NOTIFICATION

Addendum

The following communication, received on 25 March 2019, is being circulated at the request of the Delegation of Canada.

Notice of Modification to the *List of Permitted Food Enzymes* to Enable the Use of Protein-glutaminase from *Chryseobacterium proteolyticum* AE-PG in Various Standardized and Unstandardized Foods - Reference Number: NOM/ADM-0130

Health Canada's Food Directorate completed a detailed safety assessment of a food additive submission seeking approval for the use of the enzyme protein-glutaminase from *Chryseobacterium proteolyticum* AE-PG in various standardized and unstandardized foods.

Health Canada published a Notice of Health Canada's Proposal to Enable the Use of Protein-glutaminase from *Chryseobacterium proteolyticum* AE-PG as a Food Enzyme in Various Standardized and Unstandardized Foods [NOP/ADP-0030] on 10 October 2018. The proposal was open to the public for comment for 75 days. No comments were received during this period.

As no safety concerns were raised through Health Canada's assessment, the Department has enabled the use of protein-glutaminase from *C. proteolyticum* AE-PG described in the information document below by modifying the *List of Permitted Food Enzymes*, effective 18 March 2019.

The purpose of this communication is to publically announce the Department's decision in this regard and to provide the appropriate contact information for any inquiries or for those wishing to submit any new scientific information relevant to the safety of this food additive.

This addendum concerns a:

- Modification of final date for comments
- Notification of adoption, publication or entry into force of regulation
- Modification of content and/or scope of previously notified draft regulation
- Withdrawal of proposed regulation
- Change in proposed date of adoption, publication or date of entry into force
- Other:

Comment period: (If the addendum extends the scope of the previously notified measure in terms of products and/or potentially affected Members, a new deadline for receipt of comments should be provided, normally of at least 60 calendar days. Under other circumstances, such as extension of originally announced final date for comments, the comment period provided in the addendum may vary.)

[] Sixty days from the date of circulation of the addendum to the notification and/or (dd/mm/yy): Not applicable

Agency or authority designated to handle comments: [] National Notification Authority, [] National Enquiry Point. Address, fax number and e-mail address (if available) of other body:
