4. PROPOSED DEVELOPMENT

4.1 Development Objectives

According to the approved City of Cape Town's, Helderberg District Plan (SDP) (2012) the proposed location of the site falls within the urban edge of the City and is designated in an Urban Development Area.

The SDP define these areas as follows:

Urban Development Area: Buildings and infrastructure with a residential purpose as well as offices, shops, community facilities and other associated buildings, infrastructure and public open space necessary to provide for proper functioning of urban areas and amenity and recreation. The term 'urban development' includes golf estates, vineyard estates with a residential component, equestrian estates with a residential component, rural living estates, eco-estates, gated communities and regional shopping centres, Urban development excludes noxious industry and generally excludes land for industrial purposes. However, service trades that generate a low impact on surrounding urban uses may be permissible if the nature and type of service trade is deemed to form an integral part of an area demarcated for urban development purposes.

The MSDF emphasis by its spatial strategies BUILD AN INCLUSIVE, INTEGRATED, VIBRANT CITY: The City must promote integrated settlement patterns in existing and new residential areas to accommodate Cape Town's growing population and redress social and land use fragmentation. An inclusive, integrated and vibrant city requires that basic services, social facilities and public open spaces are available and

accessible to everyone. The City needs to promote equal opportunities, improve the quality of living environments, and reduce the levels of crime. Cape Town's heritage must be respected, protected and enhanced and a network of great destinations and public spaces should be established.

4.2 Proposed Development Concept

- Be subject to the approval of the rules and regulations set out in the latest Cape Town Municipal Planning Bylaw.
