1. PREAMBLE

The Department of Agriculture, Forestry and Fisheries is engaged in various initiatives in human resource development, capacity building and human capital development to address acute skills deficits in the agriculture, forestry and fisheries sectors. The provision of bursaries or study assistance for qualifying students to further their studies in one of the identified scarce and critical skills in the agriculture, forestry and fisheries sectors is one of these initiatives.

The fields of study sponsored as well as the number of bursary awards are determined annually with consideration for changing circumstances, availability of funds and the needs of the Department of Agriculture, Forestry and Fisheries.

The External Bursary Scheme policy therefore focuses on the recruitment and financing of deserving young people to obtain qualifications which are identified as critical and scarce in the agriculture, forestry and fisheries sectors.

2. PURPOSE

Where this is not possible and students are residing at private residences, on-site inspections shall be undertaken to determine the suitability of the premises for study purposes. If the premises are found to be unsuitable then students shall be urged to find more suitable premises.

12.6 Academic year-end assessments

Academic year-end results shall be collected and analysed. Recommendations shall be made to the National Bursary Committee for continued funding with or without conditions. (An example of

12.7 Continued funding

12.7.1 All departmental bursary holders shall reapply for funding annually by completing the necessary forms. Students who have met the criteria for continued funding shall be advised accordingly. Unsuccessful students shall be informed of the termination or suspension of the award and the reasons for it. This completes the cycle for the year.
