CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1. PURPOSE

Appointment of a service provider for the analysis and development of a strategy for clearing the commitment register for the Commission on Restitution of Land rights (CRLR) for the period of eighteen (18) months.

2. INTRODUCTION AND BACKGROUND

2.1 Land Restitution is at the centre of the South African Government's programme to redress the land injustices perpetrated through colonialism and apartheid. The Restitution programme gives an opportunity to those that suffered human rights violations, being forcefully removed from their land and homes, an opportunity not only to be restored to land, but also the restoration of their dignity.

2.2 The Commission on Restitution of Land Rights (CRLR) is the custodian of the restitution process, being one of the two institutions that was established through the Restitution of Land Rights Act, 1994 (Act no 22 of 1994).

2.3 This year marks 26 years since the introduction of the Restitution of Land Rights Act. On 1 May 1995, the CRLR opened its doors to receive land claims from victims of racially motivated land dispossession. Although significant progress has been made, the pace of the Restitution process has not been entirely desirable. Various interventions have been made to improve the pace of land claims settlement, as well as the quality of the settlements. Settlement models aligned to the Rural Economy Transformation Model are in the process of being developed and implemented to assist practitioners with negotiations and settlement frameworks.

2.4 In 2016 Government Technical Advisory Centre (GTAC) co-designed and co-facilitated the Operations Phakisa lab on Agriculture, Rural Development and Land Reform. One of the work streams of the lab focused on Land Reform and proposed an initiative on fast-tracking land restitution. Earlier in 2017, the Commission for the Restitution of Land Rights (CRLR) requested a service provider to provide technical and advisory support in the planning and delivering of a mini lab on Land Restitution. The mini lab identified issues and challenges in land restitution and bottlenecks that must be removed to accelerate processing of land restitution claims.

The mini lab identified 5 clusters of areas that require technical support, and these were:

- 1) Clearing the backlog
- 2) Improving business processes and systems
- 3) People management
- 4) Determining appropriate corporate form and
- 5) Piloting financial options.

2.5 In February 2019 the office of the Chief Land Claims Commissioner appointed a service provider to improve and accelerate processing of Land Restitution claims. The service provider signed a Service Level Agreement (SLA) with the Commission to ensure that the objectives of the project are met within a designated time.

2.6 The project team has also highlighted that the exclusion of the 'Settled but Unfinalized' scope could have significant risks on success of Project Kuyasa and ultimately the future operations of the CRLR. This is based on the concern that future settled claims continue to back up after settlement preventing full and final transfer of claims.

2.7 There has been a need identified for Finalisation Strategy to be included in the scope of work. Since the project started, it was identified that to successfully complete the backlog strategy the establishment of the baseline of the commitment register must be completed.

3. PROJECT DESCRIPTION

The projects goal is in direct support of the Commission’s mandate to:

- 3.1 To enhance the processing and finalizing of land claims in a manner that is quantitative, comprehensive and inclusive.
- 3.2 Improve the land claims process towards meeting the Government’s objective to finalize all land claims.

4. PROBLEM STATEMENT

As part of our analysis of the Lamosa judgement, the Commission identified that it must focus on the analysis and clearing of the commitment register. The age analysis of projects on the commitment register indicates that 50% of the commitment register projects show no movement.

Project Kuyasa only focused on new settlements. There is a need, after a proper analysis of the Lamosa judgement the Commission identified that to clear the commitment before the new order land claims can be processed. A detailed plan has been developed to clear the backlog under Kuyasa, however no such strategy has been developed for the backlog.

5. OBJECTIVES

To fully analyse ‘Settled but non-finalised’ claims and to develop a strategy and plan to assist the CRLR in:

- 5.1 Verifying and correcting all data as contained in the commitment register, and
- 5.2 Review of physical files in various provincial offices and the comparative with the analysis.
- 5.3 The development of a strategy to clear the commitment register.

6. PROJECT SCOPE

The following activities will be in-scope for the implementation of the project.

Outcomes/ Outputs	Brief Description	Indicator	Baseline	Target

STAGE 3: PREFERENCE POINTS AND PRICE

Bids which qualify from stage 1 will be evaluated utilising the Preferential Procurement Policy Framework Act (PPPFA, Act 5 of 2000), as amended, whereby the score of 80 points will be for price and a maximum of 20 points will be awarded for attaining the Broad-Based Economic Empowerment (B-BBEE) status level of contribution.

The following process will be used in particular as the criteria for appointment, apart from those laid down in the Preferential Procurement Regulations 2017 pertaining to the Preferential Procurement Policy Framework Act, Act 5 of 2000. Proposals will be evaluated individually, by a representative from Supply Chain Management according to the Terms of Reference.

The process for assessment will include financial (price) aspects of the proposal and B-BBEE status level of contribution making up 80/20 percent respectively.

In terms of Regulation 6 (2) of the Preferential Procurement Regulations 2017, preference points must be awarded to a bidder for attaining the B-BBEE status level of contribution in accordance with the table below:

B-BBEE Status Level of Contributor	Number of points (80/20 system)
1	20
2	18
3	14
4	12
5	8
6	6
7	4
8	2
Non-compliant contributor	0

In order to claim the B-BBEE Status Level of Contributor, bidders must submit original and valid B-BBEE Status Level Verification Certificate or certified copies thereof, issued by accredited Verification Agencies by SANAS or Registered Auditor approved by Independent Regulatory Board of Auditor (IRBA), together with their bids, to substantiate their B-BBEE claims. The Exempted Micro Enterprise must submit a letter from the Accounting Officer who is appointed in terms of Close Corporation Act.

Bidders who do not submit B-BBEE Status Level Verification Certificate or are non-compliant contributors to be B-BBEE do not qualify for preference points for B-BBEE but will not be disqualified from the bidding process. They will score points out of 80 for price only and zero (0) points out of 20 for B-BBEE.

In the evaluation of the proposals, the Commission will also be guided by the Integrated National Black Economic Empowerment Strategy, which provides a framework for economic growth with black participation as a fundamental pillar. The specific guiding principles will be transformation, employment equity, skills development, affirmative procurement and corporate social responsibility (CSI);

The RLCC is an equal opportunity, affirmative action employer. It shows the same commitment to those who wish to provide services to the Commission via the procurement process. It should be noted that preference will be given to those proposals from companies who were previously disadvantaged.

This does not preclude the formation of consortiums or the inclusion of proposals on how this project can best be used to further the broader aims of transformation.
