## THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

### INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

### 1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
- (a) Any single contract with imported content exceeding US\$10 million.  
or
  - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million.  
or
  - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.  
or
  - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.
- 1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.

- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

## **2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY**

- 2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million Rands), submit details of such a contract to the DTI for reporting purposes.

- 2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

## **3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)**

- 3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.

- 3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- Bid / contract number.
- Description of the goods, works or services.
- Date on which the contract was accepted.
- Name, address and contact details of the government institution.
- Value of the contract.
- Imported content of the contract, if possible.

- 3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at [Elias@thedti.gov.za](mailto:Elias@thedti.gov.za) for further details about the programme.

## **4 PROCESS TO SATISFY THE NIP OBLIGATION**

- 4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:
- a. the contractor and the DTI will determine the NIP obligation;
  - b. the contractor and the DTI will sign the NIP obligation agreement;

- c. the contractor will submit a performance guarantee to the DTI;
- d. the contractor will submit a business concept for consideration and approval by the DTI;
- e. upon approval of the business concept by the DTI, the contractor will submit detailed business plans outlining the business concepts;
- f. the contractor will implement the business plans; and
- g. the contractor will submit bi-annual progress reports on approved plans to the DTI.

4.2 The NIP obligation agreement is between the DTI and the successful bidder (contractor) and, therefore, does not involve the purchasing institution.

**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
  - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
  - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

<sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

REPUBLIC OF SOUTH AFRICA

**Director: Climate Change and Disaster Risk Reduction, Department of Agriculture, Land Reform and Rural Development, Private Bag X250, Pretoria, 0001 Telephone: 012 319 6717.**

### **THE APPOINTMENT OF A SERVICE PROVIDER TO SUPPLY FUEL AND SET UP AND DETONATE FUEL EXPLOSIONS FOR THE CONTROL OF REDBILLED QUELEA BIRDS (HEREBY REFERED AS QUELEA) FOR A PERIOD OF 24 MONTHS AS AND WHEN REQUIRED**

#### **1. PURPOSE:**

The Department of Agriculture, Land Reform and Rural Development is responsible for the control of Redbilled Quelea in the R.S.A. One of the methods employed are fuel explosions. The technique entails the following: 10, 20, 25, 100 or 210 litre steel/plastic containers and are filled with fuel after which the containers are placed more or less 10 meters apart depending on the type of habitat.

An authorised official of the Department will perform an inspection and evaluation of reported quelea colonies. After the inspection, the official will decide on the type of control method, if any. Should the control method be a fuel explosion, the authorised official of the Department will determine the extent (date, time and quantities) of the operation. The authorised official of the Department will contact a service provider and request him/her to provide his/her service in accordance with the specifications of this bid.

#### **2. SCOPE AND DEFINITION OF WORK**

2.2 Charge means a number of boosters tied together by means of detonation cord with a length of cord extending from the charge as determined by the authorised official of the Department. Thereafter a charge will be referred to as a bomb.

2.3 When all the containers are placed in their positions, they are connected to each other with detonation cord by the service provider. The service provider is responsible for securing the whole blasting area, and double check all connections and explosives, to ensure that the set-up of all explosives are correct, to minimize any bomb failure.

2.4 At sunset the Quelea move in to the roost/blasting area, and when the authorised official of the Department is satisfied that all the Quelea have settled, he/she will instruct the service provider to detonate the blast. This causes the incineration of most of the Quelea in the roost. After the explosion, the service provider must ensure that all the bombs have detonated and declare the site safe, before the site can be entered by other persons.

17. Personnel and necessary equipment for explosions: The successful bidder must supply the following, the cost of which will be for his own account:
- i) One licensed, registered and fully equipped explosives carrier vehicle for every team.
  - ii) Specialised labour/assistants to connect explosives (at least one).
18. Successful bidder / service provider shall be compensated for transport and travel distances from his/her base station to the nearest explosives depot to the blasting site, and back to his/her nearest base station, and this includes any other necessary transport distances as agreed upon beforehand with the authorised official of the Department i.e. distances travelled to return explosives.
19. In respect of the set-up of the control area as indicated by the authorised official of the Department, the successful bidder / service provider will be responsible for the following:
- i) To bind a number of bombs (charges) as determined by the authorised official of the Department.
  - ii) To lay out a detonation cord network for example 10 metres from each other in open Eucalyptus plantations and 5 m in dense reeds, throughout the entire

control area, and to connect the whole network to prevent any cut-offs. The authorised official of the Department will indicate what distance the spacing should be.

