Committee on Sanitary and Phytosanitary Measures

NOTIFICATION

1.	Notifying Member: UNITED STATES OF AMERICA		
	If applicable, name of local government involved:		
2.	Agency responsible: Environmental Protection Agency		
3.	Products covered (provide tariff item number(s) as specified in national schedules deposited with the WTO; ICS numbers should be provided in addition, where applicable): Mango and papaya		
4.	Regions or countries likely to be affected, to the extent relevant or practicable:		
	[X]	All trading partners	
	[]	Specific regions or countries:	
5.		Title of the notified document: Fludioxonil; Pesticide Tolerances. Final Rule. Language(s): English. Number of pages: 4	
	https:/	//www.govinfo.gov/content/pkg/FR-2023-03-29/html/2023-06457.htm	
6.	Description of content: This regulation modifies existing tolerances for residues of fludioxonil in or on mango and papaya.		
7.	Objective and rationale: [X] food safety, [] animal health, [] plant protection, [] protect humans from animal/plant pest or disease, [] protect territory from other damage from pests.		
8.	Is the	s there a relevant international standard? If so, identify the standard:	
	[X]	Codex Alimentarius Commission (e.g. title or serial number of Codex standard or related text): https://www.fao.org/fao-who-codexalimentarius/codex-texts/dbs/pestres/pesticide-detail/en/?pid=211	
	[]	World Organization for Animal Health (OIE) (e.g. Terrestrial or Aquatic Animal Health Code, chapter number):	
	[]	International Plant Protection Convention (e.g. ISPM number):	
	[]	None	
	Does	Does this proposed regulation conform to the relevant international standard? [] Yes [X] No If no, describe, whenever possible, how and why it deviates from the international standard: There is no Codex MRL for fludioxonil in or on papaya. Canada has established an MRL for fludioxonil in or on papaya at 5 ppm, which is the same as the US tolerance as modified by this action. Codex and Canada have established MRLs for fludioxonil in or on mango at 2 ppm. These MRLs are different than the US tolerance as modified by this action, which is 8 ppm for fludioxonil residues in or on mango. EPA is not harmonizing the US tolerance with the Codex and Canadian MRLs because the proposed post-harvest application use on fruit imported into the United States results in residues	
	[] Ye		
	intern Canada as the for fluc modifie harmo		

greater than 2 ppm. The increased tolerance of 8 ppm is needed to cover residues resulting from post-harvest application to imported fruit and would not affect trade channels with Canada or the European Union.

9. Other relevant documents and language(s) in which these are available:

https://www.govinfo.gov/content/pkg/FR-2022-10-24/html/2022-22979.htm https://www.govinfo.gov/content/pkg/FR-2018-11-06/html/2018-24265.htm https://www.govinfo.gov/content/pkg/FR-2015-08-14/html/2015-20019.htm (available in English)

10. Proposed date of adoption (dd/mm/yy): 29 March 2023Proposed date of publication (dd/mm/yy): 29 March 2023

- 11. Proposed date of entry into force: [] Six months from date of publication, and/or (dd/mm/yy): 29 March 2023
 - [] Trade facilitating measure
- 12. Final date for comments: [] Sixty days from the date of circulation of the notification and/or (dd/mm/yy): Not applicable

Agency or authority designated to handle comments: [] National Notification Authority, [] National Enquiry Point. Address, fax number and e-mail address (if available) of other body:

Daniel Rosenblatt, Acting Director, Registration Division (7505T), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; Main telephone number: +(202) 566 1030; E-mail: RDFRNotices@epa.gov

13. Text(s) available from: [] National Notification Authority, [] National Enquiry Point. Address, fax number and e-mail address (if available) of other body:
