MRLs for these substances in certain commodities are changed: either increased or lowered. None

Does this proposed regulation conform to the relevant international standard?

Yes **No**

If no, describe, whenever possible, how and why it deviates from the international standard: The European Food Safety Authority published reasoned opinion on the review of the existing maximum residue levels for emamectin. Based on the opinion, Regulation (EC) No 396/2005 should be amended accordingly.
