## THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

### INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

### 1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
- (a) Any single contract with imported content exceeding US\$10 million.  
or
  - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million.  
or
  - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.  
or
  - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.
- 1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.

- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

## **2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY**

- 2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million Rands), submit details of such a contract to the DTI for reporting purposes.

- 2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

## **3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)**

- 3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.

- 3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- Bid / contract number.
- Description of the goods, works or services.
- Date on which the contract was accepted.
- Name, address and contact details of the government institution.
- Value of the contract.
- Imported content of the contract, if possible.

- 3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at [Elias@thedti.gov.za](mailto:Elias@thedti.gov.za) for further details about the programme.

## **4 PROCESS TO SATISFY THE NIP OBLIGATION**

- 4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:
- a. the contractor and the DTI will determine the NIP obligation;
  - b. the contractor and the DTI will sign the NIP obligation agreement;

- c. the contractor will submit a performance guarantee to the DTI;
- d. the contractor will submit a business concept for consideration and approval by the DTI;
- e. upon approval of the business concept by the DTI, the contractor will submit detailed business plans outlining the business concepts;
- f. the contractor will implement the business plans; and
- g. the contractor will submit bi-annual progress reports on approved plans to the DTI.

4.2 The NIP obligation agreement is between the DTI and the successful bidder (contractor) and, therefore, does not involve the purchasing institution.

**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
  - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
  - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

<sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

I, the undersigned, in submitting the accompanying bid:

(Bid Number and Description)

in response to the invitation for the bid made by:

\_\_\_\_\_

(Name of Institution)

  - (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder

6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium<sup>3</sup> will not be construed as collusive bidding.

  - (a) prices;
  - (b) geographical area where product or service will be rendered (market allocation)

8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

<sup>3</sup> Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

### **TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A COMPREHENSIVE ANALYSIS OF THE MARINE AND COASTAL SPATIAL DATA INFRASTRUCTURE (SDI) ENVIRONMENT, INVESTIGATE AND DEFINE A FIT-FOR-PURPOSE GOVERNANCE AND MANAGEMENT STRUCTURE FOR MCSDI.**

#### **1. PURPOSE**

The purpose of this project is to develop a comprehensive Marine and Coastal Spatial Data Infrastructure.

#### **2. BACKGROUND**

- 2.1. The majority of the earth's surface is covered by oceans, making up 71 percent of the surface of the earth with the remaining 29 percent of the land. The total land area in the Republic of South Africa (RSA) is 1,220,813 km<sup>2</sup> and has the 23rd largest Exclusive Economic Zone (EEZ) of 1,535,538 km<sup>2</sup>. The ocean is the lifeblood of the earth as it amongst others drives the weather, regulates the temperature and ultimately supports all living organisms and therefore require proper management.
- 2.2. It is estimated that the RSA's ocean economy will contribute R20 billion to the Gross Domestic Product and create over one million jobs by 2023. Both the Indian and the Atlantic oceans have the potential to produce 370 000 barrels of oil and gas per day, aquaculture projects with revenue of R14 billion in 2019 (South African Government 2015).
- 2.3. In order to properly manage and preserve marine environment, geospatial information plays a very crucial role.
- 2.4. The majority of the NSDIs are hosted within the terrestrial sphere in particular within the Land Administration and Environmental domains, mainly driven by the need to better manage land resources and the environment. Expansion of the term SDI to marine SDI (MSDI) began in

**TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A COMPREHENSIVE ANALYSIS OF THE MARINE AND COASTAL SPATIAL DATA INFRASTRUCTURE (SDI) ENVIRONMENT, INVESTIGATE AND DEFINE A FIT-FOR-PURPOSE GOVERNANCE AND MANAGEMENT STRUCTURE FOR MSDI.**

2008, stating that it is a framework that provides the integrated management of spatial data and information in the marine (maritime) environment, covering processes such as technology, policy, standards.

- 2.5. Chapter 1 of the National Development Plan (NDP) highlights the importance of managing the environment as we enter a period of “ecological deficit”, as the natural capital such as the marine life is being degraded, destroyed, or depleted faster than it can be replenished. For coastal areas, in particular rural areas, marine fisheries are an important sector for subsistence and employment.
- 2.6. The use of geospatial information and earth observation data is now viewed as an enabling and coherent capability for achieving the targets set out in the SDGs, Agenda 2063 and the NDP. Ensuing from the global, regional and national plans, it is therefore important to identify geospatial dataset for the marine and coastal areas, including the data custodians who will be entrusted with maintaining and managing marine geospatial datasets on behalf of government for planning and evidence decision making.
- 2.7. The Committee for Spatial Information, a statutory body established through section 5 of the Spatial Data Infrastructure Act, 2003 (Act No. 54 of 2003) took a resolution in 2016 to integrate the MSDI into the SASDI. The CSI is tasked in terms of section 6.2 of the Base Data Set Custodianship Policy to identify data sets and to appoint corresponding data custodians in the marine and coastal environment. Applying a provision made in terms of section 10 of the SDI Act, the CSI delegated this function to the Data subcommittee. The identified Marine and Coastal base data sets and Data Custodians will form part of the South African SDI (SASDI), administered in terms of the SDI Act (Act 54 of 2003), in support of Marine and Coastal SDI projects and activities.

### **3. SCOPE OF WORK**

The scope of the project is to:

- 3.1. Conduct an analysis and develop a comprehensive description of the Marine and Coastal Spatial Data Infrastructure (MCSDI) including:
  - 3.1.1. Define criteria for the identification of South Africa's Marine and Coastal base data sets and Data Custodians;
  - 3.1.2. Identification of South Africa's Marine and Coastal base data sets and Data Custodians;
  - 3.1.3. Prepare a register of the identified South African Marine and Coastal base data sets and associated Data Custodians, that are compliant with the approved criteria, as approved by the Steering Committee;
  - 3.1.4. Proposed list of Marine and Coastal data themes and which Marine and Coastal base data sets are assigned to each of these data themes.
- 3.2. Investigate the positioning of SASDI within government to support the implementation of MCSDI.
  - 3.2.1. Conduct a comprehensive study of Marine and Coastal SDIs within South Africa and across the globe, benchmark and provide best practices including, current and future trends;
  - 3.2.2. Investigate and define the best approach to integrate the MCSDI into the SASDI framework taking into consideration a balanced approach between land, marine and coastal spheres; and
  - 3.2.3. Define a fit-for-purpose governance and management structure to sustain the MCSDI and advise how SASDI must be structured to best support the implementation of MCSDI.

### **4. PROJECT METHODOLOGY**

- 4.1. Literature review through research of relevant media and documentation of Information Management Systems (IMS) that have been established to manage Marine and Coastal base data sets that includes, but is not limited to, the following:
