety Assessment and monitoring - to determine the effectiveness of control measures implemented to minimize the spread of COVID-19 pandemic.

42	19/03/2021	Joint Portfolio Committees: ALRRD and Labour	Working and living conditions of farm workers, farm dwellers, farming communities and farmers
43	23/03/2021	Portfolio Committee ALRRD	Former Department of Rural Development and Land Reform and Agricultural Land Holding Trading Account Annual Reports 2019/20; with Minister and Deputy Minister

8. SCOPA RESOLUTIONS

There was no engagement with SCOPA during the period under review.

9. PRIOR MODIFICATIONS TO AUDIT REPORTS

There are no prior modifications as this is a new department.

10. INTERNAL CONTROL UNIT

The Directorate: Internal Control and all the employees in the department identify the alleged irregular, fruitless and wasteful expenditure. Subsequent to the identification of the alleged irregular, fruitless and wasteful expenditure, the Directorate conducts an assessment to confirm the classification of the expenditure. Then the confirmed irregular, fruitless and wasteful transactions are presented to the Financial Compliance Committee for determination of the recommendations to be made to the Accounting Officer. A report is provided to the Accounting Officer with recommendations regarding actions to be taken. The unit also maintains the registers for irregular, fruitless and wasteful expenditure and assists in strengthening the internal control environment where the non-compliance was identified and confirmed.

The Directorate is also responsible for co-ordination, consolidation and monitoring the action plans that are designed to address audit findings raised by the office of the Auditor-General and Internal Audit. It also ensures that the payments and journals are kept on a centralised database on F-Base for proper recording and ease of retrieval when requested by stakeholders. The investigations of losses, theft and damages to the departmental assets and vehicle rentals are also conducted within the unit. Subsequent to the investigations the cases are referred to the Legal Services for determination of the action to be taken.

11. INTERNAL AUDIT AND AUDIT COMMITTEES

Key activities and objectives of internal audit

Internal Audit performs assurance and consulting assignments, in accordance with a risk-based internal audit approach. These assignments are delivered by means of financial, performance, operational, compliance and information technology audits, as well as audits that focus on the risk of fraud and irregularities. Assignments may also combine two or more audit types into the delivery of comprehensive audit assignments. The scope of assurance and consulting assignments excludes legal entities such as Communal Property Associations (CPAs) and Trusts, because the Chief Directorate: Internal Audit's focus is restricted to internal processes and, therefore; does not have the mandate to audit and review external entities.

Summary of audit work done by internal audit

Internal audit performed audits and consultations defined on the 2020/2021 DALRRD annual internal audit plan, including audits on the:

- internal control processes falling within specific branches of the DALRRD and its trading entities;
- financial processes of the DALRRD and its trading entities;

- governance and risk management processes of the DALRRD;
- processes governing performance information management;
- information technology on various processes and systems.

Key activities and objectives of the audit committee

The key activities and objectives of the Audit Committee can be summarised as entailing reviews and the dispensing of other pertinent functions in respect of the following areas:

- The efficiency and effectiveness of the system of internal control that the DALRRD applies;
- Risk management and its effectiveness, efficiency and transparency and King IV;
- The effectiveness of the Internal Audit function;
- The adequacy, reliability and accuracy of the financial and performance information provided by management to various stakeholders;
- The DALRRD's compliance with legal and regulatory provisions;
- Any accounting and audit concerns identified as a result of Internal and External Audits performed;
- The activities of the Internal Audit function, including its annual work programme, coordination with the Auditor-General South Africa (AGSA), the reports of significant recommendations and the response of management to those recommendations;
- The scope and results of the External Audit function, its cost effectiveness as well as the independence and objectivity of the AGSA;
- Reporting to the Executive Authority and the AGSA, where a report implicates the Accounting Officer in fraud, corruption or gross negligence;
- Communicating any concerns it deemed necessary to the Executive Authority, AGSA and Internal Audit function;
- Approving the Audit Committee Charter, Internal Audit Charter, Policy and Plan; and
- Reviewing the Annual Financial Statements and Annual Performance Report of the DALRRD and its trading entities prior to and after the annual External Audit.

12. REPORT OF THE AUDIT COMMITTEE

The Department of Agriculture, Land Reform and Rural Development (DALRRD) Audit Committee is pleased to present its report for the financial year ended 31 March 2021. This report includes the Deeds Registration Trading Account, the Agricultural Land Holding Account and the Commission on Restitution of Land Rights.

This report is presented in accordance with the requirements of the Public Finance Management Act, No. 1 of 1999 (PFMA), as amended. The recommendations of the King Report on Governance (King IV) have also been taken into consideration.

Audit Committee members and attendance

During the year under review the Audit Committee consisted of four members. The Audit Committee had 4 standard audit committee meetings and 3 forensic investigations audit committee in-committee meetings, as indicated in the table hereunder. The Audit Committee is constituted of persons who possess the correct mix of experience, qualifications, and skills to carry out its responsibilities.

NAME OF MEMBER	NUMBER OF MEETINGS ATTENDED
Dr NZ Qunta (Chairperson)	7
Mr AP Wakaba (Member)	7
Ms K Mbonambi (Member)	7
Ms AMM Badimo (Member)	6

Audit Committee Responsibility

The Audit Committee reports that it complied with its responsibilities arising from section 38 (1) (a) of the Public Finance Management Act, No.1 of 1999, as amended and Treasury Regulation 3.1. The Audit Committee also reports that it had adopted an appropriate formal terms of reference as contained in its Charter, conducted its affairs in compliance with the Charter and has discharged its responsibilities as contained therein.

The Chairperson of the AC presented their oversight reports to the Executive Authority during the financial year that ended 31 March 2021.

Duties and responsibilities

The duties and responsibilities of the Audit Committee are detailed in the Audit Committee Charter and can be summarised as entailing reviews and the dispensing of other pertinent functions in respect of the following areas:

- The efficiency and effectiveness of the system of internal control applied by the DALRRD;
- Risk Management and its effectiveness, efficiency and transparency;
- The effectiveness of the Internal Audit function;
- The adequacy, reliability and accuracy of the financial and performance information provided by management to various stakeholders;
- The DALRRD's compliance with legal and regulatory provisions;
- Any accounting and audit concerns identified as a result of Internal and External Audits performed;
- The activities of the Internal Audit function, including its annual work program, coordination with the Auditor-General (AGSA), the reports of significant recommendations and the response of management to those recommendations;
- The scope and results of the External Audit function, its cost effectiveness as well as the independence and objectivity of the AGSA;
- Reporting to the Executive Authority and the AGSA where a report implicates the Accounting Officer in fraud, corruption or gross negligence;
- Communicating any concerns, it deemed necessary to the Executive Authority, AGSA and Internal Audit function;
- Approving the Audit Committee Charter, Internal Audit Charter, Governing Procedures and Plan; and
- Reviewing the Annual Financial Statements and Annual Performance Report prior to and after the annual audit.

The effectiveness of internal control

In line with the PFMA requirements and the Audit Committee mandate to provide oversight on the department, the efficiency and effectiveness of the systems of Internal Control and Risk Management was considered.

The DALRRD Management experienced numerous challenges during the 2020/2021 financial year, resulting from the merger of the Departments of Agriculture and of Rural Development and Land Reform as well as the COVID-19 pandemic.

Internal Audit

The objective of the internal audit function of the Department is to provide management with independent, objective assurance and consulting services designed to add value and to continuously improve the operations of the department. It assists the department to accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of governance, risk management and control processes.

The Audit Committee is satisfied that the Internal Audit function is operating effectively, and that it has taken into consideration the risks pertinent to the DALRRD in its audits. Internal Audit has made significant progress with audits conducted in terms of its strategic three-year rolling internal audit plan. The system of internal control was not entirely effective for the year under review. Deficiencies were detected and reported through internal audits performed on the system of internal control. Management continued to address control weaknesses reported by the Internal Audit function. Significant control deficiencies were noted in the areas of:

- Information and Communication Technology;
- Records Management;
- Compliance Management;
- Project Management;
- Contract Management;
- Financial Management;
- Property Management; and
- Management of Fraud, Corruption, Misconduct, Irregularities and Mismanagement. The AC expresses serious concern on inadequate internal control structures to prevent and detect fraud and the incidences of fraud identified in the department.

In-Year Monitoring and Reporting

The Audit Committee appreciates that the departmental Quarterly Reporting submissions were done timeously and appropriately. The Audit Committee, however, expresses concern in respect of the progress made in the achievement of planned performance targets.

Evaluation of Financial Statements

The Audit Committee reviewed and discussed:

the Annual Financial Statements to be included in the annual report, with the AGSA, the Accounting Officer and management; the information on predetermined objectives to be included in the annual report; the AGSA's management reports and management's response thereto; the reports and audit opinions of the AGSA; significant adjustments resulting from the audits; and changes in accounting policies and practices.

Reports

The Audit Committee has considered and commented on the AGSA's reports on the Annual Financial Statements of the department, the Commission, Deeds and that of the Agricultural Land Holding. The Audit Committee accepts with concern the AGSA's qualified audit opinion on the Agricultural Land Holding Account's Annual Financial Statements. The Committee further met with the AGSA and Management to deal with disagreements and differences relating to ALHA financial statements.

The Audit Committee expresses its appreciation to the Minister, the Acting Director-General, the Department's Management, the Commission, Deeds Office, Internal Audit and the AGSA for their assistance and cooperation in the dispensing of the Audit Committee's functions.

Dr NZ Qunta

Chairperson of the Audit Committee

Department of Agriculture, Land Reform and Rural Development; Deeds Registration Trading Account; Agricultural Land Holdings Account and the Commission on Restitution of Land Rights

Date: 31 July 2021

PART D:

Human Resource Management

LEGISLATION THAT GOVERNS HR MANAGEMENT

The information provided in this part is prescribed in the Public Service Regulations, 2016 (as amended) (Chapter 1, Part III J.3 and J.4), taking into account the provisions of the following legislative frameworks:

- Public Service Act, 1994 (Act No. 3 of 1994)
- Labour Relations Act, 1995 (Act No. 66 of 1995)
- Basic Conditions of Employment Act, 1997 (Act No. 75 of 1997)
- Employment Equity Act, 1998 (Act No. 55 of 1998)
- Skills Development Act, 1998 (Act No. 97 of 1998)
- Skills Development Levies Act, 1999 (Act No. 9 of 1999)
- Public Finance Management Act, 1999 (Act No. 1 of 1999)

1. INTRODUCTION

The Public Service Regulations, 2016 (Chapter 3, regulation 31), requires of the Chief Directorate: Human Resource Management and Development to give an account on how it has provided strategic, transformed and value adding human resource services within the department through the development of strategies and plans, employee engagement and people empowerment practices in the Annual Report.

To this end, available resources were dedicated towards ensuring that the department achieve the planned mission critical deliverables, manage risks and challenges and ensure optimal service delivery. Compliance to governance principles and the public service regulatory framework on people management remained on the radar.

The post establishment of the department totalled 8 732 posts, with 7 359 positions filled, 1 373 vacancies and 509 employees additionally appointed to the post establishment, as on 31 March 2021. During the period under review, the vacancy rate of the department increased to 15,7% in the 2020/2021 financial year from 11,5% at the end of the 2019/2020 financial year. (Please note the figures were as on PERSAL on 31 March 2021).

The staff turnover rate decreased by 0,9% – from 5,2% during the 2019/2020 financial year, to 4,3% during the 2020/2021 financial year. The staff turnover still remains within the generally acceptable norm of 15% in the public service. This status reflects the available institutional memory and intelligence necessary to the realisation of the departmental mandate.

Overview

Human Resource Priorities

Human Resource Planning remains at the core in ensuring the departmental capacity deliver on its mandate and strategic objectives.

In light of the above, the department continued to pursue its mandate and drive the transformation of the sector, in addition to implementation of the National Development Plan 2030, through implementation and monitoring of the Human Resource Plan. This year under review is the first year of implementation of the MTEF HR Plan 2018/19 – 2020/21, which had identified the following HR Plan priorities: (1) Eliminate duplication of functions and alignment of organisational structure; (2) Development of Talent Management Strategy; (3) Workplace Skills Plan approved by the Director-General and implemented; (4) Access to Employee Health and Wellness Programme and (5) Strengthening transformation capacity and implementation of diversity management imperatives.

Monitoring and reporting on the MTEF HR Plan are done through the Human Resource Key Performance Indicators. The Quarterly HR Plan Implementation Reports have been developed and submitted for consideration by the Director-General.

The Quarterly HR Plan Implementation Reports for the monitoring of the MTEF HR Plan will be incorporated in the Annual MTEF HR Plan Implementation Report which was due to DPSA by 31 May 2019. The vision of strategic partnering with line function remains central to the human resource service delivery model which is aimed at maximising compliance to the regulatory framework, consistent application of best practices on people management and a high performing organisational culture as well.

Organisational development

The new Department of Agriculture, Land Reform and Rural Development was brought into effect on 1 April 2020.

In terms of regulation 25(2)(a) of the Public Service Regulations, 2016, the Minister of Public Service and Administration (MPSA) issued a letter of concurrence, dated 11 November 2019, for the Start-up Macro Structure (SMS level) and issued another letter on 11 December 2020 for the Microstructure (level 12 and below) of the Department of Agriculture, Land Reform and Rural Development (DALRRD). This approved structure of DALRRD consists of 9 207 posts.

During the 2019/2020 financial year, the MPSA issued a letter dated 4 November 2020 regarding compliance and monitoring on implementation of the Start-up Organisational Structure. Within the letter, the MPSA advised that when the department review the organisation structure to design a Fit-For-Purpose Structure it be based on the approved mandate of the new department, its strategic objectives, services delivery model, quantifiable outputs and available funding.

The DALRRD submitted an Organisational Structure aligned to the Strategic Plan but it was not concurred by the MPSA because of Organisational Design concerns.

In view of the approval of the Start-up Organisational Structure and concerns by the MPSA, DALRRD will embark on a Fit-For-Purpose Structure aligned to the Strategic Plan, objectives, service delivery model and available budget once the migration process for the lower level positions has been completed.

This migration of senior management has been completed and officials were issued with letters. The department has so far, in terms of the migration process of lower levels (12 and below), managed to:

- Verify posts on the microstructure against the migration sheet
- Match and place employees per branch in accordance with Resolution 1 of 2019, by:
 - ❖ Identifying employees that are direct placements (where the job content has not changed [inclusive of changes to job title but not job content])
 - ❖ Capturing employees in the migration spreadsheet
 - ❖ Engaging with branches to verify the correct direct placement of employees
 - ❖ Identifying employees whose jobs functions relates to two or more jobs.

The delay in finalising the migration process is due to lack of participation of branches in providing information, but the matter was escalated to the office of the Deputy Director-General: Corporate Support Services for intervention.

Priority posts have been identified for filling by looking at scarce skills and OSD. The facilitation of job descriptions and job evaluations exercise for prioritised posts have been completed.

The Land Claims Court ordered the department to appoint a Special Master for Labour Tenants to supervise the department in finalising the processing of labour tenants' applications. The department has established the organisational structure for the Office of the Special Master for Labour Tenants and has submitted to the Executive Authority for endorsement and subsequent approval by the MPSA.

Recruitment

The ongoing matching and placement process of employees also contributed to non-filling of vacancies, which negatively impacted on capacity and service delivery requirements. Due to the continued budget cuts imposed by National Treasury, the department operated under skeletal capacity as vacant unfunded positions were ultimately abolished and filling of positions remained suspended. An analysis of the budget for compensation of employees was conducted on a monthly basis and this still reflected a shortfall which remained the basis for the non-filling of vacant positions.

Employees were reassigned to different areas of high impact in the department to make up for capacity challenges experienced. The non-filling of vacant positions was further influenced by the process of merging the agricultural functional area of the Department of Agriculture, Forestry and Fisheries (DAFF) with the Department of Rural Development and Land Reform (DRDLR).

Only posts identified as critical to service delivery were filled, that is, three (3) posts at senior management level, seven (7) technical posts and one (1) at semi-skilled level.

Performance management

As a result of COVID-19, South Africa's national lockdown level 5 had a negative impact on the signing of the Performance Agreements for the 2020/2021 performance cycle. An announcement was made to put the country on lockdown with effect from 26 March 2020, which affected the merger of the former Department of Agriculture, Forestry and Fisheries and the Department of Rural Development and Land Reform together with the start of the new performance cycle on 1 April 2020. As a result of these uncertainties, the Minister of Public Service and Administration extended the due date for SMS members to sign and submit their Performance Agreements to 31 October 2020.

The overall compliance on the finalisation and submission of the senior manager's Performance Agreements and Work Plans for the 2020/2021 performance cycle was at an aggregate of 73% by the due date of 31 October 2020 and on 81% by the end of the performance cycle. The COVID-19 pandemic uncertainties and the challenges with the merger of the two departments contributed to the 19% compliance deficit. The submission of performance assessment review reports for the 2019/2020 performance cycle for senior managers stands on 87% and 83% for non-senior managers. The outstanding performance assessment review reports for senior managers and non-senior managers stands on 13% and 17%, respectively, due to the lockdown challenges. The moderating performance outcomes for the 2018/19 performance cycle for non-senior managers has been finalised and implemented.

The moderation for the 2019/20 performance cycle Annual Assessments for senior managers is still in progress. Moderation of the outstanding performance assessments for senior managers for the 2018/19 performance cycle was finalised and performance outcomes were implemented.

Through issuing Human Resource Management circulars, compliance to the regulatory framework is ensured whereby employees are reminded of the amendment of Chapter four (4) of the SMS handbook and also the submission of the Performance Agreements for the 2020/21 performance cycle and to finalise and submit the Annual Assessment reports for the 2020/21 performance cycle.

Employee health and wellness

Employee Health and Wellness (EHW) services were provided to the DALRRD employees and their families, and COVID-19 positive employees and their contacts, through telephone emotional support services along with psychosocial support for stress, fear, anxiety, depression, grief and other emotional issues and mental health issues.

Information on coping skills was also disseminated through articles on ICM in addition to live sessions on Microsoft Teams. Standard Operating Procedures were developed and circulated to employees to alleviate anxiety while facing COVID-19 and to create awareness on preventative measures.

A total of 401 employees tested positive for COVID-19. Three hundred and eighty-five (385) recovered while 16 succumbed. A total of 1 116 employees with comorbidities and pregnant staff at third trimester were approved to work remotely as per the prescripts.

Employee development

The department continues to invest in the employees' growth and development in line with the Departmental HRD Strategy and the National Development Plan 2030, Chapter 13, which envisions a capable and developmental state by 2030.

As a result of the reconfiguration and merger of the department, the Department of Public Service and Administration and the Public Service Sector Education and Training Authority were consulted with the submission of the reports for the affected department. As a result, the department was exempted from submitting the said reports for the 2020/2021 financial year, and a request through the Acting Director-General was submitted to PSETA to develop an indicium system to enable the department to submit the skills development reports. To ensure that the department has the necessary skills base required to deliver on its mandate, a total number of 2 514 employees were trained on various skills programmes and short courses. However, implementation of training was affected negatively due to the COVID-19 pandemic, and the majority of employees did not have working tools to attend training online.

A total number of 620 employees attended COVID-19 training to enable the department to respond to the pandemic in the workplace. This assisted the department on its readiness to deal with the pandemic and to protect the employees during the crisis. In order to prepare the department to deal with change as a result of the merger, a total number of 203 employees were also trained as Change Agents to support the department in driving change.

Human resource planning

To implement the MTEF HR Plan effectively, the Human Resource Strategic Planning Framework for the Public Service-Vision 2015 requires the annual review of the MTEF HR Plan to be submitted by 30 June of each year. The MTEF HR Plan 2018/19 – 2020/21 could not be adjusted as it did not meet the conditions for review and the Department of Public Service and Administration (DPSA) was informed accordingly.

Implementation of the HR Plan has been monitored through quarterly key performance indicators and also annually in terms of the amended directive on the Human Resource Strategic Planning Framework for the Public Service-Vision 2015. The Annual MTEF HR Plan Implementation report was submitted to the DPSA by 31 May 2019.

The department's progress on Employment Equity as on 31 March 2021 is summarised as follows:

SMS MEMBER'S EE PROFILE			
STATUS	MALE	FEMALE	DISABLED
Target	50%	50%	2%
Current	60%	40%	2%
TOTAL GENDER PROFILE IN THE DEPARTMENT			
STATUS	MALE	FEMALE	DISABLED
Target	55%	45%	2%
Current	48%	52%	1,5%

The above table depicts a significant milestone in drawing towards the 50/50 representation target set by Cabinet for employees at SMS levels in the Public Service. This confirms that implementation of the transformation agenda of government by DALRRD is on track. Focused interventions towards achieving the 2% target in respect of the representation of people with disabilities will take priority in DALRRD.

Human resource policies

As result of the merger of the Department of Agriculture, Forestry and Fisheries (DAFF) and the Department of Rural Development and Land Reform (DRDLR), 35 out of 55 HR Policies were aligned

and merged. These HR Policies were presented at a Policy Workshop held from 12 to 14 February 2020 with all HR Managers from National and Provincial departments.

The 25 draft HR Policies were further circulated to all employees in DALRRD via Internal Communication Messenger for inputs. Inputs received were processed and draft HR Policies were made available to Labour for discussion in the Departmental Bargaining Chamber (DBC). The DBC was only established in Quarter 3 of the 2020/2021 financial year.

Of the 25 draft HR Policies, 21 received concurrence in the DBC and was escalated to EXCO and consensus was achieved. Following this, an approval process followed.

The outstanding four policies were also finalised and are ready to serve before the DBC for concurrence. A date for the DBC for discussion/presenting the four policies is pending, thereafter the policies will be submitted to EXCO for concurrence and via a memorandum to the Acting Director-General for approval.

Labour relations

Setting the standards on employee conduct and supporting line management in ensuring the desired behaviour was prioritised. Therefore, managers and employees were empowered through awareness campaigns on the departments' Code of Conduct and disciplinary and grievances procedures during the rollout of human resource policies. These sessions placed specific focus on the department's Code of Conduct, along with the disciplinary and grievances procedures to reduce the prevalence of misconduct and employee complaints. Employees were trained on labour relations processes in the financial year under review.

A breakdown of misconduct cases is observed as indicated in the table below:

MISCONDUCT CASES			
FINANCIAL YEAR	TOTAL	FINALISED	PENDING
2020/21	107	39	68

The total number of cases were inherited from the now defunct Departments of Agriculture, Forestry and Fisheries, and Rural Development and Land Reform. These two departments were merged into the Department of Agriculture, Land Reform and Rural Development. Thirty-nine misconduct cases were finalised during the 2020/2021 financial year. Eight out of 39 cases were finalised through formal disciplinary hearings (see table 3.12.2 below). Thirty-one were finalised through progressive or informal discipline. The target was not met as a result of capacity constraints and COVID-19 restrictions.

Scheduling of cases became difficult because employer representatives, witnesses and employees were not available due to COVID-19 restrictions.

The increase in the number of grievances was as a result of the dissatisfaction of employees regarding the alleged incorrect translation into the Occupation Specific Dispensation (OSD) categories, contrary to the provision of the GPSSBC Resolution 3 of 2009 and Performance management.

A Departmental Bargaining Chamber (DBC) for DALRRD was formally established. The DBC is operational and is currently addressing the following matters on the agenda:

- Various complaints received from PSA members and closure of certain camps in the Kruger National Park
- Funeral policy
- Injury on duty concerns in Stellenbosch
- Non-implementation of Resolution 1 of 2012
- Employee Satisfaction Survey
- GPSSBC Resolution 5 of 2014 (Agreement on Recognition of Improved Qualifications in the Public Service), Training on the Labour Relations Amendment Act and the Basic Conditions of Employment Act
- NEHAWU issues at Grootfontein Agricultural Development Institute (GADI)
- Departmental HR Policy Review

- Subsidised motor transport
- Guidelines on the management of departmental restructuring
- Non-filling of vacancies
- The long outstanding prioritisation of positions
- Impending Border Management Agency (BMA) and the effect it will have on DALRRD officials
- Unilateral reduction of cell phone and 3G allowances
- Payment of performance bonuses
- The Departmental Task Team
- Review of Employee Performance Management and Development Policy.

2. HUMAN RESOURCE OVERSIGHT STATISTICS

Please take note that all the information in the following oversight statistics includes the information of the Deeds Registration Trading Entity.

3.1 Personnel related expenditure

The following tables summarise the final audited personnel related expenditure by programme and by salary bands. In particular, it provides an indication of the following: amount spent on personnel and amount spent on salaries, overtime, home owners allowances and medical aid.

Table 3.1.1: Personnel expenditure by programme for the period 1 April 2020 to 31 March 2021

Programme	Total expenditure (R'000)	Personnel expenditure (R'000)	Training expenditure (R'000)	Professional and special services (R'000)	Personnel cost as % of total expenditure	Average personnel cost per employee (R'000)
Programme 1	1 364 852	1 318 051	7 980	38 821	96.6	458
Programme 2	920 645	798 767	395	121 483	86.8	543

3.2 Employment and vacancies

The tables in this section summarise the position with regard to employment and vacancies. The following tables summarise the number of posts on the establishment, the number of employees, the vacancy rate, and whether there are any staff that are additional to the establishment. This information is presented in terms of three key variables: programme, salary band and critical occupations. Departments have identified critical occupations that have to be monitored. In terms of current regulation, it is possible to create a post on the establishment that can be occupied by more than one employee. Therefore, the vacancy rate reflects the percentage of posts that are not filled.

Table 3.2.1 Employment and vacancies by programme as on 31 March 2021

Programme	Number of posts on approved establishment	Number of posts filled	Vacancy rate %	Number of employees additional to the establishment
Programme 1	3 312	2 771	16.3	108
Programme 2	1 594	1 321	17.1	149
Programme 3	1 396	1 223	12.4	127
Programme 4	119	92	22.7	5
Programme 5	206	188	8.7	5
Programme 6	2 105	1 764	16.2	115
Total	8 732	*7 359	15.7	509

*Please note that the totals do not include abnormal and periodical employees.

Table 3.2.2 Employment and vacancies by salary band as on 31 March 2021

Salary band	Number of posts on approved establishment	Number of posts filled	Vacancy rate %	Number of employees additional to the establishment
Lower skilled (levels 1–2)	329	255	22.5	111
Skilled (levels 3–5)	1 146	927	19.1	5
Highly skilled production (levels 6–8)	3 908	3 409	12.8	189
Highly skilled supervision (levels 9–12)	2 869	2 382	17.0	192
Senior management (levels 13–16)	480	386	19.6	12
Total	8 732	*7 359	15.7	509

*Please note that the totals do not include abnormal and periodical employees.

3.3 Filling of SMS posts

The tables in this section provide information on employment and vacancies as these relate to members of the Senior Management Service by salary level. It also provides information on advertising and filling of SMS posts, reasons for not complying with prescribed timeframes and disciplinary steps taken.

Table 3.3.1 SMS posts information as on 31 March 2021

SMS level	Total number of funded SMS posts	Total number of SMS posts filled	% of SMS posts filled	Total number of SMS posts vacant	% of SMS posts vacant
Director-General	1	-	-	1	1.1
Salary level 15	13	7	1.9	6	6.5
Salary level 14	99	87	23.1	12	12.8
Salary level 13	356	282	75.0	74	79.6
Total	469	376	100.0	93	100.0

Table 3.3.2 SMS posts information as on 30 September 2020

SMS level	Total number of funded SMS posts	Total number of SMS posts filled	% of SMS posts filled	Total number of SMS posts vacant	% of SMS posts vacant
Director-General	1	1	0.3	-	-
Salary level 15	15	10	2.6	5	8.6
Salary level 14	99	88	23.0	11	19.0
Salary level 13	325	283	74.1	42	72.4

Total	440	382	100.0	58	100.0
-------	-----	-----	-------	----	-------

Table 3.3.3 Advertising and filling of SMS posts for the period 1 April 2020 to 31 March 2021

SMS level	Advertising	Filling of posts	
	Number of vacancies per level advertised in six months of becoming vacant	Number of vacancies per level filled in six months after becoming vacant	Number of vacancies per level not filled in six months but filled in 12 months

Salary level 14	-	-	-
Salary level 13	-	-	-
Total	-	-	-

Table 3.3.4 Reasons for not having complied with the filling of funded vacant SMS posts—advertised within six months and filled within 12 months after becoming vacant

Reasons for vacancies not advertised within six months:
<ul style="list-style-type: none"> Finalisation and approval of Macro Structure of the new department. Conclusion of the process of matching and placement of Senior Managers.

Reasons for vacancies not filled within 12 months:
<ul style="list-style-type: none"> Finalisation and approval of Macro Structure of the new department. Conclusion of the process of matching and placement of Senior Managers.

Table 3.3.5 Disciplinary steps taken for not complying with the prescribed timeframes for filling SMS posts within 12 months for the period 1 April 2020 to 31 March 2021

N/A

3.4 Job evaluation

Within a nationally determined framework, executive authorities may evaluate or re-evaluate any job in their organisations. In terms of the Regulations, all vacancies on salary levels 9 and higher must be evaluated before they are filled. The following table summarises the number of jobs that were evaluated during the period under review. This table also provides statistics on the number of posts that were upgraded or downgraded.

Table 3.4.1 Job evaluation by salary band for the period 1 April 2020 to 31 March 2021

Salary band	Number of posts on approved establishment	Number of jobs evaluated	% of posts evaluated by salary bands	Posts upgraded		Posts downgraded	
				Number	% of posts evaluated	Number	% of posts evaluated
Lower skilled (levels 1–2)	419	-	-	-	-	-	-
Skilled (levels 3–5)	1 391	-	-	-	-	-	-
Highly skilled production (levels 6–8)	3 546	-	-	-	-	-	-

Salary band	Number of posts on approved establishment	Number of jobs evaluated	% of posts evaluated by salary bands	Posts upgraded		Posts downgraded	
				Number	% of posts evaluated	Number	% of posts evaluated
Highly skilled supervision (levels 9–12)	2 903	-	-	-	-	-	-
Senior Management Service Band A	356	40	11.2	-	-	-	-
Senior Management Service Band B	99	15	15.2	-	-	-	-
Senior Management Service Band C	13	1	7.7	-	-	-	-
Senior Management Service Band D	5	1	20.0	-	-	-	-
TOTAL	8 732	57	1.0	-	-	-	-

The following table provides a summary of the number of employees whose positions were upgraded because of their posts being upgraded. The number of employees might differ from the number of posts upgraded because not all employees are automatically absorbed into the new posts and some of the posts upgraded could also be vacant.

Table 3.4.2 Profile of employees whose positions were upgraded due to their posts being upgraded for the period 1 April 2020 to 31 March 2021

Beneficiaries	African	Asian	Coloured	White	Total
Female	2	-	-	-	2
Male	-	-	-	-	-

Salary band	Total days	% days with medical certification	Number of employees using disability leave	% of total employees using disability leave	Average days per employee	Estimated cost (R'000)
Senior management (levels 13–16)	130	100	6	4.6	21.7	645
Total	3 439	100	130	100.0	26.5	6 560

The table below summarises the utilisation of annual leave. The wage agreement concluded with trade unions in the PSCBC in 2000 requires management of annual leave to prevent high levels of accrued leave being paid out at the time of termination of service.

Table 3.10.3 Annual leave for the period 1 January 2020 to 31 December 2020

Salary band	Total days taken	Number of employees using annual leave	Average per employee
Lower skilled (levels 1–2)	6 088	513	11.9
Skilled (levels 3–5)	16 739	969	17.3
Highly skilled production (levels 6–8)	71 346	3 745	19.1
Highly skilled supervision (levels 9–12)	48 956	2 679	18.3
Senior management (levels 13–16)	7 512	407	18.5
Total	150 641	8 313	18.1

Table 3.10.4 Capped leave for the period 1 January 2020 to 31 December 2020

Salary band	Total days of capped leave taken	Number of employees using capped leave	Average number of days taken per employee	Average capped leave per employee as on 31 December 2020
Lower skilled (levels 1–2)	-	-	-	12
Skilled (levels 3–5)	12	2	6	32
Highly skilled production (levels 6–8)	16.25	6	2.7	26
Highly skilled supervision (levels 9–12)	5	2	2.5	26
Senior management (levels 13–16)	9	2	4.5	38
Total	42.25	12	3.5	28

The following table summarises payments made to employees as a result of leave that was not taken.

Table 3.10.5 Leave pay-outs for the period 1 April 2020 to 31 March 2021

Reason	Total amount (R'000)	Number of employees	Average per employee (R)
Leave pay-out for 2020/21 owing to non-utilisation of leave for the previous cycle	690	8	86 250
Capped leave pay-outs on termination of service for 2020/21	8 743	95	92 032
Current leave pay-out on termination of service for 2020/21	8 341	212	39 344
Total	17 774	315	56 425

3.11 HIV/Aids and health promotion programmes

Table 3.11.1 Steps taken to reduce the risk of occupational exposure

Units/categories of employees identified to be at high risk of contracting HIV and related diseases (if any)	Key steps taken to reduce the risk
Agricultural Machine Users (Farm workers, engineering services)	Preventative strategies through awareness campaigns and health education
Migrant workers (Border posts and fence; Quarantine stations and camps)	HIV counseling and testing, general health screening
Projects (Infrastructure Support, WUID)	Care and support through home visits, Employee Assistance Programme
Shift workers	Employee Assistance Programme
General workers (when coming into contact with body fluids)	Treatment through referrals
First Aiders	Provision of protective clothing and equipment

Table 3.11.2 Details of health promotion and HIV/Aids programmes

Questions	Yes	No	Details, if yes
1. Has the department designated a member of the SMS to implement the provisions contained in Part VI E of Chapter 1 of the Public Service Regulations, 2001? If so, provide her/his name and position.	√		Ms Mmapitso Mashele – Director: Employee Relations
2. Does the department have a designated unit or designated specific staff members to promote the health and well-being of your employees? If so, indicate the number of employees who are involved in this task and the annual budget that is available for this purpose.	√		Sub Directorate: Employee Health and Wellness Management (EHWM): 1 x Deputy Director 1 x Acting Deputy Director 3 x National Coordinators (ADs) 2 x National Practitioners 2 x Occupational/Health Promotion Specialist (AD) 6 x Provincial Coordinators (ADs), with Mpumalanga and Gauteng being vacant
3. Has the department introduced an employee assistance or health promotion programme for your employees? If so, indicate the key elements/ services of the programme.	√		<ul style="list-style-type: none"> • Psychosocial Services • Health and Productivity Management (Disease Management, Health Management) • Promotion/Awareness and Health Screening • Life-skills Programmes • HIV&AIDS, TB and STIs including HIV Counselling and Testing
4. Has the department established (a) committee(s) as contemplated in Part VI E.5 (e) of Chapter 1 of the Public Service Regulations, 2001? If so, please provide the names of the members of the committee and the stakeholder(s) that they represent.	√		<ul style="list-style-type: none"> • 9 x Provincial EHWM Committees have been established • Committee members have been appointed formally as per the Employee Assistance Programme Association

Questions	Yes	No	Details, if yes
			(EAPA) Standards and DPSA Framework <ul style="list-style-type: none"> Representation includes EHWM Coordinators, HR Managers and Communication, Spiritual and Union Representatives
5. Has the department reviewed its employment policies and practices of your department to ensure that these do not unfairly discriminate against employees on the basis of their HIV status? If so, list the employment policies/practices so reviewed.	√		<ul style="list-style-type: none"> HIV&AIDS, TB and STI Policy Employee Health and Wellness Policy Health Productivity Management Safety, Health, Environment, Risk and Quality (SHERQ) Management
6. Has the department introduced measures to protect HIV positive employees or those perceived to be HIV positive from discrimination? If so, list the key elements of these measures.	√		<ul style="list-style-type: none"> HIV&AIDS Policy is being implemented Awareness and Education on HIV&AIDS Management Provision of Care and Support by in-house EHWM Specialists Service providers through Psychosocial Services
7. Does the department encourage its employees to undergo voluntary counselling and testing? If so, list the results that you have achieved.	√		<ul style="list-style-type: none"> HIV Counselling and Testing (HCT) is incorporated into Health and Wellness events/office-based services World AIDS Day and Sexually Transmitted Infections/Condom Week As a result of lockdown during this period, HCT services were not provided for compliance with COVID-19 protocols and regulations
8. Has the department developed measures/indicators to monitor and evaluate the impact of your health promotion programme? If so, list these measures/indicators.	√		<ul style="list-style-type: none"> Analysis of Health Screening (Chronic conditions and HIV&AIDS and TB) results Analysis of evaluation forms by participants

Notes to the Annual Financial Statements	306
Annexures	360

Report of the auditor-general to Parliament on vote no. 29: Department of Agriculture, Land Reform and Rural Development

Report on the audit of the financial statements

Opinion

1. I have audited the financial statements of the Department of Agriculture, Land Reform and Rural Development, set out on pages 200 to 359, which comprise the appropriation statement, statement of financial position as at 31 March 2021, the statement of financial performance, statement of changes in net assets and cash flow statement for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Department of Agriculture, Land Reform and Rural Development as at 31 March 2021, and its financial performance and cash flows for the year then ended in accordance with Modified Cash Standard (MCS) prescribed by the National Treasury and the requirements of the Public Finance Management Act 1 of 1999 (PFMA) and the Division of Revenue Act 16 of 2019 (Dora).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of my report.
4. I am independent of the department in accordance with the International Ethics Standards Board for Accountants' International code of ethics for professional accountants (including International Independence Standards) (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of matters

6. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Significant uncertainties

7. As disclosed in note 20 to the financial statements, claims of R1 089,397 million were instituted against the department. These claims are subject to the outcome of legal proceedings. The outcome of these matters cannot be determined at present. As a result, no provision for any liability that may result has been made in the department's financial statements.

Impairments

8. As disclosed in notes 25.3 and 12.6 to the financial statements, provision has been made for impairment of R100,837 million, which relates to the impairment of accrued departmental revenue, and R19,985 million, which relates to the impairment of receivables.

Responsibilities of the accounting officer for the financial statements

9. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the MCS and the requirements of the PFMA, Dora and for such

Report of the auditor-general to Parliament on vote no. 29: Department of Agriculture, Land Reform and Rural Development

internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

10. In preparing the financial statements, the accounting officer is responsible for assessing the department's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the department or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

11. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
12. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

Introduction and scope

13. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I have a responsibility to report on the usefulness and reliability of the reported performance information against predetermined objectives for selected programme presented in the annual performance report. I performed procedures to identify material findings but not to gather evidence to express assurance.
14. My procedures address the usefulness and reliability of the reported performance information, which must be based on the department's approved performance planning documents. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures do not examine whether the actions taken by the department enabled service delivery. My procedures do not extend to any disclosures or assertions relating to the extent of achievements in the current year or planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.
15. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected programme presented in the department's annual performance report for the year ended 31 March 2021:

Programme	Pages in the annual performance report
Programme 3 – food security, land reform and restitution	61 – 73

Report of the auditor-general to Parliament on vote no. 29: Department of Agriculture, Land Reform and Rural Development

16. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
17. I did not identify any material findings on the usefulness and reliability of the reported performance information for this programme:
 - Programme 3 – food security, land reform and restitution

Other matters

18. I draw attention to the matters below.

Achievement of planned targets

19. Refer to the annual performance report on pages 42 to 96 for information on the achievement of planned targets for the year and management's explanations provided for the under/over achievement of targets.

Adjustment of material misstatements

20. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were in the reported performance information of programme 3 – food security, land reform and restitution. As management subsequently corrected the misstatements, I did not raise any material findings on the usefulness and reliability of the reported performance information.

Report on the audit of compliance with legislation

Introduction and scope

21. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the department's compliance with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.
22. The material findings on compliance with specific matters in key legislation are as follows:

Expenditure management

23. Effective and appropriate steps were not taken to prevent irregular expenditure amounting to R203,842 million, as disclosed in note 26 to the annual financial statements, as required by section 38(1)(c)(ii) of the PFMA and treasury regulation 9.1.1. The majority of the irregular expenditure disclosed in the financial statements resulted from non-compliance with supply chain management procedures.
24. Effective steps were not taken to prevent fruitless and wasteful expenditure amounting to R44,548 million, as disclosed in note 27 to the annual financial statements, as required by section 38(1)(c)(ii) of the PFMA and treasury regulation 9.1.1. The majority of the fruitless and wasteful expenditure was caused by goods paid for but not received by the department.
25. Payments were not made within 30 days or an agreed period after receipt of an invoice, as required by treasury regulation 8.2.3.

Report of the auditor-general to Parliament on vote no. 29: Department of Agriculture, Land Reform and Rural Development

Procurement and contract management

26. Some of the invitations for competitive bidding were not advertised for the stipulated minimum period, as required by treasury regulation 16A6.3(c).
27. Some of the bid documentation for procurement of commodities designated for local content and production did not stipulate the minimum threshold for local production and content, as required by 2017 preferential procurement regulation 8(2).

Consequence management

28. Disciplinary steps were not taken against the officials who had incurred and/or permitted irregular, fruitless and wasteful expenditure, as required by section 38(1)(h)(iii) of the PFMA.

Other information

29. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the financial statements, the auditor's report and those selected programmes presented in the annual performance report that have been specifically reported in this auditor's report.
30. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion on it.
31. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected programme presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
32. The other information I obtained prior to the date of this auditor's report is the accounting officer's report and the audit committee report. The other information to be included in the annual report is expected to be made available to us after 31 July 2021.
33. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Internal control deficiencies

34. I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted findings on compliance with legislation included in this report.
35. Leadership was not always effective, as evidenced by the misstatements identified in the annual performance report and non-compliance with laws and regulations.
36. Management did not implement effective monitoring of compliance with applicable legislation. Non-compliance with legislation and supply chain management processes could have been prevented if compliance had been properly reviewed and monitored.

Report of the auditor-general to Parliament on vote no. 29: Department of Agriculture, Land Reform and Rural Development

Other reports

37. I draw attention to the following engagements conducted by various parties that have, or could have, an impact on the matters reported in the department's financial statements, reported performance information, compliance with applicable legislation and other related matters. These reports do not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.
38. Proclamation Number R.36 of 2019 (GG 42577 dated 12 July 2019) was signed by the president for the Special Investigating Unit (SIU) to investigate matters related to maladministration in the affairs of the department relating to the mismanagement of the comprehensive agricultural support programme. The outcome of the SIU's investigation was pending at the time of this auditor's report.

Auditor-general
Pretoria
31 July 2021

AUDITOR - GENERAL
SOUTH AFRICA

Auditing to build public confidence

Annexure – Auditor-general’s responsibility for the audit

1. As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected programme and on the department’s compliance with respect to the selected subject matters.

Financial statements

2. In addition to my responsibility for the audit of the financial statements as described in this auditor’s report, I also:
 - identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
 - obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the department’s internal control
 - evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the accounting officer
 - conclude on the appropriateness of the accounting officer’s use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the Department of Agriculture, Land Reform and Rural Development to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor’s report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor’s report. However, future events or conditions may cause a department to cease operating as a going concern
 - evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

3. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
4. I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

Administration

This programme's spending was 100%

Agricultural Production, Health, Food Safety and Natural Resources

Underspending was caused by vacant posts mainly within the Animal Production and Health subprogramme.

Food Security, Land Reform and Restitution

The department received the allocation of R1 billion for the Presidential Employment Stimulus Initiative (PESI) late in September 2020 and had to verify a huge number of farmers who applied resulting in issuing vouchers to beneficiaries late, hence the under expenditure under this programme.

Rural Development

Underspending was caused by delaying's in the filling of vacant posts. The department was in the process of matching and placing staff due to the merger of the two departments.

**NOTES TO THE APPROPRIATION STATEMENT
as at 31 March 2021**

Economic Development, Trade and Marketing

Underspending was caused by delaying's in the filling of vacant posts. The department was in the process of matching and placing staff due to the merger of the two departments.

Land Administration

Underspending was caused by delaying's in the filling of vacant posts. The department was in the process of matching and placing staff due to the merger of the two departments.

NOTES TO THE APPROPRIATION STATEMENT
as at 31 March 2021

The underspending of compensation of employees is due to vacant posts. The Department received the allocation of R1 billion for the Presidential Employment Stimulus Initiative (PESI) late in September 2020 and had to verify a huge number of farmers who applied resulting in issuing vouchers to beneficiaries late, hence the under-expenditure under this programme. The under-expenditure on foreign governments and international organisations was due to delays in the approval of transfer for membership fees to the Food and Agriculture Organisation for the United Nations. The under-expenditure on provinces and municipalities was due to the withholding of transfers regarding LandCare conditional grants for Gauteng, Limpopo and North West provinces due to unsatisfactory financial performance. The under-expenditure on buildings and other fixed structure items was due to delays in the finalisation of rural infrastructure projects as a result of frequent closure of construction sites due to COVID-19 positive cases and inadequate capacity as contractors had to comply with COVID-19 regulations in terms of the number of people allowed at the construction sites. The over-expenditure under payments for financial assets was due to write-offs regarding thefts and losses. The department has sufficient savings due to vacancies to cover the over-expenditure.

4.3 Per conditional grant

	Final appropriation	Actual expenditure	Variance	Variance as a % of final appropriation
	R'000	R'000	R'000	%
Comprehensive Agricultural Support Programme (CASP)	1 190 695	1 190 692	3	100,0
Ilima/Letsema	422 983	422 983	–	100,0
Infrastructure Development and Poverty Relief (LandCare)	81 439	74 824	6 615	91,9
Total	1 695 117	1 688 499	6 618	

In relation to LandCare, three provinces (Gauteng, Limpopo and North West) transfers were withheld due to unsatisfactory financial performance.

ACCOUNTING POLICIES

Summary of significant accounting policies

The financial statements have been prepared in accordance with the following policies, which have been applied consistently in all material aspects, unless otherwise indicated. Management has concluded that the financial statements present fairly the department's primary and secondary information.

The historical cost convention has been used, except where otherwise indicated. Management has used assessments and estimates in preparing the annual financial statements. These are based on the best information available at the time of preparation.

Where appropriate and meaningful, additional information has been disclosed to enhance the usefulness of the financial statements and to comply with the statutory requirements of the Public Finance Management Act (PFMA), Act 1 of 1999 (as amended by Act 29 of 1999), and the Treasury Regulations issued in terms of the PFMA and the annual Division of Revenue Act.

1	<p>Basis of preparation</p> <p>The financial statements have been prepared in accordance with the Modified Cash Standard.</p>
2	<p>Going concern</p> <p>The financial statements have been prepared on a going concern basis.</p>
3	<p>Presentation currency</p> <p>Amounts have been presented in the currency of the South African Rand (R) which is also the functional currency of the department.</p>
4	<p>Rounding</p> <p>Unless otherwise stated financial figures have been rounded to the nearest one thousand Rand (R'000).</p>
5	<p>Foreign currency translation</p> <p>Cash flows arising from foreign currency transactions are translated into South African Rands using the spot exchange rates prevailing at the date of payment / receipt.</p>
6	<p>Comparative information</p>
6.1	<p>Prior period comparative information</p> <p>The combined Department of Agriculture, Land Reform and Rural Development need not to present comparative information in the first reporting period in accordance with the Modified Cash Standards, chapter 20 Paragraph 31.</p>
6.2	<p>Current year comparison with budget</p> <p>A comparison between the approved, final budget and actual amounts for each programme and economic classification is included in the appropriation statement.</p>
7	<p>Revenue</p>
7.1	<p>Appropriated funds</p> <p>Appropriated funds comprises of departmental allocations as well as direct charges against the revenue fund (i.e. statutory appropriation).</p> <p>Appropriated funds are recognised in the statement of financial performance on the date the appropriation becomes effective. Adjustments made in terms of the adjustments budget process are recognised in the statement of financial performance on the date the adjustments become effective.</p> <p>The net amount of any appropriated funds due to / from the relevant revenue fund at the reporting date is recognised as a payable / receivable in the statement of financial position.</p>
7.2	<p>Departmental revenue</p> <p>Departmental revenue is recognised in the statement of financial performance when received and is subsequently paid into the relevant revenue fund, unless stated otherwise.</p>

ACCOUNTING POLICIES

	Any amount owing to the relevant revenue fund at the reporting date is recognised as a payable in the statement of financial position.
7.3	<p>Accrued departmental revenue</p> <p>Accruals in respect of departmental revenue (excluding tax revenue) are recorded in the notes to the financial statements when:</p> <ul style="list-style-type: none"> • it is probable that the economic benefits or service potential associated with the transaction will flow to the department; and • the amount of revenue can be measured reliably. <p>The accrued revenue is measured at the fair value of the consideration receivable. Write-offs are made according to the department's debt write-off policy</p>
8	Expenditure
8.1	Compensation of employees
8.1.1	<p>Salaries and wages</p> <p>Salaries and wages are recognised in the statement of financial performance on the date of payment.</p> <p>Employee costs are capitalised to the cost of a capital project when an employee spends more than 50% of his/her time on the project. These payments form part of the expenditure for capital assets in the statement of financial performance.</p>
8.1.2	<p>Social contributions</p> <p>Social contributions made by the department in respect of current employees are recognised in the statement of financial performance on the date of payment.</p> <p>Social contributions made by the department in respect of ex-employees are classified as transfers to households in the statement of financial performance on the date of payment.</p>
8.2	<p>Other expenditure</p> <p>Other expenditure (such as goods and services, transfers and subsidies and payments for capital assets) is recognised in the statement of financial performance on the date of payment. The expense is classified as a capital expense if the total consideration paid is more than the capitalisation threshold.</p>
8.3	<p>Financial transactions in assets and liabilities</p> <p>Debts are written off when they are identified as irrecoverable. Debts written off are limited to the amount of savings and/or underspending of appropriated funds, with the exception of debt transferred to the department from the Agricultural Debt Account, after the Agricultural Debt Management Act, 2001 (Act No. 45 of 2001) had been repealed during the 2008/09 financial year.</p> <p>Debt written-off is recorded in the notes to the financial statements.</p> <p>No provision is made for irrecoverable amounts, but an estimate is included in the notes to the financial statements. The estimate in respect of the Agricultural Debt Account debtors is based on the calculation of impairments on financial instruments in accordance with Generally Accepted Accounting Practice (GAAP).</p> <p>All other losses are recognised once authorisation has been granted for the recognition thereof.</p>
8.4	<p>Accruals and payables not recognised</p> <p>Accruals and payables not recognised are recorded in the notes to the financial statements at cost at the reporting date.</p>
8.5	Leases
8.5.1	<p>Operating leases</p> <p>Operating lease payments made during the reporting period are recognised as current expenditure in the statement of financial performance on the date of payment.</p>

ACCOUNTING POLICIES

	The operating lease commitments are recorded in the notes to the financial statements.
8.5.2	<p>Finance leases</p> <p>Finance lease payments made during the reporting period are recognised as capital expenditure in the statement of financial performance on the date of payment.</p> <p>The finance lease commitments are recorded in the notes to the financial statements and are not apportioned between the capital and interest portions.</p> <p>Finance lease assets acquired at the end of the lease term are recorded and measured at the lower of:</p> <ul style="list-style-type: none"> • cost, being the fair value of the asset; or • the sum of the minimum lease payments made, including any payments made to acquire ownership at the end of the lease term, excluding interest.
9	Aid Assistance
9.1	<p>Aid assistance received</p> <p>Aid assistance received in cash is recognised in the statement of financial performance when received. In-kind aid assistance is recorded in the notes to the financial statements on the date of receipt and is measured at fair value.</p> <p>Aid assistance not spent for the intended purpose and any unutilised funds from aid assistance that are required to be refunded to the donor are recognised as a payable in the statement of financial position.</p>
9.2	<p>Aid assistance paid</p> <p>Aid assistance paid is recognised in the statement of financial performance on the date of payment. Aid assistance payments made prior to the receipt of funds are recognised as a receivable in the statement of financial position.</p>
10	<p>Cash and cash equivalents</p> <p>Cash and cash equivalents are stated at cost in the statement of financial position.</p> <p>Bank overdrafts are shown separately on the face of the statement of financial position as a current liability.</p> <p>For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held, other short-term highly liquid investments and bank overdrafts.</p>
11	<p>Prepayments and advances</p> <p>Prepayments and advances are recognised in the statement of financial position when the department receives or disburses the cash.</p> <p>Prepayments and advances are initially and subsequently measured at cost.</p> <p>Advances (payments to government entities) are recognised in the statement of financial performance if the advance is material and was budgeted for as an expense in the year in which the actual advance was made.</p>
12	<p>Loans and receivables</p> <p>Loans and receivables are recognised in the statement of financial position at cost plus accrued interest, where interest is charged, less amounts already settled or written-off. Write-offs are made according to the department's write-off policy.</p>
13	<p>Investments</p> <p>Investments are recognised in the statement of financial position at cost.</p>
14	Financial assets
14.1	<p>Financial assets (not covered elsewhere)</p> <p>A financial asset is recognised initially at its cost plus transaction costs that are directly attributable to the acquisition or issue of the financial asset.</p>

ACCOUNTING POLICIES

	At the reporting date, a department shall measure its financial assets at cost, less amounts already settled or written-off, except for recognised loans and receivables, which are measured at cost plus accrued interest, where interest is charged, less amounts already settled or written-off.
14.2	<p>Impairment of financial assets</p> <p>Where there is an indication of impairment of a financial asset, an estimation of the reduction in the recorded carrying value, to reflect the best estimate of the amount of the future economic benefits expected to be received from that asset, is recorded in the notes to the financial statements. Impairment will be based on the type of debt according to the applicable policy.</p>
15	<p>Payables</p> <p>Payables recognised in the statement of financial position are recognised at cost.</p>
16	<p>Capital Assets</p>
16.1	<p>Immovable capital assets</p> <p>Immovable assets reflected in the asset register of the department are recorded in the notes to the financial statements at cost or fair value where the cost cannot be determined reliably. Immovable assets acquired in a non-exchange transaction are recorded at fair value at the date of acquisition. Immovable assets are subsequently carried in the asset register at cost and are not currently subject to depreciation or impairment.</p> <p>Subsequent expenditure that is of a capital nature is added to the cost of the asset at the end of the capital project unless the movable asset is recorded by another department/entity in which case the completed project costs are transferred to that department.</p> <p>Additional information on immovable assets not reflected in the assets register is provided in the notes to financial statements.</p>
16.2	<p>Movable capital assets</p> <p>Movable capital assets are initially recorded in the notes to the financial statements at cost. Movable capital assets acquired through a non-exchange transaction is measured at fair value as at the date of acquisition.</p> <p>Where the cost of movable capital assets cannot be determined reliably, the movable capital assets are measured at fair value and where fair value cannot be determined; the movable assets are measured at R1.</p> <p>All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1.</p> <p>Movable capital assets are subsequently carried at cost and are not subject to depreciation or impairment.</p> <p>Biological assets are subsequently carried at fair value.</p> <p>Biological assets (plantations) are measured at standing value. The standing value is the value of the standing, marketable timber that is present in a stand at the age when the value is computed. The standing value is determined with reference to the market volume, obtained from a growth model or yield table, which is applicable to a specific species, site and silviculture regime. The department uses the Microforest for managing the growing stock data base.</p> <p>The valuation is performed annually and is recognised in the notes to the financial statements.</p> <p>Biological assets (plantations) are subsequently carried at fair value.</p> <p>Subsequent expenditure that is of a capital nature is added to the cost of the asset at the end of the capital project unless the movable asset is recorded by another department/entity in which case the completed project costs are transferred to that department.</p>

ACCOUNTING POLICIES

16.3	<p>Intangible assets</p> <p>Intangible assets are initially recorded in the notes to the financial statements at cost. Intangible assets acquired through a non-exchange transaction are measured at fair value as at the date of acquisition.</p> <p>Internally generated intangible assets are recorded in the notes to the financial statements when the department commences the development phase of the project.</p> <p>Where the cost of intangible assets cannot be determined reliably, the intangible capital assets are measured at fair value and where fair value cannot be determined; the intangible assets are measured at R1.</p> <p>All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1.</p> <p>Intangible assets are subsequently carried at cost and are not subject to depreciation or impairment.</p> <p>Subsequent expenditure of a capital nature forms part of the cost of the existing asset when ready for use.</p>
16.4	<p>Heritage assets: Forestry</p> <p>Indigenous forests are valued at R1 per hectare and are demarcated as state forests in terms of chapter 3 of the National Forests Act, 1998 (Act No. 84 of 1998).</p> <p>The valuation is performed annually and is recognised in the notes to the financial statements.</p>
16.5	<p>Project Costs: Work-in-progress</p> <p>Expenditure of a capital nature is initially recognised in the statement of financial performance at cost when paid.</p> <p>Amounts paid towards capital projects are separated from the amounts recognised and accumulated in work-in-progress until the underlying asset is ready for use. Once ready for use, the total accumulated payments are recorded in an asset register. Subsequent payments to complete the project are added to the capital asset in the asset register.</p> <p>Where the department is not the custodian of the completed project asset, the asset is transferred to the custodian subsequent to completion.</p>
17	<p>Provisions and Contingents</p>
17.1	<p>Provisions</p> <p>Provisions are recorded in the notes to the financial statements when there is a present legal or constructive obligation to forfeit economic benefits as a result of events in the past and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the obligation can be made. The provision is measured as the best estimate of the funds required to settle the present obligation at the reporting date.</p>
17.2	<p>Contingent liabilities</p> <p>Contingent liabilities are recorded in the notes to the financial statements when there is a possible obligation that arises from past events, and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department or when there is a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation or the amount of the obligation cannot be measured reliably.</p>
17.3	<p>Contingent assets</p> <p>Contingent assets are recorded in the notes to the financial statements when a possible asset arises from past events, and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department.</p>
17.4	<p>Capital commitments</p> <p>Capital commitments are recorded at cost in the notes to the financial statements.</p>

ACCOUNTING POLICIES

18	<p>Unauthorised expenditure</p> <p>Unauthorised expenditure is recognised in the statement of financial position until such time as the expenditure is either:</p> <ul style="list-style-type: none"> • approved by Parliament or the Provincial Legislature with funding and the related funds are received; or • approved by Parliament or the Provincial Legislature without funding and is written off against the appropriation in the statement of financial performance; or • transferred to receivables for recovery. <p>Unauthorised expenditure is measured at the amount of the confirmed unauthorised expenditure.</p>
19	<p>Fruitless and wasteful expenditure</p> <p>Fruitless and wasteful expenditure is recorded in the notes to the financial statements when confirmed. The amount recorded is equal to the total value of the fruitless and or wasteful expenditure incurred.</p> <p>Fruitless and wasteful expenditure is removed from the notes to the financial statements when it is resolved or transferred to receivables or written off.</p> <p>Fruitless and wasteful expenditure receivables are measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.</p>
20	<p>Irregular expenditure</p> <p>Irregular expenditure is recorded in the notes to the financial statements when confirmed. The amount recorded is equal to the value of the irregular expenditure incurred unless it is impracticable to determine, in which case reasons therefor are provided in the note.</p> <p>Irregular expenditure is removed from the note when it is either condoned by the relevant authority, transferred to receivables for recovery, not condoned and removed or written-off.</p> <p>Irregular expenditure receivables are measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.</p>
21	<p>Changes in accounting estimates and errors</p> <p>Changes in accounting estimates are applied prospectively in accordance with MCS requirements.</p> <p>Correction of errors is applied retrospectively in the period in which the error has occurred in accordance with MCS requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the error. In such cases the department shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.</p>
22	<p>Events after the reporting date</p> <p>Events after the reporting date that are classified as adjusting events have been accounted for in the financial statements. The events after the reporting date that are classified as non-adjusting events after the reporting date have been disclosed in the notes to the financial statements.</p>
23	<p>Principal-Agent arrangements</p> <p>Where the department is party to a principal-agent arrangement all related revenues, expenditures, assets and liabilities have been recognised or recorded in terms of the relevant policies listed herein. Additional disclosures have been provided in the notes to the financial statements where appropriate.</p>
24	<p>Departures from the MCS requirements</p> <p>The department did not depart from MCS requirements</p>

ACCOUNTING POLICIES

25	<p>Capitalisation reserve</p> <p>The capitalisation reserve comprises of financial assets and/or liabilities originating in a prior reporting period but which are recognised in the statement of financial position for the first time in the current reporting period. Amounts are recognised in the capitalisation reserves when identified in the current period and are transferred to the National Revenue Fund when the underlying asset is disposed and the related funds are received.</p>
26	<p>Recoverable revenue</p> <p>Amounts are recognised as recoverable revenue when a payment made in a previous financial year becomes recoverable from a debtor in the current financial year. Amounts are either transferred to the National Revenue Fund when recovered or are transferred to the statement of financial performance when written-off.</p>
27	<p>Related party transactions</p> <p>Related party transactions within the Minister portfolio are recorded in the notes to the financial statements when the transaction is not at arm's length.</p> <p>Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the department. Key management personnel includes all executive management on level 14 and above. The number of individuals and the full compensation of key management personnel is recorded in the notes to the financial statements.</p>
28	<p>Inventories</p> <p>At the date of acquisition, inventories are recognised at cost in the statement of financial performance.</p> <p>Where inventories are acquired as part of a non-exchange transaction, the inventories are measured at fair value as at the date of acquisition.</p> <p>Inventories are subsequently measured at the lower of cost and net realisable value or where intended for distribution (or consumed in the production of goods for distribution) at no or a nominal charge, the lower of cost and current replacement value.</p> <p>The cost of inventories is assigned by using the weighted average cost basis.</p>
29	<p>Public-Private Partnerships</p> <p>Public Private Partnerships are accounted for based on the nature and or the substance of the partnership. The transaction is accounted for in accordance with the relevant accounting policies.</p> <p>A summary of the significant terms of the PPP agreement, the parties to the agreement, and the date of commencement thereof together with the description and nature of the concession fees received, the unitary fees paid, rights and obligations of the department are recorded in the notes to the financial statements.</p>
30	<p>Employee benefits</p> <p>The value of each major class of employee benefit obligation (accruals, payables not recognised and provisions) is disclosed in the Employee benefits note.</p>
31	<p>Transfers of functions</p> <p>Transfers of functions are accounted for by the acquirer by recognising or recording assets acquired and liabilities assumed at their carrying amounts at the date of transfer.</p> <p>Transfers of functions are accounted for by the transferor by derecognising or removing assets and liabilities at their carrying amounts at the date of transfer.</p>
32	<p>Mergers</p> <p>Mergers are accounted for by the combined department by recognising or recording assets acquired and liabilities assumed at their carrying amounts at the date of the merger.</p> <p>Mergers are accounted for by the combining departments by derecognising or removing assets and liabilities at their carrying amounts at the date of the merger.</p>

**NOTES TO THE ANNUAL FINANCIAL STATEMENTS
for the year ended 31 March 2021**

1. ANNUAL APPROPRIATION

Included are funds appropriated in terms of the Appropriation Act (and the Adjustments Appropriation Act) for national departments (voted funds) and provincial departments:

	2020/21			2019/20
	Final appropriation	Actual funds received	Funds not requested/not received	Final appropriation
	R'000	R'000	R'000	R'000
Administration	2 817 077	2 817 077	–	–
Agricultural Production, Health, Food Safety and Natural Resources	2 960 049	2 959 990	59	–

	Balance as at 1 April 2020 R'000	Less: Amount expensed in current year R'000	Add or less: Other R'000	Add: Current year advances R'000	Balance as at 31 March 2021 R'000
National departments	–	(11 086)	2 639	13 199	4 752
Total	–	(11 086)	2 639	13 199	4 752

The advance was paid to the Department of Government Communication and Information Systems (GCIS) for purposes of the various media campaigns that GCIS runs on behalf of the department.

The funds are advanced based on the pro-forma invoice that the GCIS sends to the department. Once the campaign has run, the final invoice is then sent to the department in order for the department to correctly account for it in the general ledger and at the same time reduce the balance of the advance.

**NOTES TO THE ANNUAL FINANCIAL STATEMENTS
for the year ended 31 March 2021**

11.2 Prepayments (not expensed)

	Balance as at 1 April 2020	Less: Amount expensed in current year	Add or less: Other	Add: Current year prepayments	Amount as at 31 March 2021
	R'000	R'000	R'000	R'000	R'000
Goods and services	–	(150 145)	51 911	154 410	56 176
Total	–	(150 145)	51 911	154 410	56 176

The advance was paid to the Department of Government Communication and Information Systems (GCIS) for purposes of the various media campaigns that GCIS runs on behalf of the department.

The funds are advanced based on the pro-forma invoice that the GCIS sends to the department. Once the campaign has run, the final invoice is then sent to the department in order for the department to correctly account for it in the general ledger and at the same time reduce the balance of the advance.

11.3 Prepayments (expensed)

	Balance as at 1 April 2020	Less: Received in current year	Add or less: Other	Add: Current year prepayments	Amount as at 31 March 2021
	R'000	R'000	R'000	R'000	R'000
Goods and services			(71 934)	241 670	169 736
Total			(71 934)	241 670	169 736

These funds were advanced in line with the Presidential Employment Stimulus Initiative (PESI) that was introduced in order to provide relief to distressed farmers affected by the COVID-19 pandemic. The assistance is provided through the issue of e-vouchers to the farmers. The department did not have the resources to administer the e-voucher function, thus the services of an external service provider (Vodacom) were sought to administer these vouchers. Funds are advanced to Vodacom in line with the departmental approval process, Vodacom will in turn disperse the vouchers to the approved farmers through the Connected Farmer eVoucher solution.

11.4 Advances paid (expensed)

	Balance as at 1 April 2020	Less: Received in the current year	Add or less: other	Add: Current year advances	Amount as at 31 March 2021
	R'000	R'000	R'000	R'000	R'000

20. CONTINGENT LIABILITIES AND CONTINGENT ASSETS

20.1 Contingent liabilities

Liable to	Nature	Note	2020/21 R'000	2019/20 R'000
Housing loan guarantees	Employees	Annex 3A	127	-
Claims against the department		Annex 3B	1 089 397	-
Intergovernmental payables (unconfirmed balances)		Annex 5	431 035	-
Other			-	-
Total			1 520 559	-

Interest and legal cost that may arise from claims against the state are not disclosed as contingent liability as the occurrence obligation depends on the handing down of an order by a court that the department is liable for payment of interest and legal costs, and it is only in instances where the department is not appealing or reviewing in order. There are some claims brought against the department that are not sounding in money and which are therefore not quantifiable due to the nature of the claims not sounding in money.

The cases reported under contingent liabilities in Annexure 3A represent housing loan guarantees that were issued to employees still in the employment of DALRRD. Any possible outflow of funds will firstly be recovered from the salary/service benefits of the employee before any debt is raised. The cases reported under contingent liabilities in Annexure 3B represent legal cases instituted against DALRRD which are in various stages of investigation/legal actions. Also included are Occupation Specific Dispensation (OSD's) claims that are unpaid and are subject to approval.

Cases reported in Annexure 5 represent unconfirmed intergovernmental payable.

20.2 Contingent assets

Confirmed balances with other government entities	Annex 5	4 011	
Total		4 011	

23. EMPLOYEE BENEFITS

	2020/21	2019/20
	R'000	R'000
Leave entitlement	283 830	
Service bonus	100 519	
Performance awards	–	
Capped leave	50 609	
Other	3 226	
Total	438 184	

Leave entitlement balance has been taken into account and the negative balances of R599 thousand which resulted from the following:

At the beginning of the year, the official is allocated 22 or 30 days of vacation leave for the whole year, which is pro-rated from month to month. Sometimes officials take leave that is more than the leave accumulated for a particular period, which then result in the pro-rated days of that particular period being exceeded hence the negative balance.

24. LEASE COMMITMENTS

24.1 Operating leases

Later than five years	41	6 042	–	6 083
Total lease commitments	44	934 724	71 996	1 006 764

**NOTES TO THE ANNUAL FINANCIAL STATEMENTS
for the year ended 31 March 2021**

Existing lease agreements: The lease commitments for lease office accommodation/buildings/facilities/land were based on the actual lease tariff and escalation rate per annum, as outlined in the signed lease agreements/cost analyses per building/facility/land.

Leases extended by NDPWI (month-to-month basis): The following lease agreements have expired and the National Department of Public Works and Infrastructure (NDPWI) extends the leases on a month-to-month basis to allow monthly rental payments until the finalisation of the lease renewals or acquisition of alternative office space as per Procurement Instruction (PI) and the DAFF's "Confirmation of period of continued use of leasehold" schedule dated 08/03/2019 issued: Durban - King Shaka International Airport, Port Elizabeth - ICI Building, De Aar - Locust Depot, Bloemfontein - Omni Building, Bloemfontein - Bram Fischer International Airport, Cape Town - Epping Fresh Produce Market, Cape Town - Cape Town International Airport, Lanseria - Lanseria International Airport, Kempton Park - OR Tambo International Airport Cargo & Terminal and Pretoria - Delpen Building. The projected commitment for the month-to-month leases is included in the above figure. The projected monthly rental tariffs are based on the last rental tariffs claimed from NDPWI. The projected renewal periods are per DALRRD's needs assessments and the procurement instructions issued by NDPWI and/or according to the DALRRD's confirmation of period of continued use of leased facilities dated Friday, 8 March 2019. Refer to enclosed schedules in this regard. State-owned accommodation charges: The State-owned accommodation charges over the MTEF period are included in the above figure. Refer to enclosed schedules in this regard.

24.2 Finance leases

**NOTES TO THE ANNUAL FINANCIAL STATEMENTS
for the year ended 31 March 2021**

PPP is defined as a contract between a public sector institution/municipality and a private party, in which the private party assumes substantial financial, technical and operational risk in the design, financing, building and operation of a project.

PPP is between DALRRD and Tshala Bese Uyavuna Consortium.

The Status of PPP:

The DALRRD has registered a PPP project with National Treasury and prepared the feasibility study comprising of needs analysis, option analysis, project due diligence, value assessment, economic valuation and procurement plan which were also submitted to National Treasury.

In line with the PPP manual, the department further obtained the following approvals:

Treasury Approval I : Design Procurement Processes

Treasury Approval IIA : Pre-qualification of parties, Issuing of RFP, receive bids, compare bids with feasibility study, select preferred bidder and prepare value for money report.

Treasury Approval IIB : Negotiations with the preferred bidder

Treasury Approval III : Approval to sign the PPP agreement (approval granted by National Treasury in May 2017)

PROPOSED PPP PROJECT PLAN

- a) The PPP building will accommodate all Pretoria based offices including the Gauteng: PSSC, National Office, Deeds and Restitution.
- b) The building will have 82 434 square meters, 1 124 parking bays and will accommodate 2 400 staff members
- c) The building will be fully serviced which will include the provision of the following services by Private Party:
 - Printing services
 - Cleaning services
 - Catering services
 - Maintenance service
 - Furniture
- d) Note: The private party will operate the building for a period of 25 years and thereafter the building becomes state property.

PROJECT LONGER THAN 5 YEARS

Suppliers Name	Project Name	Status
LDM Quantity Surveyors	Construction of a high throughput cattle and sheep abattoir in Butterworth	There has been slow progress on site due to work stoppages, delays because of redesigning, regulatory and compliance issues, community unrest. Contract expired and has therefore been transferred to an implementing agent for completion.
Element consulting	Design of irrigation system for agricultural land and other infrastructure in Mvezo and Ludondolo	DSW was to assist with reserve determination but ran out funds. Project to be abandoned following the reprioritisation process. It was at planning and design stage
Indyebo Consulting	Zuurberg Heritage Tourism Memorial and Youth Centre	The service provider (PSP) will be terminated due to poor performance.
ARUP	Architectural service for the construction of a Heritage Memorial & Youth Training Centre in Zuurberg	The contractor depends on the PSP which is Indyebo to complete the project. Indyebo is in a process of being terminated.
Sizeya Consulting	Design and monitor construction of Multi-Purpose Centre In Qutubeni	The project had experienced continues and lengthy delays in getting past design development due to continuous changes and delays being made by the architect representing the community, who was not appointed by the Department but was designated the role for design oversight by the community.
Montseng/Mapitsi Jv	Construction of a river crossing bridge and 10km access road at Gqunu	Montseng/ Mapitsi JV Contract Terminated due to Poor performance and Slow progress on site with the contract period lapsing without extension of time.
AECOM SA (PTY) LTD	Professional service for construction of a river crossing bridge&10 km access road	Furthermore, to the Montseng/ Mapitsi JV Contract Terminated due to Poor performance and Slow progress on site with the contract period lapsing without extension of time. The project scope will be reduced to minimally provide project objectives as opposed to the proposed costs for completion of the project which has escalated over time and has since proved to be expensive.
BVI Consulting	Civil engineering services for the design and monitoring of 5km road in Dumalisile	Project cost estimate indications were that it would be too expensive- the project was at Planning and Design stage
BVI Consulting	Engineering services for the installation of irrigation system at Bumbane Great Place	Project abandoned following the reprioritisation process. It was at planning and design stage. Project to be considered for implementation in future years.
Sinned Construction	Construction of a concrete water tower for the Mamello low cost housing development in Vaal Marina, Midvaal Local	The manner in which service provider was appointed; Municipality appointed PSP, contractor by the department. The contractor suffered cash flow constraints
Element Consulting	PSP Mooi River	Phase 1 was terminated; it will be re-advertised. Therefore phase 2 cannot be completed, it depends on phase 1
Kipp Consulting Engineers Jv Mashaipone General Construction	Construction of Mphalaleni Irrigation Scheme	Terminated due to Continuous Community protests
Tychofied	PSP construction of Madzivhandila College access road	Terminated due to financial problems

The Land and Agriculture Development Bank of South Africa	<p>AgriBEE fund: Support the economic empowerment and successful entry of black people into the agriculture sector in accordance with the objectives of the AgriBEE Charter. The Land Bank and DAFF shall manage, disburse and monitor the funds as per MoU and Operational plan. The Land Bank shall refund and/or all monies already paid by DAFF, in terms of the Agreement and which remains unutilised as at the date of termination.</p>	<p>R40,166 million, R42,496 million, R43,754 million and R14 million were respectively transferred to the Land Bank in the 2017/18, 2018/19, 2019/20 and 2020/21 financial years. The Land Bank compile quarterly and annual qualitative evaluation reports that is monitored and evaluated by the Directorate: Business and Entrepreneurial. The Land Bank AGRIBEE had a balance of R275, 562 million in their books at the end of 2020/21.</p>
	<p>BPCP: The objective is to create a partnership to provide blended support to Black Commercial Producers in the agriculture, land reform and rural development sectors in an attempt to accelerate agricultural development and to transform these sectors. The support will include blended funding, skills and technical support required by these producers. The Land Bank will be the implementing agency for managing the Grant Funding in an interesting bearing account. Each party will bear its own liabilities.</p>	<p>R100 million, R120 million and R360,019 million were respectively transferred to the Land Bank in the 2017/18, 2018/19 and 2019/20 financial years. The funds were appropriated in the ENE as transfer payments – earmarked amounts. The Land Bank is responsible to provide monthly and quarterly reports. The Joint Steering Committee is responsible for the co-ordination, performance of parties, monitoring and report activities. The Land Bank BPCP had a balance of R641, 457 million in their books at the end of 2020/21.</p>
	<p>MAFISA: The purpose of the MAFISA project is to provide micro and retail agricultural financial services in the rural areas for agriculture activities. The Land Bank has been appointed during 2008 by DAFF to implement the MAFISA project. The Land Bank will use the funds only when written instruction is given by the Director-General- DAFF. The agreement lapsed in 2013. On termination the Land Bank shall pay back the total balance of MAFISA funds not disbursed, including any interest accrued.</p>	<p>The former DAFF further entered into agreements with intermediaries. The Land Bank was responsible for transferring MAFISA funds to the intermediaries to expense in terms of the agreement. The former DAFF did not transfer any funds to the Land Bank in the 2017/18, 2018/19 and 2019/20 financial years. DALRRD did not transfer any funds in the 2020/21 financial year. The Land Bank had a balance of R13,899 million in their books at the end of 2020/21. The intermediaries had balances of R79,16, R80,61 and R72,49 million respectively in the 2018/19, 2019/20 and 2020/21 financial years.</p>
	<p>COVID 19: To provide relief to distressed farmers affected by the COVID-19 pandemic. Land Bank shall submit an audited financial statement after termination.</p>	<p>A R100 million was paid from the 2019/20 budget to the Land Bank. The Land Bank COVID-19 fund had a balance of R95, 521 million in their books at the end of 2020/21.</p>
Vodacom	<p>The Connected farmer eVoucher solution is a Vodacom solution aimed at assisting DALRRD with the distribution of electronic vouchers to their farmers. The proposal has been prepared by Vodacom SA with the assistance of Mezzanine, a wholly owned subsidiary of Vodacom Group based in SA.</p>	<p>The eVoucher solution is designed for configurability and scalability. The objective is to support a cost-effective, long-term solution that can adapt to client requirements over time.</p>
ARC	<p>As a Research Institute and specialist in agriculture the entity project manages, provides technical support, training enterprise development, and market access for the enterprise. Each party shall bear its own legal costs.</p>	<p>Training, advice, and strategy leadership were provided.</p>

**NOTES TO THE ANNUAL FINANCIAL STATEMENTS
for the year ended 31 March 2021**

35.2 Department acting as the agent

35.2.1 Revenue received for agency activities

	2020/21	2019/20
	R'000	R'000
	-	-
Total	-	-

- i) The nature of arrangements is to train NARYSEC youth in different skills programme as stipulated in the implementation protocol. In 2012, the Department did not have enough funding to train more than 7 000 youth, a funding proposal was made to DHE which was approved. A MoU was signed by the two departments. The conditions to the agreement was that DALRRD will in writing notify NSF within 21 days of any changes to the project which might affect the planned project deliverables
- ii) All draw down request should be accompanied by the current bank reconciliation statement, supported by evidence commitment and performance and all other documentation as may be requested by NSF.
- iii) The department undertakes to honour its obligation for VAT payment and other transaction in compliance with SA laws and good practices.
- iv) DALRRD undertake to submit to NSF quarterly reports within 15 days after the end of the quarter. This would have a positive impact in the implementing the project as outlined below:
- Current training linked to NQF to enable rural youth to further their studies after exit should they choose to.
 - The following risks were however identified:
 - i) Limited capacity of public colleges to absorb all NARYSEC learners and to offer all required skills training.
 - ii) Colleges outsource training to private providers without informing the department.
 - iii) Prolonged delay by SETA to issue competent learners with certificates and failure by Colleges to upload learner information into SETA system. NSF Obligations to DALRRD.
 - iv) The NSF will pay an amount for the first Quarter as agreed in the project draw-down schedule Upon receipt of the signed agreement and necessary supporting documentation
 - i) Payment of subsequent drawdowns shall be dependent on the presentation by DRDLR and acceptance by the NSF of the quarterly reports as in clause 5.7 above.
 - ii) The NSF shall retain 10% of the total project costs and this shall be paid to DALRRD on the successful closure of the project.
 - iii) The NSF shall process DRDLR quarterly in advance subject to clause 6.5 above and accordance with the rates and budgeted times as set out in the Project budget.
 - iv) The NSF is entitled to refuse to pay any claim submitted by DALRRD in relation to this MoU if such claim is submitted after the expiry of the MoU

36. TRANSFER OF FUNCTIONS AND MERGERS

36.1 Transfer of functions

The President announced the reconfiguration of Departments on 14 June 2019. The Agriculture functions of former Department of Agriculture, Forestry and Fishers (DAFF) will merge with the former Department of Rural Development and Land Reform (DRDLR) to form the Department of Agriculture, Land Reform and Rural Development (DALRD). The Forestry and Fisheries functions will be transferred to the Department of Forestry, Fisheries and Environment (DFFE). The transfer of the budget to the newly formed departments were finalised and became effective on 1 April 2020. The staff components were also transferred on PERSAL with effect from 1 April 2020. These processes were in line with the National Macro Organisation of Government.

The transfer of assets and liabilities are reported in terms of the recommendations issued by National Treasury on 28 May 2021.

Movable tangible capital assets	1 319 880	(852 947)			466 933
Immovable tangible capital assets	2 323	(892)			1 431
Intangible capital assets	74 870	(1 017)			73 853

Revenue received for the Forestry function after 1 April 2020 were paid to DFFE.

Expenditure incurred on behalf of the Forestry and Fisheries functions were claimed from DFFE through the normal interdepartmental claim process.

Note: Minor assets are not catered for in the above note:

Movable tangible minor assets R6,279,546.16

Immovable tangible minor assets R515,089.00

Intangible minor assets R2,349.00

A joint verification was conducted between the transfer and receiving department for assets to be transferred.

The S42 was handed over to the DFFE but not yet concluded on 31 March 2021.

The carrying amount from DAFF were brought in using the 2 years measuring period and from 1 April 2020 DFFE will utilize the two year measurement period provided by the MCS/AMD/NT directive issued on 28 May 2021, to measure all assets and to revise comparative information for prior periods presented in the financial statements as needed.

The balances before transfer date will not correspond to the closing balance for DAFF on 31 March 2020 since adjustments were made to the opening balances. The reason for the adjustments were due to asset classification and category changes.

Revenue received for the Forestry functions after 1 April 2020 were paid to the DFFE.

Expenditure incurred on behalf of the Forestry and Fisheries functions were claimed from DFFE through the normal interdepartmental claim process.

Report of the auditor-general to Parliament on Agricultural Land Holdings Account

Report on the audit of the financial statements

Qualified opinion

1. I have audited the financial statements of the Agricultural Land Holdings Account set out on pages 389 to 428, which comprise the statement of financial position as at 31 March 2021, statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, except for the effects of the matter described in the basis for qualified opinion section of this auditor's report, the financial statements present fairly, in all material respects, the financial position of the Agricultural Land Holdings Account as at 31 March 2021, and its financial performance and cash flows for the year then ended in accordance with the Standards of Generally Recognised Accounting Practice (GRAP) and the requirements of the Public Finance Management Act 1 of 1999 (PFMA).

Basis for qualified opinion

Trade and other receivables from non-exchange transactions

3. I was unable to obtain sufficient appropriate audit evidence for trade and other receivables from non-exchange transactions and the related provision for impairment, if any, as the trading account did not adequately assess the recapitalisation and development grants to determine the grants that had to be repaid and recognised as receivables. I could not confirm the amount of the trade and other receivables from non-exchange transactions and the resultant impact on the prior period error disclosure by alternative means. Consequently, I was unable to determine whether any adjustment was necessary to trade and other receivables from non-exchange transactions stated at R620 300 000 (2019-20: R413 549 000) and the prior period error disclosure for the recapitalisation and development grants in notes 7 and 25 of the financial statements, respectively.

Context for the opinion

4. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of my report.
5. I am independent of the trading account in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
6. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Emphasis of matter

7. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Impairment of trade receivables from exchange

8. As disclosed in note 6 to the financial statement, the trading account had receivables from exchange transaction totalling R514 400 000, with an impairment provision for doubtful debts of R507 584 000 as at 31 March 2021. The receivables relate to operating leases on farms leased out to beneficiaries.

Restatement of corresponding figures

9. As disclosed in note 25 to the financial statements, the corresponding figures for 31 March 2020 were restated as a result of an error in the financial statements of the trading account at, and for the year ended, 31 March 2021.

Responsibilities of the accounting officer for the financial statements

10. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with GRAP and the requirements of the PFMA, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
11. In preparing the financial statements, the accounting officer is responsible for assessing the trading account's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the trading account or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

12. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
13. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

14. Section 40(3)(a) of the PFMA requires the trading account to prepare an annual performance report. The trading account's performance information was reported in the annual performance report of Department of Agriculture, Land Reform and Rural Development. The usefulness and reliability of the reported performance information was tested as part of the audit of the Department of Agriculture, Land Reform and Rural Development and any audit findings are included in the management and auditor's reports of Department of Agriculture, Land Reform and Rural Development.

Report on the audit of compliance with legislation

Introduction and scope

15. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the trading account's compliance with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.
16. The material findings on compliance with specific matters in key legislation are as follows:

Annual financial statements

17. The financial statements submitted for auditing were not prepared in accordance with the prescribed financial reporting framework as required by section 40(1) (b) of the PFMA. Material misstatements of trade and other receivables from non-exchange transactions identified by the auditors in the submitted financial statements were not corrected resulting in the financial statements receiving a qualified opinion.

Expenditure management

18. Effective and appropriate steps were not taken to prevent irregular expenditure amounting to R13 867 000, as disclosed in note 23 to the annual financial statements, as required by section 38(1)(c)(ii) of the PFMA and treasury regulation 9.1.1. The irregular expenditure disclosed in the financial statements resulted from non-compliance with supply chain management processes. Irregular expenditure of R13 867 000 was incurred on land development support projects.
19. Payments were not made within 30 days or an agreed period after receipt of an invoice, as required by treasury regulation 8.2.3.

Other information

20. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report, which includes the audit committee's report. The other information does not include the financial statements and the auditor's report.
21. My opinion on the financial statements and findings on compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion on it.
22. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
23. The other information I obtained prior to the date of this auditor's report is the accounting officer's report and the audit committee report. The other information to be included in the annual report is expected to be made available to us after 06 August 2021.
24. If, based on the work I have performed on the other information that I obtained prior to the date of this auditor's report, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Internal control deficiencies

25. I considered internal control relevant to my audit of the financial statements, and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the qualified opinion and the findings on compliance with legislation included in this report.
26. There was no proper review and monitoring of compliance with legislation, resulting in financial statements that were not prepared in accordance with the prescribed reporting framework of the entity.
27. There was no adequate monitoring and oversight to ensure compliance with legislation, to prevent irregular expenditure from being incurred by the trading account and to ensure that payments are made within 30 days from the date of receipt of invoice.
28. Management did not effectively exercise oversight responsibility over financial reporting, compliance and related controls, as evidenced by the material misstatements in the financial statements.

Auditor-General

Pretoria
06 August 2021

AUDITOR - GENERAL
SOUTH AFRICA

Auditing to build public confidence

Annexure – Auditor-general’s responsibility for the audit

1. As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and on the trading account’s compliance with respect to the selected subject matters.

Financial statements

2. In addition to my responsibility for the audit of the financial statements as described in this auditor’s report, I also:
 - identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
 - obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the trading account’s internal control
 - evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the accounting officer.
 - conclude on the appropriateness of the accounting officer’s use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the Agricultural Land Holdings Account to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor’s report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor’s report. However, future events or conditions may cause a trading account to cease operating as a going concern
 - evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

3. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
4. I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

1. **Rental income on lease receivable -31%** variance is as a result of over performance due to finalization of lease agreements, therefore more billing for the contracts was done.
2. **Interest on Outstanding lease debt — (14%)** variance is as a result of interest that has been charged for the current financial year.
3. **Interest on servitude – 1%** variance is as a result interest charged on servitude that was not budget for.
4. **Other income - (100%)** The variance relates to budget other income for the current financial year.
5. **Interest received - (33%)** variance is as a result of a decline in cash and cash equivalent.
6. **Donation received - (5%)** variance is as a result of some Strategic Land Acquisition transactions falling off which directly impacts the direct donations to be received from sellers.
7. **Depreciation & amortisation - 2%** variance is as a result of depreciation charged in the current financial year.
8. **Impairment – 5193%** variance is due to impairment for PPE, and lease debtor's impairment for the current financial year compared to budget that was later adjusted.
9. **Interest expense - (100%)** variance is due to interest expense on rates and taxes that was not anticipated for.
10. **Bad debts written off — (100%)** variance is as a result of the bad debts write off that was budgeted for. At the end of the financial year there were no write offs that were implemented or identified.
11. **Grant expense farmers – 14%** variance relates to underperformance on COVID-19 vouchers not yet redeemed.
12. **General expense - (105%)** variance relates to increase in the provision contribution on Rates and Taxes during the current financial year against budget.
13. **Loss on disposal of assets – (15%)** variance is as a result of the balance remaining from the estimated budget against actual asset disposed at nominal value.

14. **Trade and other receivables from exchange transactions - (28%)** the variance is as a result of an increase in the provision for doubtful debts due to low payment of rental income.
15. **Trade and other receivables from non-exchange transactions - (13%)** the variance is as a result of underperformance on Unspent Grant Land Development Support due to the slow start to the implementation of land development support as a result of change in implementation model during the year.
16. **Prepayments – 100%** variance is as a result of prepayments that were not budgeted for due to planned prepayments during the current financial year.
17. **Cash and cash equivalent - (16%)** the variance relates to initial budget that assumed that the 2019/20 cash and cash equivalent would be low, however the expenditure in 2019/20 was significantly low which resulted into 2019/20 bank balance being high. Also, the payments processed during the current financial year. The budget was increased significantly during the AENE budget process.
18. **Property, plant and equipment – 1%** the variance is as a result net carrying value on PPE after depreciation and impairment loss.
19. **Other financial asset - (100%)** the variance is as result of the transfer of function of Blended Finance Programme and Emerging Farmer Facility that was done during the current financial year to the Department of Agriculture Land Reform and Rural Development as compared to the budget that was provided for the current financial year.
20. **Trade and other payables from exchanges transactions – 120%** the variance is as a result of an anticipation of conclusion of rate and taxes accounts balances as well as anticipated

Accounting Policies

1. Presentation of Annual Financial Statements

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 91(1) of the Public Finance Management Act (Act 1 of 1999).

These annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise.

In that absence of an issued and effective Standard of GRAP, accounting policies for material transactions, events or conditions were developed in accordance with paragraphs 8, 10 and 11 of GRAP 3 as read with Directive 5.

Assets, liabilities, revenues and expenses were not offset, except where offsetting is either required or permitted by a Standard of GRAP.

A summary of the significant accounting policies, which have been consistently applied in the preparation of these annual financial statements, are disclosed below.

1.1 Presentation currency

These annual financial statements are presented in South African Rand, which is the functional currency of the entity.

1.2 Rounding

Unless otherwise stated all financial figures have been rounded off to the nearest one thousand rand (R'000).

1.3 Prior year comparatives

When that presentation or classification of items in the interim financial statements is amended, prior period comparative amounts are also reclassified and restated, unless such comparative reclassification is not required by a Standard of GRAP. The nature and reasons for such reclassification and restatement are also disclosed.

Where material accounting error, which relate to prior periods have been identified in the current year, the correction is made retrospectively as far as practicable and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable and the prior year comparatives are restated accordingly.

Presentation and classification of Items in the current year are consistent with prior periods.

1.4 Budget

Budget information has been provided in a separate disclosure note in accordance with GRAP 1 and 24. GRAP 24 is applicable to all entities preparing their financial statements on accrual basis of accounting and is also applicable to all entities that are required or elect to make their approved budget publicly available.

ALHA budget does not meet the scope of GRAP 24 because its budget is not approved by parliament. The Trading Entity has elected to make their approved budget available. ALHA has presented separate statement of comparison of budget annual interim financial statements are presented using accrual basis of accounting while the budget information is presented using cash

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

basis of accounting.

1.5 Significant judgements and estimates

In preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements. Significant judgements include:

Impairment of trade receivable

The entity assesses its trade receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the trading entity makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

Appropriate allowances for estimated irrecoverable amounts are recognised in surplus or deficit when there is objective evidence that the asset is impaired.

Debtors are assessed on an individual basis; however, groups of debtors could be affected by the same evident circumstances which warrants a specific sub-grouping to be justifiable. Those debtors are classified according to those underlying circumstances for the purpose of compilation of an allowance for doubtful debts.

The following are some of the factors that should be considered, but the list is not exhaustive.

Category	% Impairment
Debt acknowledged /Valid ID / Limited Operation	100 %
Debt acknowledged / Valid ID / Recapitalisation/Land development support	100 %
Debt acknowledged / Business Reg / No Operation / Not Categorised	100 %
Debt acknowledged / Business Reg / Recapitalisation/Land development support	100 %
Debt acknowledged / Business Reg / Limited Operation	97 %
Debt acknowledged /Valid ID / No Operation / Not Categorised	80 %
Debt acknowledged / Business Reg / Commercial	100 %
Debt not acknowledged/Business Reg/Commercial	96 %
Debt not acknowledged/Valid ID/No Operation/not categorised	98 %
Refusal to pay	100 %
Debt not acknowledged	100 %

Impairment of non-financial assets

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the entity for similar financial instruments.

Value in use of non-cash generating assets

The Trading Entity reviews and test the carrying value of the assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. If there are indicators that impairment may have occurred, the remaining service potential of the asset is determined. This estimate is based on the availability of information to determine the remaining service potential of the asset.

1.5 Significant judgements and estimates (continued)

Remaining useful lives of property, plant and equipment

The Trading Entity's management determines the estimated remaining useful lives and related depreciated charges for property, plant and equipment. This estimate is based on management's judgement, farming activities and operational factors. These estimates are based on the pattern in which an asset's future economic benefits or service potential is expected to be consumed by the Trading Entity.

Depreciation

Depreciation is recognised on property, plant and equipment and is determined with reference to the useful lives of the underlying items. The useful lives of the assets are based on management's estimation of the assets condition at the end of the period of use, its current use and expected future use.

Replacements costs

Replacement costs is calculated using the average price asset purchased within ALHA, since a willing buyer willing seller market is used for acquisition of ALHA property, plant and equipment.

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included for rates and taxes where average of payment was made for properties owned. An average over 5 years was made.

Budget information

Variances between budget and actual amounts are regarded as material when a 5% variance exists. All material differences are explained in the notes to the annual financial statements.

Impairment of other financial asset

The impairment loss on financial asset measured at amortised cost is calculated as the difference between the asset net carrying amount and the present value of the estimated future cash flow discounted at the financial asset original interest rate.

The present value of the future cash flows is determined based on the budgeted percentage performance achieved by entities that have been advanced concessionary loans.

1.6 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the entity; and
- the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

arriving at the cost. The cost also includes the estimated cost of dismantling the asset and restoring the site on which it's operated.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Major inspection costs which are a condition of continuing use of an item of property, plant and equipment and which meet the recognition criteria above are included as a replacement in the cost of the item of property, plant and equipment. Any remaining inspection costs from the previous inspection are derecognised.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the Trading Entity replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

Subsequent expenditure including major spare parts and servicing equipment qualify as property, plant and equipment if the recognition criteria is met.

Property, plant and equipment are depreciated on the straight-line basis over their expected useful lives. Components of assets that are significant in relation to the whole assets and that have different useful lives are depreciated separately. The Trading Entity maintains and acquires assets to provide a social service to the community, with no intention to dispose of the assets for any economic gain.

The assets residual values, useful lives and depreciation methods are reviewed at each financial year end and adjusted prospectively, if appropriate.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

The annual depreciation of items of property, plant and equipment have been assessed and based on the estimated asset useful lives as follows:

Item	Depreciation method	Average useful life
Agricultural land	Straight line	Unlimited
Infrastructure - Production facility - e.g. Broilers	Straight line	40 - 50
Infrastructure - Production infrastructure - e.g. kraal	Straight line	30 - 50
Buildings - Farm dwellings/buildings	Straight line	5 - 10
Agricultural Equipment - No Moving parts e.g. Ploughs	Straight line	20 - 30
Agricultural Equipment - High intensity moving parts e.g. Chain Saws	Straight line	5 - 7
Agricultural Equipment - Mechanical e.g. Tractors	Straight line	10 - 15
Agricultural Equipment - Water low intensity non-electrical	Straight line	30
Agricultural Equipment - Water low intensity - electrical	Straight line	15 - 20
Electrical	Straight line	15
Office equipment	Straight line	5 - 10
Motor vehicles	Straight line	5 - 10

The depreciable amount of an asset is allocated on a systematic basis over its useful life.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the entity. The depreciation method applied to an asset is reviewed at least at each reporting date and, if there has been a significant change in the expected pattern of consumption of the future economic benefits or service potential embodied in the asset, the method is changed to reflect the changed pattern. Such a change is accounted for as a change in an accounting estimate.

The entity assesses at each reporting date whether there is any indication that the entity expectations about the residual value and the useful life of an asset have changed since the preceding reporting date. If any such indication exists, the entity revises the expected useful life and/or residual value accordingly. The change is accounted for as a change in an accounting estimate.

The depreciation charge for each period is recognised in trading entity or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in trading entity or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

1.7 Intangible assets

An asset is identifiable if it either:

- is separable, i.e. is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable assets or liability, regardless of whether the entity intends to do so; or
- arises from binding arrangements (including rights from contracts), regardless of whether those rights are transferable or separable from the entity or from other rights and obligations.

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

A binding arrangement describes an arrangement that confers similar rights and obligations on the parties to it as if it were in the form of a contract.

An intangible asset is recognised when:

- It is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the entity; and
- the cost or fair value of the asset can be measured reliably.

The entity assesses the probability of expected future economic benefits or service potential using reasonable and supportable assumptions that represent management's best estimate of the set of economic conditions that will exist over the useful life of the asset.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost at the date of acquisition is measured at its fair value as at that date.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an Intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result, the asset is tested for impairment and the remaining carrying amount is amortised over its useful life. Where the carrying amount of an item of an intangible asset is greater than the estimated recoverable amount (or recoverable service amount), is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charge to the Statement of Financial Performance.

Amortisation is provided to write down the intangible assets, on a straight-line basis, to their residual values as follows:

Item	Depreciation method	Average useful life
Share packaging rights	Straight line	Indefinite

The entity discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note).

Intangible assets are derecognised:

- on disposal; or
- when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of an intangible assets is included in trading entity or deficit when the asset is derecognised (unless the Standard of GRAP on leases requires otherwise on a sale and leaseback) and is recognised in the Statement of Financial Performance.

1.8 Revenue

Revenue from non-exchange transactions:

Revenue from non-exchange transactions refers to transactions where the trading entity received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Revenue from non-exchange transactions is measured at the amount of the increase in net assets recognised by the Trading Entity.

Revenue from exchange transactions:

Revenue from exchange transactions is measured at the fair value of the consideration received or receivable taking into account the amount of any discount allowed by the Trading Entity, for goods and services provided in the normal course of business.

Revenue from the sale of farms is recognised when all the following conditions have been satisfied:

- The entity has transferred to the purchaser that significant risks and rewards of ownership of the property;
- The entity retains neither continuing managerial involvement to the degree usually associated with ownership nor elective control over the property sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits or service potential associated with the transaction will flow to the Trading Entity and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest is recognised in surplus or deficit using the effective interest rate method.

Rental revenue arising from operating leases is accounted for on a straight-line basis over the lease terms.

1.9 Investments in controlled entities

The transfer from the Department of Rural Development and Land Reform is recognised when it is appropriated and probable that future economic benefits will flow to the Trading Entity and the amount can be measured reliably. A transfer is recognised as revenue to the extent that there is no corresponding liability arising from the receipt of the transfer payment.

Where conditions are attached to the transfer that gives rise to a corresponding liability, the corresponding amount is recognised as non-exchange revenue as and when the related liability is discharged.

1.10 Interest in joint ventures

The Trading Entity as a lessor

Classification

A finance lease is a lease that transfers substantially all the risks and rewards incidental to ownership of an asset. An operating lease is a lease other than a finance lease.

The Trading Entity classifies its leases as operating leases. The classification of the leases is based on the extent that the Trading Entity does not transfer substantially all the risk and rewards incidental to ownership of the assets to the lease.

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

Measurement

- Lease income from operating leases is recognised in income on a straight-line basis over the lease term;
- Lease income is disclosed in the Statement of Financial Performance;
- Any contingent rental income is recognised as surplus or deficit in the period in which it is receivable.

1.11 Financial Instruments

A derivative is a financial instrument or other contract with all three of the following characteristics:

- Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract (sometimes called the 'underlying').
- It requires no initial net investment or an initial net investment that is smaller than would be required for other type of contracts that would be expected to have a similar response to changes in market factors.
- It is settled at a future date.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability (or group of financial assets or financial liabilities) and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, an entity shall estimate cash flows considering all contractual terms of the financial instrument (for example, prepayment, call and similar options) but shall not consider future credit losses. The calculation includes all fees and points paid or received between parties to the contract that as an integral part of the effective interest rate (see the Standard of GRAP on Revenue from Exchange Transitions'), transaction costs, and all other premiums or discounts. There is a presumption that the cash flows and the expected life of a group of similar financial instruments can be estimated reliably. However, in those rare cases when it is not possible to reliably estimate the cash flows or the expected life of a financial instrument (or group of financial instruments), the entity shall use the contractual cash flows over the full contractual term of the financial instruments (or group of financial instruments).

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction.

A financial asset is:

- cash;
- a residual interest in another entity; or
- a contractual right to:
 - receive cash or another financial asset from another entity; or
 - exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity.

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

A financial liability is any liability that is a contractual obligation to:

- deliver cash or another financial asset to another entity; or
- exchange financial assets or financial liabilities under conditions that are potentially unfavourable to the entity.

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

1.11 Financial Instruments continued

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Liquidity risk is the risk encountered by an entity in the event of difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Loan commitment is a firm commitment to provide credit under pre-specified terms and conditions.

Loans payable are financial liabilities, other than short-term payables on normal credit terms.

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price.

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

A financial asset is past due when a counterparty has failed to make a payment when contractually due.

A residual interest is any contract that manifests an interest in the assets of an entity after deducting all of its liabilities. A residual interest includes contribution from owners, which may be shown as:

- equity instruments or similar form of unitised capital;
- a formal designation of a transfer of resources (or a class of such transfers) by the parties to the transaction as forming part of an entity's net asset, either before the contribution occurs or at the time of the contribution; or
- a formal agreement, in relation to the contribution, establishing or increasing an existing financial interest in the net assets of an entity.

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

Financial instruments at amortised cost are non-derivative financial assets or non-derivative financial liabilities that have fixed or determinable payments, excluding those instruments that:

- the entity designates at fair value at initial recognition; or
- are held for trading.

Financial instruments at cost are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured.

Financial instruments at fair value comprise financial assets or financial liabilities that are:

- derivatives;
- combined instruments that are designated at fair value;
- instruments held for trading. A financial instrument is held for trading if:
 - it is acquired or incurred principally for the purpose of selling or repurchasing it in the near-term; or
 - on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit-taking;
 - non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; and

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

- financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

Classification

The Trading Entity classifies its financial instruments at amortised cost i.e. non -derivative financial assets or non-derivative financial liabilities that have a fixed or determined payments, excluding instruments that:

- The Trading Entity designates at fair value at initial recognition; or
- Are held for Trading.

The classification depends on the purpose for which the financial instruments were obtained or incurred and takes place at initial recognition. Classification is reassessed on an annual basis.

Initial recognition

Financial instruments are recognised initially when the Trading Entity becomes a party to the contractual provisions of the instruments.

The Trading Entity classifies financial instruments, or their component parts on initial recognition as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and to the extent that the instrument satisfies the definition of a financial liability, a financial asset or a residual interest.

Initial measurement

Financial instruments are measured initially at fair value except for equity investments for which a fair value is not determined, which are measured at cost.

For financial instruments which are not at fair value, transaction costs are included in the initial measurement of the instrument.

Subsequent measurement

All financial assets at amortised cost are subsequently measured at amortised cost using the effective interest rate method, less accumulated impairment losses.

Financial liabilities at amortised cost are subsequently measured at amortised cost, using the effective interest rate method.

Impairment of financial assets

The entity assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired.

For amounts due to the Trading Entity, significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy and default on payments are all considered indications of impairment.

If there is objective evidence that an impairment loss on financial assets measured at amortised costs have been incurred, the amount of the loss is measured as the difference between the assets carrying amount and the present value of the future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the loss is reduced through the use of an allowance amount. The amount of the loss is recognised in surplus or deficit.

Impairment deficits are reversed when an increase in the financial asset's recoverable amount can

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

be related objectively to an event occurring after the impairment was recognised, subject to the restriction that the carrying amount of the financial asset at the date that the Impairment is reversed shall not exceed what the carrying amount would have been had not the impairment been recognised.

Where financial assets are impaired through use of an allowance account, the amount of the deficit is recognised in surplus or deficit within operating expenses. When such assets are written off, the write off is made against the relevant allowance account. Subsequent recoveries of amounts previously written off are credited against operating expenses.

Trade and other receivables

The Trade receivables are initially recognised at fair value and are subsequently stated at amortised costs less provision for impairment.

Trade and other payables

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and are subject to an insignificant risk of changes in value. These are classified as financial assets at amortised cost.

Other financial assets

Other financial asset represents financial guarantees to land bank. Concessionary loan made to farmers by National Empowerment Fund are classified as other financial assets at amortised cost.

1.12 Services in kind

The Trading Entity does not recognise services in kind as revenue. Services in kind are disclosed under related parties.

1.13 Commitments

No provision is made for projects approved for Grant farmers at year end, unless the service in terms of the contract has been delivered or the contract is of an onerous nature. Where a project has been approved and the contract has been awarded at reporting date, but no expenditure has accrued it is disclosed as commitment in the notes of the annual financial statements.

1.14 Irregular, fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.15 Irregular expenditure

Irregular expenditure as defined in section 1 of the PFMA is expenditure other than unauthorised expenditure, incurred in contravention of or that is not in accordance with a requirement of any applicable legislation, including:

- (a) this Act; or
- (b) the State Tender Board Act, 1968 (Act No. 86 of 1968), or any regulations made in terms

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

- of the Act or
- (c) any provincial legislation providing for procurement procedures in that provincial government.

National Treasury practice note no. 4 of 2008/2009 which was issued in terms of sections 76(1) to 76(4) of the PFMA requires the following (effective from 1 April 2008):

Irregular expenditure that was incurred and identified during the current financial and which was condoned before year end and/or before finalization of the financial statements must also be recorded appropriately in the irregular expenditure register. In such an instance, no further action is also required except for updating the note to the financial statements.

Irregular expenditure that was incurred and identified during the current financial year and for which condonement is being awaited at year end must be recorded in the irregular expenditure register. No further action is required with the exception of updating the note to the financial statements.

Where irregular expenditure was incurred in the previous financial year and is only condoned in the following financial year, the register and the disclosure note to the financial statement must be updated with the amount condoned.

Irregular expenditure that was incurred and identified during the current financial year and which was not condoned by the National Treasury or the relevant authority must be recorded appropriately in the irregular expenditure register. If liability for the irregular expenditure can be attributed to a person, a debt account must be created if such a person is liable in law. Immediate steps must thereafter be taken to recover the amount from the person concerned. If recovery is not possible, the accounting officer or accounting authority may write off the amount as debt impairment and disclose such in the relevant note to the financial statements. The irregular expenditure register must also be updated accordingly. If the irregular expenditure has not been condoned and no person is liable in law, the expenditure related thereto must remain against the relevant programme/expenditure item, be disclosed as such in the note to the financial statements and updated accordingly in the irregular expenditure register.

1.16 Related parties

The Trading Entity has controls in place to aid in the identification of the related parties. The Trading Entity provides information on transactions with related parties in its financial statements. Disclosure of transactions with other government entities is only provided to the extent that the transaction was not on normal terms (not at arm's length).

1.17 Accounting by principals are agents

Identification

An agent is an entity that has been directed by another entity (a principal), through a binding arrangement, to undertake transactions with third parties on behalf of the principal and for the benefit of the principal.

A principal is an entity that directs another entity (an agent), through a binding arrangement, to undertake transactions with third parties on its behalf and for its own benefit.

A principal-agent arrangement results from a binding arrangement in which one entity (an agent), undertakes transactions with third parties on behalf. and for the benefit of, another entity (the principal).

Recognition

The entity, as a principal, recognises revenue and expenses that arise from transactions with

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

third parties in a principal-agent arrangement in accordance with the requirements of the relevant Standards of GRAP.

The entity, as an agent, recognises only that portion of the revenue and expenses it receives or incurs in executing the transactions on behalf of the principal in accordance with the requirements of the relevant Standards of GRAP.

The entity recognises assets and liabilities arising from principal-agent arrangements in accordance with the requirements of the relevant Standards of GRAP.

1.18 Going concern assumption

These annual financial statements have been prepared based on the expectation that the entity will continue to operate as a going concern for at least the next 12 months.

1.19

1.19.1 Unspent Grant Farmers

Trade and other non-exchange receivables arising from the trading entity unconditional right to the return of the funds from the beneficiaries in cases of default, breach and or termination of the contractual arrangement. Any contractual party that determines a default, breach and or termination must communicate through a written notice to the party that is in default. The legal remedies available in a situation of default, breach and or termination, as well as, subsequent recovery of the funds will be dictated by various agreements signed by all parties.

All contractual agreements are assessed to determine the unconditional right for the return of the funds at initial recognition and subsequent measurement. In case of subsequent measurement whereby a receivable is recognised, the receivable will be dealt with in line with policy on other debtors.

1.19.2 Trade and Other Receivables from other debtors

Trade and other receivables are categorised as financial assets and are initially recognised at fair value and subsequently carried at amortised cost. Amortised cost refers to initial carrying amount plus interest less repayment and impairments.

Assessment of impairment of non-exchange receivable shall be done in line with policy of impairment of receivable non exchange par 1.5.

1.20 Contingent Asset

A contingent asset is disclosed by the Trading Entity where there is a possible asset that arises from past events, and whose existence will be confirmed only by the occurrence or non - occurrence of one or more uncertain future event not wholly within the control of the Trading Entity.

1.21 Contingent Liability

A contingent liability is disclosed by the Trading Entity where there is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non - occurrence of one or more uncertain future events not wholly within control of ALHA; OR where there is a present obligation arising from past events but is not recognised because it is not probable that an out flow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

1.22 Prepayments

Prepaid expenses are amounts paid for by the Trading Entity representing costs incurred from which services or benefits are expected to be derived in the future.

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

The future write off period of the incurred cost will normally be determined by the period of benefit covered by the prepayment. When the period arrives to which a prepaid cost relates the costs will be treated as a period cost for the period in question. Normally such prepaid costs will be written off based on the elapse of time.

Prepaid expenses should be classified as current assets unless a portion of the prepayment covers a period longer than 12 months. If there are prepayment costs with a benefit beyond 12 months, they should be classified as deferred charges in the Statement of Financial Position.

Prepaid expenses will be measured at the value of the services or goods to be received/receivable in the future.

1.23 Leasehold improvements

A leasehold improvement is an improvement made to a leased building by a department that has the right to use this leasehold improvement over the term of the lease. This improvement will revert to the lessor. In the event that the lease is terminated as a consequence of actions and omissions of the lessee.

1.24 Adoption of new GRAP standard

In the current year the trading entity has adopted all new and revised standards and interpretations issued by the ASB that are relevant to its operations and are effective.

The trading entity has early adopted the standard of GRAP 105 for the first time when the minister of finance sets the effective dates for the trading entity as 01 April 2019.

The adoption of the standard has not had a material impact on the result of the trading entity that has resulted. In more disclosures that would have provided in the interim financial statements.

No executive emoluments are paid by the Trading Entity as they are remunerated by the Department of Agriculture, Land Reform and Rural Development.

The Department of Agriculture, Land Reform and Rural Development also provides administrative services to the Trading Entity at no cost. These are not accounted for but disclosed as services in kind, refer to note 19.

18. Risk management

Financial risk management

The Trading Entity's activities expose it to a variety of financial risks including credit risk and liquidity risk.

The Trading Entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Trading Entity's performance. Risk management is carried out by management committee of the Department under the risk management framework approved by the Audit Committee.

Liquidity risk

At 31 March 2021	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Total

Notes to the Annual Financial Statements

	2021 R'000	2020 R'000
--	---------------	---------------

18. Risk management (continued)

Credit Risk

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The entity only deposits cash with major banks with high quality credit standing and limits exposure to any one counterparty.

Financial assets exposed to credit risk at year end were as follows:

Financial instrument	2021	2020
Cash and cash equivalents	375 506	1 472 973
Trade and other receivables from exchange transactions	6 816	127
Other financial assets	-	347 217

Interest rate risk

As the Trading entity has no significant interest-bearing assets, the entity's income and operating cash flows are substantially independent of changes in market interest rates.

19. Services in kind

The Trading Entity falls under the Administration of the Department of Agriculture, Land Reform and Rural Development (DALRRD). The Executives, Provincial, District and National officials of the DALRRD spent some of their time on the affairs of the Trading Entity. Furthermore, the DALRRD provides the services of internal audit function, information technology, staff training, salaries, accommodation, furniture and equipment. There is no cost charged by the DALRRD in this regard.

20. Fruitless and wasteful expenditure

Fruitless and wasteful expenditure	95 675	98 429
Less: Condoned	-	(2 837)
Add: Fruitless and wasteful expenditure - current year	7	83
	<u>95 682</u>	<u>95 675</u>

20.1 SRR projects

Fruitless and wasteful expenditure on SRR projects relates to the transfers of development funds on non-viable entities acquired. Grants amounting to R94,838million was provided to rescue the project. An investigation by Forensic Investigation Unit (FIU) was conducted on Strengthening Relative Rights (SRR). The recommendations of the full audit have been finalised towards the end of financial year and therefore irregular will be disclosed accordingly.

20.2 One Hectare One Household (1H1H)

Payment of professional fees amounting to R754thousand relates to the Accountant and Sita Management fees that were paid to the Farmers for services not rendered and where the quality of the services rendered that was deficient was paid that were paid to accountants before they had fulfilled the obligation of the contract.

--	---------------	---------------

20.3 Rates and Taxes

A total amount of R90thousand relates to Interest paid on late payment of rates and taxes during the current year.

21. Future minimum lease receivable

4 251 501	3 744 921
-	-
4 251 501	3 744 921

The Trading entity leases farms to famers for short to long tern periods. The total lease payments for short term is based on 5% of the projected net income calculated using the approved business plan per financial year and long term is based on 2% of the land price escalated using CPIX price. Farmers that are assisted by the trading entity through recapitalisation and development are exempted from paying rental for a period lesser than 5 years in which they are being assisted. All old lease contracts are not billable due to the implementation of the State land and lease disposal policy.

Medium to large – scale commercial farmers who have already been farming commercially at various scales are allocated long term leases with the option to purchase after five years from the effective date of the lease. In the event of the option to purchase being exercised within the lease period, the value of the Leasehold improvement done by the lessee shall be deducted from the sale price.

22. Commitments

Already contracted for but not provided for

• Contracted recapitalisation projects – Grant farmers	-	3 858
• Guarantees land acquisition	4	146 436
• One hectare One household – Grant farmers	27 926	28 257
• Open orders	2 135	2 828
• Project management	2 187	2 187
• Land Development Support – Grant farmers	215 401	716 909
	247 653	900 475

Opening balances for Grant Farmers and Land Development Support have been restated.

23. Irregular expenditure

Opening balance	304 006	136 740
Add: Irregular Expenditure - current year	13 867	167 266
	317 873	304 006

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

Notes to the Annual Financial Statements

	2021 R'000	2020 R'000
--	---------------	---------------

23.1 Irregular expenditure was incurred as a result of contravention of Supply Chain Policy Regulations Policy

Management fee – SRR

SRR management fees amount to R41,805million, an appointment of business practitioner amounting to R1,120million and grant expenditure amounting to R37,508million.

SRR forensic investigation was completed and further determination for facts relating to the recovery is in progress.

Land Development Support (LDS)

Land Development Support program implementing agents procured goods and services of R226,441million (inclusive of previous financial years) without following Supply Chain Management prescripts. The current financial year irregular amounts to R13,867million as a result of the finalization of work in progress and procurement commitments already issued to third parties.

Land Development Support a recommendation for forensic investigation to establish facts whether the transgression related to fraud, corrupt and other criminal conduct.

Recapitalisation and Development – Drought

Expenditure amounting to R11,000million was incurred during 2016/17 financial year through emergency deviation but work has not yet been completed.

A forensic investigation has been concluded and further determination for facts relating to the recovery of the amount from identified people is to be done in the 2021/22 financial year.

24. **Contingent asset and liabilities**

24.1 **Contingent Asset**

24.1.1 Unlawful removal of departmental asset

The Trading Entity in the previous financial years recognised that a farmer had unlawfully removed movable assets to the value of R1,596million from the farm. As a result, the Trading Entity took legal action against the farmer to recover the loss of assets. The matter is still in the court of Law.

24.1.2 Claim against recapitalisation and development beneficiary

The department has instituted a claim amounting to R998thousand against a beneficiary that misused RADP funds.

24.1.3 Leasehold Improvements

The department has entered into a lease agreement which allowed the lessee to effect leasehold improvements. The contract indicates that the lessee shall forfeit compensation for his/her improvements on the property in the case where the farmer of the agreement is terminated.

Certain lessee have breached the agreement and the process of finalising whether the breach will result in the nomination of the state land and disposal policy indicates once the agreement is terminated then the farmer losses his future economic benefit and will instead flow to be state (Agricultural Land Holdings Account Trading Entity).

In the event the lease is terminated as a consequence of the actions or omissions of the lessee, the improvement shall become the property of the department and no compensation shall be paid to the lessee for such improvements. Lessees that have breached the contract are being taken through legal eviction process.

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

It is not practical for the Trading Entity to estimate the value of the improvements since the lessees were not able to keep proper supporting documents and in such cases a detail valuation of property will be conducted upon the cases being settled.

Notes to the Annual Financial Statements

	2021 R'000	2020 R'000
--	---------------	---------------

24.2 Contingent Liability

24.2.1 Rates and Taxes

Subsequent to the rates and taxes assessment and communication with municipalities, the Trading Entity has at the end of the current financial year not received invoices for some accounts. The extent of the liability unknown relates to the period of 2007 to 2014 period as the municipalities are required to submit invoices together with statements for proper reconciliation, therefore the amount and the timing is uncertain but it is probable that the proceedings will result in cash outflows to the municipalities.

24.2.2 Other contingent liabilities

Other litigation in process against the department relates to fire losses claim against properties held under the Trading Entity. The total claim instituted amounts R10,319million.

25. Disclosure of prior period errors

The Trading Entity identified the following prior period errors during the 2020/21 financial year and all the corrections have been done from the beginning of 2018/19 financial year accordingly as follows:

25.1 Property Plant and Equipment (PPE)

In the current financial year property, plant and equipment has been adjusted with recognition and derecognition of assets that were not previously recorded in the asset register which resulted in an increase on the net carrying value amounting to R10,062million. The adjustment is as a result of disposal and donation of assets, reversal and recognition of write off, adjustment due to unbundling and bundling of assets, recognition of asset infrastructure that was paid for but not yet constructed and assets that were erroneously recognised in previous financial years.

25.2 Operating Leases errors:

25.2.1 Trade and other receivable – Exchange

In the current financial lease contracts, which were not billed in the previous financial year were received and a total amount of R1,903million on revenue rental was adjusted for billing that was not recognised during the previous financial year. An adjustment has been done retrospectively.

25.2.2 Provision for Doubtful Debt

The total amount of R3,284million relates to the lease contracts of the previous financial year that were not recognised. An adjustment has been done retrospectively with an increase on provision for doubtful debt and impairment on lease debt.

25.2.3 Deferred lease asset

The total amount of R1,574million on deferred lease asset relates to lease contracts of the previous financial year where the lease smoothing was not recognised. An adjustment has been done retrospectively with an increase on the deferred lease asset.

25.2.4 Future minimum lease

Future minimum lease debt has been adjusted during the current financial year with lease contracts that were not recognised in the previous financial year. The adjustment resulted into an increase in the future minimum lease that was reported last year by R73,374million.

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

Notes to the Annual Financial Statements

	2021 R'000	2020 R'000
--	---------------	---------------

25. Disclosure of prior period errors (continued)

25.3 Trade and other payable - Exchange

Total amount of R2,271 million relates general expenses and grant farmer expenditure of previous financial invoices that were received during the current financial year relating to water rights, professional fees, management fees, and licenses, etc. The recognition adjustment of the expenditure has been done in the correct financial year.

25.4 Other financial assets

25.4.1 Strengthening of Relative Rights (50/50)

In the previous financial year, a transfer of R6,999million to farmers for working capital was done in a form of a loan disbursed by National Empowerment Fund (NEF). A concessionary loan and impairment was therefore incorrectly recognised. The full impact of the loan was adjusted as grant farmer expense and a reversal of provision was done.

25.5. Unspent conditional grant - SRR

In the current financial a reclassification of the amount owed to the department was done and the total amount of R71,312million that was reported in the previous financial year has now been reclassified to Other Debtors.

25.6. Contracted recapitalisation programme commitment - Grant Farmers

During the current financial year, the department concluded a recapitalisation and development programme (RADP) assessment report to determine a contractual right to pay commitment balance. In terms of the recapitalisation and development programme (RADP) grant agreement, it stipulates that no payment shall be made/transferred after the expiry/termination of the RADP agreements to the grant recipient unless a new agreement is signed. All recapitalisation and development programme (RADP) grants agreements have expired, therefore a prior period error resulted into a correction of contracted recapitalisation projects - grant farmers commitment disclosure to R3,858million (2020).

25.7 Land development support - Grant Farmers

An error of miscalculation in the business plan of a project was revised in the previous financial year and a correction of R81thousand was done in 2019/20 financial year.

25.8 Other debtors

In the current financial it was realised that a debtor was not raised for beneficiaries under RADP in the previous financial years. An adjustment of R4,612million was done correctly with an impact of an increase on Other debtors and interest.

The correction of the error(s) results in adjustments as follows.

Statement of financial position

Property, plant and equipment	(10 062)
Trade and other receivable exchange	(1 903)
Provision for doubtful debt - lease debtors	3 284
Deferred lease asset	(1 574)
Trade and other payables exchange	2 271
Other Financial Asset	6 999
Provision for doubtful debt – SRR	(6 999)
Other debtors	(4 612)
Accumulated surplus	12 297
	<hr/>
	299

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

Notes to the Annual Financial Statements

	2021 R'000	2020 R'000
Statement of financial performance		
Depreciation and Impairment		(1 970)
Revenue Rental		3 133
General expenses		(2 123)
Grant expense farmers		4 283
Disposal		(7)
Impairment		(3 283)
Interest received		266
		(299)

From the beginning of 2018/19 financial year, the effect on retained earnings has been restated by R12,298million.

26. Change in accounting estimate

The annual review of useful life of assets resulted in a decrease of R612thousand in the depreciation charge to the Statement of financial performance.

27. Transfer of functions between entities under common control

Transfer of functions between entities under common control occurring during the current reporting period

Entities involved in the transfer of functions were:

The entities involved are the Agricultural Land Holdings (ALHA), as the Trading Entity established and the Department of Agriculture Land Reform and Rural Development (DALRRD).

Brief description of the function transferred and the reasons for the transfer.

Blended Finance Programme

The former Department of Rural Development and Rural Development and Department of Agriculture and Forestry implemented Blended Finance in their respective Departments. Upon the merger a transfer of the Blended Finance Programme under the Entity is transferred to the Department of Agriculture Land Reform and Rural Development (DALRRD) for the full implementation of the programme.

Emerging Famer Support Facility

The Agricultural Land Holdings Trading Entity (ALHA) has transferred an Emerging Farmer Support Facility that is managed by Land Bank as a developmental programme in the event that the emerging farmers owe Land Bank for production loans as curator guarantee. A total amount of R190, 811million was transferred inclusive of the interest receivable for the current financial year amounting to R7,078million.

The transfer of function took place during the 2020/21 financial year.

The transfer was finalised on 31 March 2021.

Agricultural Land Holdings Account

Annual Financial Statements for the year ended 31 March 2021

Notes to the Annual Financial Statements

	2021 R'000	2020 R'000
Value of assets		
Assets transferred		
Blended Finance Programme	163 484	-
Emerging Farmer Support Facility	190 811	-
	354 295	-
Difference between the carrying amounts of the assets transferred, the liabilities relinquished and adjustments required to the basis of accounting	354 295	-
Difference between net assets and the consideration paid	354 295	-

28. Accounting by Agent and Principal

In 2018/19 financial year a service level agreement was entered with National Emergent Red Meat Producer (NERPO) and Grain Farmers Development Association (GFDA) commodity organisation whose responsibility was to procure goods and services for farmers under the Land Development Support Programme under the Department of Agriculture, Land Reform and Rural Development (DALRRD). The procurement arrangement with National Emergent Red Meat Producer (NERPO) has since been stopped up until the procurement commitments have fulfilled.

The relationship with Grain Farmers Development Association (GFDA) was terminated during the period under review.

A total of R13,960million was remitted to National Emergent Red Meat Producers (NERPO) in relation to management fees and third-party payments for LDS interim disbursement model. All the funds were paid to third parties and no resources remained at year end.

A total amount of R687thousand paid to Grain Farmers Development Association (GFDA) for management fees.

Significant risk that arose in the financial year related to compliance with Supply Chain management prescripts as well as communication with affected farmers concerned. The risk has been mitigated through cancellation of the procurement of services by National Emergent Red Meat Producers NERPO and only agreeing in providing technical agricultural services to farmers.

29. Other important disclosure

29.1. Lease rental discounts

During 2017/18 financial year State Land and Lease Disposal policy was amended to include an incentive in a form of a discount to lessees the full impact of the discount has not yet been effected as a result of the outstanding approval processes as per National Treasury Regulations. The full impact of the discount amounts to R39,760million from 2017/18 to 2019/20 and R66,895million 2020/21 respectively will be effected upon conclusion.

29.2. Forensic and litigation for unaccounted fund under - recapitalisation and development programme (RADP)

The department has approved forensic investigations and/or legal assessment for the projects funded with grants under the recapitalisation and development programme as a result of beneficiaries' breach in submission of valid reconciliations and financial records to assess if funds were used for the intended purpose and if balances, after the production cycle were realised, as indicated in signed grant agreements.

An assessment report was concluded after project management process was undertaken by the department. Each case of breach is assessed at its merits, each merit has resulted in cases being at different stages on recovery process. Stages of recovery includes forensic investigations where allegations of misappropriation or irregularities are found, pre-litigation includes a process of claiming for specific performance and issuing letters of demand and litigation process for claiming for damages/losses and recovery of funds are done.

29.3. Approval of land transfers

An approval of land transfers in title amounting to R109,050million to farm dwellers, labourers, tenants and communities is awaiting approval process as per National Treasury regulations.

Report of the auditor general to Parliament on the Deeds Registration Trading Entity

Report on the audit of the financial statements

Opinion

1. I have audited the financial statements of the Deeds Registration Trading Entity set out on pages 436 to 491, which comprise the statement of financial position as at 31 March 2021, statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Deeds Registration Trading Entity as at 31 March 2021, and its financial performance and cash flows for the year then ended in accordance with the Standards of Generally Recognised Accounting Practice (GRAP) and the requirements of the Public Finance Management Act 1 of 1999 (PFMA).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of my report.
4. I am independent of the trading entity in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of matter

6. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

7. As disclosed in note 27 to the financial statements, the corresponding figures for 31 March 2020 were restated as a result of an error in the financial statements of the trading entity at, and for the year ended, 31 March 2021.

Significant uncertainties

8. As disclosed in note 25 to the financial statements, litigation processes against the trading entity relating to disputes around the registration of property are under way. The total litigation before the courts was R305, 558 million (2020: R86, 957million) and the remainder of the litigation could not be quantitatively measured for financial impact.

Responsibilities of accounting officer for the financial statements

9. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the GRAP and the requirements of the PFMA, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

10. In preparing the financial statements, the accounting officer is responsible for assessing the trading entity's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the trading entity or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

11. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
12. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

13. In terms of section 40(3)(a) of the PFMA, the trading entity is required to prepare an annual performance report. The performance information of the trading entity was reported in the annual performance report of the Department of Agriculture, Land Reform and Rural Development. The usefulness and reliability of the reported performance information was tested as part of the audit of the Department of Agriculture, Land Reform and Rural Development and any audit findings are included in the management and auditor's report of the Department of Agriculture, Land Reform and Rural Development.

Report on the audit of compliance with legislation

Introduction and scope

14. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the trading entity's compliance with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.
15. The material finding on compliance with specific matters in key legislations is as follows:

Annual financial statements

16. Financial statements were not submitted for auditing within two months after the end of financial year, as required by section 40(1)(c)(i) of the PFMA. The financial statements were submitted for audit purposes on 1 June 2021.

Other information

17. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the financial statements and the auditor's report.

18. My opinion on the financial statements and findings on compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.
19. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or my knowledge obtained during the audit or otherwise appears to be materially misstated.
20. If, based on the work I have performed on the other information that I obtained prior to the date of this auditor's report, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Internal control deficiencies

21. I considered internal control relevant to my audit of the financial statements and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the finding on compliance with legislation included in this report.
22. There was no proper and regular review and monitoring of compliance with legislation, resulting in financial statements not submitted within the legislated deadline.

Other reports

23. I draw attention to the following engagement conducted by various parties that have or could potentially have an impact on the trading entity's financial statements and compliance with applicable legislation and other related matters. The report noted does not form part of my opinion on the financial statements or compliance with legislation.
24. The Special Investigation Unit's investigation into the e-cadastre project has been finalised, and findings and recommendations were made.

Auditor-General

Pretoria
31 July 2021

AUDITOR - GENERAL
SOUTH AFRICA

Auditing to build public confidence

Annexure - Auditor-general's responsibility for the audit

1. As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on the trading entity's compliance with respect to the selected subject matters.

Financial statements

In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the trading entity's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the accounting officer
- conclude on the appropriateness of the accounting officer's use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the Deeds Registration Trading Entity to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a trading entity to cease operating as a going concern
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

2. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
3. I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence, and communicate all relationships and other matters that may reasonably be thought to have a bearing on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

Statement of Comparison of Budget and Actual Amounts

Budget on Accrual Basis

	Approved budget	Adjustments	Final Budget	Actual amounts on comparable basis	Difference between final budget and actual	Reference
	R '000	R '000	R '000	R '000	R '000	

Reasons for difference between Final and Actual Amounts

1. Registration of deeds revenue estimates was projected based on the COVID-19 pandemic and National lockdown regulations that has adversely affected economic growth and sales of property. The positive variance is due to improvement of revenue generated during the alert level one of National lockdown where all sectors of the economy were opened.
2. The actual amount relates to revenue commission insurance and impairment reversal—statutory receivables. This amount is not budgeted for.
3. The favourable bank interest received was due to grant receipts in the current year. The transfer grants of R150 million and R208 million received respectively from the Department of Agriculture, Land Reform and Rural Development in 2020/21 financial year contributed to an increased bank balance and this improved interest earning.
4. The entity received total Grants of R358 million in the current year for operational costs. During the year R208 million was reclassified as a conditional grant for implementation of e-DRS in the next 2-3 years. The R12 million of the amount has been allocated for departmental activities that deeds is required to pay for from time to time.

Reconciliation:

Adjustment Budget	358 034
Grants Received	358 034
EDRS	208 034
Operational	138 000
DALRRD	12 000

5. The variance is due to moratorium on filling of posts in the public sector. The R60,154 million worth of posts were planned to be filled and were not. In addition a salary increase of 8% is budgeted for in the current year however DPISA has not approved and therefore could not be implemented. The amount of R60,154 million together with the salary increase of R46,710 million amounts to a total of R106 million and that explains the variance.
6. The variance between depreciation budget and actual is attributed to the re-assessment of Deeds and E-cadastre assets, and because of the extended useful life of assets, it affected monthly calculation of depreciation.
7. Debtors default results as an adjustment in the carrying amounts of debtors as an impairment. These defaults cannot be planned for, therefore the figure for impairment is not budgeted for.
8. Finance costs are related to interest rate implicitly in the lease and are not budgeted for.
9. Underspending of general expenses is attributed mainly to the delays of implementing the following projects:
 - Project Management Office by Deloitte Consulting budgeted amount of R12,5 million.
 - ICT Operational resources budgeted amount of R14,5 million.
 - Migration project budgeted amount of R15,5 million.
 - E-DRS project budget amount of R36 million.
 - Enterprise Architecture project budgeted amount of R6 million.
 - The variance budget amount of the following transactions was due to COVID-19 pandemic and regulations.
 - Travelling and Subsistence amount of R5,1 million.
 - External Training amount of R1,6 million.
 - Conference and Venues amount of R1,3 million.
 - Printing amount of R2,8 million.

Statement of Comparison of Budget and Actual Amounts

Budget on Accrual Basis

	Approved budget	Adjustments	Final Budget	Actual amounts on comparable basis	Difference between final budget and actual	Reference
	R '000	R '000	R '000	R '000	R '000	
-						The variance amount of R1,7 million on bursaries was as the result of bursaries approved after the registration closing date.
-						The variance amount of R2,8 million on Legal Fees was over-budgeted.
10.						Loss on disposal of assets relates to assets disposed during the year for various reasons including damages and obsolescence.
11.						The expense is only recognised when store items are issued. The items are budgeted for separately under the specific expenditure items.
12.						The amount relates to debtors net of impairment and sundry debtors, the actual amount is more than budget due to debt claims made to OVG for expenditures incurred under OCRD on their behalf, R3,1 million is attributed to OVG, R1,1 million is attributed to Staff debts and leave days owed by officials as at 31 March 2021.
13.						Prepayments are not budgeted for and are due to over-lap on expenditure across financial years for prepaid services to be rendered in the future e.g. Oracle licenses and maintenance of hardware support.
14.						The amount relates to statutory receivables generated from registration and sale of information, the actual amount is more than the budget due to increase in revenue generated in the last quarter of the financial year due to work back plans executed on backlogs.
15.						An increase in cash and cash equivalents is due to the transfer grants received of R150 million on the 15 th June 2020 and R208 million on the 10 th February 2021 respectively from the Department of Agriculture, Land Reform and Rural Development in 2020/21 financial year.
16.						The actual amount of R69 million is the carrying value of property, plant, and equipment since the inception of the Deeds Registration Trading Entity, therefore the variance is as a result of a comparison of additions amounting to R4,9 million and reclassification of Work in Progress of Biometrics system into leasehold Improvement amounting to R15,9 million.
17.						The actual amount of R50,7 million is the carrying value of Intangible Asset including additions. The variance is due to extension of financial system licenses which were renewed due to delays in the procurement of the ERP.
18.						The variance is due to an amount of new finance lease contracts for copy machines that was entered into for period of three (3) years.
19.						The variance between actual and budget is due to sundry accruals of R11,2 million, accrued bonus of R15,8 million, trade payables creditors of R7,8 million and accrued leave pay of R32,4 million not taken by employees as at 31 March 2021 due to National lockdown regulations as a result of COVID-19 pandemic.
20.						The provision relates to Special Investigation Unit (SIU) invoices for investigations done.
21.						This amount relates to finance lease liabilities that are due to be settled between 2 to 5 years.
22.						The actual amount of R10,9 million on provision relates to Capped Leave, which is attributable to either retirements or deaths. Introduction of early retirement was expected to see more employees opting for early retirement but delays in the approval for the retirement of these employees affected the actual figure of the provision.
23.						The amount relates to retained surpluses and is accumulated over the years and cannot be budgeted for.

Accounting Policies

1. Presentation of Audited Annual Financial Statements

The audited annual financial statements have been prepared in accordance with the effective Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board in accordance with Section 91(1) of the Public Finance Management Act (Act 1 of 1999).

The audited annual financial statements have been prepared on an accrual basis of accounting and incorporated the historical cost conventions as the basis of measurement, except where specified otherwise. All amounts have been presented in the currency of the South African Rand (R), which is also the functional currency of the entity. Unless otherwise stated, all financial figures have been rounded to the nearest One Thousand Rand (R'000). Assets, liabilities, revenues and expenses were not offset, except where offsetting is either required or permitted by a standard of GRAP.

1.1 Going concern assumption

These audited annual financial statements have been prepared based on the expectation that the entity will continue to operate as a going concern for at least the next 12 months.

1.2 Materiality

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decisions or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatement judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor.

Assessing whether an omission or misstatement could influence decisions of users, and so be material, requires consideration of the characteristics of those users. The Framework for the Preparation and Presentation of Financial Statements states that users are assumed to have a reasonable knowledge of government, its activities, accounting and a willingness to study the information with reasonable diligence. Therefore, the assessment takes into account how users with such attributes could reasonably be expected to be influenced in making and evaluating decisions.

1.3 Comparative Figures

Where material accounting errors, which relate to prior periods have been identified in the current year, the correction is made retrospectively as far as is practicable and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable and the prior year comparatives are restated accordingly.

The nature and reasons for the reclassification and restatement are disclosed in note 27 (Prior period errors) to the Annual Financial Statements.

1.4 Significant judgements and sources of estimation uncertainty

In preparing the audited annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the audited annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the audited annual financial statements. Significant judgements include:

Statutory and other receivables

The entity assesses its statutory and other receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in the surplus or deficit, the entity makes judgment as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

The impairment for statutory and other receivables is calculated on amounts that are overdue by 90 days or more. Assessment for the impairment has been made on individual debtors based on specific probability of recovery. Consideration is also given with regard to payment received from long outstanding debtors after year end, as well as information obtained from any debt collector used by the Trading Entity. The fair value includes the initial recognition of the debts. Interest is levied on dates when debt is due and payable but outstanding.

Accounting Policies

1.4 Significant judgements and sources of estimation uncertainty (continued)

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in note 12 - Provisions.

Management Fees Received/ Receivable

Management fees to be paid into the entity were determined by management based on the monthly balance of the funds held by the entity on behalf of the principal. The calculation of the balance involved assumptions on the distribution and expensing of services rendered by the entity to its principal.

Depreciation and amortisation

Depreciation recognised on property, plant and equipment is determined with reference to the useful lives and residual values of the underlying items. The useful lives and residual values of assets are based on management's estimation of the asset's condition, expected condition at the end of the period of use, its current use, expected future use and the entity's expectations about the availability of finance to replace the asset at the end of its useful life. In evaluating how the condition and use of the asset informs the useful life and residual value, management considers the impact of technology and minimum service requirements of the assets.

Management determines fair value using available information to determine fair value of PPE acquired through non-exchange transactions.

Impairment of non-financial assets

In testing for and determining the value-in-use of non-financial assets, management is required to rely on the use of estimates about the asset's ability to continue to generate cash flows (in the case of cash-generating assets).

1.5 Property, plant and equipment

Property, plant and equipment are tangible non-current assets that are held for use in the supply of goods or services, or for administrative purposes and are expected to be used in more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits or service potential associated with the item will flow to the entity; and the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition, which is recognised as the deemed cost thereof.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value.

Subsequent to initial recognition, items of property, plant and equipment are carried at cost less accumulated depreciation and any impairment losses.

Depreciation is calculated on the depreciable amount using the straight-line method over the estimated useful life of the asset. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The depreciable amount is determined after taking into account an asset residual value, where applicable.

Accounting Policies

1.5 Property, plant and equipment (continued)

The asset residual values, useful lives and depreciation methods are reviewed at each financial year-end and adjusted prospectively, in accordance with GRAP 3 if appropriate.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Depreciation method	Average useful life
Furniture and fixtures	Straight line	15 – 30 years
Office equipment	Straight line	3 - 10 years
IT equipment	Straight line	3 - 10 years
Leasehold equipment	Straight line	5 - 13 years
Photographic and technical equipment	Straight line	13 years
Leased Capital Works	Straight line	25 years

The depreciable amount of an asset is allocated on a systematic basis over its useful life.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The entity assesses at each reporting date whether there is any indication that the entity expectations about the residual value and the useful life of an asset have changed since the preceding reporting date. If any such indication exists, the entity revises the expected useful life and/or residual value accordingly. The change is accounted for as a change in an accounting estimate.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

Assets which the entity holds for rentals to others and subsequently routinely sell as part of the ordinary course of activities, are transferred to inventories when the rentals end and the assets are available-for-sale. Proceeds from sales of these assets are recognised as revenue. All cash flows on these assets are included in cash flows from operating activities in the cash flow statement.

The entity separately discloses expenditure to repair and maintain property, plant and equipment in the notes to the financial statements (see note 20 - Repairs and maintenance).

The entity discloses relevant information relating to assets under construction or development, in the notes to the financial statements.

1.6 Intangible assets

An intangible asset is an identifiable non-monetary asset without physical substance:

- is separable, i.e. is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable assets or liability, regardless of whether the entity intends to do so; or
- arises from binding arrangements (including rights from contracts), regardless of whether those rights are transferable or separable from the entity or from other rights and obligations.

Accounting Policies

1.6 Intangible assets (continued)

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the entity; and
- the cost or fair value of the asset can be measured reliably.

The entity assesses the probability of expected future economic benefits or service potential using reasonable and supportable assumptions that represent management's best estimate of the set of economic conditions that will exist over the useful life of the asset.

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred.

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for, for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight-line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result, the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Amortisation is provided to write down the intangible assets, on a straight-line basis, to their residual values as follows:

Item	Depreciation method	Useful life
Licenses and franchises	Straight line	1-year
Computer software - Adobe reader	Straight line	Indefinite
Computer software - Oracle	Straight line	Indefinite

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest rate method of any difference between that initial amount and the maturity amount, and minus any reduction (directly or through the use of an allowance account) for impairment or amounts not collectable.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction.

Accounting Policies

1.7 Financial instruments (continued)

A financial asset is:

- cash;
- a residual interest of another entity; or
- a contractual right to:
 - receive cash or another financial asset from another entity; or
 - exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity.

