THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
- (a) Any single contract with imported content exceeding US\$10 million.
or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million.
or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.
or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.
- 1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.

- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

- 2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million Rands), submit details of such a contract to the DTI for reporting purposes.

- 2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

- 3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.

- 3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- Bid / contract number.
- Description of the goods, works or services.
- Date on which the contract was accepted.
- Name, address and contact details of the government institution.
- Value of the contract.
- Imported content of the contract, if possible.

- 3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at Elias@thedti.gov.za for further details about the programme.

4 PROCESS TO SATISFY THE NIP OBLIGATION

- 4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:
- a. the contractor and the DTI will determine the NIP obligation;
 - b. the contractor and the DTI will sign the NIP obligation agreement;

- c. the contractor will submit a performance guarantee to the DTI;
- d. the contractor will submit a business concept for consideration and approval by the DTI;
- e. upon approval of the business concept by the DTI, the contractor will submit detailed business plans outlining the business concepts;
- f. the contractor will implement the business plans; and
- g. the contractor will submit bi-annual progress reports on approved plans to the DTI.

4.2 The NIP obligation agreement is between the DTI and the successful bidder (contractor) and, therefore, does not involve the purchasing institution.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

rural development & land reform

Department:
Rural Development and Land Reform
REPUBLIC OF SOUTH AFRICA

Branch: Spatial Planning and Land Use Management

30 Du Toitspan Road, Flaxley House Building, 3rd Floor, Room 301, Kimberley 8300; Tel: (053) 832 4588; Fax: (053) 832 1482

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A LAND USE MANAGEMENT SYSTEM (LUMS) FOR THE ENTIRE KHEIS LOCAL MUNICIPALITY AREA (WALL-TO-WALL) FOR A PERIOD OF TEN (10) MONTHS.

1. INTRODUCTION.

The Department of Rural Development and Land Reform (DRDLR) requires professional services of one (1) firm or a consortium of suitably qualified professionals to develop a land use management system (LUMS) for the entire Khesi local municipal area (wall-to-wall) for a period of 10 months.

2. BACKGROUND.

- 2.1. The Spatial Planning and Land Use Management Act, 2013 (Act No. 16 of 2013) referred to as SPLUMA states that municipalities must, within five (5) years from the date of commencement of the Act (01 July 2015), adopt a land use scheme for the whole municipal area.
- 2.2. The Municipality has gazetted the Spatial Planning and Land Use Management Bylaw in the provincial gazette on the 19th October 2015 to administrate and facilitate land use and land development applications within the municipal jurisdiction. The compilation of the LUMS must take into consideration and be in-line with the approved bylaw.

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A LAND USE MANAGEMENT SYSTEM (LUMS) FOR THE ENTIRE KHEIS LOCAL MUNICIPALITY AREA (WALL-TO-WALL) FOR A PERIOD OF TEN (10) MONTHS.

- 2.3. SPLUMA prescribe specific requirements for a land use scheme in Chapter 5. The Act recognize that the key to successful spatial planning, land use management and land development is the establishment of an effective link between forward planning (spatial planning) and development control (now interpreted broadly as land use management).
- 2.5 According to Section 20(1) of SPLUMA a municipality must adopt the Spatial Development Framework (SDF) by notice in the provincial gazette. Section 26 (e) of the Local Government: Municipal Systems Act, No. 32 of 2000 (the "MSA") requires all municipalities to compile SDFs as a core component of the Integrated Development Plans (IDP). Section 26(e) of the Municipal Systems Act states: "municipalities must formulate an SDF which must include the provision of basic guidelines for a land use management system for the municipality".
- 2.6 Kheis Local Municipality reviewed its existing Spatial Development Framework in terms of the Spatial Planning and Land Use Management Act, 16 Of 2013, and Council adopted the reviewed SDF on 31 October 2016. The Kheis municipality currently makes use of the outdated Section 8 Scheme Regulations of Land Use Planning Ordinance of 15 of 1985 (LUPO). Unsurprisingly, the need to review the Scheme Regulations for SPLUMA compliance and to ensure clear alignment with the SDF was also identified.

