THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
 - (a) Any single contract with imported content exceeding US\$10 million.
or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million.
or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.
or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.
- 1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.

- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

- 2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million Rands), submit details of such a contract to the DTI for reporting purposes.
- 2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

- 3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.
- 3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:
- Bid / contract number.
 - Description of the goods, works or services.
 - Date on which the contract was accepted.
 - Name, address and contact details of the government institution.
 - Value of the contract.
 - Imported content of the contract, if possible.
- 3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at Elias@thedti.gov.za for further details about the programme.

4 PROCESS TO SATISFY THE NIP OBLIGATION

- 4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:
- a. the contractor and the DTI will determine the NIP obligation;
 - b. the contractor and the DTI will sign the NIP obligation agreement;

- c. the contractor will submit a performance guarantee to the DTI;
- d. the contractor will submit a business concept for consideration and approval by the DTI;
- e. upon approval of the business concept by the DTI, the contractor will submit detailed business plans outlining the business concepts;
- f. the contractor will implement the business plans; and
- g. the contractor will submit bi-annual progress reports on approved plans to the DTI.

4.2 The NIP obligation agreement is between the DTI and the successful bidder (contractor) and, therefore, does not involve the purchasing institution.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

**TERMS OF REFERENCE FOR THE APPOINTMENT OF SERVICE PROVIDER(S) TO
DEVELOP LAND USE SCHEMES FOR A PERIOD OF TWELVE (12) MONTHS FOR
GREAT KEI LOCAL MUNICIPALITY IN EASTERN CAPE PROVINCE**

1 INTRODUCTION

- 1.1 The Department of Agriculture, Land Reform and Rural Development (DALRRD) requires the services of firms or a consortium of suitably qualified firms to develop wall to wall Land Use Scheme (hereafter referred to as the LUS) for the Great Kei Local Municipality in the Eastern Cape Province:
- 1.2 The apartheid spatial planning system has brought challenges which resulted in disempowerment of municipalities to properly deal with development, management and the regularization of land use activities in their areas. This resulted in a differentiated approach used within municipalities to address land use management in different areas of the municipality.
- 1.3 Section 24 of the Spatial Planning and Land Use Management Act, Act No 16 of 2013 (SPLUMA) requires that a Municipality, must after public consultation, adopt and approve a single land use scheme for its entire area within 5 years from the commencement (1st July 2015) of the Act.
- 1.4 The DALRRD has since developed Land Use Scheme Guidelines in 2017 to guide municipalities in developing land use schemes as per the requirements of the SPLUMA. The DALRRD further developed a Model Land Use Scheme framework in 2029 for municipalities in order to facilitate the LUS development process.

2. PROBLEM STATEMENT

- 2.1 The Great Kei Local Municipality is managed by Town/Zoning Scheme Regulations that were promulgated in terms of the outdated/old order Provincial Legislation/Ordinances and that do not make provision for the current land use management challenges.
- 2.2 The current zoning/town planning scheme regulations have made it highly complex for the subject municipalities to manage development as they are not in a position to respond to all the development proposals. These zoning/town planning scheme regulations are not sufficiently detailed to provide clear direction on the land use management and the future growth of the various towns and rural areas within the municipalities. There is thus a lack of updated land use scheme policy/ guidelines to enable the municipalities to function optimally.
- 2.3 There is no alignment between the zoning/town planning schemes and the current Municipal Spatial Development Frameworks (SDF) and other local development plans in the municipality. The current zoning schemes are the remains of the past racially based land use planning. The existing zoning schemes therefore do not reflect the intentions and concerns of recent land use planning law reforms such as the Spatial Planning and Land Use Management Act, 2013 (Act 16 of 2013), the Municipal Systems Act, 2000 (Act 32 of 2000), the National Environmental Management Act, 1998 (Act 107 of 1998), the National Heritage Resources Act, 1999 (Act 25 of 1999), etc.
- 2.4 It is critical that land use management (“*control*”) is integrally linked to forward planning and addresses the challenges of the municipality. The Municipal SDFs would cover a wide range of policies dealing with housing, infrastructure, economic development, provision of social facilities and services to ensure that it is placed on a sustainable development pathway. The introduction of wall-to-wall land use scheme will provide opportunities to consolidate and integrate the various land use

