AGRI-PARK DISTRICT: Chris Hani	PROVINCE: Eastern Cape	REPORTING DATE: 15 April 2016	
	AGRI-PARK COMPONENTS	STATUS	
<ul> <li>Cattle (dairy and beef)</li> <li>Sheep (wool and mutton)</li> <li>Grain (maize and sorghum)</li> </ul>	<ul> <li>Agri-hub – Ncorha, including:         <ul> <li>Milk processing</li> <li>Wool processing</li> <li>Red meat abattoir</li> </ul> </li> <li>FPSUs:         <ul> <li>3x dairies in Ncorha and 3x dairies in Lukhanji (servicing the milk processing facility)</li> <li>Feedlots in the Lukhanji, Tsolwana, Engcobo, Emalahleni, Intsika Yethu, Inkwanca and Inxuba Yethumba local municipalities (servicing the abattoir)</li> <li>Extension services in each municipality</li> </ul> </li> </ul>	<ul> <li>75% complete:         <ul> <li>Market and technical study complete</li> <li>Financial analysis and completion of feasibility report / business plan still underway</li> </ul> </li> </ul>	
-̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣̣	AGRO-PROCESSING BUSINESS OPPORTUNITIES	KEY ROLE-PLAYERS	
<ul> <li>Sheep farming cooperatives across the district – to</li> </ul>	Beef cuts	Public Sector Industry	Other
<ul> <li>support the proposed mutton and wool processing initiatives</li> <li>Milk production in the district (Shiloh and Ncorha dairy trusts) – providing context to the establishment of milk processing and additional dairies, to curb the cross-border processing of milk from CHDM</li> <li>Cattle farming cooperatives across the district to support the beef processing</li> </ul>	<ul> <li>Liquid milk and concentrated milk products         <ul> <li>Hard and semi-hard cheese</li> <li>UHT milk</li> <li>Milk and whey powder</li> <li>Cream</li> <li>Butter milk</li> <li>Yoghurt</li> <li>Maas</li> <li>Flavoured milk</li> </ul> </li> <li>Scoured wool, yarn and sliver</li> <li>Mutton cuts</li> </ul>	<ul> <li>DRDLR*</li> <li>Chris Hani DM*</li> <li>CHDA*</li> <li>ECRDA</li> <li>CDC*</li> <li>Local Municipalities:*         <ul> <li>Sakhisizwe</li> <li>Intsika Yet</li> <li>Tsolwana</li> <li>Emalahle</li> </ul> </li> <li>DRDAR*</li> <li>Inkwanca LM</li> <li>Engcobo LM</li> <li>Emerging and commercial farmers*</li> <li>Emerging and commercial farmers*</li> <li>Machinery and equipment suppliers*</li> </ul>	CSIR Biosciences
	NEXT STEPS	POSSIBLE ECONOMIC BENEFITS	
<ul> <li>Agri-Hub (5 000 m<sup>2</sup>)         <ul> <li>Milk processing (2 000 m<sup>2</sup>)</li> <li>Wool processing (4 000 m<sup>2</sup>)</li> <li>Abattoirs, with slaughter capacity of 100</li> </ul> </li> </ul>	Completion and presentation of the business plan to the client	It is estimated that the AP will generate approximately R64.8 million revenue and create about 30 jobs (at least 8 at the hub and 22 at the FPSUs and for service provision). Revenue per annum and jobs from businesses, operating at full capacity, is approximated as follows:	
animals per day (33 000 m <sup>2</sup> )		Business Revenue	Jobs
FPSUs:		Abattoirs R 320 million	75
<ul> <li>Milk parlours x6, to accommodate 1 250</li> </ul>		Feedlots         R 500 million           Milk Processing         R 28 million	203
cattle each (2 500 m <sup>2</sup> each)		Milk Processing         R 28 million           Wool Processing         R 16 million	26
• Feedlots for cattle and sheep x7 in each		TOTAL R 864 million	315
local municipality, with a capacity of 600 animals each (7 400 m <sup>2</sup> each)		Other possible spin-offs are subsistence farmers generging farmers, and the creation of other SMM local economy grows.