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A LAND USE MANAGEMENT SYSTEM (LUMS) FOR THE ENTIRE KHEIS LOCAL MUNICIPALITY AREA(WALL-TO-WALL) FOR A PERIOD OF TEN (10) MONTHS.

3. PROBLEM STATEMENT

- 3.1 The current LUS was compiled prior the passing of SPLUMA into law, thus, it is not compliant to SPLUMA and there is currently no alignment between the SDF and zoning scheme. The existing zoning scheme therefore do not reflect the intentions and concerns of recent national land use related legislation such as the Spatial Planning and Land Use Management Act 2013 and its 2015 Regulations, the Municipal Systems Act, 2000 (Act 32 of 2000), the National Environmental Management Act, 1998 (Act 107 of 1998) and the 2010 Regulations (NEMA), the National Heritage Resources Act, 1999 (Act 25 of 1999 (NHRA), the Integrated Coastal Management Act, 2008 (Act 24 of 2008 (ICMA), and the Northern Cape Provincial Spatial Development Framework (NCPSPDF).
- 3.2 The current zoning information does not entirely conform with the actual picture on the ground as a result of internal and external factors such as loss of scheme amendment information.
- 3.3 It is critical that land use management is integrally linked to forward planning and addresses the municipalities' challenges. The SDF would cover a wide range of policies dealing with housing, infrastructure, economic development, provision of social facilities and services to ensure that it is placed on a sustainable development pathway. The introduction of the LUMS provides the opportunity to consolidate and integrate the various land use related policies and development control systems and place the municipality on a more efficient, effective and equitable growth pathway.
- 3.4. In most of the municipalities there exists a need to amalgamate and review existing schemes in order to reflect the current law and policy environment. The nature of land use schemes challenges facing the municipalities need to be assessed and then the identification of suitable instruments to tackle those issues need to be undertaken.

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A LAND USE MANAGEMENT SYSTEM (LUMS) FOR THE ENTIRE KHEIS LOCAL MUNICIPALITY AREA(WALL-TO-WALL) FOR A PERIOD OF TEN (10) MONTHS.

- 3.5 The municipalities embarked on various strategic planning processes in response to developmental challenges facing its people, its economy as well as its natural and built environment for example the integrated development plans (IDPs) and economic development plans and Kheis local municipality is no exception. All of these studies are geared at medium to long-term development process, while the Land Use Management System (LUMS) i.e. credible SDF and LUS in particular would also have an immediate impact.
- 3.6. Municipalities' unique development challenges necessitate more integrated, efficient and effective land use management systems that are appropriate and more proactive in its application. There is, however, no universal definition of what the components of a land use management system should be.

Most municipalities that have embarked on this process have focussed on:

- Establishing a more direct and immediate link between forward/policy planning and day to day land use development control measures; and
- Establishing a system of land use management in its entirety, from the provision of guidelines, to the processing of the applications; the zoning register; development incentives; approval conditions; etc.

The new Land Use Management Systems (LUMS) will have direct impacts on property values, business development and ultimately rates income for each municipality. It would also introduce a more uniform and development facilitation land management system that could form the basis for sustainable development in municipalities for the next 50 years as well as provide a new lease of life to the land use management/development control function which, in the context of Kheis, had been neglected until recently.

4. THE OBJECTIVES OF THE PROJECT

4.1 The main objective is to create an integrated LUMS for the entire Kheis municipal area and to replace the existing scheme and plans to fit within the current legislative framework. It must also fit within the policy parameters established by the national government (Spatial Planning and Land Use Management Act, 2013 (Act No. 16 of 2013) and Regulations and provincial government in the Northern Cape and the applicable provincial planning legislation.

i) Legislation, Land Use Policy and Guidelines

Current Situation: NEMA requires that instruments such as the LUMS must reflect and strengthen the principles of integrated environmental management.

SPLUMA stipulates that a land use scheme (LUS) must give effect to and be consistent with the municipal spatial development framework and determine the use and development of land within the municipal area to which it relates in order to promote the following:

- economic growth;
- social inclusion;
- efficient land development; and
- minimal impact on public health, the environment and natural resources.

