THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
- (a) Any single contract with imported content exceeding US\$10 million.
 - or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million.
 - or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.
 - or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.
- 1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.

- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

- 2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million Rands), submit details of such a contract to the DTI for reporting purposes.

- 2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

- 3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.

- 3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- Bid / contract number.
- Description of the goods, works or services.
- Date on which the contract was accepted.
- Name, address and contact details of the government institution.
- Value of the contract.
- Imported content of the contract, if possible.

- 3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at Elias@thedti.gov.za for further details about the programme.

4 PROCESS TO SATISFY THE NIP OBLIGATION

- 4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:
- a. the contractor and the DTI will determine the NIP obligation;
 - b. the contractor and the DTI will sign the NIP obligation agreement;

- c. the contractor will submit a performance guarantee to the DTI;
- d. the contractor will submit a business concept for consideration and approval by the DTI;
- e. upon approval of the business concept by the DTI, the contractor will submit detailed business plans outlining the business concepts;
- f. the contractor will implement the business plans; and
- g. the contractor will submit bi-annual progress reports on approved plans to the DTI.

4.2 The NIP obligation agreement is between the DTI and the successful bidder (contractor) and, therefore, does not involve the purchasing institution.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO REVIEW GUIDELINES FOR THE DEVELOPMENT OF RURAL DEVELOPMENT PLANS IN DISTRICT MUNICIPALITIES FOR A PERIOD OF FOUR (4) MONTHS

1. INTRODUCTION

1.1 The Department of Agriculture, Land Reform and Rural Development requires professional services of one (1) firm or a consortium of suitably qualified firms to review the Guidelines for the development of District Rural Development Plans.

2. BACKGROUND

2.1 The Department of Agriculture, Land Reform and Rural Development (DALRRD) is a newly established Department which is the result of a merger between the Department of Agriculture and the Department of Rural Development and Land Reform. This provides an opportunity for the implementation of more efficient programs, policies and result driven approach to ensure greater growth in the Sector. It is mandated to champion the Agriculture, Rural Development and Land Reform Programme in the country. To achieve this, the DALRRD has come up with plans which will drive much needed growth and inclusivity in the Sector and help address the needs of people that live in extreme poverty and subjected to underdevelopment in rural parts of the country.

2.2 In September 2011, the then Department of Rural Development and Land Reform (DRDLR) which is now known as Department of Agriculture, Land Reform and Rural Development (DALRRD) initiated a programme to develop District Rural Development Plans (DRDPs) which focused mainly on the people living in the most impoverished districts in South Africa. These Rural Development Plans would enhance the impact of intensified government investments through reviewing of the then developmental realities and potential in those areas and come up with interventions that would bring change in the livelihoods of people in rural communities.

- 2.3 In 2014, then DRDLR commissioned a study to develop the District Rural Development Plans Guidelines that would guide the formulation of the DRDPs to ensure consistencies in the development of the plans in future, enhance integration between different Branches in the Department and ensure that the Departmental programmes are aligned to them.
- 2.4 First Generation District Rural Development Plans were developed in the 2014/15 and 2015/16 Financial Years which were twenty-three (23) highly impoverished Districts during that time. Subsequent to that, twenty-one (21) remaining plans were developed to cover the 44 number of Districts in the country.
- 2.5 The then DRDLR took a decision that the DRDPs should become a priority planning tool to guide the work of Branches within the Department. This would mean that all the projects should be informed by the 44 District Plans. For the past five years, these plans have been used by Provincial Shared Services Centre (PSSCs) for identification, monitoring, evaluating and implementing new initiatives, programmes and projects in the municipalities. Components of the DRDPs are also built into various municipal Spatial Development Frameworks that were reviewed to ensure that the departmental footprint find its spatial expression as sector within the rural space. This also ensured smooth project implementation where possible municipal planning tribunals' decisions might be required.

3. PROBLEM STATEMENT

- 3.1 The Rural Development Plans Guidelines were developed in 2014 and were reviewed in 2018.
- 3.2 As the Department has gone through a merger, these guidelines have been overtaken by new developments such as the Agriculture and Agro-Processing Master Plan, Comprehensive Land and Agrarian strategy and Land Reform Master Plan and other events which include new vision, strategic direction, the 2020-2025 Medium Term Strategic Framework to mention but a few that call for a review to align the guidelines.

- 3.3 In his State of the Nations Address, the President said the agricultural sector has been identified as one which has the potential to contribute significantly to South Africa's economic growth. Working closely with key stakeholders the Department is therefore spearheading the development of the Agriculture Master Plan which will drive much needed growth and inclusivity in the sector. The Agricultural Master Plan will be used to inform the compilation of DRDPs which will also be used as spatial targeting tools.
- 3.4 Above all these, District Rural Development Plans need to ensure that we transform rural South Africa into socially cohesive and stable communities with viable institutions, sustainable economies and universal access to social amenities.

