NOTIFICATION

Addendum

The following communication, received on 28 June 2022, is being circulated at the request of the Delegation of Canada.

Notice of Modification to the *List of Permitted Preservatives* to Enable the Use of Long-Chain Glycolipids from *Dacryopinax spathularia* MUCL 53181 in Various Non-Alcoholic Beverages

Health Canada's Food Directorate completed a premarket safety assessment of a food additive submission seeking approval for the use of long-chain glycolipids from *Dacryopinax spathularia* MUCL 53181 as a preservative in various standardized and unstandardized non-alcoholic beverages.

Health Canada published a Proposal to Enable the Use of Long-Chain Glycolipids from *Dacryopinax spathularia* MUCL 53181 as a Preservative in Various Non-Alcoholic Beverages [NOP/ADP-0037] on 23 September 2021. The proposal was open to the public for comment for 75 days. No comments were received during this period.

The results of the premarket assessment support the safety of long-chain glycolipids from *D. spathularia* MUCL 53181 for its requested uses. Consequently, Health Canada has enabled the use of long-chain glycolipids from *D. spathularia* MUCL 53181 described in the information document below by modifying Part 2 and Part 3 of the *List of Permitted Preservatives*, effective 10 June 2022.

The purpose of this communication is to publically announce the Department's decision in this regard and to provide the appropriate contact information for those wishing to submit an inquiry or new scientific information relevant to the safety of this food additive.

This addendum concerns a:

- Modification of final date for comments
- Notification of adoption, publication or entry into force of regulation
- Modification of content and/or scope of previously notified draft regulation
- Withdrawal of proposed regulation
- Change in proposed date of adoption, publication or date of entry into force
- Other:

Comment period: (If the addendum extends the scope of the previously notified measure in terms of products and/or potentially affected Members, a new deadline for receipt of comments should be provided, normally of at least 60 calendar days. Under other circumstances, such as extension of originally announced final date for comments, the comment period provided in the addendum may vary.)

[] Sixty days from the date of circulation of the addendum to the notification and/or (dd/mm/yy): Not applicable

Agency or authority designated to handle comments: [] National Notification Authority, [] National Enquiry Point. Address, fax number and e-mail address (if available) of other body:

Text(s) available from: [] National Notification Authority, [X] National Enquiry Point. Address, fax number and e-mail address (if available) of other body:
