NOTIFICATION

Corrigendum

The following communication, received on 6 March 2024, is being circulated at the request of the Delegation of the United States of America.

Methoxyfenozide; Pesticide Tolerances. Final Rule

EPA issued a final rule in the Federal Register of 11 October 2022, establishing tolerances for residues of methoxyfenozide in or on multiple commodities requested by the Interregional Research Project Number 4 (IR-4) under the Federal Food, Drug, and Cosmetic Act (FFDCA). That document inadvertently omitted an instruction to add a tolerance for the commodity "bean, mung, dry seed". This document corrects the final regulation.
