Committee on Sanitary and Phytosanitary Measures

Original: English/French

NOTIFICATION

Addendum

The following communication, received on 25 November 2019, is being circulated at the request of the Delegation of Canada.

Notice of Modification to the List of Permitted Food Additives with Other Accepted Uses to enable the use of L-lysine Monohydrochloride in certain processed snack foods - Reference Number: NOM/ADM-0140

Background

Health Canada's Food Directorate completed a premarket safety assessment of a food additive submission seeking approval for the use of L-lysine monohydrochloride in certain processed snack foods to inhibit acrylamide formation during their manufacture. The results of the premarket assessment support the safety and efficacy of L-lysine monohydrochloride for its requested use.

Health Canada's Proposal to Enable the Use of L-lysine Monohydrochloride in Certain Processed Snack Foods [Reference Number: NOP/ADP-0032] was published on 13 May 2019. The proposal was open to the public for comment for 75 days.

No comments were received during this period. Consequently, Health Canada has enabled the use of L-lysine monohydrochloride described in the information document below by modifying the List of Permitted Food Additives with Other Accepted Uses, effective 6 November 2019.

The purpose of this communication is to publically announce the Department's decision in this regard and to provide the appropriate contact information for any inquiries or for those wishing to submit any new scientific information relevant to the safety of this food additive.

This addendum concerns a:

- Modification of final date for comments
- Notification of adoption, publication or entry into force of regulation
- Modification of content and/or scope of previously notified draft regulation
- Withdrawal of proposed regulation
- Change in proposed date of adoption, publication or date of entry into force
- Other:

Comment period: (If the addendum extends the scope of the previously notified measure in terms of products and/or potentially affected Members, a new deadline for receipt of comments should be provided, normally of at least 60 calendar days. Under other circumstances, such as extension of originally announced final date for comments, the comment period provided in the addendum may vary.)

Sixty days from the date of circulation of the addendum to the notification and/or (dd/mm/yy): Not applicable

Agency or authority designated to handle comments: National Notification Authority, National Enquiry Point. Address, fax number and e-mail address (if available) of other body:

Text(s) available from: National Notification Authority, National Enquiry Point. Address, fax number and e-mail address (if available) of other body:
