RE: PHASE OUT OF POLYETHOXYLATED TALLOW AMINE (POE-T) USED ON AGRICULTURAL REMEDIES FORMULATIONS

1. The above matter refers.
2. An assessment of risks to human and environment from exposure to Polyethoxylated Tallow Amine (POE-T) has been carried out at the international level. The assessment identified the need to reduce risks to human health and the environment from POE-T.
3. You are therefore informed that POE-T may not be placed on the market nor used in agricultural remedies as from 01 June 2020. This period provided is to allow a gradual phase-out of the POE-T.
4. Please feel free to contact the office of the Registrar for further information and advice on the above matter.

Trusting the above is in order.

Yours faithfully,

MR. JONATHAN MALUTA MUDZUNGA
REGISTRAR: ACT 36 OF 1947
