6. Description of content: The application concerns the authorisation of great mullein tincture as a feed additive for all animal species, to be classified in the category 'sensory additives' and in the functional group 'flavouring compounds'. The applicant requested great mullein tincture to be authorised also for use in water for drinking. However, Regulation (EC) No 1831/2003 does not allow the authorisation of 'flavouring compounds' for use in water for drinking. Therefore, the use of great mullein tincture in water for drinking should not be allowed. The European Food Safety Authority ('the Authority') concluded in its opinions of 12 November 2019 and 24 June 2021 that, under the proposed conditions of use, great mullein tincture does not have adverse effects on animal health, consumer health or the environment.
