agriculture, land reform & rural development

Department:
Agriculture, Land Reform and Rural Development
REPUBLIC OF SOUTH AFRICA

Chief Directorate: Land Tenure Reform, Private Bag X833, PRETORIA, 0001, Tel: (012) 312 8215, Fax: (012) 324 9096, Web: www.ruraldevelopment.gov.za

TERMS OF REFERENCE FOR A PROJECT MANAGEMENT TEAM TO UNDERTAKE THE PROCESS OF FINALISING AND TRANSFERRING THE 20 REMAINING TRANCRAA AREAS IN TERMS OF THE TRANSFORMATION OF CERTAIN RURAL AREAS ACT NO. 94 OF 1998, AS AMENDED, IN THE WESTERN CAPE, NORTHERN CAPE AND FREE STATE FOR A PERIOD OF TWO YEARS.

1. PURPOSE OF THE PROJECT

- 1.1 The Department of Agriculture, Land Reform and Rural Development (DALRRD) seeks to appoint a project management team of suitably qualified and experienced team to provide much needed capacity in the three provinces to finalize all outstanding activities and processes of transferring the remaining 20 TRANCRAA Areas in terms of this Act.
- 1.2 To obtain dedicated capacity to be allocated based on the number of outstanding areas in each of the three provinces to simultaneously attend to all outstanding activities for the duration of the project.

2. BACKGROUND AND PROBLEM STATEMENT

- 2.1 The Transformation of Certain Rural Areas Act No. 94 of 1998 provides for the transfer of certain land to municipalities and certain other legal entities; the removal of restrictions on the alienation of land; matters with regard to minerals; the repeal of the Rural Areas Act, 1987, and related laws. The repeal, though provided for, will come into effect on a date determined by the President by proclamation on an area by area basis.
- 2.2 The Act distinguishes between land situated in a township and land situated outside a township (defined as the remainder) in the 23 rural areas. The Act places an obligation on the Minister to transfer the remainder of the land to a legal entity chosen by the community through a referendum.
- 2.3 The implementation of the Act requires collaboration of the Department of Agriculture, Land Reform and Rural Development (DALRRD), Provincial Government, Local Government and the Communities concerned. The Provincial Government exercises

powers emanating from Proclamation 154 of 1994 which assigned the administration of the Rural Areas Act to the Premiers of the Provinces where the 23 rural areas are located. Provincial Governments have interpreted to Proclamation to mean that, despite the Act, they have some powers to deal with land in the remainder using the provisions of the Rural Areas Act.

- 2.4 TRANCRAA is applicable to 23 rural areas in four provinces in South Africa, classified as coloured reserves, where certain land is held in trust for the respective communities. These are the so called “coloured rural areas” where the land is held on a communal basis by the residents in that area. The four provinces are, namely; the Western Cape (12 areas), Northern Cape (8 areas), Eastern Cape (1 area) and the Free State (2 areas). Two areas have to date been transferred, one in the Western Cape, one in the Free State, and the Eastern Cape one is at final stages of conveyancing. Therefore, the focus of this project will be in the Western Cape, the Northern Cape and the Free State.
- 2.5 Presently, some of the land in the remainder vest with the Minister of DALRRD and some vest with Municipalities or Provincial Government.
- 2.6 The slow pace of transferring all the areas has led the Department to embark on this process of securing additional capacity through the appointment of a project management team to accelerate the transfer of these 20 TRANCRAA areas within two years from the date of appointment.

3. PROJECT SCOPE

- 3.1 The Project Management Team must within the timeframe of 24 months execute all outstanding activities and transfer the remaining 20 TRANCRAA areas by completing the phases required for transfer;
 - **Phase 1: Preparation for Transformation:** The service provider will be expected to identify and engage various stakeholders for the transformation process. This may require the establishment of different structures to assist with specific issues during the process. The Local Municipality in the area must also be made aware of their obligations and participation in the process leading to transfer of this areas in terms of Trancraa. A Land Development Forum and a Transformation Committee must be established at community level and these must be representatives all the relevant stakeholders including the local municipality,
 - DALRRD and relevant provincial government representatives. The service provider if a Transformation Committee is already present will work with it and if established but dormant it must be revived. But there is none established them the service provider must establish one. One the referendum process has been completed and department has been made aware of the decision of the residents then the service provider must

establish the chosen legal entity with the community and have it registered with the mandated authority.

- **Phase 2 : Land Rights Enquiry:** The service provider must conduct a land rights enquiry in order to determine the different land rights, the extent and nature of these rights and land rights holders in relation to the land to be transferred in terms of section 3 of Trancraa. The objective of this phase is to establish a land use, land tenure plan, and to identify the residents as defined in Trancraa as well as to establish a list all residents who will participate in the decision-making processes leading to transfer each of these areas. The residents list will also be used to establish a voter's roll to be used during the referendum for choosing the legal entity to be registered as the land holding body for the land to be transferred.
- **Phase 3: Land-use Planning:** The service provider will be expected engage the local government and assess the current land use and development plans (residential, agricultural, etc.) on the land to be transferred. The objective of this phase is to facilitate a process to determine current land use, development projects and to prioritize land use needs of the respective affected communities in the Trancraa areas. The land use report must also include a land use map.
- **Phase 4: Tenure Management Planning:** The service provider will be expected to develop a tenure management plan that sets out various options through which the land can be used and managed. It represents a range of different tenure and land management and administration options. Once the land-use plan has been compiled, the team or service provider will engage the transformation committee to explore different options for the way in which the land is to be held and managed, for the approval of the community.
- **Phase 5: Land-holding Entity Formation:** The service provider is expected to workshop the community on the different land holding option available in South Africa and facilitate a process where in the community/ resident will make their decision on the choice of legal entity they want. and working with the community will decide on the type of legal entity to which the land will be transferred. A final report will then be submitted to the Department for consideration by the Minister as part of the request for transfer of the land to the selected entity.
- **Phase 6: Transfer of the 20 remaining TRANCRAA areas:** The service provider will be expected to work with the Department, the state attorney and other relevant stakeholders to facilitate the transfer of these areas to the legal entities established by the residents.