Section 25(2) of the Act establishes the basic contents of a LUS. It must include the scheme regulations setting out the procedures and conditions relating to the use and development of land in any zone;

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A LAND USE MANAGEMENT SYSTEM (LUMS) FOR THE ENTIRE KHEIS LOCAL MUNICIPALITY AREA(WALL-TO-WALL) FOR A PERIOD OF TEN (10) MONTHS.

a map indicating the zoning of the municipal area into land use zones; and a register of all amendments to such a land use scheme.

A key city / town management challenge for the municipalities are that of establishing an effective legal relationship between its SDF and the LUS, to build a strong and direct legal relationship between the forward planning reflected in the SDF and the day-to-day management of development. Currently policies are outdated, a policy vacuum exists for a number of policy arenas and forward planning is not linked to ongoing land use development control. Land use decision-making occurs therefore on an ad hoc basis and in a vacuum. There is very limited evidence that the current LUS were designed to meet any of the above objectives.

Aspects which especially warrant further attention are:

- the relationship between the LUS and the municipal plans (the SDFs) – how does the LUS, which is primarily a static instrument of control, adapt to meet the changing needs of the municipalities' as these are reflected from time to time in the five yearly SDF's;
- linking the allocation of rights to the objectives such as integrating land use and transportation, encouraging (informal) economic development; balancing the needs of flexibility with predictability; and protecting the natural and built environment;
- development of strategic sites; and
- urban renewal;
- Technology (e.g. renewable energy).

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A LAND USE MANAGEMENT SYSTEM (LUMS) FOR THE ENTIRE KHEIS LOCAL MUNICIPALITY AREA(WALL-TO-WALL) FOR A PERIOD OF TEN (10) MONTHS.

- 4.2. This project does not require any environmental impact assessments. However, NEMA will be a key informant of the LUS, while the Spatial Development Framework will also identify key environmental assets and attributes that will inform the policy and guidelines component of the project.
- 4.3. Given the land use management development challenges facing municipalities', the following are critical components of a full LUMS:
- i.) Legislation, Land Use Policy and Guidelines;
 - ii.) Integrated Zoning Scheme and Regulations;
 - iii.) Zoning Maps;
 - iv.) Assessment and Approval Procedures and Application Forms not catered for in the bylaw;
 - v.) Conditions of Approval;
 - vi.) Zoning Register;
 - vii.) Delegation of Decision-Making;
 - viii.) Development Incentives;
 - ix.) Enabling Legislation;
 - x.) Reference Manual.
- 4.4 Credible SDFs through the implementation of the comprehensive SDF and Land Use scheme guidelines developed by the DRDLR in 2017, SPLUMA and its Regulations and the Northern Cape Provincial Spatial Development Framework (NC PSDF) shall enhance the objective of the development of a municipal wide LUS. The Comprehensive SDF and LUS Guidelines, NCPSDF and SPLUMA are therefore components of these Terms of Reference and provide the necessary details thereof. Practical lessons during the implementation process should be well documented with recommendations. Adherence to Chapter 5 and 6 of SPLUMA, 2013 is very critical.

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A LAND USE MANAGEMENT SYSTEM (LUMS) FOR THE ENTIRE KHEIS LOCAL MUNICIPALITY AREA(WALL-TO-WALL) FOR A PERIOD OF TEN (10) MONTHS.

