NOTIFICATION

Addendum

The following communication, received on 19 April 2018, is being circulated at the request of the Delegation of the United States of America.

Public Health Information System (PHIS) Export Component Country Implementation

Through this addendum notification, FSIS is sharing with Member countries copies of the forthcoming revised FSIS Form 9060-5 export certificate series that FSIS will issue for all countries beginning on 29 June 2018. FSIS has made limited revisions to the 9060-5 series to better align with commonly accepted international guidance and to ensure importing country requirements are met. The revised export certificate series will be implemented with the initial launch of the Public Health Information System (PHIS) export component, FSIS' electronic application and certification system. The FSIS Form 9060-5 export certificate series includes: (1) 9060-5 (meat/poultry export certificate); (2) 9060-5S (Siluriformes fish export certificate); (3) 9060-5A (product continuation page); and (4) 9060-5B (remarks continuation page), a new addendum to provide more space for additional attestations, when required by the importing country. Samples of these revised export certificates are provided with this addendum notification. FSIS is also providing further instructions on how Central Competent Authority (CCA) officials can access USDA internet-based applications that are important for facilitating trade with the United States.

This addendum concerns a:

- Modification of final date for comments
- Notification of adoption, publication or entry into force of regulation
- Modification of content and/or scope of previously notified draft regulation
- Withdrawal of proposed regulation
- Change in proposed date of adoption, publication or date of entry into force
- Other: Update on PHIS Export Component Country Implementation.

Comment period: (If the addendum extends the scope of the previously notified measure in terms of products and/or potentially affected Members, a new deadline for receipt of comments should be provided, normally of at least 60 calendar days. Under other circumstances, such as extension of originally announced final date for comments, the comment period provided in the addendum may vary.)

- Sixty days from the date of circulation of the addendum to the notification and/or (dd/mm/yy): Not applicable
