THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
- (a) Any single contract with imported content exceeding US\$10 million.
or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million.
or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.
or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.
- 1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.

- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

- 2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million Rands), submit details of such a contract to the DTI for reporting purposes.

- 2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

- 3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.

- 3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- Bid / contract number.
- Description of the goods, works or services.
- Date on which the contract was accepted.
- Name, address and contact details of the government institution.
- Value of the contract.
- Imported content of the contract, if possible.

- 3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at Elias@thedti.gov.za for further details about the programme.

4 PROCESS TO SATISFY THE NIP OBLIGATION

- 4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:
- a. the contractor and the DTI will determine the NIP obligation;
 - b. the contractor and the DTI will sign the NIP obligation agreement;

- c. the contractor will submit a performance guarantee to the DTI;
- d. the contractor will submit a business concept for consideration and approval by the DTI;
- e. upon approval of the business concept by the DTI, the contractor will submit detailed business plans outlining the business concepts;
- f. the contractor will implement the business plans; and
- g. the contractor will submit bi-annual progress reports on approved plans to the DTI.

4.2 The NIP obligation agreement is between the DTI and the successful bidder (contractor) and, therefore, does not involve the purchasing institution.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A LAND REFORM MASTER PLAN.

1. INTRODUCTION

- 1.1 The Department of Rural Development and Land Reform (DRDLR) requires the services of a suitably qualified firm/s to develop a Land Reform Master Plan for a period of nine (9) months.

2. BACKGROUND

- 2.1 In 1994, the democratic government opted for a three-pronged land reform policy and programmes to redress the historical injustice of land dispossession, denial of access to land and forced removals which entailed; land restitution, land tenure reform and land redistribution. Land restitution, where the government compensated and restored land to individuals who had been forcefully removed. In addition to the above the government introduced a programme of Land redistribution which gave potential beneficiaries access to land through various programmes including LARP, PLAS etc. Land tenure reform is a system of recognizing people's right to own land and therefore control of the land. These programmes serve to recognise locally held rights and to transfer power of these rights to the land rights-holders
- 2.2 Redistribution and restitution are both important components of land reform in South Africa. Initially, land was bought through the willing buyer / willing seller approach and redistributed to potential beneficiaries. It tackles the inequitable racial distribution of land in the country by making land available for ownership by previously disadvantaged people. Although this system has worked in various countries in the world, in South Africa it has proved to be difficult to implement.

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A LAND REFORM MASTER PLAN FOR A PERIOD OF NINE (9) MONTHS

- 2.3 Twenty-four years after the transition to democracy and the commencement of land reform, there is a great deal of lived experience to reflect upon and a rich literature to draw on. There have been policies and programmes introduced at different times and levels since the democratic dispensation. There are many questions regarding the post-apartheid land reform programme in South Africa.
- 2.4 The Government of the Republic of South Africa (RSA) has developed various legislative instruments and policies to address land reform challenges but the impact is deemed to have been minimal in terms of achieving the targets set since 1994 and this calls for a change in approach and mechanisms used to identify land for land reform purposes. Future land reform policy is taking on a different trajectory that will bring about a significant policy shift. It has principles that has a link throughout RSA to the actions of all organs of state responsible for aspects of land reform and they serve as the general framework within which all land reform and post-settlement support plans will be made and implemented.
- 2.5 The main principle stipulates that the primary purpose of all programmes of land reform is to achieve equitable and secure access to land in order to meet a wide range of human needs, including agricultural production, human settlement, access to natural resources, and access to environmental services. Equally important are the spatially targeted and integrated spaces in order to deal with the historical inequalities.
- 2.6 There has been an outcry that more needs to be done regarding land distribution and restitution and the current government has intensely debated land reform and a decision has been made that land should be expropriated without compensation where necessary in order to achieve effective land reform. The mechanisms to make this viable and within the framework of the Constitution are being explored.
- 2.7 The National Development Plan (NDP) asserts that various models of land acquisition and redistribution should be considered to resolve the slow pace of land reform and that there is a need for “land reform programme that is spatially targeted in areas that are most viable in terms of agricultural land and access to markets.” It highlights the need to

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP A LAND REFORM MASTER PLAN FOR A PERIOD OF NINE (9) MONTHS

address the inequitable land distribution to achieve rural economic integration and its broader vision for 2030.

3. PROBLEM STATEMENT

- 3.1 The Native Land Act of 1913 led to the dispossession of land from black South Africans. It limited African land ownership to 'native reserves', with communal land tenure administered by traditional leaders. By 1991, these former homelands covered about 13.9% of South Africa. Other laws prevented Africans from owning land in white farming areas and prevented white farmers from leasing land to black tenants and share croppers. The crisis of inequality, unemployment, regional distortion of activity, and poverty facing the nation is largely as a result of massive and systematic land dispossession and associated loss of assets over three centuries.
- 3.2 To date only 10.2% of South Africa's 82 million hectares of agricultural land has been redistributed to Africans since 1995 through the governments land reform programme. Thus, the supply of land for farming, human settlement, economic use and other purposes is still not fully met. A Land Audit conducted by the Department of Rural Development and Land Reform (DRDLR) confirms that in 1994 about 87% of the land was owned by whites and only 13% by black people. By 2012 only 7.95 million hectares had been transferred to black owners through land reform. This represented only 7.5% of formerly white-owned land. This is a reflection of the systematic dispossession of Africans and policy and political choices taken post 1994, with the statistics revealing that land ownership in South Africa is still racial, patriarchal and quasi-feudal.
- 3.3 During the ANC 54th National Policy Conference 2017, the ruling party proposed a radical and ambitious political restructuring that needs to be thoroughly researched and explored as land reform has been moved up the political agenda in South Africa and that the NDP would continue to be the framework guiding government programmes. In light of the above status quo, it is imperative that radical land reform interventions that are developmental and transformative in nature are put in place to address the triple challenges of unemployment, inequality and poverty by tackling land and enterprise

asset inequality primarily by creating employment and income opportunities and thus levelling a multifaceted blow on poverty.

4. PURPOSE AND OBJECTIVES OF THE PROJECT

4.1 The purpose of the project is to develop a long term and sustainable Land Reform Master Plan (15-20 years) that will guide land reform to scale up land redistribution, restitution and tenure reform in an incremental manner and also address the grossly imbalanced landholding and disproportionate land ownership in the country. The Master Plan will involve but not limited to the identification, selection and unlocking the supply of suitably located, quality acceptable areas of land to redistribute and land management in support of government's current radical economic transformation agenda.

4.2 The objectives of the Master Plan are to;

- Develop principles to guide the implementation of land reform (land redistribution, restitution and tenure reform) and also post settlement support by all organs of state;
- Develop inclusive land reform programme, that focuses on rural and urban land as part of a broader land reform programme that aims to address spatial inequality within society as a whole;
- Foster effective intergovernmental relations on land reform matters
- Explore and ensure a comprehensive participatory framework of stakeholders in land reform (potential, inputs, access to markets, support to land reform beneficiaries and small-scale farmers etc.)
- This plan must be aligned to other government initiatives at national, provincial and local level.