- iii) To tie the produced charges more or less 10 metres apart to the network of detonation cord. There will be as many charges as containers. The authorised official of the Department will indicate what distance the spacing should be.
  - iv) To ensure that all containers with fuel are placed correctly onto all charges. This includes any methods required to ensure the correct placement of the explosives relative to the containers as determined by the Departmental representative, i.e. taping of explosives to fuel containers.
  - v) To ensure that the control area is set up correctly, and to ensure that there are no loose (unconnected) explosives or fuel containers in the control area.
20. i) If a specific control action was set up but could not be executed on a specific day as agreed upon between the authorised official of the Department and the blasting service provider, due to circumstances beyond the service provider's control, and the detonation has to be delayed until the next evening, then the blasting service provider will be paid a maximum of R3300, 00 per day by the Department for the delay time. However, if the costs of the blasting service provider to return to his/her nearest base station is less than the above-mentioned amount, he/she will have to return to his/her nearest base station and will be remunerated for the travelling and transport distance by the Department. For example, it could happen that due to rain the action could be delayed for as many as three days or more for which the contractor will be remunerated 3xR3300 for delay time or 3x travelling distances depending on which is the least expensive. Under no circumstances will the Department pay simultaneous for delayed time, cancellation fees and stay-over time. Please see par. 28 in this regard.
- ii) If a specific control action was not set up and could not be executed (cancelled) on a specific day as agreed upon between the authorised official of the Department and the blasting service provider, due to circumstances beyond the service provider's control, and the service provider did proceed to collect and transport explosives to the blasting site before the operation was cancelled by the authorised official of the Department, then the blasting service provider will be compensated at a maximum of R 2200,00 per day by the Department for cancellation fees. The cancellation fees include all costs incurred by the service provider excluding transport costs.
21. If a specific control action must be delayed, the service provider must contact the relevant Inspector of Explosive Materials. The inspector will decide, after all possibilities have been considered, how to deal with the explosives, as to limit any costs to the Department.
22. If more fuel explosion control actions are planned in the vicinity during the following few days, it could be expected of the service provider to stay over in order to reduce expenses on behalf of the Department. The authorised official of the Department will request the service provider to remain in the area at which the Department will compensate him/her R3300 per 24 hour period for stay over time, if no fuel explosion operations were launched/ executed during that said period. For example if a fuel

**THE APPOINTMENT OF A SERVICE PROVIDER TO SUPPLY FUEL AND SET UP AND DETONATE FUEL EXPLOSIONS FOR THE CONTROL OF REDBILLED QUELEA BIRDS (HEREBY REFERED AS QUELEA) FOR A PERIOD OF 24 MONTHS AS AND WHEN REQUIRED**

explosion was launched on the Monday and the service provider was requested to remain in the area till Wednesday in order to execute a fuel explosion on Wednesday, the service provider will be compensated R3300 for the Tuesday that he/she remained in the area. However if as in this example the fuel explosion on Monday was delayed due to i.e. rain till Tuesday, the service provider will only be compensated for delay time (Monday till Tuesday), as described in Par. 20( i) of this bid and not an additional R3300 for the Tuesday as described in this paragraph. Under no circumstances will the Department pay simultaneous for delayed time, cancellation fees and stay-over time.

23. When the control area has been set-up, and the explosives have to be guarded overnight, the service provider has to appoint security guards (as prescribed by the Inspector on explosive materials) for the period until the explosives can be detonated and therefore the fuel explosion executed. For that the Department will compensate the service provider at a maximum of R1300 per 24-hour period. Where other companies' guards have been used, payment will occur on their invoices only, with a maximum limit of R1300.
24.
  - i) In a situation where a blasting area has already been loaded, and the Departmental representative decides that the explosives must be removed from the blasting area, the service provider will be compensated for the day's work, that is 100% of the labour cost per bomb for the setting up the blasting area and 50% of the labour costs per bomb of those that had to be moved, for dismantling of the blasting area. Concerning the explosives, the same principle as in par. 13 viii) of this tender applies.
  - ii) In a situation where a blasting area has already been loaded, and the authorised official of the Department decides that the area has not been set up correctly by the service provider, the service provider can be requested by the authorised official of the Department to dismantle and move one or more of the charges, in order to ensure the correct set up of the area. In such a situation the service provider will not be compensated for labour as described in par.( 27 i).
25. The successful bidder will at all times be responsible for his subsistence arrangements and costs, including any other costs incurred by him/her.
26. The successful bidder will be responsible for his/her transport, and for the security of his/her vehicle/s and equipment and the Department is not liable for any claims arising from damage or loss of his/her property.
27. The explosive service provider must declare the following:
  - i) Labour cost per charge to set-up explosives. (Keeping in mind that cost of explosives is already carried by the Department as explained in paragraph 22 of this bid).
  - ii) Transport cost per kilometre (all distances travelled for a particular fuel explosion for example: base station to explosives depot/magazine to blasting site / control area and return).
  - iii) All their base stations from where the transport costs will be calculated. Base stations can include, inter alia home/office or operating points.
  - iv) That they are prepared to execute the Quelea control actions, as described in the

conditions of this tender.

28. Service provider will be remunerated normally within 30 days from receipt of the original specified invoice.
29. The Department reserves the right to cancel the contract any time in the event of the successful bidder not being able to meet all the conditions laid down in this tender contract or in the event of fuel explosions not being carried out satisfactory. The Department reserves the right to claim any costs incurred, from the particular service provider in the event of the contract being cancelled with that bidder.
30. The authorised representative of the Department acting on behalf of the Executive Officer's decisions will be final and binding, pertaining to decisions as mentioned in this document.
31. The authorised representative of the Department is acting in good faith on behalf of the Department and no recourse can be taken against him/her in any circumstances.
32. The contract will be valid for a period of 24 months from date of acceptance. However, should the bid not be awarded before the contract starting date, due to unforeseen circumstances then the Department reserves the right to amend the contract period accordingly should extended validity have been obtained.
