Committee on Sanitary and Phytosanitary Measures

Original: English/French

NOTIFICATION

1. Notifying Member: <u>CANADA</u> If applicable, name of local government involved:
2. Agency responsible: Health Canada
3. Products covered (provide tariff item number(s) as specified in national schedules deposited with the WTO; ICS numbers should be provided in addition, where applicable): Lysophospholipase from <i>Trichoderma reesei</i> RF7206 (ICS Codes: 67.220.20; 67.180)
4. Regions or countries likely to be affected, to the extent relevant or practicable: <input checked="" type="checkbox"/> All trading partners <input type="checkbox"/> Specific regions or countries:
5. Title of the notified document: Notice of Modification to the <i>List of Permitted Food Enzymes</i> to Enable the Use of Lysophospholipase from <i>Trichoderma reesei</i> RF7206 in the Production of Sugars and Dextrins from Starch - Reference Number: NOM/ADM-0172. Language(s): English and French. Number of pages: 3 and 4 https://members.wto.org/crnattachments/2021/SPS/CAN/21_5250_00_e.pdf https://members.wto.org/crnattachments/2021/SPS/CAN/21_5250_00_f.pdf
6. Description of content: Health Canada's Food Directorate completed a premarket safety assessment of a food additive submission seeking approval for the use of lysophospholipase from <i>Trichoderma reesei</i> RF7206 in starch used in the production of dextrins, dextrose, fructose syrups and solids, glucose (glucose syrup), glucose solids (dried glucose syrup), or maltose. <p>Lysophospholipase is a type of phospholipase. Phospholipase from other microbial sources is already permitted for use in Canada as a food enzyme in certain foods, but not in the production of sugars and dextrins from starch. In addition, <i>T. reesei</i> RF7206 was not already a permitted source for any food enzyme in Canada.</p> <p>The results of the premarket assessment support the safety of lysophospholipase from <i>T. reesei</i> RF7206 for its requested use. Consequently, Health Canada has enabled the use of lysophospholipase from <i>T. reesei</i> RF7206 described in the information document by modifying the <i>List of Permitted Food Enzymes</i>, effective 10 August 2021.</p> <p>The purpose of this communication is to publically announce the Department's decision in this regard and to provide the appropriate contact information for inquiries or for those wishing to submit new scientific information relevant to the safety of this food additive.</p>
7. Objective and rationale: <input checked="" type="checkbox"/> food safety, <input type="checkbox"/> animal health, <input type="checkbox"/> plant protection, <input type="checkbox"/> protect humans from animal/plant pest or disease, <input type="checkbox"/> protect territory from other damage from pests.

<p>8. Is there a relevant international standard? If so, identify the standard:</p> <p><input type="checkbox"/> Codex Alimentarius Commission (e.g. title or serial number of Codex standard or related text):</p> <p><input type="checkbox"/> World Organization for Animal Health (OIE) (e.g. Terrestrial or Aquatic Animal Health Code, chapter number):</p> <p><input type="checkbox"/> International Plant Protection Convention (e.g. ISPM number):</p> <p><input checked="" type="checkbox"/> None</p> <p>Does this proposed regulation conform to the relevant international standard?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If no, describe, whenever possible, how and why it deviates from the international standard:</p>
<p>9. Other relevant documents and language(s) in which these are available: Health Canada's Food and Nutrition - 'Public Involvement and Partnerships' Website, posted 10 August 2021 (available in English and French):</p> <p>https://www.canada.ca/en/health-canada/services/food-nutrition/public-involvement-partnerships.html</p> <p>https://www.canada.ca/fr/sante-canada/services/aliments-nutrition/participation-public-partenariats.html</p>
<p>10. Proposed date of adoption (dd/mm/yy): 10 August 2021</p> <p>Proposed date of publication (dd/mm/yy):</p>
<p>11. Proposed date of entry into force: <input type="checkbox"/> Six months from date of publication, and/or (dd/mm/yy): 10 August 2021</p> <p><input type="checkbox"/> Trade facilitating measure</p>
<p>12. Final date for comments: <input type="checkbox"/> Sixty days from the date of circulation of the notification and/or (dd/mm/yy): 23 October 2021</p> <p>Agency or authority designated to handle comments: <input type="checkbox"/> National Notification Authority, [X] National Enquiry Point. Address, fax number and e-mail address (if available) of other body:</p>
<p>13. Text(s) available from: <input type="checkbox"/> National Notification Authority, [X] National Enquiry Point. Address, fax number and e-mail address (if available) of other body:</p> <p>The "Notice of Modification to the <i>List of Permitted Food Enzymes</i> to Enable the Use of Lysophospholipase from <i>Trichoderma reesei</i> RF7206 in the Production of Sugars and Dextrins from Starch" - Reference Number: NOM/ADM-0172 is available through the following weblink:</p> <p>https://www.canada.ca/en/health-canada/services/food-nutrition/public-involvement-partnerships/notice-modification-list-permitted-food-enzymes-lysophospholipase-production-sugars-dextrins-starch.html (English)</p> <p>https://www.canada.ca/fr/sante-canada/services/aliments-nutrition/participation-public-partenariats/avis-modification-liste-enzymes-alimentaires-autorisees-lysophospholipase-production-sucre-dextrins-amidon.html (French)</p> <p>Canada's Notification Authority and Enquiry Point Technical Barriers and Regulations Division Global Affairs Canada 111 Sussex Drive Ottawa, Ontario, K1A 0G2 Canada Tel: +(343) 203 4273 Fax: +(613) 943 0346 E-mail: enquiry@international.gc.ca</p>