4.5. The proposed LUS together with the SDF must give effect to the development principles contained in the Spatial Planning & Land Use Management Act, 2013 including:-

- (i) Spatial Justice;
- (ii) Spatial Sustainability;
- (iii) Efficiency;
- (iv) Spatial Resilience; and
- (v) Good Administration

5. CRITICAL MILESTONES.

5.1. The following tasks are required:

Assess relevance and implication of existing legislation and proposed policies and guidelines. Once the draft policy directives are in place as derived from the municipal SDF and other strategy interventions / completed studies, the following tasks are envisaged:

	List of Activities
1	Legislation, Land Use Policy and Guidelines:
1.1	Assess relevance and implication of existing legislation, Bylaw, NCPSDF, SPLUMA 2013 policies and guidelines and draft NC SPLUM Bill 2018
1.2	Synthesis and incorporate new policy emerging from the SDF / strategies / studies / IDPs as well as the implications there-off for the Integrated Zoning Scheme and Regulations. Policy gaps should be identified and brief for these should be prepared for further work.
	Integration of relevant legislation (NEMA, ICMA, NHRA, IUDF etc.)
2	Integrated Land Use Scheme and Regulations:
2.1	Assess the existing LUMS and Regulations from a legal perspective as well as consistency with legislation / NC PSDF / SPLUMA / NC SPLUM bill 2018 and compile land use plan if a LUMS do not exist.
2.2	Complete a comprehensive land use survey / indicate land uses / list non-conforming land uses.

2.3	The policies emanating from the SDFs should guide and inform the preparation of the LUMS.
2.4	Evaluate LUMS in terms of its flexibility and pro-activeness with regard to on-going development applications and technology.
2.5	Evaluate appropriateness of the various LUMS definitions.
2.6	Generate extensive graphical illustrations and perhaps tables.
2.7	Draft Document.
3	Zoning Maps:
3.1	Assess and evaluate comparative zones for the different areas. Aspects to be addressed include reaching agreement on notation, techniques and overlays and refinement of the zoning maps.
3.2	Digitise maps, preferable in GIS and link to database e.g. SPISYS
4	Assessment and Approval Procedures and Application Forms not catered for in the Bylaw:
4.1	Evaluate and assess existing procedures impacting on LUMS in terms of their efficiency and effectiveness. Place emphasis on streamlining the required procedures, avoiding publication, shorting approvals periods and delegating decisions to the lowest possible level.
4.2	Evaluate and design application forms that eliminate duplication, easy to complete, comprehensive in terms of the approval requirements and as short as possible
4.3	Amend current land use management bylaw in order to address transgressions and non-conforming land uses.
5	Conditions of Approval:
	Establish model conditions of approval for different uses and circumstances.
6	Zoning Register:
	Assess the status quo regarding the existing Zoning Register and evaluate procedures (in terms of their appropriateness). Consider standardising procedures as well as the implementation of an effective tracking system. Compile a zoning register if not available.
7	Delegation of Decision Making:
	Identify types of applications where and when delegations are necessary, justified and appropriate in order to facilitate greater effectiveness and efficiency in the system. The delegated approvals must be in terms of clear policy environments
8	Development Incentives:
	Identify mechanisms on how to promote appropriate development and proactively facilitate development process in targeted areas. This should be in terms of the municipalities' SDFs, LED and other relevant strategies.
9	Enabling Legislation (Laws):
	Identify/formulate enabling legislation to establish the new zoning scheme; the conversion of maps and the identification of limitations for compensation where parameters are changed. (Alignment with NC SPLUM Bill 2018 and NCPSDF).
10	Reference Manual:
	Prepare advice and reference manual on how new LUMS would function. This must be user friendly with generous use of plain language as well as appropriate graphic and flow chart illustrations.

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A LAND USE MANAGEMENT SYSTEM (LUMS) FOR THE ENTIRE KHEIS LOCAL MUNICIPALITY AREA(WALL-TO-WALL) FOR A PERIOD OF TEN (10) MONTHS.

6. OUTCOMES AND DELIVERABLES.

- 6.1 The LUMS should respond to the government strategic priorities (NDP, draft NSDF, NC PGDP, NC PSDF). It shall demonstrate how job creation in the municipality is facilitated through the LUS. The end product must contribute positively towards local economic development, sustainable livelihoods in rural areas and poverty alleviation.
- 6.2 The LUS must be both a vertical and a horizontal alignment tool for municipal-wide activities, plans and policies. It must be a tool to facilitate structured implementation of programmes, and be an effective decision-making instrument.
- 6.3 The integrated LUS must identify practical, developmental orientated with roles that can be realistically be afforded to communities and other role players with regard to enforcing development control measures considering political interest and strong individual groups.
- 6.4 The LUMS is to formulate a consolidated development orientated LUS for the whole municipal area.
- 6.5 The LUS should also take cognizance of existing strategies such as Local Economic Development strategies intended to alleviate poverty as it is regarded as "second economy" as well as well established businesses which are regarded as "first economy".

