NOTIFICATION

Addendum

The following communication, received on 22 January 2021, is being circulated at the request of the Delegation of Canada.

Established Maximum Residue Limit: Pyrethrins

The proposed maximum residue limit (PMRL) document for pyrethrins notified in G/SPS/N/CAN/1348 (dated 23 October 2020) was adopted 18 January 2021. The proposed MRLs were established via entry into the Maximum Residue Limits Database and are provided directly below:

MRL (ppm)¹ Raw Agricultural Commodity (RAC) and/or Processed Commodity

1.0	Blueberries ²
0.15	Low growing berries (crop subgroup 13-07G, except lowbush blueberries) ³

¹ ppm = parts per million

² The established MRL of 1.0 ppm for blueberries is revised to "highbush blueberries" and "lowbush blueberries" to reflect current terminology.

³ Lowbush blueberries are excluded from this MRL action as a 1.0 ppm MRL is already established for this commodity

An MRL is established for each commodity included in the listed crop groupings in accordance with the *Residue Chemistry Crop Groups* webpage (<https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/residue-chemistry-crop-groups.html>) in the Pesticides and Pest Management section of the Canada.ca website.

MRLs established in Canada may be found using Health Canada's *Maximum Residue Limit Database* (<http://pr-rp.hc-sc.gc.ca/mrl-lrm/index-eng.php>) on the *Maximum Residue Limits for Pesticides* webpage (<https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/maximum-residue-limits-pesticides.html>). The database allows users to search for pesticides or for food commodities.

This addendum concerns a:

- Modification of final date for comments
- Notification of adoption, publication or entry into force of regulation
- Modification of content and/or scope of previously notified draft regulation
- Withdrawal of proposed regulation
