

## NOTIFICATION OF EMERGENCY MEASURES

### *Addendum*

The following communication, received on 5 April 2019, is being circulated at the request of the Delegation of Canada.

#### Order Imposing Conditions in Relation to Secondary Control Zones In Respect of African Swine Fever

The Canadian Food Inspection Agency (CFIA) has implemented new import requirements for select feed ingredients imported from countries identified as posing a potential concern with respect to African Swine Fever (ASF). The identified products will require an import permit prior to importation from the specified countries and the conditions in the implementing order and the import permit will need to be met. These conditions include heat treatment and/or hold times (depending on the product in question) designed to mitigate the risk of contamination of these products with the African Swine Fever virus.

Canada has expanded the list of regions or countries likely to be affected by this measure to include Cambodia. The updated list is noted below:

#### **Regions or countries likely to be affected, to the extent relevant or practicable:**

**All trading partners**