A financial liability is any liability that is a contractual obligation to:

- deliver cash or another financial asset to another entity; or
- exchange financial assets or financial liabilities under conditions that are potentially unfavourable to the entity.

Initial recognition

The entity recognises a financial asset or a financial liability in its statement of financial position when the entity becomes a party to the contractual provisions of the instrument.

The entity recognises financial assets using trade date accounting.

Initial measurement of financial assets and financial liabilities

The entity measures a financial asset and financial liability initially at its fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

The entity first assesses whether the substance of a concessionary loan is in fact a loan. On initial recognition, the entity analyses a concessionary loan into its component parts and accounts for each component separately. The entity accounts for that part of a concessionary loan that is:

- a social benefit in accordance with the Framework for the Preparation and Presentation of Financial Statements, where it is the issuer of the loan; or
- non-exchange revenue, in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers), where it is the recipient of the loan.

Subsequent measurement of financial assets and financial liabilities

The entity measures all financial assets and financial liabilities after initial recognition using the following categories:

- Financial instruments at amortised cost.

All financial assets measured at amortised cost, or cost, are subject to an impairment review.

Impairment and uncollectability of financial assets

The entity assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets are impaired.

Financial assets measured at amortised cost:

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced directly. The amount of the loss is recognised in the surplus or deficit.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed directly or by adjusting an allowance account. The reversal does not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in the surplus or deficit.

Accounting Policies

1.7 Financial instruments (continued)

Derecognition

Financial assets

The entity derecognises financial assets using trade date accounting. The entity derecognises a financial asset only when:

- the contractual rights to the cash flows from the financial asset expire, are settled or waived;
- the entity transfers to another party substantially all of the risks and rewards of ownership of the financial asset; or
- the entity, despite having retained some significant risks and rewards of ownership of the financial asset, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the entity:
 - derecognises the asset; and
 - recognises separately any rights and obligations created or retained in the transfer.

The carrying amounts of the transferred asset are allocated between the rights or obligations retained and those transferred on the basis of their relative fair values at the transfer date. Newly created rights and obligations are measured at their fair values at that date. Any difference between the consideration received and the amounts recognised and derecognised is recognised in surplus or deficit in the period of the transfer.

Financial liabilities

The entity removes a financial liability (or a part of a financial liability) from its statement of financial position when it is extinguished — i.e. when the obligation specified in the contract is discharged, cancelled, expires or waived.

An exchange between an existing borrower and lender of debt instruments with substantially different terms is accounted for as having extinguished the original financial liability and a new financial liability is recognised. Similarly, a substantial modification of the terms of an existing financial liability or a part of it is accounted for as having extinguished the original financial liability and having recognised a new financial liability.

The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in surplus or deficit. Any liabilities that are waived, forgiven or assumed by another entity by way of a non-exchange transaction are accounted for in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers).

Presentation

Interest relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in surplus or deficit.

Losses and gains relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in surplus or deficit.

Statutory receivables

Identification

Statutory receivables are receivables that arise from legislation, supporting regulations, or similar means, and require settlement by another entity in cash or another financial asset.

Carrying amount is the amount at which an asset is recognised in the statement of financial position.

The cost method is the method used to account for statutory receivables that requires such receivables to be measured at their transaction amount, plus any accrued interest or other charges (where applicable) and, less any accumulated impairment losses and any amounts derecognised.

Accounting Policies

1.8 Statutory receivables (continued)

Nominal interest rate is the interest rate and/ or basis specified in legislation, supporting regulations or similar means.

The transaction amount (for purposes of this Standard) for a statutory receivable means the amount specified in, or calculated, levied or charged in accordance with, legislation, supporting regulations, or similar means.

Recognition

The entity recognises statutory receivables as follows:

- if the transaction is an exchange transaction, using the policy on Revenue from exchange transactions;
- if the transaction is a non-exchange transaction, using the policy on Revenue from non-exchange transactions (Taxes and transfers); or
- if the transaction is not within the scope of the policies listed in the above or another Standard of GRAP, the receivable is recognised when the definition of an asset is met and, when it is probable that the future economic benefits or service potential associated with the asset will flow to the entity and the transaction amount can be measured reliably.

Initial measurement

The entity initially measures statutory receivables at their transaction amount.

Subsequent measurement

The entity measures statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is changed subsequent to initial recognition to reflect any:

- interest or other charges that may have accrued on the receivable (where applicable);
- impairment losses; and
- amounts derecognised.

Accrued interest

Where the entity levies interest on the outstanding balance of statutory receivables, it adjusts the transaction amount after initial recognition to reflect any accrued interest. Accrued interest is calculated using the nominal interest rate.

Interest on statutory receivables is recognised as revenue in accordance with the policy on Revenue from exchange transactions or the policy on Revenue from non-exchange transactions (Taxes and transfers), whichever is applicable.

Impairment losses

The entity assesses at each reporting date whether there is any indication that a statutory receivable, or a group of statutory receivables, may be impaired.

In assessing whether there is any indication that a statutory receivable, or group of statutory receivables, may be impaired, the entity considers, as a minimum, the following indicators:

- Significant financial difficulty of the debtor, which may be evidenced by an application for debt counselling, business rescue or an equivalent.
- It is probable that the debtor will enter sequestration, liquidation or other financial re-organisation.
- A breach of the terms of the transaction, such as default or delinquency in principal or interest payments (where levied).
- Adverse changes in international, national or local economic conditions, such as a decline in growth, an increase in debt levels and unemployment, or changes in migration rates and patterns.

If there is an indication that a statutory receivable, or a group of statutory receivables, may be impaired, the entity measures the impairment loss as the difference between the estimated future cash flows and the carrying amount. Where the carrying amount is higher than the estimated future cash flows, the carrying amount of the statutory receivable, or group of statutory receivables, is reduced, either directly or through the use of an allowance account. The amount of the losses are recognised in surplus or deficit.

Accounting Policies

1.8 Statutory receivables (continued)

In estimating the future cash flows, an entity considers both the amount and timing of the cash flows that it will receive in future. Consequently, where the effect of the time value of money is material, the entity discounts the estimated future cash flows using a rate that reflects the current risk free rate and, if applicable, any risks specific to the statutory receivable, or group of statutory receivables, for which the future cash flow estimates have not been adjusted.

An impairment loss recognised in prior periods for a statutory receivable is revised if there has been a change in the estimates used since the last impairment loss was recognised, or to reflect the effect of discounting the estimated cash flows.

Any previously recognised impairment loss is adjusted either directly or by adjusting the allowance account. The adjustment does not result in the carrying amount of the statutory receivable or group of statutory receivables exceeding what the carrying amount of the receivable(s) would have been had the impairment loss not been recognised at the date the impairment is revised. The amount of any adjustment is recognised in surplus or deficit.

Derecognition

The entity derecognises a statutory receivable, or a part thereof, when:

- the rights to the cash flows from the receivable are settled, expire or are waived;
- the entity transfers to another party substantially all of the risks and rewards of ownership of the receivable; or
- the entity, despite having retained some significant risks and rewards of ownership of the receivable, has transferred control of the receivable to another party and the other party has the practical ability to sell the receivable in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the entity:
 - derecognise the receivable; and
 - recognise separately any rights and obligations created or retained in the transfer.

The carrying amounts of any statutory receivables transferred are allocated between the rights or obligations retained and those transferred on the basis of their relative fair values at the transfer date. The entity considers whether any newly created rights and obligations are within the scope of the Standard of GRAP on Financial Instruments or another Standard of GRAP. Any difference between the consideration received and the amounts derecognised and, those amounts recognised, are recognised in surplus or deficit in the period of the transfer.

1.9 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of return on the remaining balance of the liability.

Any contingent rents are expensed in the period in which they are incurred.

Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

Accounting Policies

1.10 Inventories

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Inventories consisting of consumable stores are subsequently measured at the lower of cost and current replacement cost. The basis of determining cost is the weighted-average method.

Differences arising on the valuation of inventory are recognised in the statement of financial performance in the year in which they arose. The amount of any reversal of any write-off of inventories arising from an increase in current replacement cost is recognised as a reduction of inventories recognised as an expense in the period in which the reversal occurs.

If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs.

1.11 Impairment of cash-generating assets

Cash-generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation/ (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash-generating unit is the smallest identifiable group of assets used with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Depreciation/ (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

Useful life is either:

- the period of time over which an asset is expected to be used by the entity; or
- the number of production or similar units expected to be obtained from the asset by the entity.

Judgements made by management in applying the criteria to designate assets as cash-generating assets or non-cash generating assets, are as follows:

Identification

When the carrying amount of a cash-generating asset exceeds its recoverable amount, it is impaired.

The entity assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the entity estimates the recoverable amount of the asset.

Reversal of impairment loss

The entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset.

Accounting Policies

1.11 Impairment of cash-generating assets (continued)

An impairment loss recognised in prior periods for a cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable amount. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a cash-generating asset is recognised immediately in surplus or deficit.

1.12 Employee benefits

Employee benefits are all forms of consideration given by an entity in exchange for services rendered by employees.

Termination benefits are employee benefits payable as a result of either:

- an entity's decision to terminate an employee's employment before the normal retirement date; or
- an employee's decision to accept voluntary redundancy in exchange for those benefits.

Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within twelve months after the end of the period in which the employees render the related services.

Short-term employee benefits include items such as:

- wages, salaries and social security contributions;
 - short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees render the related employee service;
 - bonus, incentive and performance related payments payable within twelve months after the end of the reporting period in which the employees render the related service; and
 - non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars and cell phones) for current employees.
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

Post-employment benefits: Defined contribution plans

Defined contribution plans are post-employment benefit plans under which an entity pays fixed or determinable contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee services in the current and prior periods.

When an employee has rendered services to the entity during a reporting period, the entity recognises the contribution payable to a defined contribution plan in exchange for that service:

- as a liability (accrued expense), after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for the service before the reporting date, an entity recognises that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the contribution in the cost of an asset.

1.13 Provisions and contingencies

Provisions are recognised when:

- the entity has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

Accounting Policies

1.13 Provisions and contingencies (continued)

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

A provision is used only for expenditures for which the provision was originally recognised.

Provisions are not recognised for future operating surplus (deficit).

If an entity has a contract that is onerous, the present obligation (net of recoveries) under the contract is recognised and measured as a provision.

Contingent Liabilities:

Contingent liabilities is a possible obligation that arises from past events whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly in the control of the entity; or a present obligation that arises from past events that is not recognised because;

- it is not probable that an outflow of resources and embodying economic benefits will be required to settle the obligation; or
- the amount of the obligation cannot be measured with sufficient reliability.
- the contingent liability is recognised awaiting the outcome of legal action or dispute between two parties.

Contingent Assets:

A contingent asset is a possible asset that arises from past events, and whose existence will be confirmed only by occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

An entity shall not recognise a contingent asset.

Where an inflow of economic benefits or service potential is probable, an entity shall disclose a brief description of the nature of contingent asset at the reporting date, and, where practicable, an estimate of their financial effect measured using the principles set out for provisions.

1.14 Impairment of non-cash-generating assets

Cash-generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

Non-cash-generating assets are assets other than cash-generating assets.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

Accounting Policies

1.14 Impairment of non-cash-generating assets (continued)

A cash-generating unit is the smallest identifiable group of assets managed with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Depreciation (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use.

Judgements made by management in applying the criteria to designate assets as non-cash-generating assets or cash generating assets, are as follows:

Identification

When the carrying amount of a non-cash-generating asset exceeds its recoverable service amount, it is impaired.

The entity assesses at each reporting date whether there is any indication that a non-cash-generating asset may be impaired. If any such indication exists, the entity estimates the recoverable service amount of the asset.

Irrespective of whether there is any indication of impairment, the entity also tests a non-cash-generating intangible asset with an indefinite useful life or a non-cash-generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable service amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

1.15 Revenue from exchange transactions

Revenue consists of fees charged for property registration and for provision or sale of registration information to customers in accordance with the tariffs provided for in the Schedule of Fees prescribed by Regulation 84 of the Deeds Registries Act (Act 47 of 1937) and approved by the Minister of. Revenue is recognised on registration of deeds as well as on sale of the data that has been requested.

Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the entity has transferred to the purchaser the significant risks and rewards of ownership of the goods;
- the entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the entity and;
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Accounting Policies

1.15 Revenue from exchange transactions (continued)

Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the entity;
- the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When services are performed by an indeterminate number of acts over a specified time frame, revenue is recognised on a straight-line basis over the specified time frame unless there is evidence that some other method better represents the stage of completion. When a specific act is much *more* significant than any other acts, the recognition of revenue is postponed until the significant act is executed.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable. Revenue from deeds registration is recognised once the property has been registered.

Interest income

Revenue arising from the use by others of entity assets yielding interest, royalties and dividends or similar distributions is recognised when:

- it is probable that the economic benefits or service potential associated with the transaction will flow to the entity, and
- the amount of the revenue can be measured reliably.

Interest is recognised, in the surplus or deficit, using the effective interest rate method.

1.16 Revenue from non-exchange transactions

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, an entity either receives value from another entity without directly giving approximately equal value in exchange or gives value to another entity without directly receiving approximately equal value in exchange.

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the entity has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met a liability is recognised.

Recognition

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

As the entity satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

Measurement

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the entity.

When, as a result of a non-exchange transaction, the entity recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

Accounting Policies

1.16 Revenue from non-exchange transactions (continued)

Services in-kind

The disclosure of the nature and type of services in kind is disclosed by way of note to the financial statements in line with GRAP 1 in order to achieve fair presentation of financial statements. These services may include:

- Administration Services
- Accommodation Services
- Information Technology and
- Staff Training

All other services that are provided on behalf of the entity and are charged to the entity and are classified normally as expenses in terms of the approved Standard Chart of Accounts (SCOA).

1.17 Fruitless and wasteful expenditure

Fruitless and wasteful expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.18 Irregular Expenditure

Definition

Irregular expenditure as defined in section 1 of the PFMA means expenditure, other than unauthorised expenditure, incurred in contravention of or that is not in accordance with a requirement of any applicable legislation, including-

- (a) this Act; or
- (b) the State Tender Board Act, 1968 (Act No.86 of 1968), or any regulations made in terms of that Act; or
- (c) any provincial legislation providing for procurement procedures in that provincial government;

Recognition

Irregular expenditure is incurred when the resulting transaction is recognized in the financial records of a department, constitutional institution or public entity in accordance with the relevant Accounting Framework.

Assessment

Upon detection of alleged irregular expenditure, the accounting officer must conduct an assessment to identify possible irregularities in transactions that have been processed and to confirm whether irregular expenditure has been incurred or whether the incident was the result of non-compliance with laws and regulations that did not relate to the incurrence of a financial transactions.

Confirmation of Irregular Expenditure

If a transaction has been processed in contravention of the legislation or internal policies and the same transaction has a financial implication (payment was made or a liability was recognized in the books), the details of the irregular expenditure must be recorded in either the lead schedule if confirmed or in the checklist if alleged and the note to the financial statements is to be updated accordingly.

Accounting Policies

1.18 Irregular Expenditure (continued)

Recovery

Irregular expenditure emanating from fraudulent, corrupt or criminal acts that result in an entity incurring a loss, this prompts the Financial Compliance Committee function to inform the accounting officer in writing to institute a civil claim for the recovery of the loss.

Qualifying and raising a debt

The amount of debt recoverable from the responsible employees may equate to:

- (a) the value of the debt incurred as a consequence of his or her action(s) that led to incurrance of the irregular expenditure; or
- (b) a lesser amount determined by the accounting officer in accordance with the debt management policy of the entity.

A debt must be identified, reported and recorded in the books of the entity where such a debt arose from losses incurred as a result of irregular expenditure.

Irrecoverable debt

If the amount of a debt is irrecoverable from a responsible employee, the accounting officer may write off the debt in terms of Treasury Regulations 11.4.

1.19 Prepaid Expenses

Prepaid expenses are cash paid amounts that represent costs incurred from which a service or benefit is expected to be derived in the future.

The future write-off period of the incurred cost will normally be determined by the period of benefit covered by the prepayment. When the period arrives to which a prepaid cost relates the costs will be treated as a period cost for the period in question. Normally such prepaid costs will be written off based on the lapse of time and receipt of services rendered/goods received.

Prepaid expenses should be classified as current assets unless a portion of the prepayment covers a period longer than 12 months. If they are prepayment costs with a benefit beyond 12-months, they should be classified as non-current in the Statement of Financial Position.

Prepaid expenses will be measured at the value of services or goods to be received/ receivable in the future.

1.20 Cash and cash equivalents

Cash for reporting purposes will include cash in the bank and any petty cash.

Cash equivalents to be included on the cash line in the financial statements will consist primarily of term deposits, and all other highly liquid investments with a maturity of twelve months or less. Cash equivalents are stated at cost.

The following should be excluded from the cash and cash equivalents line in the financial statements reported in current assets:

- a) Cash subject to restrictions that prevent its use within the next year; and
- b) Cash appropriated for other than its current purposes unless such cash offsets a current liability.

Cash is measured at fair value.

Accounting Policies

1.21 Expense recognition

The entity reports its expenses on the accrual basis, meaning when the expenses are incurred, not when they are paid. Expenses are incurred when goods are received and services are rendered, whether or not an invoice has been received or payment has been made.

The policy exists to ensure adherence with GRAP, to promote consistent accounting treatment across the entity, and to ensure the operating results of the entity are not misstated as a result of expenses unrecorded or recorded improperly.

1.22 Related parties

A related party is a person or an entity with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or an entity that is subject to common control, or joint control. As a minimum, the following are regarded as related parties of the reporting entity:

- (a) A person or a close member of that person's family is related to the reporting entity if that person:
 - (i) has a control or joint control over the reporting entity;
 - (ii) has significant influence over the reporting entity; or
 - (iii) is a member of the management of the entity or its controlling entity;
- (b) An entity is related to the reporting entity if any of the following conditions apply:
 - (i) the entity is a member of the same economic entity (which means that each controlling entity, controlled entity and fellow controlled entity is related to the others);
 - (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of an economic entity of which the other entity is a member);
 - (iii) both entities are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the entity or an entity related to the entity. If the reporting entity is itself such a plan, the sponsoring employers are related to the entity;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a); and
 - (vii) a person identified in (a)(i) has significant influence over that entity or is a member of the management of that entity (or its controlling entity).

An entity controls another entity when the entity is exposed, or has rights, to variable benefits from its involvement with the other entity and has the ability to affect the nature or amount of those benefits through its power over the other entity.

Related party transaction is a transfer of resources, services or obligations between the reporting entity and a related party, regardless of whether a price is charged.

Significant influence is the power to participate in the financial and operating policy decisions of an entity but does not have control over those policies.

Management comprises those persons responsible for planning, directing and controlling the activities of the entity, including those charged with the governance of the entity in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are those family members who may be expected to influence or be influenced by that person in their dealings with the entity. As a minimum, a person is considered to be a close member of the family of another person if they:

- (a) are married or live together in a relationship similar to a marriage;
- (b) are separated by no more than two degrees of natural or legal consanguinity or affinity.

Accounting Policies

1.22 Related parties (continued)

Related party relationships where control exists are disclosed, irrespective of whether there have been transactions between the related parties. The entity discloses the name of its controlling party and if different, the ultimate controlling party.

The entity discloses the nature of the related party relationship as well as information about those transactions and outstanding balances, including commitments, necessary for users to understand the potential effect of the relationship on the financial statements. At a minimum, disclosures include:

- (a) the amount of the transactions;
- (b) the amount of outstanding balances, including commitments; and
 - (i) their terms and conditions, including whether they are secured, and the nature of the consideration to be provided in settlement; and
 - (ii) details of any guarantees given or received;
- (c) provisions for doubtful debts related to the amount of outstanding balances; and
- (d) the expense recognised during the period in respect of bad or doubtful debts due from related parties.

The reporting entity is exempt from all the disclosure requirements above in relation to related party transactions if that transaction occurs within:

- (a) normal supplier and or client/ recipient relationships on terms and conditions no more or less favourable than those which it is reasonable to expect the entity to have adopted if dealings with that individual entity or person in the same circumstances; and
- (b) terms and condition within the normal operating parameters established by that reporting entity's legal mandate.

1.23 Prior period errors and changes in accounting estimates

Prior period errors

Prior period errors are omissions from, and misstatements in, the entity's financial statements for one or more prior periods arising from a failure to use, or misuse of, reliable information that;

- was available when financial statements for those periods were authorised for issue; and
- could reasonably be expected to have been obtained and taken into account in the preparation and presentation of those financial statements.

Such errors may include the effects of mathematical mistakes, mistakes in applying accounting policies, oversights or misinterpretation of facts, and fraud.

Material prior period errors are retrospectively corrected by:

- restating the comparative amounts for the prior period presented in which the error occurred; or
- if the error occurred before the earliest prior period presented, restating the opening balances of assets, liabilities and equity for the earliest prior period presented.

Changes in accounting estimates

As a result of uncertainties inherent in delivering services, conducting trading or other activities, many items in financial statements cannot be measured with precision but can only be estimated. The use of reasonable estimates is an essential part of the preparation of financial statements and does not undermine their reliability. An estimate may need revision if changes occur in the circumstances on which the estimates was based or as a result on new information or more experience. By its nature, the revision of a estimates does not relate to prior periods and is not a correction of an error.

Accounting Policies

1.23 Prior period errors and changes in accounting estimates (continued)

The effect of a change in accounting estimates shall be recognised prospectively by including it in surplus or deficit in:

- the period of the change, if the change affects that period only; or
- the period of the change and future periods, if the change affects both.

1.24 Segment reporting

A segment is an activity of an entity:

- that generates economic benefits or service potential (including economic benefits or service potential relating to transactions between activities of the same entity);
- whose results are regularly reviewed by management to make decisions about resources to be allocated to that activity and in assessing its performance; and
- for which separate financial information is available.

If the above criteria are all met for a specific activity, the activity is classified as a segment and is reported in the financial statements.

Aggregation Criteria

Segments are combined if the segments have similar economic characteristics and share a majority of the aggregation criteria or are individually insignificant.

Two or more segments may be aggregated into a single segment if the segments have similar economic characteristics, and the segments share a majority of the following:

- the nature of the goods and/or services delivered;
- the type or class of customer, or consumer to which goods and services are delivered;
- the method used to distribute the goods or provide the service; or
- if applicable, the nature of the regulatory environment that applies to the segment.

Measurement

The amount of each segment item reported shall be the measure reported by management for the purposes of making decisions about allocating resources to the segment and assessing its performance.

1.25 Payables from exchange transactions

A liability is a present obligation of the entity arising from past events, the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefits or service potential.

Liabilities from exchange transactions will be recognised if:

- it is probable that any future economic benefit or service potential associated with the item will flow from the entity; and
- the item has a cost or value that can be measured reliably.

As part of the process of maintaining the accounting records in conformity with GRAP, once a transaction or obligating event has taken place, the liability shall be recorded in the accounting records. This will normally occur upon the earlier of receipt of the invoice or delivery of services/ goods.

1.26 Commitments

Items are classified as commitments when an entity has committed itself to future transactions that will normally result in the outflow of cash.

Disclosures are required in respect of unrecognised contractual commitments.

Accounting Policies

1.26 Commitments (continued)

Commitments for which disclosure is necessary to achieve a fair presentation should be disclosed in a note to the financial statements, if both the following criteria are met:

- Contracts should be non-cancellable or only cancellable at significant cost (for example, contracts for computer or building maintenance services); and
- Contracts should relate to something other than the routine, steady, state business of the entity — therefore salary commitments relating to employment contracts or social security benefit commitments are excluded.

Additional disclosure is made for unrecognised contractual commitments for routine, steady state business of the entity. These are aggregated to the commitments above except for commitments relating to salary commitments.

1.27 Accounting by principals and agents Identification

An agent is an entity that has been directed by another entity (a principal), through a binding arrangement, to undertake transactions with third parties on behalf of the principal and for the benefit of the principal.

A principal is an entity that directs another entity (an agent), through a binding arrangement, to undertake transactions with third parties on its behalf and for its own benefit.

A principal-agent arrangement results from a binding arrangement in which one entity (an agent), undertakes transactions with third parties on behalf of, and for the benefit of, another entity (the principal).

Recognition

The entity, as a principal, recognises revenue and expenses that arise from transactions with third parties in a principal-agent arrangement in accordance with the requirements of the relevant Standards of GRAP.

The entity, as an agent, recognises only that portion of the revenue and expenses it receives or incurs in executing the transactions on behalf of the principal in accordance with the requirements of the relevant Standards of GRAP.

The entity recognises assets and liabilities arising from principal-agent arrangements in accordance with the requirements of the relevant Standards of GRAP.

1.28 Events after reporting date

Events after reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

The entity will adjust the amount recognised in the financial statements to reflect adjusting events after the reporting date once the event has occurred.

The entity will disclose the nature of the event and an estimate of its financial effect or a statement that such estimate cannot be made in respect of all material non-adjusting events, where non-disclosure could influence the economic decisions of users taken on the basis of the financial statements.

1.29 Budget information

Entity are typically subject to budgetary limits in the form of appropriations or budget authorisations (or equivalent), which are given effect through authorising legislation, appropriation or similar.

General purpose financial reporting by entity shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

The approved budget is prepared on an accrual basis and presented by economic classification linked to performance outcome objectives.

Accounting Policies

1.29 Budget information (continued)

The approved budget covers the fiscal period from 01/04/2020 to 31/03/2021.

The audited annual financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts.

1.30 GRAP Standards approved and not yet effective

The following standards have been approved but not yet effective and have not been adopted by the entity:

GRAP 34 - Separate Financial Statements

GRAP 35 - Consolidated Financial Statements

GRAP 36 - Investment in Associates and Joint Ventures GRAP 37 - Joint Arrangements

GRAP 38 - Disclosure of Interest in Other Entities GRAP 110 - Living and Non-living Resource

All the GRAP standards above have no impact on the entities' financial statements in the period of initial application.

Notes to the Annual Financial Statements

	2021 R '000	2020 R '000
2. Inventories		
Stationary and Consumable material on hand	3 329	3 294

None of the entity's inventory is carried at current replacement cost. Accordingly, the balance as presented, represents the cost of inventories on hand. Inventories consist mainly of stationery and consumable material.

Inventory to the value of R2,441 million (2020: R4,056 million) was recognised as an expense during the year. The inventories are recognised as an expense as and when consumed within the entity and the related expense.

The basis of determining cost is the weighted-average method.

3. Prepayments

Opening balance	2 392	2 670
Add: prepayments during current period	25 323	26 291
Less: expensed during current period	(25 242)	(26 567)
Less: non-current prepaid expenditure	-	(2)
	2 473	2 392

The amount of R0 from (2020: R1 646) is prepaid to PBSA Batsumi Enterprise for maintenance of franking machines.

The amount of R869 (2020: R1 020) is prepaid to the South African Broadcasting Corporation for television licenses for some of the Deeds Registries.

The amount of R14 639 (2020: R18 044) is prepaid to the Post Office for post box renewals for some of the Deeds Registries.

An amount of R2,450 million (2020: R2,355 million) is prepaid to Oracle Corporation (Pty) Ltd for software update license and support.

An amount of R0 (2020: R1 961) is prepaid to Hasler Business System for maintenance and support of franking machines.

The amount of R3 118 (2020: R3 119) is prepaid to South African Institute of Chartered Accountants for annual membership.

The amount of R735 (2020: R1 374) is prepaid to SASFIN Commercial Solution (Pty) Ltd for maintenance and support of franking machines.

The amount of R2 585 (2020: R1 115) is prepaid to FRAMA (Pty) Ltd for maintenance and support of franking machines.

The amount of R0 (2020: R7 520) is prepaid to CIPS Southern Africa (Pty) Ltd for membership.

4. Statutory receivables from exchange transactions

The statutory receivables arise from transactions outlined in the Deeds Registries Act 47 of 1937 and includes transactions relating to:

- Sale of information and copies;
- Sale of Bulk information;
- Registration of property transfers;
- Registration of Bonds and other documents;
- Bond cancellations and;

4. Statutory receivables from exchange transactions (continued)		
<ul style="list-style-type: none">Other annual fees such as subscription and cancellation fees;		
<p>The transactions amounts are determined by the Deeds Regulation Board after consideration of charges in the Deeds environment. The fees are approved and gazetted by the Minister. The current year fees have been gazetted in terms of Gazette no. 42262, notice no. R.283.</p>		
<p>Interest is charged on debts that have not been settled within the prescribed time from statement date. The interest rate applied to these debts is determined by the Minister of Finance by notice in the national Government Gazette in accordance with section 80(2) of the Public Finance Management Act, 1999 (Act No.1 of 1999). Other charges refer to re-connection fees for clients who have been disconnected due to non-payment and are determined as stated above in line with the Gazette by the Minister.</p>		
<p>The entity assesses at each reporting date whether there is any indication of impairment on statutory receivables. This assessment is based on the ageing of statutory receivables as historical experience indicates that the more mature the receivable the more likely the occurrence of default. Other factors are also considered when known and could also be the basis of assessment for indication of impairment, such as:</p>		
<ul style="list-style-type: none">Debtors financial difficulty evidenced by application for debt counselling, business rescue or an equivalent;It is probable that the debtor will enter sequestration, liquidity or enter financial re-organisation;A breach of terms of the transactions such as default or delinquent;Adverse changes in economic conditions.		
<p>Due to the fact that all debts relating to statutory receivables are due to be settled within 30 days from date of transaction, effect of the time value of money are often immaterial.</p>		
<p>The gross statutory receivables of R91,007 million (2020: R68,959) is stated before a provision for impairment of statutory receivables of R3,107 million (2020: R4, 123 million). The impairment of statutory receivables is determined from the age analysis of statutory receivables that are overdue for 90 days or longer. The prospects of recovery are assessed per individual account.</p>

The Department of Public Works provides office accommodation for all Deeds Registries. The category of Leasehold Improvements represents costs incurred by the Deeds Registration Trading Entity to improve the buildings that are owned/ leased on behalf of Deeds Registries by the Department of Public Works. The lease improvements are depreciated over the lease period or useful life, whichever is regarded as a shorter period.

Office equipment comprises of photocopy machines which are leased in term of finance lease agreements. The period of the lease agreements is between 2 - 5 years and the carrying value is R1,908 million (2020: R1, 070 million). Refer to note.9 - Finance lease obligation where the finance lease obligation is disclosed.

Work-in-Progress amounting to R0 (2020: R15,150 million) for the biometrics system is taking a significantly longer period of time to complete than is expected. This is as a result of delays by the service provider in implementing the required changes by SITA after which testing by SITA will be concluded. The contract started from 07 February 2017 and was anticipated to be completed by the 18th of May 2017.

The entity is required to test an intangible asset with an indefinite useful life or an intangible asset not yet available for use for impairment by comparing its recoverable amount and recoverable service amount, as appropriate, with the carrying amount annually.

The entity has tested the intangible asset disclosed in this note for impairment. An amount of R277 829 has been recognised as impairment loss in the 2020/21 financial year.

Deeds Registration Trading Entity

Annual Financial Statements for the year ended 31 March 2021

Notes to the Annual Financial Statements

	2021 R '000	2020 R '000
9. Finance lease obligation		
Minimum lease payments due		
- within one year	1 023	746
- in second to fifth year inclusive	1 161	552
	2 184	1 298
less: future finance charges	(185)	(122)
Present value of minimum lease payments	1 999	1 176
Present value of minimum lease payments due		
- within one year	902	662
- in second to fifth year inclusive	1 097	514
	1 999	1 176
Non-current liabilities	1 097	514
Current liabilities	902	662
	1 999	1 176

The average lease term ranges between 2 and 5 years for office equipment, with an average interest rate of 7% applied to the leases. The finance leases are secured by the assets leased in terms of the agreement. Refer to note 7 - Property plant and equipment where the assets held under the finance leases are disclosed as part of office equipment.

Contingent rent recognised as an expense in the period amounted to R522 472 (2020: R479 654). The contingent rents relate to copy charges per copy machine.

All copy machines under finance leases have an option to renew for an average of a further 2 years.

10. Payables from exchange transactions

Trade payables	3 775	861
Unallocated cash	97	141
Accrued leave pay	32 402	21 069

Notes to the Annual Financial Statements

	2021 R '000	2020 R '000
11. OVG appropriation liability		
The Office of the Valuer General appropriation liability amount to Rnil million (2020: R109,931 million) relates to an amount transferred from the National Department of Agriculture, Land Reform and Rural Development for the operations of the Office of the Valuer General. The closing balance is the balance of grants received minus all expenditure incurred by the Office of the Valuer General and funds surrendered to the National Treasury.		
Refer to note 28 for Agent and Principal for GRAP 109 disclosure.		
Reconciliation of unspent portion of OVG funds		
Opening balance	109 931	127 065
Appropriation funds received on behalf of OVG	-	142 127
Transfer of appropriation funds	(104 776)	-
Expenditure incurred during the financial year	(23 660)	(36 161)
Reimbursements of expenditure incurred	15 453	-
Appropriation funds surrendered to National Treasury	-	(123 100)
	(3 052)	109 931

The closing balance of R3,052 million is as a result of transactions paid for on behalf the OVG and has been recognised as a sundry debtor in the current financial year.

12. Provisions

Reconciliation of provisions - 2021

	Opening Balance	Additions	Utilised during the year	Total
Provision - Other	2 117	736	(2 117)	736
Provision - Capped Leave	13 283	-	(2 365)	10 918
	15 400	736	(4 482)	11 654

Reconciliation of provisions - 2020

	Opening Balance	Additions	Utilised during the year	Total
Provision - Other	1 145	2 117	(1 145)	2 117
Provision - Capped Leave	12 795	669	(181)	13 283
	13 940	2 786	(1 326)	15 400

Non-current liabilities	10 918	13 283
Current liabilities	736	2 117
	11 654	15 400

The leave pay provision relates to long term/ capped leave that accrued to employees. It is not possible to anticipate the timing of the cash-out of this balance. Accordingly, the uncertainty related to the balance is limited to the timing of realisation. A review of the trends has however evidenced that it is unlikely that the full balance will be realised within the short term. Accordingly, the balance is classified as non-current.

The value of the provision is determined with reference to the capped leave days that have accrued to employees and the basic salaries of the employees. This represents the weighted average probable economic outflow that may be required to settle the capped leave balance.

--	---------------	---------------

25. Contingent liabilities

Litigation is in process against the Deeds Registration Trading Entity relating to disputes around registration of property and other legal matters. The total litigation before the courts is R305, 558 million (2020: R86,957 million) and the remainder of the litigation could not be quantitatively measured for financial impact.

There are labour disputes with officials which are currently in arbitration amounting to R8, 274 million (2020: R364 339) which have not been settled and the outcome could result in settlement in cash.

The accumulated surplus of R93,353 million (2020: R0 million) has been classified as a contingent liability at 31 March 2021 as there is no approval received as yet from National Treasury to retain the surplus funds. In terms of Treasury Regulations 19.7.1 the relevant treasury may apply such surplus to reduce any proposed allocation to the trading account, or that all or part of it be deposited in the Exchequer bank account. The Deeds Registration Trading Entity is obliged to repay National Treasury any amount of the surplus for which approval is not granted for retention.

Contingent assets

Litigation is in process for the Deeds Registration Trading Entity relating to disputes. The total litigation claims before the court is R422, 695 million (2020: R398, 968 million).

Parking deposit of R124 187 (2020: R124 187) is held by Advance on Point Solutions. The deposit shall be retained by Advance on Point Solutions until termination of the agreement, whereupon it will be applied to any amount owing in terms of this agreement. The balance remaining shall be returned to the entity.

Theft and losses amounting to R556 201 (2020: R512 201) are under investigation for the entity's assets lost or damaged by officials, liability depends on the outcome of theft and loss committee.

26. Related parties

Relationships

DEPARTMENT OF AGRICULTURE, LAND REFORM AND RURAL DEVELOPMENT (DALRRD)

The Deeds Registration Trading Entity is a trading entity under the Department of Agriculture, Land Reform and Rural Development as such certain services between the DRDLR and Deeds are rendered in kind and are not at arm's length, these have been disclosed below:

Notes to the Annual Financial Statements

	2021 R'000	2020 R'000
--	---------------	---------------

27. Prior period errors

An amount of R1, 073 million for usage of Government Garage vehicles (G-fleet management) was erroneously recognised as an expenditure instead of related party in the prior year.

An amount of R757 797 was erroneously recorded as Property, Plant and equipment - WIP instead of Building maintenance expense account.

An Adobe reader license amounting to R1,618 million which expired in the financial year March 2018 was omitted from amortisation.

A shortfall amount of R714 038 for upgrading and alteration of fire detector system/project was not recorded and recognised as PPE: lease on hold building in the financial year 2019/20. Depreciation and Accumulated depreciation amounting to R33 745 was also corrected in 2019/20 financial year.

Revenue billed in 2020 was understated by R60 983 as a result of incorrect billing charge in financial year 2021 relating to financial year 2020 transactions.

Biometric Security Management system project initiated in 2017 where a service provider was awarded the contract for the installation and support and maintenance of a security access management system. Between 2017 and 2020 majority of the PPE items were installed, tested and commissioned. Due to the nature of the project and its reliance on software to the system in its entirety was not yet available for use however the hardware was in a location and ready to operate as intended by management based on SITA testing reports. This hardware was available for use then but was never capitalized to work in progress.

A split between PPE- WIP and Intangible Asset -WIP was never done and this correction of error correct the recognition of the Intangible -WIP and PPE elements of the project and it also recognises depreciation that flows from the availability of the PPE element of the cost and the error adjustment is as follows:

An amount of R1,689 million was identified as thefts and loss after Assets verification process was conducted for Biometric Security Management Assets.

2018/2019

Decrease in PPE - WIP	(7 059)
Increase in PPE - Leasehold Building	5 063
Increase in PPE - Computer Equipment	1 996
Increase in Depreciation - Computer Equipment	463
Increase in Accumulated Depreciation - Computer Equipment	(463)
Increase in Depreciation- Leasehold Building	379
Increase in Accumulated Depreciation- Leasehold Building	(379)

2019/2020

Decrease in PPE- WIP	(8 091)
Increase in PPE- Leasehold Building	3 530
Increase in PPE - Computer Equipment	1 254
Increase in Intangible Assets - Computer Software - WIP	1 617
Decrease in Accumulated Surplus- Theft and Losses	1 690
Increase in Depreciation - Computer Equipment	467
Increase in Accumulated Depreciation - Computer Equipment	(467)
Increase in Depreciation- Leasehold Building	628

28. Accounting by Agent and Principal

In July 2014 the Property Valuation Act brought into existence the Office of the Valuer General (OVG), the "Principal" whose responsibility in accordance with the Act is to perform property valuation for the purposes of the Department of Agriculture, Land Reform and Rural Development. Section 4 and 5 of the Act establishes the office as a juristic person.

Due to unavailability of resources as this office had not been structurally established, a Memorandum of Agreement (MOA) was entered into with the Deeds Registration Trading Entity (Deeds) who is the "Agent". This MOA states that the OVG will receive and pay for services rendered by Deeds and DALRRD will transfer funds due to the OVG to Deeds for rendering of services.

The following transactions will be undertaken by the Agent on behalf of the Principal:

Transactions relating to Human Resource Management will include:

- Recruitment;
- Administration of leave and
- Payment of salaries and wages.

Transactions relating to Finance includes:

- Payment of expenses and liabilities;
- Preparation of Financial Statements;
- Management of grant funds in the agent bank account;
- Management of finance lease contracts and
- Purchases of Property, Plant and Equipment

Transactions relating to Supply Chain Management:

- Contract Management and
- Procurement of Goods and Services

Deeds Registration Trading Entity

Notes to the Annual Financial Statements

	2021 R'000	2020 R'000
<p>All transactions are performed in line with the internal policies of the Agent. The management fee paid by the Principal is based on the assumption that there is even distribution or spending of funds during any given financial period. This management fee is the interest received resulting from Principal monies held in the Agent's bank account.</p> <p>The MOA between the Agent and the Principal expired on 31 March 2020 and was only renewed on 22 April 2021 for the period ending 31 March 2021. This means that there was no Principal Agent arrangement emanating from a binding arrangement. The agent has no enforceable right to compensation due to lack, of arrangement as defined and the principal has no right to enforce delivery.</p>		
Cash and cash equivalents		
Balance at beginning of the year	109 931	127 065

29. Risk management

The Trading entity activities exposes it to currency risk, fair value interest rate risk, cash flow interest rate risk, credit risk and liquidity risk.

Liquidity risk

The entity's risk to liquidity is a result of the funds available to cover future commitments. The entity manages liquidity risk through an ongoing review of future commitments.

The table below analyses the entity's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

At 31 March 2021	Less than 1 year
Trade and other payables	50 868
At 31 March 2020	Less than 1 year
Trade and other payables	46 694

Notes to the Annual Financial Statements

	2021 R '000	2020 R'000
--	----------------	---------------

29. Risk management (continued)

Credit risk

Credit risk consists mainly of cash deposits, cash equivalents and other debtors. The entity only deposits cash with major banks that have a high-quality credit standing.

Statutory receivable comprises a widespread of customer base. Management evaluates credit risk relating to customers on an ongoing basis.

Financial assets exposed to credit risk at year end were as follows:

Financial instrument

Deposits with Bank	388 957	192 523
--------------------	---------	---------

Interest rate risk

As the entity has no significant interest-bearing assets, the entity's income and operating cash flows are substantially independent of changes in market interest rates.

Deposits attract interest at rates that vary with the rate of interest prime. The Trading Entity policy is to manage interest rate risk such that fluctuations in rate do not have a material impact on surplus or deficit. At year end, the financial instruments exposed to interest rate risk were balances with the bank.

30. Irregular expenditure

Opening balance	211 641	208 091
Add: Irregular Expenditure - current year	6 511	25
Restatement of prior year	-	3 525
Irregular expenditure awaiting confinement	218 152	211 641

Details of irregular expenditure

Opening balance of irregular expenditure consist of:

The irregular expenditure relates to the awarding of a tender to Gijima AST (Pty) Ltd which was recommended by SITA to DRDLR after SITA had performed all procurement processes. The contract was declared null and void by the High Court on 13 September 2016. The tender process has been investigated by the SIU and a settlement which was turned into a court order has been reached. The amount of R208,080 million is considered irregular due to non-compliance with section 217 of the Constitution, section 38(a) of the PFMA resulting from an error in pricing as said in the court order which compromised the fairness and competitiveness of the procurement process at SITA.

National Treasury declined a request to deviate from normal procurement processes to continue with the rental of fifteen (15) Uninterrupted Power Supply equipment from 1 June 2019 - 31 August 2019. The irregular expenditure amounted to R523 397.

Notes to the Annual Financial Statements

Rental of fifteen (15) Uninterrupted Power Supply (UPS) by means of direct/ single sourcing procurement on a month to month basis starting from 01 July 2020 - November 2020 from GX Technology amounting to R872 329.

31. Fruitless and wasteful expenditure

Reconciliation of fruitless and wasteful expenditure

Opening balance	7 220	5 440
Add: fruitless and wasteful expenditure	4	9
Less: amounts recovered	-	(4)
Restatement of prior year	-	1 775
	7 224	7 220

Opening balance of fruitless and wasteful expenditure consist of:

The fruitless and wasteful expenditure of R4,720 million relates to litigation instituted against Deeds. Subsequently a court order instructed Deeds to pay the plaintiff.

Unfair labour practice arbitration was awarded to an official amounting to R104, 388.

Notes to the Annual Financial Statements

	2021 R '000	2020 R'000
--	----------------	---------------

31. Fruitless and wasteful expenditure (continued)

A court order instructing Deeds to pay the plaintiff in a litigation case regarding transfer of a property amounting to R49 000.

Penalties and interest payment to SARS amounting to R458,105 for understatement of tax by Deeds.

The fruitless and wasteful expenditure of R4 140 is related to "No shows" to authorised official trips.

A court order instructing Deeds to settle legal fees amounting to R95 154 for incorrect registration of property.

The fruitless and wasteful expenditure of R5 875 is related to cancellation of Catering service without informing the Service provider on time.

The fruitless and wasteful expenditure of R2 180 is related to penalty charges for cancellation of a flight on an authorised official trip.

An amount of R1,775 million has been disclosed as fruitless and wasteful expenditure and results from losses realised in delivery of the security management system as some of the entities assets were not returned after instillation and were assumed to be stolen.

Current year fruitless expenditure consists of:

The fruitless and wasteful expenditure of R1 788 relates to a "No Show" to an authorised official trip.

The fruitless and wasteful expenditure of R1 765 is relates to a penalty charged for cancellation of a flight on an authorised official trip.

The fruitless and wasteful expenditure of R652 relates to a call out fee for a locked car keys inside a rental vehicle.

32. Services in kind

Administrative services in kind:

Deeds Registration Trading Entity falls under the administration of the Department of Agriculture, Land Reform and Rural Development. The executive of the department spends some of their time on the affairs of the Trading Entity.

All services paid for by the Department which could be quantified have been disclosed as related party transactions, excluded from those are services that cannot be quantified due to their nature, these include risk management services and Internal Audit services provided by the department. Due to their nature, these service in kind cannot be reliably measured and therefore have not been recognised.

33. Alignment of Deeds Registries areas of jurisdictions to coincide with provincial boundaries

The business case for the alignment of deeds registries areas of jurisdictions to provincial boundaries was approved in the 2015/16 financial year. The purpose of the realignment of Deeds registries areas of jurisdictions to provincial boundaries, (Alignment Programme) arises from the need to address the problem regarding how the Deeds Offices are currently positioned which is an impediment to Constitutional and institutional reforms.

The programme is therefore aimed at aligning the Deeds registries areas of jurisdiction to provincial demarcations as articulated in Section 103 of the Constitution and to ensure that each Deeds registry services the province in which it is located, making it accessible to clients.

The alignment programme contains four projects:

- i. Identification, separation and transfer of records (from transferring Deeds office and receiving Deeds office).
- ii. Establishment of the Limpopo Deeds Registry which was established and opened on the 3rd of April 2017.
- iii. Establishment of the North West Province Deeds Registry.
- iv. The establishment of Deeds information centres.

The anticipated benefits of this programme are two-fold: Firstly, it will serve in the interest of the promotion of accessible services and to ensure Deeds offices services their respective provinces. Secondly, there will be improved turn-around times in the registration and delivery of deeds and related documents. Both benefits will result in improved service delivery that is client centric.

34. Reporting segments

Every Deeds Registry performs similar registration functions as another Deeds Registry and there is no difference in the nature of goods or services delivered, the type of customer being serviced, the method to deliver goods and services and there is also no difference in the regulatory environment. The socio-economic characteristics of the provinces in which the Deeds Registries are situated are affected by the same economic impacts of the larger South African economy and are generally similar from province to province.

The Deeds Registries however do generate revenue from registration of deeds and documents and sale of information. Their financial results are not disclosed separately from the results of the entity as a whole as no province reports individually for financial reporting purposes. This information is not readily available as required by the definition of a reporting segment.

Due to the nature of operations at the Deeds Registries and the fact that financial information is not available outside of the financial information produced at the Office of the Chief Registrar of Deeds, separate segment reporting therefore has not been disclosed.