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A LAND USE MANAGEMENT SYSTEM (LUMS) FOR THE ENTIRE KHEIS LOCAL MUNICIPALITY AREA(WALL-TO-WALL) FOR A PERIOD OF TEN (10) MONTHS.

- 6.6 All objectives of the project as stipulated in this Terms of Reference should be met. A document with clear deliverables is expected together with a comprehensive zoning register, and should be moulded around what is stipulated under Section 5.
- 6.7 Submissions should be in the form of both hard and electronic versions of the LUS. All zoning information collected should be submitted in GIS capable file format (shapefiles, layer files, mxd files) for use in a GIS environment. The shape-files must have clear attribute information that differentiates each LUS construct and its purpose, for example a service node shape file should have an attribute called "description" with the value "service node". The project steering committee will comment on the LUS and send them to the service provider for amendment purposes.
- 6.8. It is recommended that more visual representation (maps, graphics and photographs) form the bulk part of the LUS together with the conceptual framework section of the completed / approved SDF. A text box or other mechanisms may be used to provide an explanation, relevant information or analysis.
- 6.9. Required copies of the LUS document for consultation purposes shall be prepared by the service provider. The copies shall be distributed a week prior to the meeting taking place.
- 6.10 The service provider would be expected to submit a final consolidated report which consists of:
- LUMS document including zoning register, maps, bylaw, tables and figures in both hardcopy (printed) and softcopy (electronic as MS word document);
 - All maps contained in LUMS textual document as electronic image files (eg. JPEG, windows Bitmap, GIF, etc.);
 - All zoning information used to generate the LUMS maps in shape file (GIS Metadata) format together with correct and descriptive attribute information as to what each LUMS construct represents;

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A LAND USE MANAGEMENT SYSTEM (LUMS) FOR THE ENTIRE KHEIS LOCAL MUNICIPALITY AREA(WALL-TO-WALL) FOR A PERIOD OF TEN (10) MONTHS.

This will comprise of a list of TRP and GIS professionals, with their full contact details, as well as the Provincial and Local Government officials who had a role in providing information (spatial or otherwise) for inclusion in the LUMS to be developed; accompanied by a short CV to capture their qualifications and experience with regard to LUMS and spatial planning;
- The LUMS must clearly be aligned with the Spatial Planning and Land Use Management Act, 2013 (Act 16 of 2013) and the Provincial Spatial Development Framework.

7. PROJECT DURATION AND COST

- 7.1 It is expected that the project be completed in a period of 10 months effective from the date of appointment. The target dates for each milestone (as well as the associated deliverable) and the amount of financial compensation for the work done is scheduled under Table 2.
- 7.2 Due to the urgency of the project it is critical that timeframes are strictly adhered to. Financial penalties will be imposed for any delay or non-compliance with time and quality requirements.

8.3 It is therefore recommended that the service provider ensures that people with relevant skills are part of the project. A list of people containing, among other things, names, qualifications and experience who will be directly involved in the project must be submitted. This should clearly indicate what roles each team member will play. A company/team profile containing, among other things, names, qualifications and experience of persons who will be **directly** involved in the project must be included.

8.4 All team members that will be directly involved in the project will be expected to attend all progress report meetings as scheduled and agreed upon by both parties. The selected team members shall remain the same for the duration of the project and cannot be changed without prior discussions with and approval from DRDLR.

9. CAPACITY BUILDING AND SKILLS TRANSFER

9.1. DRDLR considers skills development as an integral part of the out sourcing process. The process should ensure that skills development and transfer is achieved within the municipality. Proposals should indicate how skills development and transfer would be achieved in the municipality / district municipality.