47 **TERMS OF REFERENCE FOR THE APPOINTMENT OF SERVICE PROVIDER(S) TO DEVELOP LAND USE SCHEMES FOR A PERIOD OF TWELVE (12) MONTHS FOR GREAT KEI LOCAL MUNICIPALITY IN EASTERN CAPE PROVINCE**

related policies and development control systems and place the municipality on more efficient, effective and equitable growth pathway.

2.5 The municipality have embarked on various strategic planning processes in response to developmental challenges facing their communities, their economies as well as their natural and built environment, for example the Integrated development plans (IDPs) and local economic development plans (LEDs). All of these strategies are geared at medium to long term development process, while the Land Use Scheme would also have an immediate impact.

2.6 The municipality pose unique development challenges that necessitate more integrated, efficient and effective land use management systems that are appropriate and more proactive in their application. Most municipalities in the country that have embarked on this process have focused on:

- Establishing a more direct and immediate link between forward/policy planning and day to day land use development control measures; and
- Establishing a system of land use management in its entirety, from the provision of guidelines, to the processing of the applications; the zoning register; development incentives; approval conditions; etc.

2.7 In view of the above, Great Kei Local Municipality wish to embark on individual processes to prepare single (wall-to-wall) land use schemes for respective municipal areas in accordance with the Spatial Planning and Land Use Management Act, 2013 (Act 16 of 2013). This Land Use Scheme should consider various aspects such as integration, topography, infrastructure, environmental concerns, existing and future developments. The new Land Use Scheme will have direct impact on property values, business development and ultimately rates income for the municipality. These should introduce uniform and development facilitation land management system that should form the basis for sustainable development in the municipalities for a long-term period.

3. PURPOSE AND OBJECTIVE OF THE PROJECT

- 3.1 The objective of this project is to assist the Municipality to develop a simplified and yet comprehensive single land use scheme to ensure the orderly and harmonious development of the municipal area without sacrificing the natural environment.
- 3.2 To develop Land Use Scheme that will give effect to and be consistent with the municipal SDFs and determine the use and development of land within the municipal area to promote economic growth, social inclusion, and efficient development and to minimize the impact on public health and natural resources.
- 3.3 In terms of Section 24 of SPLUMA the content of a LUS must:
- Include suitable categories of land use zoning and regulations for the entire municipal area, including areas not previously subject to a land use scheme;
 - Take cognisance of any environmental management instrument adopted by the relevant environmental management authority, and must comply with environmental legislation;
 - Include provisions that permit the incremental introduction of land use management and regulation in areas under traditional leadership, rural areas, informal settlements, slums and areas not previously subject to a land use scheme;
 - Include provisions to promote the inclusion of affordable housing in residential land development;
 - Include land use and development incentives to promote the effective implementation of the spatial development framework and other development policies;
 - Include land use and development provisions specifically to promote the effective implementation of national and provincial policies; and
 - Give effect to municipal spatial development frameworks and integrated development plans.

49 **TERMS OF REFERENCE FOR THE APPOINTMENT OF SERVICE PROVIDER(S) TO DEVELOP LAND USE SCHEMES FOR A PERIOD OF TWELVE (12) MONTHS FOR GREAT KEI LOCAL MUNICIPALITY IN EASTERN CAPE PROVINCE**

- A land use scheme may include provisions relating to:
 - The use and development of land only with the written consent of the municipality;
 - Specific requirement regarding any special zones identified to address the development priorities of the municipality; and

- vi. Provides mechanisms to link land use rights to the municipal evaluation system and other applicable system that constitute complete land use management system.
- vii. Be consistent with spatial development framework.
- viii. Process of adoption, review and monitoring of land use scheme