4. PURPOSE AND OBJECTIVES OF THE PROJECT

- 4.1 To review the guidelines to ensure that the procedure and process undertaken to develop Rural Development Plans is consistent and understood by different executors and they are in line with the newly established Departmental agenda.
- 4.2 To provide guidelines on alignment of the Rural Development Plans with spatial policies, priorities and strategic objectives of Government.
- 4.3 Give effect to the development principles and applicable norms and standards established in chapter 2 of SPLUMA which include;
- Spatial justice;
 - Spatial sustainability;
 - Efficiency;
 - Spatial resilience and;
 - Good administration.
- 4.4 Give guidance on how to reflect the current state of affairs from a spatial perspective including all relevant available information and also indicate desired patterns of land use at a strategic level.

- 4.5 To develop guidelines that ensures alignment of the Rural Development plans with other government plans at national (National Development Plan, New Growth Path, National Spatial Development Framework), at provincial level (Provincial Spatial Development Frameworks, Provincial Growth Development Strategies) and local level (Integrated Development Plans, Spatial Development Framework), including mechanisms for their incorporation into the existing planning framework.
- 4.6 To include within the guidelines a guide on the development of a geographically smaller area with specific characteristics (e.g. rural precinct plan) that requires detailed planning within the broader administrative boundaries of a municipality. This must take into consideration the SDF guidelines specifically the guidelines for the development of Precinct Plans to give these plans legal status.
- 4.7 It is imperative to distinct between the District Rural Development Plans (DRDPs) and District Development Model (DDM) Plan. DRDPs are plans which the DALRRD developed to drive much needed growth and inclusivity in the Sector and help address the needs of people that live in extreme poverty and subjected to underdevelopment in rural parts of the country. DDM is a government-wide vehicle to deliver integrated services at district level. The model is a key intervention by government to improve coherence, efficiency and effectiveness in the implementation of programmes.

5. SCOPE OF THE PROJECT

- 5.1 The guidelines must be prepared within the context of and be aligned with the new Department strategy and other policies (national, provincial and local).
- 5.2 As part of the formulation of the guidelines, a diagnostic of current programmes and projects of the previous departments (DRDLR, Department of Agriculture) should be completed. It must be clear within the guidelines that the District Rural Development Plans

should ensure integration of the business processes of different Branches in the Department in avoidance of working in silos towards one common vision of the Department which is *equitable access to land, integrated rural development, sustainable agriculture and food security for all*.

- 5.3 The District Rural Development Plans Guidelines have to define a number of key concepts and terminology including their nature, purpose and character of “functional regions” (What would be included in the composition of a functional region?), “Rural Precinct Plans” and “Rural Intervention Areas”. Standardized terminology to be recommended for use/application in the review of DRDPs.
- 5.4 The guidelines must stipulate that integration is not only between the work of different Branches in the Department, all other government Department’s work needs to be taken into consideration especially if it contributes to development of rural areas.
- 5.5 The guidelines to also include the following:
- Implementation plan with Implementation Matrix (to guide project selection, budgets, alignment with municipal planning instruments);
 - Implementation and Monitoring tool;
 - RDP review schedule and process;
 - Concept RDP Report Outline (including Report Headings, Generic Content, Descriptions and Spatial Layers needed); and
- 5.6 The appointed service provider must perform certain tasks as a prerequisite for the review of these guidelines. These are listed below:
- Review current planning theory and practice at international and national level and also consider similar efforts in terms of agriculture, rural development and land reform by other organisations;
 - Conduct stakeholder engagements with relevant officials within the Department and other relevant government departments;
 - Peruse other relevant guidelines like SDF guidelines;

- Assessment outcomes of First and Second generation DRDPs; and
- Identify best practice identified in DRDPs of 9 provinces to inform/be incorporated the DRDP Guidelines.

5.7 The guidelines must consist of the **6 phases**

- Development issues and linkages with existing programmes and plans must be analysed.
- One day session with SPLUM Provincial offices to agree on the role of DRDPs within Municipal Planning (DALRRD Sector Plans versus Integrated Development Planning). Hierarchy and scale of plans to be included in discussion e.g. District Sector Plan and Rural Development/Sectoral Precinct Plans.

Phase 2: Draft Guidelines document

- Draft document completed.

Phase 3: Consultation process

- Engage in consultation with relevant Sister Branches within the Department (Including SPLUM Provincial Offices) and the Department's Provincial Shared Services Centres on draft document to get buy-in and inputs;
